## Scope Note

E. Franklin Frazier was a sociologist, educator, author, lecturer, and head of the Department of Sociology at Howard University from 1934-1959. The papers, which consist of personal and family materials, correspondence, subject files, writings by Frazier and others, research projects and notebooks, photographs, memorabilia, awards, certificates, and scrapbooks, were donated by his wife, Marie Brown Frazier, in 1977. The materials span the years 1908-1962 and total 75 linear feet.

Subject files comprise a major portion of the Frazier Papers. Included in these files are topics pertaining to the Negro family, Negro youth and race relations. There are files related to Dr. Frazier's books, as well as files documenting his very active career in sociology and education. Of note are the files related to Dr. Frazier's involvement with UNESCO (United Nations Educational Social and Cultural Organization). During Dr. Frazier's tenure with UNESCO, he served as chairman of the Committee of Social Scientists (1949) and as chief of the Division of Applied Sciences (1951-1953). Also included in the subject files are materials related to the many organizations with which Dr. Frazier was affiliated. Some of the organizations documented are the African Studies Association, American Association of University Professors, and the American Sociological Society.

Another important series in the Frazier Papers is the writings of Dr. Frazier which include materials relating to the following books: *The Negro in Chicago*, *The Negro in the United States*, *Race and Culture Contacts*, *The Black Bourgeoisie*, *The Evolution of Religion Among American Negro*, and *The Negro Church in America*. There are also unpublished manuscripts, numerous articles, chapters in books and public statements which include speeches and lectures.

### Scope Note continued

There is an extensive amount of research material in the Frazier Papers. These materials include background research, surveys, reports and notes related to the many research projects Frazier conducted. These materials are arranged into three series: research projects, research project notebooks, and research material.

Some of the projects documented in this series are: the Negro family in the United States, an exhaustive study into the social origins of the Black family, the Negro in Harlem (the Mayor's Commission on Conditions in Harlem), and the Negro Youth Study. Here are also numerous research materials pertaining to Brazil, Haiti and the Caribbean.

## Scope Note

E. Franklin Frazier was a sociologist, educator, author, lecturer, and head of the Department of Sociology at Howard University from 1934-1959. The papers, which consist of personal and family materials, correspondence, subject files, writings by Frazier and others, research projects and notebooks, photographs, memorabilia, awards, certificates, and scrapbooks, were donated by his wife, Marie Brown Frazier, in 1977. The materials span the years 1908-1962 and total 75 linear feet.

Subject files comprise a major portion of the Frazier Papers. Included in these files are topics pertaining to the Negro family, Negro youth and race relations. There are files related to Dr. Frazier's books, as well as files documenting his very active career in sociology and education. Of note are the files related to Dr. Frazier's involvement with UNESCO (United Nations Educational Social and Cultural Organization). During Dr. Frazier's tenure with UNESCO, he served as chairman of the Committee of Social Scientists (1949) and as chief of the Division of Applied Sciences (1951-1953).

Also included in the subject files are materials related to the many organizations with which Dr. Frazier was affiliated. Some of the organizations documented are the African Studies Association, American Association of University Professors, and the American Sociological Society.

Another important series in the Frazier Papers is the writings of Dr. Frazier which include materials relating to the following books:

The Negro in Chicago, The Negro in the United States, Race and Culture Contacts, The Black Bourgeoisie, The Evolution of Religion Among American Negro, and 'The Negro Church in America. There are also unpublished manuscripts, numerous articles, chapters in books and public statements which include speeches and lectures.

There is an extensive amount of research material in the Frazier Papers. These materials include background research, surveys, reports and notes related to the many research projects Frazier conducted. These materials are arranged into three series: research projects, research project notebooks, and research material.

Some of the projects documented in this series are: the Negro family in the United States, an exhaustive study into the social origins of the Black family, the Negro in Harlem (the Mayor's Commission on Conditions in Harlem), and the Negro Youth Study. There are also numerous research materials pertaining to Brazil, Haiti and the Caribbean.

## Series Description

### Series A

#### Personal and Family Papers

Box 13-1  
to 131-5

This section contains the personal papers of E. Franklin Frazier including biographical information, commemorative materials, academic and career related materials, diaries, memorabilia, newspaper clippings, programs, legal and financial papers. Also contained here are materials concerning the dedication of the E. Franklin Frazier Elementary School in June of 1972, and the E. Franklin Frazier lecture series held at Howard University in 1962.

The family papers contain personal correspondence, mostly letters of condolence to his wife, Marie Brown Frazier, upon Dr. Frazier's death. There are also articles, clippings, legal and financial papers, diaries and other memorabilia which relate to Mrs. Frazier and her husband's affairs. Other family papers consist of personal materials of Calvin S. Brown, Mrs. Frazier's father who was founder and President of the Water's training School in Winton, North Carolina.

### Series B

#### Correspondence

Box 131-6  
to 131-18

The correspondence series is an alphabetical listing of letters, telegrams, postal and greeting cards, announcements, bulletins, invitations and messages to and from E. Franklin Frazier. It spans the years 1917 to 1962. This series consists of general correspondence pertaining to Frazier's work as a sociologist, lecturer, professor and head of the Sociology Department at Howard University. There are some materials in connection with his early years at Tuskegee Institute and the Atlanta School of Social Work. Although the largest portion of correspondence is contained in this series, other correspondence may be found throughout this collection, particularly in the subject files (see Series C).

Series C

Subject Files

Box 131-19  
to 131-56

The subject files comprise a major portion of the Frazier Papers. The files are arranged alphabetically, and cover a broad range of subjects. This series represents the office files of Dr. Frazier and have been maintained as close as possible to the original order. Many of the subjects overlap with materials in other series, particularly those in connection with Frazier's major publications. The subject files also contain a significant amount of correspondence, that may overlap with materials in other series, particularly the correspondence series. For example: correspondence related to speaking engagements may be found in Series B Correspondence "Cards and Invitations" (Box 131-17 to 131-18) as well as in Series C Subject Files "Speaking Engagements" (Box 131-50 to 131-54) and "Inquiries" (Box 131-33 to 131-34).

Some of the more important subjects highlighted in the subject files are the numerous organizations for which Dr. Frazier was active such as the African Studies Association, American Association of University Professors, and the American Sociological Society. Also highlighted in this series are files with reference to his books, including *Black Bourgeoisie*, *Negro in the U.S.* and *Negro Youth at the Crossways*. Other notable subjects are *Negro Youth Study*, *UNESCO*, and the conference on *Race Relations in World Perspectives*, 1954

Series D

Writings by E.F. Frazier

Box 131-57  
to 131-81

Within this series can be found writings and public statements written or made by E.F. Frazier. This series includes arranged and unarranged materials. The writings include: books, chapters in books, articles, and book reviews. The form of these writings vary. In some cases an outline, a handwritten draft, a typed manuscript, as well as a copy of the published writing can be found within the collection. In other cases Only the manuscript, the rough draft, or the published articles have survived with the collection. Another group of materials in this series are unarranged rough drafts. No attempts have been made to impose arrangement

on these writings. Public statements which include speeches and lectures have also been placed in this series. Of special interest in this series are several works by Frazier that are unpublished or in some cases published but seldom mentioned in bibliographies as Frazier's writings, A good example of this is an early Frazier pamphlet, "God and War."

Series E                      Research Projects

Box 131-81  
to 131-122

This series contains materials which document various research projects conducted or directed by E.F. Frazier. The materials are numerous and include: case studies, family histories, census data, questionnaires, interviews field reports from project investigators, correspondence, notes and in some cases reports on the projects.

Within this series, the Negro family in the United States research project, is of special interest. This extensive study into the social origins of the Black family is rich with biographical and genealogical information. It is just as rich with information documenting Black social history, family life and traditions.

Also of note is the research project, "The Negro In Harlem," (officially titled "The Mayor's Commission on Conditions in Harlem," and sometimes referred to as the "Harlem Survey"). In conducting this sensitive project which came into being following the Harlem "riot" of 1935, Frazier received worldwide recognition as a prominent Black sociologist.

Series F                      Research Project Notebooks

Box 131-123  
to 131-132

This series consist of materials which document research conducted or directed by E.F. Frazier. Most voluminous are the Negro Youth Study and the Harlem Survey, (The Mayor's Commission on Conditions in Harlem: Survey of Conditions in Harlem). Items in

this series duplicate in some cases materials within the research projects series. Included are case studies, census data, questionnaires, interviews, field reports, correspondence, and photographs. Some materials within the Negro Youth Study appear to have been collected originally for the Harlem Survey, and later used to complete the profile of the Negro Youth Study. The materials in this series were originally filed in looseleaf notebooks. Folder titles with the container listing reflect the titles of the original notebooks

Series G                      Research Materials

Box 131-133                      This series includes notes, bibliographies  
to 131-137                      and some documentary materials such as  
   reports, charts, maps, and census information. Notes which document Frazier's interest in Brazil, Haiti, and the Caribbean can also be found in this series.

Series H                      Writings by Others

Box 131-138                      This series is devoted to writings by  
to 131-140                      persons other than E.F. Frazier. It includes mimeographed, typed and printed articles. Many of the items in this series were given to Frazier due to his knowledge of and interest in a particular subject or his association with the author. In some cases the articles are signed and include notes addressed to Frazier.

Of special interest is a typescript of an obscure 1876 pamphlet by John E. Bruce, Washington's Colored Society.

Series I                      Photographs

Box 131-141                      This series includes photographs of E.F.  
to 131-142                      Frazier, family members, associates, and places of interest, most notably Haiti and Bahia.

Series J                    Memorabilia

Box 131-142                This is a small series consisting of:  
E.F. Frazier bookplates, Reichsbank  
notes, posters, a photograph of a  
letter addressed to Ollie Harrington  
and a musical score.

Series K                    Scrapbooks/Photo Albums

Box 131-143                This series contains scrapbooks and  
to 131-145                   photo albums, The scrapbooks appear  
to have been collected by James E.  
Frazier, father of E.F. Frazier. They  
contain newsclippings which document  
American and world events circa 1900-  
1903. The three photo albums in this  
series contain photographs of Frazier,  
his family, friends, and associates.  
The photo albums, which date from 1947-  
1962, also include invitations to  
numerous social functions.

Series L                    Diplomas, Awards, Certificates

E. Franklin Frazier Papers  
Alphabetical Name Index  
to  
Family History Questionnaires  
Box 131-96 to 131-102

This listing is arranged alphabetically by last name. The questionnaires are arranged numerically (as maintained by E. Franklin Frazier.) To access specific questionnaires cross check the file number with the container list in the register to the E. Franklin Frazier Papers. The register will give the box and folder number where the questionnaire is located in the collection.

Please note there are some forms in which there is no signature or the signature is illegible. There are also questionnaires where only the last name is listed other information in the questionnaire may provide specifics to identify the particular family.

There are some missing numbers within the sequence of questionnaires. All of the questionnaires which were received with the E. Franklin Papers are included in the collection. No forms were removed by MSRC staff.
