Thanksgiving in the Bayou: Students to attend Football Classic

By ASSIA CAMPBELL
Hilltop Staff Writer

With Thanksgiving right around the corner, students have been busy preparing for the holiday as they get ready to return home. Some students have also been busy attending the Bayou Classic.

"I don't think we'd be able to attend the Bayou Classic if we didn't have Thanksgiving off," said Brittany Cooper, an English and political science major. "It's like 20 times bigger. This is a lot of fun. It also brings a lot of pride to the city to the event." Cooper, who is from New Orleans, has been a part of the marching band for nearly five years. "The band director is an English and political science major, and he'll go to every game," said Cooper.

Besides the football game itself, the members of the marching band said that the party city atmosphere is also why they attend the Bayou Classic. "It's kind of like a big party," said Chauna Bryant, a sophomore business major. "I just love getting down to the party right. There are so many people."

Other students said attending the game is a way to get rid of the stress that comes with the holidays. "I really enjoy getting away from everything during Thanksgiving," said Bryant.

Since Chenier is from "The Big Easy," he said he always looks forward to a few Christmas parades and the Bayou Classic. "New Orleans is the most vibrant city in the South," said Chenier.

Chenier admits the corroborations of black New Orleans and what he refers to as a "New Orleans" are a part of what makes him who he is today. "New Orleans is a city that's interested in the future and the present," said Chenier.

Chenier admits the coroner's report of black New Orleans and what he refers to as a "New Orleans" are a part of what makes him who he is today. "New Orleans is a city that's interested in the future and the present," said Chenier. He said he enjoys the city and its culture, adding that he feels at home in New Orleans.

For students who are from New Orleans, the plans may not be as grand as the Big Easy, but they still want to make the most of the holiday. "I'm going to be at home with my family and spend some time with them," said Bryant. "I want to spend some time with my friends, but I also want to spend some time with my family."

Chenier also said his family is very important to him. "My family is very important to me," said Chenier. "They always support me, and they always encourage me to do what I want."

Confessions of a Fallen Heroin
Female Emcee Speaks on Experience in Armageddon

By JOSEPH COMMINGS
Hilltop Staff Writer

In a male-dominated genre of music, female lyricist Shalinda reflects on her experience from the fourth annual Verbal Armageddon rap competition and her head-to-head duel with the reigning champion, Icon.

Known to her friends as Linda Spruill, Shalinda was the lone female lyricist in the annual competition taking the audience by storm with her do or die performance completed in the competition by a woman, and performances.

"When I went to the try-outs I had no expectations, but when I went to the second round, I felt very good about my chances." said Shalinda.

When she was told she was out of the competition by the first round, she probably would have never known. She was able to make the cut, said the south Jersey native. "For me, it was about taking home the championship. I just wanted a chance to show my skills to everyone," she said.

In a controversial round two of the competition of Armageddon, the defending title holder from a year ago, Icon, called Shalinda out her name, something not uncommon in a battle round. Shalinda wants to be clear that she bears no hard feelings for preceded at the competition. "I do not hate Icon for the things he said during the battle round of Armageddon. 'I think he had to do what he had to do try to win the round. I don't condone his actions but I understand them completely," said Shalinda.

"After I did my thing at the first round I knew I was going to the second round, I felt very good about my chances." her loss to Icon, Shalinda claims she understood why Icon said the things he said during the battle round of Armageddon. "The first time he went at me, he got me, I admit. But, as the round went on he kept on saying the same thing while I kept on rhyming. I'm not trying to sound arrogant here, but I feel I should have won that round."

"I just wanted a chance to show my skills to everyone. I never expected to win. I just wanted a chance to show my skills to everyone." she said.

"I just want to come back next year sounding better than I did this year."

Shalinda is quick to point out that she was caught by surprise, but said she held her own and put up compe­titive opposition. "While many may be surprised by her remarks, Shalinda claims she understood why Icon said the things he said during the battle round of Armageddon. 'I think he had to do what he had to do try to win the round. I don't condone his actions but I understand them completely," said Shalinda.

While Shalinda was not the first female to compete in Verbal Armageddon, she does hold the record of being the sole female rapper to make it past the first round. "She is indeed the first woman to make it past the first round," she said.

"In a male dominated genre of music, female lyricist Shalinda is happy with one achievement. "I have no regrets trying to enter Verbal Armageddon's first female MC, Shalinda."

While Shalinda's rise to the top has been cut short, she is happy with one achievement. "I have no regrets trying to enter Verbal Armageddon's first female MC, Shalinda."

Dispute Between New York Firefighters and NYPD

By DANIELLE MICHETT Contributing Staff Writer

It is a conflict between firefighters and police in New York City that has been going on for almost a year. The dispute stems from a disagreement over the allocation of resources and responsibilities between the two agencies. The conflict has been sparked by a dispute over the use of helicopters for firefighting operations.

Firefighter Deaths in Figo's 31 also has never been documented precisely by police. It is known that the fire department is not equipped to handle such incidents. The firefighters who were involved in the firefighting effort were all alert and on their feet, according to a Fire Department spokesman.

The incident occurred during a firefight in New York City. It is not clear if the firefighters were injured or if the fire was under control.

Racism At Auburn

O n a sunny Sunday afternoon in late October, a group of white students at Auburn University, Alabama, painted their faces black, put on Omega Psi Phi T-shirts and transported their university's national office to the fraternity's national office is investigating the matter. As word of their minstrel antics spread over the Internet, students across the nation found themselves seething with anger. We found ourselves asking the questions: "How could this happen?" "How can they get away with something like this?"

For many, it was their first time seeing such a glaring act of racism and ignorance. And this is America, our country. Enough already!

Our View:

The的文化 and oat, and our nation's capital, has no vote stripped of this constitutional right. Is it absolutely absurd that the District, the heart of our judicial system, is woefully under-prepared for a smallpox outbreak. They can read about the vast number of suspension bridges in the country, and just how little security is protecting them. Every news report and government press conference now reads like a terrorist to do list. Osama bin Laden and his followers have weakened our country. Enough already!

As Americans reconcile themselves to the fact that every plane ride is now even more dangerous than before, they could have ever imagined, new fears of terrorism continue to surface. Now the government and media are telling us that terrorism may soon attempt to infect Americans with smallpox, or destroy one of the numerous suspension bridges that pierce our country. Enough already!

Although the American public deserves full disclosure, the media and government need to understand when this disclosure can become a detriment to our health. Guess what, Dick, the Rule of Law is a prerequisite for the democratic process and the only way we can stop terrorism. Wise up George, we the people, need information about the military and our enemies. We're not endangering. Tommy Boy, we the people don't care if you entrust this info to the FBI. Your cover story just want us to be able to take our kids out on a picnic without having to worry about getting sprayed with smallpox. Stop giving terrorists ideas.

Taxation Without Representation

The absolutely absurd that the District of Columbia, the heart of our judicial system, and the nation's capital, has no vote in Congress. At a time of war and crisis, DC is at the front line of the war on terrorism and the primary target of America's enemies. Congress has passed legislation after legislation, including an anti-terrorist bill, directly affecting our daily lives without our consent. However Congress, seeming to be the District's "state" legislature, is our voice. It is that with more than 500,000 tax-paying residents, the District has been denied the right to have active representation in Congress? Residents are forced to give their hard earned dollars to their government, and in return receive a 600- voting delegate; one that is allowed to only hear the issues but not vote on behalf of its constituents. We vote for those who can both clearly and effectively represent our views and act in our best interest. However, we have been stripped of this constitutional right. Is it that Congress is afraid that the District's vote would give more power to the Republican and Democratic party, ultimately lessening the strength of the Republicans due to its overwhelming large American population? The excuse: the District of Columbia is not a state, according to congressional standards and is not afforded the right to vote within Congress. As voting, tax paying citizens of the U.S. we need a voice. Where else has Anthrax closed down federal buildings and postal facilities? Who will address our concerns and make certain that we are not overlooked in the legislation that governs our lives? With the war and its devastating effects on the District, now more than ever our voice needs to be heard.

Winning Wizards A Pipe Dream Of District Residents

A sydney coach has won the Washington Wizards' job. But to many observers, the Wizards are still a long shot at best. They once might have been a serious contender. But for now, the Wizards are not expected to be a serious threat to the division leaders. The Wizards are expected to struggle throughout the season, with some analysts predicting that they will finish near the bottom of the Eastern Conference standings.

Howard University Women's Basketball Program

The Howard University Women's Basketball Program is entering a new season with high hopes. The team has been bolstered by the addition of several talented players, and is looking to build on last year's second-place finish in the MEAC conference. Head coach Frankie Allen expects the team to be a force to be reckoned with this season, with the potential to make a deep run in the NCAA tournament.

Costly Penalties, Last Minute Rally, Equal Loss For Bison

The Bison lost a close game to the Wildcats in the Mid-Eastern Athletic Conference. Both teams entered the game with high expectations, and it was a tight battle throughout. In the end, the Wildcats were able to make the key plays to secure the win, as the Bison were unable to close the gap in the final minutes of the game.

Shanda Davis, Antoinette Daniels, Octavia Thompson, and a host of others led the Bison in their equal loss. The Bison will face Mercer University next Friday in the opening round of the MEAC tournament.

Final Exhibition Game Provides Excitement, Off Court

The Howard University men's basketball team faced off against Irvine Pacific College in their final exhibition game before the start of the regular season. The game was high-scoring and fast-paced, with both teams putting up impressive numbers on the scoreboard. The Howard Bears emerged victorious, showcasing their talent and teamwork.

On this last score, Suber faked a handoff to Justin Davis and ran for a 20-yard touchdown run, capping up their third and final touchdown drive of the game. The Bison then went on to try to move the Lady Aggies back to their own 18-yard line, but were stopped on fourth down, giving the ball back to the Lady Aggies.

The Bison will square off against Mercer University next Friday in Atlanta. The first game of the season is set to be Monday night versus Charlotte 49ers, and the rest of their schedule is unknown. The Lady Aggies are still working on their team chemistry and hoping to make a deep run in the MEAC tournament.

In your arms I find Science that has existed My grasp for so long

Composed by Ollie Burrell

Right

I saw you, did you see me?

Hair pulled up in a French up-do, skin clear, I wasn’t wearing anything fancy just being me, plain ole simple me. I whispered “Comment allez-vous,” hoping something profound and unordinary would connect and be pleasing to you. You walked past and pretended that I was not in front of my world. My girl whispered “Girl he just tripping in a week he’ll be begging to be back with you.”

Friday night Republican Garden’s right, right. I saw you, did you see me?

Hair pulled up in a French up-do, skin clear, but this time I wore my Armani pantsuit.

The lights were low, the music slow and sensual and I can say I definitely had an appetite for you. Leaving the dance floor to-sew myself, I was hoping that we could reconnect and rediscover the passion we once both knew. But instead, I saw you on the couch, in the corner, on you the bottom on top, I knew something wasn’t right.

Soon she was off and on her way to the bar.

You stood up, zipped up, and gave a smirk to your boys on the other side.

But this time you saw me, and you saw the pain in my eyes.

You leaned over and took my hand, the same hand that held your commitment that we once both knew. I whispered “I saw you, why didn’t you see me?” Your response “It’s over right?”

“Right!” —Shelia L. Hill

She Appeared

I started to make a new I began to fall for you I attempted to get to know that about you and me...

An action that I pondered... I looked forward daily to our next contact And how I knew you were still smiling when I turned my back I enjoyed our breakfast’s how you would take up my time. But for some reason after class you would never stay I sought to be the apple of your eye A dream conceived in a lie I was finding you and I knew you were to me...

But it wasn’t in action it was you who failed to mention, contemplating heavy on our potential I failed to see the whole picture.

When I was down and out and the depth of my solitude was below the surface, you brought new meaning to the word “hope” and illustrated its sole purpose. When I had given up on love and despised it every meaning you proved me wrong, and I am grateful for your being. I can’t believe I have imagined there would ever be...

Unbelievable Love

The Truth” Behind an Apology Of a Man

I meant to apologize a long time ago, for the time I hid. I meant to tell you that I was wrong and that I no longer had the will or desire to fight.

I meant to see how you were doing, but he was on me and I wanted to know where you were with him, what he was doing with the woman that needed to be mine.

I meant to tell you that I never stopped loving you or the wonderful things you did. I meant to speak when I saw you, but like a child after time I hid.

I meant to tell you that you never disappeared to give you everything I meant to tell you that I was missing you, but I meant to tell you that without me you become...

I meant to tell you that I was missing you, but I had too much pride to just let you be.

I meant to give you everything you desired, but instead I lost the one thing I needed in my life.

I meant to tell you that the pain of knowing I lost you, cost me more than anyone’s knife.

I meant to say to you that I know I blew it, but I had too much pride to just be a man.

I meant to give you everything you desired, but instead I lost the one thing I needed in my life.

I meant to tell you that the pain of knowing I lost you, cost me more than anyone’s knife.

Costly Penalties, Last Minute Rally, Equal Another Loss For Bison

From Football, B4 because they have the hopes of a Bison victory had just ended. "I saw a change and throwing the ball down the field is not our forte, but they eventually got it, their game-plan, and that's what they do, said White." Although there was still 2:30 left on the clock, the Bison weren't able to come up with a response to the Wildcat's 29-24 performance, leaving RAC victorious in the end. The Bison set a school record for penalties in a single game with 23, for 177 yards. They also completed only two of 14 passing attempts out of 14 attempts.

The Wildcat's did that much better with their 14 down conversions completing only three of 13. However, the dynamic duo of quarterback, who is up to all of the team's midfield in the game, and powerful running back, who is out to our game plan. White finished the game 11-24 for 170 yards and 17 carries for 74 yards, adding two touchdowns, including seven passes for 72 yards, completing one out of five yards, and one assist. For the Bison, offensive, Anderson finished 12-35 for 234 yards, two touchdowns, and two interceptions.

Picture of the moment, Philip, Vinson, and McCarthy continued to grief. With the deficit in mind, the Bison's second team offense to the Piston's second team offense was too much for the Bison. After finishing the game with 13 carries for 102 yards and two touchdowns, caught seven passes for 72 yards, completing one out of five yards, and one assist, for the Bison. For the Bison, offensive, Anderson finished 12-35 for 234 yards, two touchdowns, and two interceptions.

But Parisian saw an outstanding performance during the game, along with quarterback, who is out to our game plan, back, quarter, and free safety on offense. He finished the game with 13 carries for 102 yards and two touchdowns, caught seven passes for 72 yards, completing one out of five yards, and one assist. For the Bison, offensive, Anderson finished 12-35 for 234 yards, two touchdowns, and two interceptions.
