This Book is brought to you for free and open access by the The Hilltop Digital Archive at Digital Howard @ Howard University. It has been accepted for inclusion in The Hilltop: 1924-30 by an authorized administrator of Digital Howard @ Howard University. For more information, please contact lopez.matthews@howard.edu.
Section 1. The function of the Student Council will be to promote scholarship, to develop in the student a wide and intelligent self-government, to make and enforce such laws governing students as it deems wise and expedient; to preserve and regulate customs and traditions of the university, to supervise the following extra-curricula activities: the budget system, student journal, clubs and organizations, social functions, and to be represented on all committees dealing with other extra-curricula activities.

Sec. 2. The Council shall make recommendations directly to the Faculty, Academic Council and Board of Trustees, through its representatives, relative to extra-curricula activities, curriculum, appointment and dismissal of professors, formulation of the Student Member-Registration procedure or any other condition in which students may be involved.

Sec. 3. In all matters of discipline where students and faculty are involved, the Student Council shall act jointly with the administrative officers and the administrative officers and the trustees, as the case may warrant.

In all other cases the action of the Student Council shall be final; it being provided that if the Academic Council is dissatisfied with the action of the Student Council that the case shall then be handled by a joint and equally represented committee composed of Student Council and Academic Council members; it also being provided that the student shall have the privilege of appealing from the decision of the Student Council to that of the Academic Council. But in no case shall a student be dismissed from the University without a trial before the Student Council or before a joint committee of Faculty members and Student Council members unless the student desires no trial.

Article III—Membership

Section 1. This Council shall be composed of a president and sixteen (16) members chosen as follows: two members each from the Freshman and Sophomore classes of the Junior College; two members each from the Senior class of the Academic Senior Schools, including the Schools of Liberal Arts, Education, Commerce and Finance, Applied Science, Journalism and Music; two members at large from the Freshman and Junior classes; two from the Junior class; and one from the Sophomore class.

Section 2. This Council shall be elected by the members of the Freshman class at a meeting called by the existing Freshman class president at a time not less than one week before the presidential election, and such other restrictions are obligatory, provided a quorum is present.

Section 3. The president shall be designated by the existing Freshman class president as soon as practicable by the group meeting at the time designated by the existing Freshman class president.

Section 4. Regular meetings every week at regular hours shall be held at the University, beginning the first day of registration:

The movement was born and cradled by a group of students at the University of Wisconsin, Madison, the nucleus at Howard co-operating with the University of Wisconsin, Madison, the nucleus at Howard co-operating with the famous New Jersey resort, this movement sprang at the Inter-collegiate Society "The American Federation of Negro Students."
News Digest

Fights Harlem Discrimination

To the Editor:

I write to express my strong opposition to the recent actions of the federal government regarding housing discrimination in Harlem. The persistent denial of equal housing opportunities to African Americans is a violation of their human rights. It is time for decisive action to ensure that every individual has access to safe and affordable housing.

Sincerely,

[Signature]

Dean Seaton Reports on Conference of Women Students

On the Friday, March 7th, at the usual chapel hour, Dean Seaton reported on his recent visit to the Conference of Woman Students that met in Chicago during the week of February 24th.

During his discussion of matters, which had largely taken place in Illinois Women's Alliance, the Dean reported on the proceedings of the conference of Women of Evanston that met in Chicago during the week of February 24th.

The members of the conference were members of the various schools represented. Accordingly, to the president of the conference, the women students of Evanston were represented, and the last day of the conference was devoted to the important question of the organization of women's work in the various schools.

Dean Seaton reported that the conference had decided to establish an organization of women's work for the purpose of bringing together the various women's organizations in the various schools. This organization would be known as the Women's Alliance of Evanston.

The conference decided that the Women's Alliance of Evanston should be formed on a non-political basis, and that it should be open to all women who were interested in the work of women's organizations. The organization was to be governed by a council, which was to be elected by the women students of Evanston.

The conference also decided to hold a meeting of the council of the Women's Alliance of Evanston on the first Monday of each month, at which time the council would meet to discuss the work of the organization.

The conference was adjourned with the assurance that it would meet again in Chicago on May 12th.

Wilkinson Speaks at the Surrounding World

Each Tuesday, March 5th, at 8 o'clock, Dr. C. H. Wilkinson, superintendent of public schools in Evanston, addressed a large number of pupils of the Surrounding World on their regular Saturday morning meeting.

After being introduced by Professor Holmes, Dr. Wilkinson began his speech by stating that it was a matter of great importance to give the pupils in the District of Columbia, first, "We must start with the spherical side of the child's life. It is the child's knowledge and understanding that are so important to the development of the individual,..."

He then spoke about the need for wholehearted cooperation on the part of all the pupils to succeed in their work.

The students took inventory of what and why they had accomplished and what they should do to improve their work. They were urged to devote their energies to developing the creative and constructive qualities of their minds.

Seventeenth Annual Banquet of the Alumni of Howard University--in the Office of the "Hill Top".

Alumni Give First Rousing Reception to Graduates

Monday, March 7, 1921, following Charter Day exercises, the West alumni assembled at the Student Union Room of the Howard University, under the presidency of J. W. Allie. The reception was held with a special program.

The reception and banquet was attended as a mark of the strong staff work of Emmett Smith, Alumni Secretary, E. W. Hinds, Jr., W. C. Moore, Mrs. Olden and Miss Velva Quddore, and several others who made up part of the staff on arrangements and several alumni who worked to entertain a table of alumni.

The reception was presided over by Mr. J. Donaldson, president of the Howard Alumni Association, E. W. Hinds, Jr., W. C. Moore, Mrs. Olden and Miss Velva Quddore, and several others who made up part of the staff on arrangements and several alumni who worked to entertain a table of alumni.

Many inspiring and interesting words were given by the following persons: President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address, President J. S. Durkee, welcome address.
How Negro May Become Great

Egypt, Media, Greece and Rome became great as they produced and more literature and art. The utterances of the people in all ages and all lands are the material and stand of the literature and art they have produced. There is not a people in the world that has given to the world masterpieces of literature and art who has not been looked upon by the world as truly inferior.

The Negro in America must change the mental attitude of the white man by demonstrating to the so-called Caucasian that we are able to give to the world master paintings, dramas, novels, poems and sculpturing.

Is there any reason for the youth not coming to his own? The words of James W. Johnson are true: "The Negro has the emotional endowment, the originality, and artistic conception, and, what is more important, the power of creating that which has universal appeal and influence.

In fact, the Negro has already expressed his artistic talents by being the receiver of the only things coming from America and recognized by the world as his own products of art. Certainly, the Uncle Remus stories, "spirituals," or slave songs, cakewalk and ragtime are truly Negro productions.

In spite of these beginnings, we need a Shakespeare, a Raphael, Tenneyson, Tolstol and a Hawthorne. More of us should turn our hands to the creation of producing great literature and art.

Have We A Test for Student Government?

When the student of chemistry performs his various experiments in the laboratory, he is instructed by both textbooks and teacher that the experiment must be thoroughly done before conclusions are drawn and results recorded to the utmost. The same principle holds with experiments other than those involving the use of chemicals.

In the rapidly advancing cycle of student activity, one of the things emphasized is student government.

The huguenot of fear that youth, when left to itself, will dissipate, has been the most serious barrier to the success of Student Government on this campus. Because of this fear all of the suggestions which have not been in experiment, lest there be an exploitation sufficiently great to blow off the surface of over-experimentation, in a number of cases the results have been checked up as unsatisfactory, and the conclusions drawn that the time is not ripe for that students are not quite ready for the experiment.

Student government, in the first place, puts upon the shoulders of the students an immense responsibility, which responsibility should only be met by a sufficient outfit to perform the tasks involved. If it is, therefore, the opinion of the writer that an elected student government is worth checking up as unless the responsibility connected with it is possessed by a profit of equal magnitude; and that experiment with student government which fails with the student subdivision is not worth trying.

Howard Rechartered

Change Day for Howard University is still a probability more now than in 1932 when it was forecast that our day would be free from drudgery. The Alumni-Senior reunion on the Howard campus this year has a fair-sized sold out apathy to the lot. The prize card-wearers in that occasion and the opportunity for exercising the patience of the student's mental muscles extra auxiliary elements to the success of the event. The fact that the Alumni-student to bring together the heritage of the officer, a bond that should enhance the balance of the through the balance of the balance of the balance of the atmosphere.

Mr. Frederic H. Robb, the Howard University Professor of Government, in his address, to the Howard students, should appeal to the霍林 students to come forth with the questioning expressions of the stifled emotions of their hearts, and to take up the burden of their fate. We had already pictured the anxious faces of the students should appeal to the Howard students to come forth with the questioning expressions of the stifled emotions of their hearts, and to take up the burden of their fate. We had already pictured the anxious faces of the students in the event of the implementation of the Negro program. They should come forth with the questioning expressions of the stifled emotions of their hearts, and to take up the burden of their fate. We had already pictured the anxious faces of the students in the event of the implementation of the Negro program.

Our expectations for such a sight have not yet been realized. The tickets were to be drawn one day at the dinner hour, but were not. Another day was not to be the hour of the Howard dining department decided that the project was from the very outset a colossal mistake.

Students Stand by "Kelly"

It is a serious question whether sudden lack of confidence in men of proved reputation and tried service is not merely an indentation of the inditement of the inditement.

We cannot afford to a group in depreciate by hasty judgment the sense of confidence and loyalty which all well-developed and progressive groups regard as the very foundation of their social life. In the face of the fact that the Howard world this principle is even more fundamental than in politics or in business, for there we have the additional practice of the exemplary and the leader in this field of thought, this group demands for us in the past and the present. Heretofore, it has been assumed that the intercollegiate magazine; a write

A Gambling Game Stripped of Its Popularity

How the Howard University appropria-tion is the only ability to promote the advancement of the black race.

Howard men with superior opportunities, should think on things and prepare to come forth with the questioning expressions of the stifled emotions of their hearts, and to take up the burden of their fate. We had already pictured the anxious faces of the students in the event of the implementation of the Negro program. They should come forth with the questioning expressions of the stifled emotions of their hearts, and to take up the burden of their fate. We had already pictured the anxious faces of the students in the event of the implementation of the Negro program.

ister of the laboratory. In a number of cases, the results have been checked up as unsatisfactory, and the conclusion drawn that the time is not ripe for the experiment.
Who's Who?

Section 7. Several members shall constitute a quorum to transact business at a regular meeting of the body.

Article 3. Power and Duties of Council

Section 1. The Council shall under the supervision of the Academic Council have power to regulate and supervise all work done as provided by this constitution, shall have complete charge of all student self government which require initiated action, and the decision of the Council shall be final and consistent with the Academic Council shall be regarded as binding upon the students.

Re-laws

1. The elections shall be by secret ballot. The President of the Council shall superintend the election in details and rules, and a candidate shall be entitled to vote by irregularities.

2. The meetings of the Council shall be private, but not in secret. All business shall be officially constituted by the Committee on Press Notices.

3. Three consecutive unexcused absences on the part of any member renders meetings of the Council shall automatic dissolution of his membership in the Council.

4. Any member whose conduct is unsatisfactory, as determined by the President, or by the body as a whole, shall be subject to action by the Council, and to dismissal of the facts justify it.

5. Robert's Rules of Order shall be the authority on parliamentary usage in the Council.

6. Any candidate whose conduct is unsatisfactory, as determined by the Presidents of the election of members, shall be held under the supervision of the Dean of Men.

The Students' Take Inventory

Continued from page 2, column 1

Student government and the law of system were severely dealt with. In a majority of colleges represented the Student Self Government Associations were felt to have no vital purpose or link. Published alumni seemed to be their chief object. A few colleges agreed that where there was any activity in the part of student government in addition to its usual function of putting things up, the activities of other organizations. Christian Associations likewise came in far worse concern on the ground that they do not fulfill their obligations. It was charged that they overlap the activities of social organizations. In such cases there was a decided reaction to those foreseen to benefit most of their time in financing these activities.

As to fraternities and secret societies, it was the general belief that they do not on the whole justify their existence in our colleges, and that their social and moral depression, and a growing number of them is one of the factors of our colleges.

Howard Makes Gain at Northwestern University

As a result of the splendid work done by the President of Howard University, the rank of the school had never been brought to the attention of the Executive Committee at Northwestern. Then the kindred of Dean Woodard, the necessary information was supplied, and the result of R. E. Dyett's booklet is now being forthcoming as result of his excellent work.

Northwestern University is now one of the largest schools in Middle West.

Mr. E. Dyett, the first student from Howard to graduate at Northwestern, the rank of the school had never been brought to the attention of the Executive Committee at Northwestern. Then the kindred of Dean Woodard, the necessary information was supplied, and the result of R. E. Dyett's booklet is now being brought to the attention of the Executive Committee at Northwestern. The kindness of Dean Woodard and the necessary information was supplied, and the result of R. E. Dyett's booklet is now being forthcoming as result of his excellent work.

Clubs and Classes

Continued from page 1, column 1.

New Constitution of Student Government

Section 1. This constitution and the by-laws accompanying it shall be incorpo-
ated with the preceding laws of the student government.

Section 2. The constitution shall be open to the class of 1924-25, and the original copy, when not in use by the Council, shall be filed with the archives of the Secretary, to be kept on record. The student government shall be in force until the end of the scholastic year 1924-25, and then the provisions of this constitution shall be applied.

Section 3. This constitution shall be reviewed by the student government, and the results of the review shall be reported to the governing body.

Section 4. The constitution shall be revised and approved by a student representative, as provided by this constitution, shall organize the student government, and the provisions of the constitution shall be reviewed by the governing body.

Section 5. The constitution shall be open to the class of 1924-25, and the original copy, when not in use by the Council, shall be filed with the archives of the Secretary, to be kept on record.

Section 6. The constitution shall be reviewed by the student government, and the results of the review shall be reported to the governing body.

Section 7. The constitution shall be open to the class of 1924-25, and the original copy, when not in use by the Council, shall be filed with the archives of the Secretary, to be kept on record.

Section 8. The constitution shall be reviewed by the student government, and the results of the review shall be reported to the governing body.

Higher Mathematics in Africa

On the March 26th, the Mathematical Society was given a rare treat by Professor H. B. H. A. He lectured on "The History of Mathematics in Africa." He traced the development of mathematics in Africa from the early days of the ancient Egyptians to the modern period. He discussed the contributions of early African mathematicians, such as the Babylonians and the Greeks, and showed how their ideas were later transmitted to the West.

Miss Annis was such a great success that the audience demanded more lectures by the same lecturer. She was congratulated by the members of the society for her excellent presentation.

Social and Personal

The name "Alice" is still among the favorites. Mayne Chance will express his appreciation at the next meeting.

Mr. T. B. Johnson is coming to town to make a speaking engagement. He will stay at the T. B. Hotel.

Miss N. S. Taylor will give a recital in the town hall on the 30th of June.

It is true that Susan Davis has sold out her store to a new owner.

Miss M. E. Smith has been appointed as the new librarian at the town library.

Miss S. M. Davis has been appointed as the new librarian at the town library.

Some strange combinations of people appeared in the town. Alice and Bob were seen walking hand in hand.

Mr. T. B. Johnson was seen walking hand in hand with Miss N. S. Taylor.

Miss N. S. Taylor has been appointed as the new librarian at the town library.

Miss S. M. Davis has been appointed as the new librarian at the town library.

Miss E. B. Johnson has been appointed as the new librarian at the town library.

Phi Beta Sigma Sets Precedent at Howard

Alpha Chapter of Phi Beta Sigma Feb. 15th set a social precedent at Howard University Dining Hall. The University boys highly favored the idea and offered further to advance the pills.

The idea of giving fraternity affairs under the fact that such organizations were done by the boys about the same as the last past restorers there. Therefore, in order to maintain this bond of affection, the Beta Brothers gathered beneath the roof of the beneficiating dining hall and dressed to the portion of Smith's Imperial Band until nearly thirty a.m.

The scheme of the decorations was that of a Venetian gardens. Fins, palms, various kinds of green plants, blue and white crepe paper (the President's colors), and numerous banners and pennants were so arranged as to bring out the desired effect. The decorations made an enormous spot of brilliancy, and numerous banners and pennants were followed.

Furthmore, Howard University, now second only to Johns Hopkins and Boston, developed its activities in the last five months. Our Honorary Presidents present were Doctors T. W. Turner, and Ed- ward P. Daniel, of Charles E. Chatman, T. Montgomery Gregory, and G. Smith Washington, who paid his respects to a veteran Sigma man.

The honor guests included Dr. E. L. Jasper, of the Howard University, also joined us in our hour of festivity set a social precedent at Howard University on Friday evening, February 15th, by destroying the idea that no campus can be built on the grounds.

The honored guests included Dr. E. L. Jasper, of the Howard University.

Howard Easily Defeats Lincoln

Johnny Burr's juvenile trilbies, after arriving Morgan College last Saturday, February 15th, entertained the Lincoln band with a world's grand reception. Miss Mary Branson, Office Manager of February 15th, entertained the Lincoln band with a world's grand reception.

The honor guests included Dr. E. L. Jasper, of the Howard University.
