Dr. Albert O. Reid was born in Gatesville, North Carolina, and received his early education

DR. ALBERT O. REID

in the public schools of his native town and later at Hampton Institute, from which he was graduated in 1903.

During the winter of 1903-1904 he served as principal of a public school at Murfreesboro North Carolina. In the fall of 1904 he matriculated at Howard

University College of Dentistry, and in June, 1907, was awarded the D. D. S. degree as the outstanding member of his class. In January of the following year he entered into the practice of dentistry in Baltimore, Maryland, and has had unusual success in that city over the years.

During his long residence in Baltimore Dr. Reid has alligned himself with the institutions that stand for social progress. He is a member of the National Dental and National Medical Associations and their local societies, and was a charter member of the parent organization of the present National Dental Association, its treasurer, and its president.

For twenty-five years he has held the office of clerk or trustee of the Union Baptist Church. Among his other affiliations are: Membership on the Board of Directors of the Urban League and of Provident Hospital, in the Masons, and in the Knights of Pythias.

Dr. Reid has not been content to give only of his time and talent for the uplift of his race, valuable though these contributions have been, but in the field of education, especially, he has given quite generously of his money. Howard University School of Medicine received a cash contribution of \$1,000 from

him at one time. Hampton Institute, Morgan College and Tuskegee Institute have all been recipients of his benefactions from time to time.

1924

Dr. H. Cicero Edwards is the efficient secretary of the Robert T. Freeman Dental Society of Washington, D. C.

The class of '24 held its first reunion last August. Among those present were: Drs. Mary Jane Watkins, Laddie Melton, Judson E. Best, Robert Challanor, C. P. Absolom, E. B. Presley, Harry Hardwick, Sylvester Smith, Walter E. Swinson, Charles Watts, Bernard Christmas, William Beaman, William Mason, Richard Bland, O. E. Dabney, L. C. Jones, E. E. T. Mavritte, B. B. Young, H. C. Edwards, Bernard Manning, and F. H. Norris, Jr.

The class seems to be holding its own in the midst of the advances in modern Dentistry. We find F. H. Norris Chairman of the National Exhibits of the National Dental Association; C. P. Absolom, New York State Of-

ficer of National Dental Association; Sylvester Smith, Assistant Secretary of the National Dental Association; Harry Hardwick, Pennsylvania State Vice-President. Among the regular Clinicians at the last convention of the National Dental Association we found '24 represented by: Mavritte, Hardwick and Syl Smith. The destiny of "The Old Dominion State Dental Society" for 1938 is under the capable leadership of Richard Bland.

The class went into permanent organization, electing as President, B. D. Young, of D. C.; Vice President, L. Melton of Texas, and J. E. Best of New York, Secretary-Treasurer.

Among communications received to be read before the convention (reunion) was one from J. A. Swann, who is doing well in Jamaica (Kingston), B. W. I. Communications were also received from V. H. Dubois, W. J. Bacon of New York, and Richard McGhee of Kansas, expressing good wishes for the success of the class, and expressing their regrets over their inability to be present.

The faculty of the College of Dentistry is happy at all times to hear from its graduates, and to be informed as to just how they are meeting the many challenges that the world offers today. It is especially concerned with those who have come to the school from foreign lands, and who,

after completing their courses here, have returned to their homelands to administer to the needs of their countrymen.

Some time ago there came to one of the members of the faculty felicitations from Dr. C. A. James Swann, Jamaica, B. W. I., of the class of '24. Two pictures of this graduate were inclosed in his letter of greeting, and they told an interesting story. They gave evidence that

the doctor, living under the beneficent rays of the tropical sun, if pictures can be offered for evidence, is enjoying excellent health. One picture further indicated in light of the very modern equipment Dr. Swann displays, that his patients, in the

land of beautiful palms are receiving a high class dental service.

The members of the faculty are very grateful for this son's interest in the affairs of his alma mater, and they certainly wish for him endless success.

Dr. Fleming H. Norris is the proud father of a third son.
