29 March 1945

Mr. James M. Nabritt, Secretary,
Howard University,
Washington, D. C.

My Dear Mr. Nabritt:

Thank you for the Bulletin which I have been receiving regularly. It means a great deal to the fellows in service. We pass it around until it is quite tattered and then Special Service takes it for still further use.

I received a bit of good news yesterday and I thought you would like to know also of a distinct honor that has come to a son of Howard. The American College of Radiology notified me that "on the basis of outstanding contributions and service to Radiology" I had been elected a Fellow of the College and the degree F. A. C. R. conferred upon me. Radiology, you know is that specialty in medicine which deals with the use of x-rays and radium in the diagnosis and treatment of disease.

Some day I hope to visit my beloved Alma Mater, in the meanwhile please continue to send me the informal, newsy and most welcome Bulletin.

Sincerely Yours,

William E. Allen, Jr.
