INDUSTRIAL DEPARTMENT.

All students in the Preparatory and Normal Departments are required to attend, at specified hours, on instruction in certain trades; and those in the other Departments are permitted and encouraged to avail themselves of the same opportunity. The instruction is gratuitous. This arrangement affords exercise, trains in useful employments, and opens the way to earn needed money. The branches taught at present are: Tin and Iron Work, under the Superintendent, Mr. Wm. F. Mitchell; Printing, under Mr. Arthur St. A. Smith; Shoemaking, under Mr. Sterling Hester; Tailoring, under Mr. Samuel G. Mickey; and Carpentry, under Mr. James H. Hill; while female pupils are instructed in Needlework and Sawing by Miss Louise Jacobs. On Saturdays, pupils not otherwise connected with Howard University are allowed the advantages of the Industrial Department for a small compensation.

SPECIAL STATEMENT.

UNIVERSITY SITE AND BUILDINGS.—The institution occupies an elevated and beautiful site at the northern edge of the city of Washington, on a campus of twenty acres, fronting a Park of ten acres, and having the Reservoir Lake immediately adjacent, on the east. The University edifice, four stories in height, contains recitation and lecture rooms, chapel, library, philosophical rooms, museum, and offices. The Medical Building is on
the south of the Park, and the Law Rooms are on Ninth street near D street. Minor Hall is set apart for young lady students and Clock Hall for young men. Industrial Hall is devoted to instruction in various trades.

Admission.—The institution offers its advantages without regard to creed, race, or sex, but is not intended for beginners. Applicants will be rejected, in all the Departments, if they have not pursued the studies previously necessary. The requirements are higher than in most Southern institutions.

Expenses.—No tuition is charged in the Theological, Normal, Preparatory, and College Departments. Room rent is $15 per year, payable, $8 at the beginning of the autumnal term, and $7 at the beginning of the winter term. Board is $8 per month. All bills must be paid in advance. Washing costs $1 to $2 per month. Rooms are furnished with bedstead, mattress, chairs, table, book-case, and stove; all other furniture, such as crockery, towels, sheets, blankets, pillows, pillow-cases, and lamps, must be supplied by students. This must not be forgotten.

Religious Exercises.—A Bible class and a preaching service are held on the Lord’s Day, and there is a daily religious exercise in the Chapel. There is a prayer-meeting on Thursday evening, conducted by the officers of the institution, and another on Saturday evening, conducted by students.

Literary Societies, Library, Cabinets, etc.—Literary Societies are formed in each of the Departments for improvement in elocution, extemporaneous speaking, written discussions, and literary culture. The library numbers over 12,000 volumes. There is a mineral cabinet and museum.

Aid to Students.—Aid is given to worthy students, who need it, so far as contributions made for the purpose will allow.

CALENDAR FOR NEXT UNIVERSITY YEAR.

1886.
March 8. Anniversary of Medical Department.

ANNUAL STATEMENT.

The students, whose names appear in this year's catalogue, are from the following States, Territories, and foreign lands: Alabama, Arkansas, Connecticut, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Bulgaria, and the West Indies. The number, 104, is slightly in excess of last year.

Professor Wiley Lane, filling the chair of the Greek language and literature in the College Department, died, after a brief illness, on February 16th, 1885. He was an alumnus of this Institution, and had also been Principal of the Normal Department, and his memory will be cherished by those who knew him, while his race will hold his name in honor as one who rose from amid all its discouragements to a position of distinction.

The Industrial Department is advancing on its second year with marked success. As the means may be furnished, purchases of needed tools and machines will be made, and additional trades will be taught. Lately instruction has been given in the use of Remington's Typewriter. The large increase of Theological students, (this year numbering fifty, and drawn from six different denominations) will give great satisfaction to those who appreciate the necessity of an educated ministry to the progress of the colored race. This important department calls for several endowments, as it does not share in the Congressional appropriation, and only a single chair has a permanent provision for its support. Every Department, Literary and Professional, male and female, is making steady progress, and the instructors and trustees of the University look to the future with assured hope. The thanks of all interested in our work are due to the trustees of the John F. Slater fund, for important aid given to the Industrial and Normal Departments; to the Women's Home Missionary Association of Boston, Mass., for continued support of the Matron; and the American Missionary Association for indispensable assistance in the maintenance of the Theological Department.
