## SPECIAL STATEMENT.

ADMISSION.—The Institution offers its full advantages without regard to creed, race or sex, but is not intended for beginners. Applicants are often rejected, in all the Departments, because they have not pursued the studies previously necessary. The requirements are higher than in most Southern institutions.

RELIGIOUS EXERCISES.—There is a prayer-meeting on Thursday evening, conducted by the officers of the Institution, and another on Saturday evening, conducted by students. A Bible class and a preaching service are held on the Lord's Day, and there is a daily religious exercise in the Chapel.

LITERARY SOCIETIES, LIBRARY, CABINETS, ETC.—Literary Societies are formed in each of the Departments for improvement in elocution, extemporaneous speaking, written discussions and literary culture. The general library numbers about 12,000 volumes. There is a mineral cabinet and museum.

AID TO STUDENTS.—Aid is given to worthy students, who need it, so far as contributions made for the purpose will allow.

UNIVERSITY SITE AND BUILDINGS.—The institution occupies an elevated and beautiful site on the northern edge of the city of Washington, on a campus of twenty acres. The University edifice, four stories in height, contains recitation and lecture rooms, chapel, library, philosophical rooms, museum and offices. The Medical Building is on the south of the Park. *Miner Hall* is set apart for lady students. *Industrial Hall* is devoted to instruction in Carpentry, Iron, and Tinwork, Printing and Shoemaking. *Clark Hall* is for young men, and will accommodate two hundred students.

EXPENSES.—No tuition is charged in the Theological, Normal, Preparatory, and College Departments. Room rent is \$5 per term, or \$15 per year. Board is \$8 per month. *All bills must be paid in advance.* Washing costs \$1 to \$2 per month. Rooms are furnished with bedstead, mattress, chairs, table, book case, and stove; *all other furniture, such as crockery, towels, sheets, blankets,*

*pillows, pillow-cases, and lamps, must be supplied by students. This must not be forgotten.*

INDUSTRIAL INSTRUCTION.—Students in the Normal and Preparatory Departments are required to attend, at specified hours, on instruction in the use of tools in certain trades, and those in the other Departments are permitted to attend for the same purpose. The branches taught at present, under the Superintendent, are Carpentry, by James H. Hill; Tin and Iron work, by a temporary instructor; Shoemaking, by Sterling Hester; Printing, by Arthur St. A. Smith; and Sewing and Cooking, by Miss Louise Jacobs.

## ANNUAL STATEMENT.

The students, whose names appear in this year's catalogue, are from the following States, Territories and foreign lands: Alabama, Arkansas, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Russia, and the West Indies. The number, 385, is slightly in excess of last year, and would have risen to 400, at least, had not the lowest class (Class C) in the Normal Department been dis-

continued, and all the applicants refused, in pursuit of the policy of steadily raising the terms of admission and the grade of instruction in the Institution. Our object is not to teach branches pursued in ordinary schools, but to supply to advanced students the higher education.

The leading event of the year is the opening, on a small scale, adjusted to our very scanty means, of an Industrial Department, which had long been contemplated, but was beyond our reach, till certain special contributions, principally from the denomination of Friends, enabled us to make a temporary provision. The branches of industry taught are Carpentry, Tin and Sheet Iron work, Printing, Shoemaking, Sewing and Cooking. These will be continued, and others added, if the means can be obtained to provide tools, machinery and instructors. A permanent endowment is much needed for this Department, the utility and importance of which is universally admitted. Multitudes of visitors have admired and commended the beginning which we have made. An occasional paper, called "*The Howard University Reporter*," has been issued from it. All the Departments are doing satisfactory work, corresponding to the names they bear, and to the branches taught in similar departments in northern Universities; it being the aim of the various Faculties to maintain the true professional standard, and not to mock students or the public with nominal courses and deceptive literary degrees. Through the kind aid of Congress, in a special appropriation, a steam engine, tanks and pipes have been provided, this year, to increase the water supply for daily use, and for protection against fire. A fire escape has been added to Clark Hall. An unknown benefactor has given, through Gen. O. O. Howard, ten thousand dollars, in aid of the Law Department, and five thousand dollars have been received from the estate of the late Wm. E. Dodge, of New York city, the income of which is to assist needy students for the gospel ministry. The Stone Theological endowment has been increased during the year to nearly thirty-five thousand dollars, principally by friends in New England. It needs to be raised to forty thousand dollars fully to comply with the conditions of bestowal.

Encouraged by the success of the past, those charged with conducting the Institution would commend it afresh to the continued assistance of the Government, and to the much needed aid of private benefactors.
