COLLEGE NEWS

TWO members of our faculty have been on sabbatical leave for the year 1937-38.

Dr. Robert M. Hendrick is completing his graduate study at the University of Michigan. Dr. Hendrick is an Assistant Professor in Operative Dentistry and Director of the Department of Oral Hygiene.

Dr. Emmett J. Scott, an instructor in Orthodontia, has completed his study for an advanced degree in Orthodontia at Harvard Dental School. He was awarded the Lewis and Harriet Hayden Scholarship by the Harvard Corporation. An article, "Space Maintenance—Its Theory and Practice," written by Dr. Scott, was recently published in the American Journal of Orthodontics and Surgery.

A son, Raymond, Jr., was born on February 1, 1938, to Dr. and Mrs. Raymond L. Hayes. Dr. Hayes is an instructor in Dental Pathology.

The Committee on Dental Education and Guidance reorganized the Molar Club of pre-dental students at Howard. The membership consists of twenty-seven.

In the interest of Dental Education and Guidance a number of colleges and universities were visited by Dean Dixon and other members of the faculty. Dr. Garvin, Dr. Davis and Dean Dixon addressed the various student bodies in chapel, after which all interested students were interviewed by Dr. Madison.

During the year 1937-38 the Dental Faculty presented the following seminars: November 11, 1937, Dr. Raymond L. Hayes, "The Immunology of Dental Caries." The Discussion was led by Dr. Ruth E. Moore.

January 4, 1938, Dr. J. H. Nicolson, "Routine Mouth Examination." The discussion was led by Dr. Mavritte.

February 18, 1938, Dr. E. E. T. Mavritte, "Relative Values of Various Impression Materials in the Construction of Partial Dentures." The discussion was led by Dr. Adolphus Walton.

April 1, 1938, Dr. C. Carnot Evans, "Root Resorption in Permanent Teeth." The discussion was led by Dr. W. J. Madison.

May 11, 1938, Dr. Adolphus Walton, "A Technic for Immediate Full Denture Restoration." The discussion was led by Dr. E. E. T. Mavritte.

Dr. Jackson L. Davis spoke at the Women's Vocational Conference at Frazier Hall on "Opportunities in Dentistry for Women." He was assisted in the round table discussion which followed his talk by Dr. Madison and Mrs. Howard.

Members of the Dental Faculty throughout the year have had the pleasure of contributing to the program of the following dental organizations:

At the Old Dominion Dental Society meeting held in Fredericksburg on April 18th and 19th Dr. Davis, Dr. Garvin and Mrs. Howard contributed to the public meetings.

A week later, Dr. Fitzgerald and Dr. Turner presented clinics at the Palmetto Medical and Dental Society meeting in Columbia, S. C.

Dr. Fitzgerald also presented a clinic at the North Carolina State Convention early in May.

Dr. Nicolson has presented two clinics. One on May 24th in Philadelphia for the Odonto-Chirurgical Society and on June 19 at the Harlem Hospital in New York City.

It is gratifying to announce the registration, as of September 1934, of the Department of Dental Hygiene with the Board of Regents of New York State. By this registration our Dental Hygiene graduates who comply with the other requirements are admitted to the New York State Board examinations.

We note with pride in the October 1937 number of the National Negro Health News the inclusion of an abstract from one of our student contributions to *The Dentoscope*. The article, entitled "Dental Education in America," was written by G. M. Norris, '40, for the May 1937 issue of the *Bulletin*.
