LITERARY COURSE.

This course commences at the same point as the Classical Preparatory, and extends over five years, embracing all the studies of the regular Preparatory and College Courses, except the Greek of the former, and the Latin and Greek of the latter. Students pursuing this course are counted in the Preparatory Department during the first two, and in the College Department during the last three years of the course.

Medical Department.

SESSION OF 1878-79.

The Annual Session of the school commences the first of October and continues twenty weeks. This Department commands all the means and advantages in use at the present day for giving a complete and thorough course of medical instruction. The lectures of this department have been made FREE. Students are only required to pay the matriculation, graduation and incidental fees.

CLINICAL INSTRUCTION.

Arrangements have been made for the admission of the students of medicine, under proper restrictions, to the Freedmen's General Hospital and Asylum, situated within the grounds of the Institution, for the purpose of studying diseases at the bedside. Surgical, medical, and obstetrical cases will be seen by the class, under the supervision of the professors, and operations will be performed in their presence in the amphitheatre. Clinical instructions occur twice a week.

HOSPITAL FACILITIES AND RESIDENT STUDENTS.

The hospital contains several hundred patients, and presents unusual facilities for the study of practical medicine and surgery. Resident students are selected every quarter from the graduating class to serve in the wards of the hospital. They will write prescriptions, under the directions of the Professors, and keep histories of all the interesting cases, and assist at elinics.

REQUIREMENTS FOR MATRICULATION.

1, The applicant must furnish evidence of good moral character.

2. He must possess a thorough English education, and a sufficient acquaintance with the Latin language to understand and write prescriptions, and to understand medical terms in common use.

REQUIREMENTS FOR GRADUATION.

1. The candidate must furnish evidence to the Dean of having studied medicine three years, under the supervision of a regular practitioner of medicine, during which time he must have attended two full courses of lectures at some regular medical college, the last of which must have been in this Institution.

2. He must have dissected, at least two terms, and attended the elinical lectures.

3. He must present the Faculty an acceptable thesis, original and in his own handwriting, upon some medical subject.

4. He must be twenty-one years of age, and pass a satisfactory examination in all branches of the course.

LAW DEPARTMENT.

ADMISSION.

Applicants for admission are required to be well grounded in the common English branches, in rhetoric, and in elementary natural science, and will be required, unless graduates of some college, to pass a satisfactory examination in algebra, geometry, Latin, logic, and mental science. The Latin required will be not less than three books of Cæsar's Commentaries, four orations of Cicero, and the Germania of Tacitus, or an equivalent. With less mental discipline than this amount of preliminary study implies, it is the judgment of the Faculty that students will fail, in our two years' course, to master the principles of law or become adequately furnished for the work of the profession.

The department is open to all who possess the requisite qualifica-

tions. Before attending upon the exercises the students must apply to the Secretary of the Board for tickets of admission, and make satisfactory arrangements with the Treasurer for the payment of all dues to the University.

COURSE OF STUDY.

The following text-books, from some of which only special chapters are selected for study and recitation, are used:

FIRST YEAR.—Walker's Introduction to American Law; Blackstone's and Kent's Commentaries.

SECOND YEAR.—Greenleaf on Evidence; Hilliard on Torts; Washburn on Real Property; Parsons on Bills and Notes; Stephen on Pleading; Adams on Equity, and Bishop on Criminal Law.

EXERCISES.

The exercises consist mainly of recitations from text books, which the students procure for themselves, and are held in the main University building, at hours convenient for those who are engaged in clerical and other pursuits. It is hoped that lectures may be given, so far as they can be usefully introduced; but they are not regarded as in any respect a substitute for careful study on the part of the student. Forensic exercises, including debates and essays on legal subjects, and moot courts, are held under the supervision of members of the Faculty.

SPECIAL ADVANTAGES.

Washington furnishes some special advantages for law students, among which may be named the opportunity of attending upon sessions of Congress, and of the Supreme Court of the United States, and of the Courts of the District of Columbia, and free access to large general and law libraries.

GRADUATION AND DEGREES.

All students of good character, who pursue the course of study preseribed in the department, attending regularly upon the exercises, and comply with the regulations of the University otherwise, and the requirements of the Faculty, upon passing a satisfactory examination, will receive the degree of Bachelor of Laws, and may, on motion, be admitted to the bar of the Supreme Court of the District of Columbia; and this, by courtesy, secures admission to the bar in most of the States

No degree, however, can be conferred until all books are returned to the library and all dues to the University discharged.

Theological Department.

This is under the joint supervision and aid of the Presbytery of Washington, and of the American Missionary Association, New York City, and its Professors are of four religious denominations.

ADMISSION.

This department is open to students of every Christian denomination. Every applicant for admission must present testimonials of Christian character, and evidence of such preparation as will enable him to profit by the studies of the department.

COURSE OF INSTRUCTION.

The peculiarity of the circumstances of many of the young men who are preparing for the gospel ministry in several of the religious denominations—especially among the colored people—as regards their age, their previous degree of education, the qualifications required of them in their work, and the limited time they can spend in study, makes it impossible to pursue, with them, the usual routine of a theological seminary. While the full regular course is given to all who are qualified for it, others are dealt with according to the necessities of each case; and, in addition to their theological studies, are taught gratuitously, in the lower departments, according to their ascertained deficiencies and the time they can spend upon their education. They receive, at the close, only such a certificate as their acquirements shall justify.
