## THE Y. M. C. A.

---

Owing to the zealous Christian spirit and deep interest manifested in the Y. M. C. A. of the University by the teachers and students the association has been growing very rapidly for the last two years. This year particularly has been a fruitful one for the association, for much good work has been done. The association began the year by giving its usual reception at the opening of the fall term. During the year the association has been frequently addressed by some of the ablest thinkers and most earnest Christian workers of Washington. Much stress has been laid upon the study of the Bible. Two sections have been studying "The Men of the Old Testament," and two "The Life and Works of Jesus." The Missionary Committee has been active and effective both in the University and in the city. Other committees have been at work. Three-fourths of the members of the association have been supplied with employment through the Information Bureau. Sunday morning prayer meetings have been established and a reading room has been opened in the Y. M. C. A. rooms of Clark Hall. The strides of advance made by the association this year have been long; let us hope that the strides of next year will be even longer.

---

The pros and cons of subjects have been hot in the Eureka this year. Much important business has been disposed of and many good programs have been rendered. The society has material ready to pull off a debate with some nearby high school or academy. Consent from faculty is only lacking.
