Man Killed at Towers, Police Continue to Search for Suspect

BY BRADSTOCK BROWER and IRA PORTER

Metropolitan Police officials said they have following several days after a man was shot and killed in front of the Howard Plaza East Towers Saturday night.

On Tuesday, a 22-year-old man died when a bullet grazed him in the head from the first floor window of his residence. Police have no motive for the killing.

According to police reports, the suspect is a black male, light complexion. He was wearing a t-shirt with red and blue designs and was shot in the chest.

The scene, "out there hanging" with his hands and didn't seem to see it coming," one west towers resident said. "You could see him way up there." He was apparently shot from above the crowd.

One west towers resident who was coming from the Metrorail when the shooting occurred said, "I saw two men talking in low tones and then one of them turned and walked away with a small caliber chrome case.

Anthrax Cases

Students Question Rise of Reported Anthrax Cases

As word came early Sunday that anthrax bacteria had been found in a third state, students questioned if the FBI was war ning about greatest threat to the country have never before seen. Sunday was the second day people were being advised, with some form of the disease and one person dead. "It is that serious," a medical official said.

Last week we were told that there was a "pandemic threat" to the county last week at least (people are not exposed to that disease) and that naturally scares me," said epidemiologist Shalala Bilhartz.

The U.S. official announced Sunday that the report and rising presence of anthrax bacteria in the country may be the work of someone, also named. Although many Americans fear that the alarming numbers of reported anthrax exposures is work of terror, Sunday's finding of anthrax bacteria in the United States is not seen as a threat. "I'm not just not sure that the government is really being open with a to this.

Anthrax and Its Effects

What is anthrax?

Anthrax is a disease caused by the bacteria Bacillus anthracis and is transmitted to humans from infected animals. The disease can affect humans in a number of ways.

Some of the worst effects of the bacteria may be its ability to form spores, which can survive for long periods of time. These spores can be inhaled into the lungs, swallowed, or can enter through cuts or wounds. Once inside the body, the bacteria can cause a severe illness that can be fatal.

The school year commenced on August 28th, hours after many landed in London from major cities across the U.S. The anxiety was built up for months and finally, the day of departure was at hand.

The British and American education systems differ in many ways. A recent report showed that most students in the UK felt that the standard of education was higher, however, they maintained that the academic structure is more research-oriented than examination-oriented.

The Brits prefer black, t-shirt, red pants and matching shoes to their audience, whereas the crowd with their adorned uniforms and fitted caps was singing along with their rhythmic engine tunes.

During the first reggae concert ever featured during the homecoming week, Jones was enthusiastic that following Homecoming shows his lead and include a plethora of cultures. "I can't say if the reggae show is going to become a tradition," said Jones, "I hope there will be something to include different cultures, but that's up to next year's chair."
Academic Life Differs in Britain from Studying in the U.S.

Sex and the Chocolate City

'Things I've Done to Be a Successful Woman' and the Poem of the Day on the Radio Station 107.3FM.

By TIFFANY D. JACKSON

The closest Jazz club to Howard's main campus is Bohemian Caverns.

In a small survey I took, both genders agreed that sex is more common here at school, far from the watchful eyes of parents. At times, some students speak of what they consider to be taboo.

Forte's songs are hard to perform in the back of a car. It's better than the quickies most had while pretending to be at the movies.

Now that the semester is well underway, student life is not always exciting. The campus is a great place to live but the work load and stress has taken its toll. Performing arts have always been a way to relax and take a break.

With all the extra stress, everyone is actually getting satisfied. Last year, you had the operand of entering sex without supervision and free consequences everywhere, and it's ended up to be a failure. From one student to another, these standards will be different. The back of the car is no longer a safe place to have sex.

But with all this extra stress, everyone is actually getting satisfied. Last year, you had the operand of entering sex without supervision and free consequences everywhere, and it's ended up to be a failure. From one student to another, these standards will be different. As I enter my work place I must become more aggressive and flattering, derogatory term. But with angst I proceed.

...it would be to have someone to have cooked me dinner, drawn me... I can give him, I will remain in my thoughts of the day when that... I often ponder will men who make comments such as these ever... themselves in a gentlemanly fashion with more positive ones. But... deviated desires? Will they ever realize that with the energy it... frame and my attire must complement me instead of condemning... As I leave the home I've paid for and enter the German made... it is a weed-smokin... For all the Right Reasons

Poetry Corner

THE DAY IN THE LIFE OF A SUCCESSFUL WOMAN

Each day I rise to face the trials and tribulations of being a woman managing a man.

Thursday (May 20 - May 26)

Due to your stubbornness you may end up altercating with a new acquaintance. You are surrounded by a lot of suspicious people this week.

Wednesday (May 22 - June 21)

You are in a financial bind this week. Learn to conserve money better. Don't worry. By the end of the month your financial situation will improve. As long as you stay out of debt.

Tuesday (May 21 - June 20)

You have been working very hard lately. You are taking on many responsibilities. Take time to relax or you'll wear yourself out. Remember, you can't do it all at once. You need to pace yourself.

Monday (May 20 - May 26)

You have a lot of positive energy this week. Things have been going so well for you lately that you think it's too good to be true.

I thank God for the day He has seen fit to bless me with, but I know it will have its ups and downs, too.

...and I work outside of the home. I have taken on many responsibilities. Take time to relax or you'll wear yourself out. Remember, you can't do it all at once. You need to pace yourself.

Freshman QB Leads Struggling Bison to Homecoming Win

By Josef Sawyer
Staff Writer

A" head coach John Butler was looking for a spark to ignite his struggling team, he put in a new quarterback for the team's Homecoming game against North Carolina A&T.

"I think we needed a spark to get our guys going," Butler said. "We've been in a funk for a while, and I knew that this quarterback could get us going in the right direction."

Taylor Hunsicker, a freshman from Ashburn, Va., was thrust into the starting role after the team's starting quarterback, Jermaine Jackson, was injured in last week's game.

"I was excited to get the chance to play," Hunsicker said. "I've been working hard in practice and I knew that my chance would come."

Hunsicker responded with a strong performance, throwing for 172 yards and two touchdowns. He also rushed for 74 yards and a touchdown.

"Taylor did a great job today," Butler said. "He led our offense well and we were able to put points on the board."

The Bison's defense also played well, holding North Carolina A&T to just one touchdown. Freshman linebacker Kimberly Williams led the way with 14 tackles, including a sack.

"Kimberly has been a great addition to our defense," Butler said. "She's been a solid presence on the field and her leadership has helped us improve."
Anthrax and Its Effects

How common is anthrax and who can get it?

Anthrax is most common in agricultural regions where livestock to animals. There include South and Central America, South and Eastern Europe, Asia, Africa, the Caribbean, and the Middle East. When anthrax affects livestock, it is normally due to an occupational exposure to infected animals or their products. People who are exposed to dead animals and animal products from infected animals can become infected with B. anthracis. (Avian) anthrax. B. anthracis can be airborne and enter the body through the respiratory system. Inhalation anthrax is usually fatal.

Intestinal anthrax requires live B. anthracis to enter the bloodstream. Anthrax can be found globally. It is more common in developing countries or countries without veterinary standards. In the United States, but veterinarians who travel to developing countries or countries without veterinary standards are at risk of contracting anthrax. Anthrax can be found in the United States or countries without veterinary standards.

Can anthrax be spread from person-to-person?

Anthrax is not contagious. Anthrax is transmitted through contact with infected animals or animal products. Anthrax is not transmitted from person to person. Anthrax is transmitted through contact with infected animals or animal products. Anthrax is transmitted through contact with infected animals or animal products. Anthrax is transmitted through contact with infected animals or animal products.

What is the threat from anthrax vaccine?

The anthrax vaccine is safe and effective. It is designed to protect against anthrax. The anthrax vaccine is effective in preventing anthrax. The anthrax vaccine is effective in preventing anthrax. The anthrax vaccine is effective in preventing anthrax. The anthrax vaccine is effective in preventing anthrax. The anthrax vaccine is effective in preventing anthrax.

How is anthrax diagnosed?

Anthrax is diagnosed through a combination of clinical symptoms and laboratory tests. Anthrax is diagnosed through a combination of clinical symptoms and laboratory tests. Anthrax is diagnosed through a combination of clinical symptoms and laboratory tests. Anthrax is diagnosed through a combination of clinical symptoms and laboratory tests. Anthrax is diagnosed through a combination of clinical symptoms and laboratory tests.

Job Fair Slated For Only One Day

From Job Fair, AJ

"This job fair is the granddaddy of all job fairs," Dudley said. "Companies come to our fair because they believe in our applicants." Because the job fair is the granddaddy of all job fairs, it is feared that there will be less time for applicants to network with companies. Last year, the job fair ended at 3 p.m., but this year the Blackham Ballroom will be left open until 6 p.m. to give companies time to speak with recruiters. Several other schools will have applicants trying to network with the same companies. Job seekers will need to speak with recruiters from the companies they are interested in working for.

"The job fair should be used as a springboard to job opportunities rather than an opportunity as in a 'hit-the-spot interview," said Tims. The job fair will be held on October 13 and begin at 1:00 p.m. with panel discussions. The hall, which will be set up, will open at 1:00 p.m. Dudley recommends that students bring extra resumes, dress appropriate, and be prepared to network with companies.

HOMECOMING SECURITY?

By Antujuan Jackson

What's Your Opinion?

We encourage our readers to write letters to the Editor. Tell us what you think about the paper and its contents. We strive to produce a quality weekly with news pages that are devoid of slant or personal bias. Please address letters or comments to The Hilltop, 225 Sherman Ave., NW, Washington, DC 20001. You can also e-mail us at thehilltop@hotmail.com.

The Hilltop is the largest black collegiate newspaper in the nation.

Our View

V.I.B.E. made its mark in Homecoming history.

JAYCE HAYES, Editor-in-Chief

Good Job

The pranksters who defaced and defiled the Jennifer Cummings dormitory in the main yard disassembled. The pranksmen of grilled corn and cheese, and a chicken wings that hung heavy over the Yard during the Yard Fest have long since dissipated. Only sweet memories remain of Howard's second Homecoming, which took place in the millennium.

The traditions of this year's Homecoming will be sweet. They will trigger nostalgia years from now, when people think about all the crazy things that were happening in the world. This year's Homecoming was an improvement from last year. The Steering Committee worked hard and successfully prepared for the week-long schedule of events. Perhaps that is why so many events sold out. Perhaps it is that people were so excited about Homecoming and participated across the board. All of the events were not the greatest, but they pulled it off. Melva Jones and staff dared to do Homecoming a little bit differently this year. They continued some of the traditional events that have been the same for years, but offered new attractions. It was a good idea to mix hip-hop with R&B and neo-soul. It was a good idea to offer a Reggae Concert with an actual headliner such asBeenie Man. While the Comedy Show was a disappointment, the least we can say is that it sold out. The step show was good, but it would have been better if more Greeks participated. The Yard Fest seemed shorter this year. The Homecoming Committee will say it was one of the better events. Never in recent years has the pageant seemed so special.

Last but not least, advertising. The Steering Committee did extremely well in advertising. There were constant radio commercials and in other media. They were not held until days before event, Jones and her staff should be thanked for providing the campus with a Homecoming that was definitely enjoyable and definitively above average.

Our View:

Tighter security is needed around the Towers. Students please be safe.

For example, there is a clearly posted sign that prohibits loitering outside of the Towers; yet loitering was exactly what a majority of people outside of the Towers were doing. If the security guards and Towers' personnel had been enforcing their own rules this tragic event might have been avoided. Besides that, if Howard instituted regular security patrols around the Towers, many of the robbings, break-ins and other incidents around the dormitory could be prevented.

However, all of these measures need student support to work. Everybody who was frightened after they heard about the shooting should remember that feeling when security guards ask you to remember your ID. Remember that fear; remember that anger, it could save your life.

Our View:

America needs to be fully aware of how serious and deadly anthrax is and its ramifications.

The recent anthrax scares have served as yet another wake-up call to the United States. We are not invincible. There are some people out there who can crack the surface of the Big Brother if all nonsense.

While cases continue to pop up around the nation, our leaders have done nothing to allay our fears concerning this deadly material. With the attacks against the World Trade Center and Pentagon, terrorists wiped out large portions of New York and Washington.

Using anthrax as their theme, they are able to wipe out America. Americans who have no idea what anthrax is, how it is transmitted and how they are able to avoid it. The United States is in a state of war. As a country, we are still maintaining the façade that nothing is wrong and that the WTC and Pentagon attacks were only isolated incidents. Just as our President came on national television to calm the country during the events of September 11th, there needs to be a broadcast informing Americans of how serious and deadly anthrax is. There has never been a reason to have the average American know what anthrax is. However, now the time has come. We should not be ill informed when something is as serious as this. To uninformed during these times is a threat to our livelihood and the deaths of more Americans.

We can not be asked to fully move on with our lives when there continue to be people living in our country who are set on harming Americans in any way possible.

Illustration By Antujuan Jackson

The Violence Must End

A young man was shot and killed outside of the Towers Saturday night. Shot in front of the dormitories hundreds of Howard students call home, as we all enjoyed another Homecoming. Witnesses to the event said that no police officers or security guards were nearby when the shooting occurred. With dozens of students and non-students hanging about in front of a dormitory, a security guard had to be found. Sounds strange doesn't it? Howard has had security issues in and around the Towers for sometime. Last year several dormitories were broken into with students inside. Countless cars in and around Towers' parking lots are broken into every week. The area is just off 14th street and 2nd st NW. Towers has been the site of fights, and various individuals use the area as a place to do illegal activities. Saturday's shooting just proved that some people are not doing their jobs.

Anthrax What?

The Hilltop is written and produced every Tuesday and Friday by the students of Howard University. With a readership of more than 10,000 students and community members, the Hilltop is the largest black collegiate newspaper in the nation.

The opinions expressed on the Editorial Page are the views of the The Hilltop Editorial Board and do not represent the opinion of Howard University, its Administration, individual Hilltop Policy Board members, or the student body. The opinions expressed on the Perspective page are those of the writers and do not represent the view of the Editorial Board.

Please address letters or comments to The Hilltop, 225 Sherman Ave., NW, Washington, DC 20001. Questions, comments and letters can also be sent via email to thehilltop@hotmail.com.

The deadline to submit ads to the paper is the Friday preceding publication. The advertising department can be reached at (202) 806-4749. The editor can be reached at (202) 806-4749.
Its what we’re about.

The MOTIVATION to give our fellow students the best that we can possibly deliver.

The MOTIVATION to continue to be the #1 ranked black college newspaper in the country.

The MOTIVATION to do it twice a week.

The Hilltop, Since 1924
Are You an Aspiring Engineer?
