INDUSTRIAL DEPARTMENT.

This occupies an entire building, 40 x 75 feet, of two stories and basement. Here the students in the Preparatory and Normal Departments practice in the methods of certain trades at specified hours. The work in each department is done under the personal direction of a skilled workman, and with the advantage of first-class tools. The value of industrial instruction as an educational factor is now universally recognized. It trains the eye, the hand, and the mind, and opens the way to earn needed money.

The *Carpenter Shop* has been newly equipped throughout, during the past year, and now has benches and tools for a class of twenty at a time. Each bench is provided with a set of carpenters' tools, which are used by the student assigned to that bench. Extra tools for special uses are kept in reserve. The work includes instruction in the care and sharpening of tools, laying out work with knife and pencil, the use of squares, gauges, hammers, saws, planes, chisels, and other tools.

The *Printing Office* has a new outfit of newspaper and job type, and printers' tools. The Gordon press, recently supplied by the liberality of Messrs. R. Hoe & Co., New York, adds much to the capacity of this department. Practice embraces instruction in type-setting, distributing, composition, proof-reading, press-work, etc.

The *Tin Shop*, largely through the generosity of Messrs. Peck, Stow & Wilcox, Southington, Conn., has been newly supplied with a set of machines and tools for Tin and Sheet-Iron work. The outfit consists of a tin-folder, sheet-iron folder, stovepipe former, gutter beader, setting-down machine, turning machine, burr machines, stakes, shears, groovers, etc., and the course of instruction embraces the use of these.

The Sewing Class is taught plain sewing, both by hand and with machine, also dress cutting and fitting.

The Cooking Class receives instruction in kitchen work and plain cooking.

The *Tailor* and *Shoe Shops* are open on Saturdays for such students as wish instruction in these trades.

Special Statement.

UNIVERSITY SITE AND BUILDINGS.—The institution occupies an elevated and beautiful site at the northern edge of the city of Washington, on a twenty-acre campus, fronting a Park of ten acres, and having the Reservoir Lake immediately adjacent on the east. The University edifice, four stories in height, contains recitation and lecture rooms, chapel, library, and laboratory rooms, museum and offices. The Medical Building is on the south of the Park, and the Law Building is on the west side of Judiciary Square. Miner Hall, presided over by the Matron and Preceptress, is set apart for young lady students, and Clark Hall is for young men. Industrial Hall is devoted to instruction in various trades.

OUTSIDE ADVANTAGES.—In addition to scientific collections for hand-use and minute inspection by students, at the institution, there is access to the immense collections of the National Museum and the Smithsonian Institution, and also to the vast Congressional Library, the Departments and the sessions of Congress, and of the Supreme Court.

ADMISSION.—The institution offers its advantages without regard to creed, race or sex, *but is not intended for beginners*. Applicants are rejected in all the departments, because they have not pursued the studies previously necessary. The requirements are higher than in most Southern institutions.

/ EXPENSES.—No tuition is charged in the Theological, Normal, Preparatory and College Departments. Room rent is \$15 per year, payable, \$8 at the beginning of the autumnal term, and \$7 at the beginning of the winter term. Room rent is not refunded, if a student gives up his room after occupying it. Board is \$8 per month. All who room in Clark Hall must board at Miner Hall dining room, unless excused by the President. No student is allowed to board himself in his room. All bills must be paid in advance. Washing costs \$1 to \$2 per month. Rooms are furnished with bedstead, mattress, chairs, table, book-case and stove; all other furniture, such as crockery, towels, sheets, blankets, pillows, pillow-cases, and lamps must be supplied by students, who must also buy their own fuel. This must not be forgotten.

RELIGIOUS EXERCISES.—A bible class and a preaching service are held on the Lord's Day, and there is a daily religious exercise in the Chapel. There is a prayer-meeting on Wednesday, P. M., conducted by the officers of the institution, and another on Saturday evening, conducted by students.

LITERARY SOCIETIES, LIBRARY, CABINETS, &C.—Literary Societies are formed in each of the departments, for improvement in elocution, extamporaneous speaking, written discussions and literary culture. The library numbers over 13,000 volumes. There is a mineral cabinet and museum.

AID TO STUDENTS.—Aid is given to worthy students who need it, so far as funds allow, if they have reached the Normal or Preparatory Junior class.

MONTHLY LECTURE.—On the first Thursday of every month a public lecture is given to the assembled students by one of the Professors, or by an invited lecturer of ability, on varied topics of literary or practical interest. Gentlemen of distinction frequently contribute their services.

CO-OPERATIVE DIVINITY SCHOOL.

At the semi-annual meeting of the Trustees, held in January last, a communication was received from a committee of the Protestant Episcopal Church, which has in charge its work among the colored population, proposing a friendly co-operative alliance between their Divinity School, about to be established for the training of a colored Episcopal ministry, and Howard University. The idea was, that their students might enjoy the privileges of Howard University, in the Preparatory and Collegiate stages, prior to entering the Divinity School. Mutual advantages can also be afforded in the way of libraries, lectures, etc., to the professors and students of both institutions. The Trustees responded favorably, offering also to extend similar privileges to contiguous Divinity Schools which might be established by other religious denominations. Practical steps have already been taken to carry out this plan, the Episcopal Missionary Society having purchased for their Divinity Hall the large and handsome brick house of Robert Proctor, Esq., on Sixth street, directly opposite the University campus. This will in nowise interfere with the regular Theological Department of the University, which is supported by the American Missionary Association of the Congregational Churches, and is open to students of all denominations of Christians.
