This Book is brought to you for free and open access by the The Hilltop Digital Archive at Digital Howard @ Howard University. It has been accepted for inclusion in The Hilltop: 2000 - 2010 by an authorized administrator of Digital Howard @ Howard University. For more information, please contact lpez.matthews@howard.edu.
Life is Too Short

A 21-year-old Howard student and former airwaves host was brought back to one of his worst memories by the sound of his own voice on the radio.

"I was brought back to one of my worst memories by the sound of my own voice on the radio," said the student, who asked to remain anonymous. "I was listening to a radio show when I suddenly heard myself talking. It was like a punch to the gut."

The student was a host on airwaves, the campus radio station at Howard University. He had been on airwaves for two years before being suspended for a comment he made on air.

"I was on the airwaves, doing a normal segment when I noticed something was off," he said. "I heard myself say something I didn't mean to say, and it was repeated over and over again."

The student's comment was later broadcast on a national radio show, leading to his suspension.

"I was really upset," he said. "I had just started my second year at Howard, and I thought I was doing well."

The student's comment was later broadcast on a national radio show, leading to his suspension.

"I was really upset," he said. "I had just started my second year at Howard, and I thought I was doing well."

Howard Begins Search for new VP for Student Affairs

By Patricia Wainwright

The Howard University Student Association kicked off its HUSA week with a Town Hall meeting that focused on the privatization of Sixth Street and campus security. This week's town hall meeting focused on the decision to privatize Sixth Street and the role of the Division of Student Affairs in the decision making process. The meeting was attended by members of the Division of Student Affairs, including the Vice Provost for Student Affairs and the Senior Vice Provost for Student Affairs. The meeting was held at the Student Center and was open to all students.

Howard University Student Association Kick-Off Town Hall Meeting

Compiled by Melanie Nesbitt

The Howard University Student Association (HUSA) is a student organization that represents the interests of students at Howard University. The HUSA is responsible for organizing various events and activities on campus, including the annual Spring Fest and the Homecoming celebration. The HUSA is also involved in a variety of other activities, including lobbying for student rights and interests, and working to improve the quality of life on campus.

The HUSA’s mission is to promote the welfare and interests of students at Howard University. The HUSA is composed of elected student leaders who represent the needs and concerns of their peers. The HUSA works closely with the administration and faculty to ensure that students have a voice in the decision-making process on campus.

The HUSA is committed to providing students with a safe and welcoming environment. The HUSA is actively involved in a variety of initiatives to improve campus safety, including increasing security on campus and providing educational programs to promote awareness of safety issues.

The HUSA is also committed to promoting diversity and inclusion on campus. The HUSA works to ensure that all students have access to a comprehensive education and that their voices are heard in the decision-making process.

The HUSA is an important part of the Howard University community and plays a vital role in shaping the campus culture. The HUSA is a source of support and inspiration for students, and it is a place where students can come together to share their ideas and experiences.

The HUSA is an integral part of the Howard University mission to provide a diverse and inclusive education for all students. The HUSA is committed to promoting the values of diversity, inclusion, and social justice, and it is dedicated to ensuring that every student has the opportunity to succeed.

The HUSA is a dynamic and evolving organization, and it is always looking for ways to improve and expand its services to students. The HUSA is committed to staying true to its mission, and it is dedicated to providing a safe, welcoming, and engaging environment for all students.

The HUSA is an important part of the Howard University community, and it is a place where students can come together to share their ideas and experiences. The HUSA is committed to promoting diversity, inclusion, and social justice, and it is dedicated to ensuring that every student has the opportunity to succeed.
In 1999, the Harris Program sponsors internships in areas related to public policy and encourages students to consider careers in public service. The program features a range of events, including panel discussions and speaker series, to engage students in important policy issues.

In addition, the Harris Program sponsors internships for Howard students in federal, state, and local government agencies, as well as in private organizations and corporations. These internships provide valuable hands-on experience and networking opportunities for students interested in public policy careers.

The Harris Program also offers a variety of scholarships and grants to support student research and travel to international conferences. These opportunities help to fund student projects and encourage them to pursue their academic and professional goals.

The Harris Program is committed to providing students with the resources they need to succeed in the field of public policy. Through its internships, scholarships, and grants, the program helps to prepare the next generation of leaders in public service.
African-American Replaces White Appointee as U. Arkansas Trustee

By CARRIE CWPt:RNOu.

FAYETTEVILLE, Ark. - (U-WIRE) - The appointment of Rogers, Ark., businessman John Johnson, an African-American, as a trustee last week by the university's board of trustees is highly symbolic of Arkansas' progress towards a more inclusive future.

The governor and the board of trustees have made significant strides in recent years to diversify the board's membership. Until now, however, the board has been predominantly white, with only one African-American trustee. Johnson's appointment is a significant step towards correcting this imbalance.

Johnson, a native of Little Rock, graduated from the University of Arkansas with a degree in business administration. He has held various leadership positions in the community, including serving as a trustee for the University of Arkansas at Little Rock.

Johnson's appointment comes at a time when the university is under pressure to address issues of diversity and inclusion. The appointment of a black trustee is seen as a positive step towards achieving this goal.

While there is still work to be done, Johnson's appointment is a promising development. It is hoped that this will set a precedent for the future, and that the university will continue to make progress towards a more diverse and inclusive community.
Behind every good student, there’s a great teacher.

Behind every good student, there’s a great teacher. Without the dedication and support of our educators, we would not be where we are today. Deirdre Walker is one such teacher who has made a significant impact on the lives of her students. Deirdre’s monologue, “If you can conceive it, and believe it, do the work,” highlights her commitment to inspiring and motivating her students to achieve their full potential.

The Newark Public Schools

The Newark Public Schools is a vibrant and dynamic school district that offers a wide range of educational programs and opportunities to its students. With a focus on excellence in education, the Newark Public Schools is committed to providing a safe and supportive learning environment where students can thrive.

Nina’s孢nent Leadership

Nina is a student leader at the Newark Public Schools. She has represented her school as a Miss College of Arts and Sciences and has served as an Executive Secretary for the COAS. As president of the Pre-Medical and Allied Health Science Society, Nina is dedicated to promoting academic excellence and encouraging students to pursue their dreams.

The Hilltop...about it.

The Hilltop is an online student publication that provides a platform for students to express their thoughts, opinions, and creative works. It features a diverse range of content, including news, opinion pieces, and literary works, allowing students to explore their passions and share their voices.

Innovative Hip-Hop Part I: The Female Principle

Innovative Hip-Hop Part I: The Female Principle Senior Spotlight

Innovative Hip-Hop Part I is a series that explores the role of women in the hip-hop community. This feature highlights the innovative contributions of female artists, discussing their impact on the music and culture, and examining the challenges they face in a male-dominated industry.

Senior Spotlight

Senior Spotlight is a segment that profiles exceptional students from the school. It showcases the achievements of students who exemplify dedication, hard work, and leadership, providing inspiration and motivation for their peers.

Reparations!

Reparations! is a student-run initiative that aims to address historical injustices and promote equity in the community. Through educational programs and community engagement, Reparations! seeks to foster understanding and create a more inclusive and just society.

Students to Work in Haiti During Spring Break

Students to Work in Haiti During Spring Break

Students from the College of Arts and Sciences (COAS) will have the opportunity to work in Haiti during Spring Break. The students will participate in a service learning project that focuses on addressing the needs of vulnerable populations in Haiti. This experience will provide students with a deeper understanding of global issues and the role of education in promoting social change.

Job Fair for Teachers

Job Fair for Teachers

The annual Job Fair for Teachers brings together educators and school districts to facilitate connections and opportunities for employment. This event provides a platform for educators to network, learn about job openings, and explore potential career paths in the field of education.

Hampton University

Hampton University

Hampton University is a historically black university located in Hampton, Virginia. With a strong tradition of academic excellence and commitment to community service, Hampton University offers a diverse range of educational programs and opportunities for students to pursue their passions and achieve their goals.

Ibrahim K. Sundinta

Ibrahim K. Sundinta

Ibrahim K. Sundinta is the President of Hampton University. Under his leadership, the university continues to uphold its commitment to academic excellence and diversity, fostering an environment where students can thrive and contribute to the greater good.

Hampton University is an equal opportunity/affirmative action institution. It is committed to fostering a diverse and inclusive community that values the contributions of all individuals.
Once again, President Bush has proven that his political career is not centered on what is best for the United States, but rather what is best for George Bush's career. As his approval rating has climbed with each new crisis in the war against terrorism, it appears that W has forgotten that America needs allies not enemies to defeat terrorism. In recent comments, he named the country of Iran as being part of an "axis of evil" that included Iraq and North Korea, and said that Iran might be the sight of future American attacks because of its ties to terrorism. This kind of anti-American sentiment makes it even more difficult for us to discover terrorist groups and mysterious actions before they can attack us. America needs to work on establishing a relationship of trust and mutual respect, not one of threats and name-calling. Bush's comments only illustrate exactly how this war on terrorism has morphed into a battle of good versus evil, with America being the ultimate good. America needs a President who does not naively imagine a world draped in the easy to distinguish shades of black and white, but rather a world that is one large ball of gray. In that world, we will be fighting for years to come. The United States needs to be more allies as it can find. President Bush needs to understand that while sticks and stones might break bones, ill-advised words can kill.

President Bush is not helping the United States gain allies in this war by naming countries entire in our war. In his Steve's "State of the Union" address, President Bush declared his new President's efforts to defeat terrorism. In his Steve's "State of the Union" address, President Bush declared his new President's efforts to defeat terrorism. In that address, President Bush named the country of Iran as being part of an "axis of evil" that included Iraq and North Korea, and said that Iran might be the sight of future American attacks because of its ties to terrorism. This kind of anti-American sentiment makes it even more difficult for us to discover terrorist groups and mysterious actions before they can attack us. America needs to work on establishing a relationship of trust and mutual respect, not one of threats and name-calling. Bush's comments only illustrate exactly how this war on terrorism has morphed into a battle of good versus evil, with America being the ultimate good. America needs a President who does not naively imagine a world draped in the easy to distinguish shades of black and white, but rather a world that is one large ball of gray. In that world, we will be fighting for years to come. The United States needs to be more allies as it can find. President Bush needs to understand that while sticks and stones might break bones, ill-advised words can kill.

The recent suicide attempt on campus follows two that occurred last school year. The Metropolitan Police that a student jumped off of the school of business last year and committed suicide. A student committed suicide in his home last year. We are lucky the student did not follow through with her attempt. We are lucky to still have her, but who is to say the same thing will happen next time. We urge all students to take the counseling services the University offers very seriously. We encourage the University to solicit peer counselors who might make talking about issues with someone their age more comfortable. Let's try to keep our eyes and ears open and look out for the ones close to us.

Howard University Stuck in Primitive Academia

Khalifi Walker

Dear Editor,

After reading the Feb 16th issue of The Hilltop, I am writing in reply to the article titled "African-American Studies: Howard University Sticks its Head in the Sand," written by Aaron Strickland. I do not agree with the information he has disseminated about Howard University. 

Strickland has not done his research because it is not true. There has been a department at Howard a long time. He himself can verify this. The department has been a part of the University for many years. He states that the department has "gone nowhere in the past 30 years." This is absolutely incorrect. The department should be proud of what it has accomplished in the past. It has grown dramatically in the past 30 years. 

Strickland also states that "the program is definitely not the answer to the view that Howard has a weak academic program." Once again, this statement is incorrect. The department has been a part of the University's academic program for many years. 

Strickland has not done his research because his information is wrong. It is my hope that the University will take a closer look at what the department has accomplished in the past 30 years. It has been a great accomplishment to have a department that is part of the University's academic program. 

Thank you for your time.

Khalifi Walker
Senior English major from Houston, TX

Question: You ever wonder why in every area there are drugs, there is this huge "Drug Free Zone" sign? Now I ain't one to get into a big conspiracy theory, but wussap with that? I guess it's kinda like the Martin Luther King street. For y'all that don't know, let's just say it's not the most non-violent street in any city. Just something to make you wonder that's all.

If You See A Problem, Then Solve It

By Russell M. Drake

W

riting on a sheet in front of the Architecture Building, I read: "You're too late," written in a series of initials. I glanced around, and saw no one. I was just about to write something joking on the wall when some kind soul walked by and erased the words. I have to admit that it did bring a smile to my face.

As a matter of fact, I was there to write some kind of message to some of my friends to "Get Out of Class," and I was about to make it look kind of cool. However, my idea was foiled when another person came along and rubbed it out.

In addition to that, I want to say that this problem has been going on for quite some time and that people should be more careful when writing on walls. Problems like these should not happen on Howard University's campus because it is not the way to express our opinions. 

Now, many students face these problems and really don't worry about the whole thing. We should be doing more to stop these kinds of things from happening. We should be more involved and should not just allow these things to happen. 

The Hilltop has been a good guide for me when it comes to Howard University's campus because it has been a good source of information for me. I have read many articles in the past and have learned a lot from them.

I know that there are many other problems that the campus faces, but I think that the most important problem is the lack of involvement by students. I believe that if more students would participate in the events that are held on campus, we would see a lot less problems.

FIRST EVER HU VARSITY WOMEN'S SOFTBALL IS COMING...MARCH 19!
Omar Makes the “Dollar Bills Y’all” and He Means ‘Reel’ Business

By Jonathan C. Sims
Life and Style Editor

Since James “Jimbo” Todd-Bell quit the Nashville-based hip-hop group Xscape, which split up in 1995, the once-fabulous rap group has been reduced to “Bellz” (former Xscape band member) and “Macy Gray” (former Xscape lead singer). The group has lost its fan base that it had built up in the ‘90s, and it’s been struggling to keep itself going in recent years. The release of their new album, “Dollar Bills Y’all,” is scheduled to be released in the fall and will feature new talent, including Bombay, a singer who has been working on thematerial for some time. Bombay is a young, up-and-coming talent who has been making waves in the music industry and is expected to bring a fresh perspective to the group’s sound. The album will include a mix of classic and modern rap, with some of the group’s compositions being rewritten for a new audience. Overall, the group is looking forward to the release of the album and is excited to see how it will be received by their fans.
Beth Ridley, author of "Throwing Roses and Rainey's Children," believes that possessing a history of more than 300 years of fighting for freedom and equality means more than just me. My actions and accomplishments reflect on us as a whole. I am representing so many more than just me. My actions and accomplishments allow me the advantage of achieving success in a realm that is still predominately white. If I can fulfill the expectations of others and show the strengths that have given me the opportunity to be where I am today, then I have accomplished my goal.

Racial identity is not something that is easy. It is something that people are often not comfortable with. It is not something that you can just pick up and put down. It is something that you have to work at. It is something that you have to have a strong sense of. It is not something that you can just look at and say, "Oh, I am black." It is something that you have to feel inside of you.

When I think of African-American culture, I think of a strong sense of family. It is a sense of community. It is a sense of history. It is a sense of strength. It is a sense of pride. It is a sense of accomplishment. It is a sense of achievement. It is a sense of success. It is a sense of happiness. It is a sense of joy. It is a sense of freedom. It is a sense of equality. It is a sense of democracy. It is a sense of justice. It is a sense of love. It is a sense of hope. It is a sense of future. It is a sense of destiny. It is a sense of purpose. It is a sense of destiny.

Howard University Division of Student Affairs
Office of Residence Life

RESIDENT ASSISTANT
in university residence halls

2002-2003

positions

Qualifications: Undergraduate – Sophomore, Junior, Senior – 2.5 (GPA) average. Residence Hall occupant for a minimum of one academic year, a record of active participation and positive leadership in hall programs and activities.

Economists Raise Optimism About 2002

Outlook for 2002

Economists are raising their optimism about the outlook for 2002. In its budget released last week, the Office of Management and Budget projected a 1.5% growth in the gross domestic product for 2002. This is substantially more optimistic than the 0.8% growth predicted last December. The Congressional Budget Office released a study last week that suggests the economy may grow by 2.5% in 2002. However, some economists remain cautious about the prospects for a strong recovery, arguing that the economy may struggle to sustain a robust pace of growth.

Big Thinkers

Foevem's Camera Breakthrough

Foevem, a startup company based in Mountain View, California, has developed a camera that can capture images in three dimensions. The company's technology, which captures images from a single viewpoint, is based on a complex algorithm that takes advantage of the human eye's ability to perceive depth. With Foevem's technology, which captures multiple images simultaneously, the company hopes to make possible a revolution in digital photography that could lead to higher-quality still images, higher-quality video, and new applications for 3D imaging in fields such as medicine and entertainment.

Vaccine Shortages

Are at Crisis Level

Seven strains of vaccine for use in 174,000 immunizations have run out in the U.S. as a result of the current immunization program. The shortage is expected to last until mid-March, when a new batch of vaccines will become available. The shortage has been caused by a combination of factors, including a shortage of raw materials and a delay in the production process. The shortage has led to concerns that some children may not be fully vaccinated, putting them at risk for preventable diseases.

Private Eyes Bid to Track Students

How to go from Student to Senior VP

Chris Foevem, a high school senior in San Francisco, has created a credit bureau that allows schools to track students' financial information. According to Foevem, students who are in financial difficulty may face greater pressure to achieve academic success. As a result, schools may be more likely to lend money to students who are at risk of failing. Foevem's system would allow schools to monitor students' financial status and take action if necessary.

Nokia, Samsung

Lead Ailing Sector

Cell phones are becoming increasingly popular, but the market is also becoming more competitive. Nokia and Samsung are among the companies that are leading the way in the market. The two companies have been increasing their market share by introducing new models and features. Nokia's new model, the 6310, has been especially popular, as it includes features such as a digital camera and a music player. Samsung's new model, the SGH-i600, has been praised for its large screen and its ability to play videos and music.

FSI Oil Well

Martinez Overtakes Exxon

Bedford, VA-based Bedrock Drilling Inc. has become the world's largest oil-drilling company, surpassing Exxon Mobil Corp. The company's move comes as the oil industry faces increased competition from natural gas and renewable energy sources. Bedrock's success is due in part to its ability to adapt to changing market conditions and to its focus on cost-effectiveness.

Foevem's Camera Breakthrough

How a typical digital camera works:

- Sensors: The image sensor captures light and converts it into an electrical signal.
- Image processor: The processor converts the raw data into a digital image.
- Memory: The memory stores the image until it can be transferred to a computer.
- Output: The image can be viewed on the camera's display or downloaded to a computer via a cable or wireless connection.

Electronic flash: When the flash is turned on, it emits a bright light that illuminates the subject. The flash is synchronized with the shutter to ensure that the image is captured at the correct time. The flash can be adjusted to control the amount of light that is emitted, allowing the photographer to create different effects in the final image.

Foevem's technology captures multiple images simultaneously, allowing for higher-quality images and new applications for 3D imaging.
Lady Bisons Continue Undefeated
Streak With 84-66 Victory Over Coppin State

By Aisha Chery

With another win, the Lady Bisons improved their record to 19-0 on the season and 10-0 in conference play. The team continues to dominate conference play and lead the MEAC standings.

The Lady Bisons dominated the game from the start, outscoring the Coppin State Lady Lions 46-27 in the first half. In the second half, the Bisons maintained their lead, scoring 38 points to Coppin State's 39. The Lady Bisons now have a 19-game winning streak.

Key players for the Lady Bisons included Aisha Chery, who scored 15 points, and Mary Johnson, who contributed 10 points. The team also had a strong performance from the bench, with numerous players scoring double digits.

After the game, Head Coach Brenda Johnson expressed her satisfaction with the team's performance, stating, "Our defense was key today. We held Coppin State to only 39 points, which is a significant accomplishment."

With the win, the Lady Bisons move closer to the MEAC Championship. The team will continue their winning streak as they prepare for their next conference game against Morgan State.

Sports Friday

Williams leads Bisons to 88-72 Victory Over Hawks

By Aisha Chery

Victory Over Hawks

Kyle Williams scored a season-high 31 points and 11 rebounds, leading the Lady Bisons to a decisive win over the Howard Women's Basketball team. The win was significant in that it secured the team's second consecutive conference championship.

Williams, who is known for her all-around game, also had 8 assists and 5 steals. Her performance was key in the team's victory, as she was able to create opportunities for her teammates.

Head Coach Brenda Johnson praised Williams' performance, stating, "Kyle is our engine, and tonight she showed why. Her ability to create for others while also scoring is what makes her so special.""
