## In Lighter Vein

### Thanksgiving Joys

We're joyous, Lord, that Thou  
 hast sent afflictions to the rich,  
 Dyspepia, gout, insomnia, and  
 other troubles which  
 Disturb their souls by day and  
 night and cause as much or  
 more  
 Of real distress than do the ills  
 that Thou hast sent the poor.

We may not have enough to eat;  
 they eat too much and, so,  
 It's just about an even thing;  
 each has his share of woe.  
 We have no time to rest by day;  
 they cannot rest at night,  
 So, all in all, things seem to be  
 divided nearly right.

We can't afford to ride, but there,  
 again, their joys we balk,  
 For, oh! Thou sendest them the  
 gout and, so, they cannot walk;  
 Thou sendest them rich food and  
 drink, weak stomachs, head-  
 aches, wealth;  
 To us Thou sendest poverty, plain  
 living, toil and health.

Oh, glad are we the rich must  
 have, while living of the best  
 The land affords, a lot of things  
 to rob them of their rest.  
 And so we're thankful for our  
 joys, a goodly part of which  
 Is thinking of the many woes  
 that Thou has sent the rich.

—I. L. Parker.

Sir Walter Scott of the Middle  
 Class calls "molecules" "moe-  
 elues."

At the Halloween dance Rachel  
 was the "cynosure of neighbour-  
 ing eyes."

Dean "Sy" thinks that nowa-  
 days girls should be fast—trig-  
 onometrically.

Rumor says that Peter C. looks  
 like a Haitian planter under his  
*verde Sombrero*.

When all other dates fail them,  
 the students of American Hist-  
 ory fall back on 1607.

Stripped of its rhetorical trap-  
 pings, the Honor System means  
 that you may "ride" at home, but  
 not in class!! How many want it?

Realizing the utter uselessness  
 of their "horses" in the last Gal-  
 lic campaign, the luckless "rid-  
 ers" have now decided to use  
 "Zeppelins."

Lest Instructor Long be left  
 in doubt as to the identity of the  
 animal, Miss Olive B. decided  
 to label her first drawing in Bio-  
 logy— "THE FROG."

Evidently imbued with the  
 majesty of the law, Sergeant-at-  
 Arms Woods disturbs the tran-  
 quility of the third floor of Clark  
 Hall every morning at five o'clock  
 with the wail "Any shoes to be  
 repaired?" "Any shoes to be re-  
 paired? See Agent Woods."

On, every morn at six 'oclock,  
 Ben Dyett rings his bell;  
 Some bless him for this waking  
 shock,  
 Some scream, some hoot, some  
 yell.

In expressing his sympathy for Aeneas and Cicero in their mental anguish, Professor Cum mings said that often he, too, had exclaimed: *Quo usque tandem abutere, O studentes, patientia mea!* (Prolonged laughter).

Big Marshall: (in P h y s i c s class) "After all p'fessuh, them molecules don't travel so fast as you say. F'rinstance, why is it that when a whistle blows some distance away, it takes the molecules so long getting that sound to you?"

Macaulay's dictum—that, with the progress of science, there would be a corresponding dearth of poetry—has been torn to a frazzle by the mushroom-like appearance in our midst of a galaxy of poetasters—excuse me, I mean poets.

This, by the way, explains the Principle of Latent Energy.

Baker of Harrisburg, approaching THE HERALD artist: "Say Coll, draw a picture of me, will ya?" (The artist immediately taking out a pencil and a long slip of paper, with a stroke of his pencil draws the picture and passes it to Mr. Baker.)

r. Baker: (Highly offended) "Why, this is a line!!!"

Artist (Coolly): "O yes, old chap, I know it. Geometrically speaking, that which has length but no thickness.

Perhaps the strongest argument in favor of the Training Table is the fact that a football team, like an army, moves on its belly.

Mr. Morgan (In Chemistry): Professor, what is the value of the ATOMIC HYPOTHESIS?

Instructor Russell: It is to calculate the velocity of the atmosphere.

### Academy 3. Armstrong 0

(Continued from Page 5)

The second half was particularly noticeable by the line plunges made by both teams. These brought vividly to mind the old fashion method of playing football. The Howard Academy team proved itself superior throughout the entire game. Not once during the second half was the Howard goal in danger. The Howard team, through good scientific playing, rushed the ball to Armstrong's 35 yard line. There Thompson kicked a field goal, giving Howard 3 points. These were the only points scored by either side during the entire game. The game was called with the score standing Howard 3 Armstrong 0.

Much credit is due Captain Hardwick and Coach Carter for the excellent work in bringing forward such a promising team to represent the Academy. With Mr. George Brice, The Varsity Ex-Football Star, as coach for the remainder of the season, we see nothing but victory for the Academy football team in all of her engagements this season.

—David L. Best, '18.
