History of Theological Class

The Class of '23 has a rather singular history. Of the large number who registered in 1919 only one remains. The rest either graduated last year or have suffered through the sifting process so well known to all students of the University. Yet with the reinforcement that came to us during the years 1920, 1921 and 1922, we are still worthy of being called a class.

We have planned great things for the future but the world is before us, for experimentation by some, and for further experience by others. We hesitate to bid farewell to the old Seminary. Its inspiration shall ever follow us; its precepts shall ever be our guide. Our friends there we shall never forget, and the standard of truth and uprightness there unfurled we shall endeavor to keep aloft. We cannot say Good bye. We are vital parts of Howard. We pledge our allegiance to her, and resolve to be loyal to her ideals.

CAP AND GOWN DAY

Class History

As Freshmen

We, the Class of '23 made our grand appearance at Howard in the fall of 1919. Of course we were a little "green" at first, but we soon adjusted ourselves to the surroundings. The Sophomores expected to have a glorious time at our expense but we fooled them by "turning the tables." We were three hundred and fifty strong, and for the first few days we *had* the Campus.

Never shall we forget our first year which was very eventful. The first great happening, which was the Freshman-Sophomore Debate, occurred the fifth of December. Our debaters were Edward Simmons, Z. Alexander Looby, and Earle R. Alexander. It was Looby who scored the point of the evening when in his timely rebuttal he referred to the laws in the Mexican Constitution. On that memorable evening, Edward Simmons won the loving cup for being the best individual speaker. Our joy was exceedingly great that evening when we marched out from Rankin Memorial Chapel amid cheers and upheld our colors of purple and gold.

In March, 1920 we were the winners of the basketball game.

The Girls' Forum was formed in April, 1920. In May we had another Freshman-Sophomore Debate, the Class of '23 being represented by Lillian Barlow, Charlotte Knight, and Eunice Mathews. Again we were the victors.

As Sophomores

Most of our class returned the following fall. We all were glad to be back at dear old Howard where we had spent so many pleasant days.

A great change took place as far as our victories were concerned the second year for we met with defeat on several occasions. However, the year was pleasantly spent because we had become better acquainted with our class-mates and with our teachers. During this year we were exceedingly fortunate in being represented in athletics by "Bulldog" Williams, who won for himself great fame on the gridiron; Raymond Contee, who participated in both football and track, and Robert Craft and Carl Kent, both of whom were successful on the track.

In "Emperor Jones," a play which was given by the Howard Players, "Bulldog" Williams starred as the Emperor, being supported by Eunice Mathews. Both received great praise and we, as a class, were very proud of their achievements.

As Juniors

In our Junior year we assumed the responsibilities of upper-classmen. We realized that now was the time to choose our life work and to do all we could toward bettering ourselves. During this year, we turned our attention to the bigger things of life and we tried to do only those things that would reflect credit on ourselves and the University. The girls of the class realized that this was the period of Reconstruction and that their responsibilities were many, therefore, they joined themselves together and formed the Vigilance Club which met every Sunday evening. The girls

worked in unity and each did her "bit" towards making a better Howard University.

During our Junior year University scholarships were awarded to the following members of our class: Theodora Velma Fonteneau, Accounting; Lillia L. Martin, English; Eunice Matthews, Sociology; Gladys D. Warrington, Education; Mildred Felton, Music; Captoria Gwyn, Applied Science; Marie I. Washington, Psychology; Wisner Jackson, Finance; Charles Williams, German; L. Mary Belle Wright, Mathematics; Arthur Ferguson, Applied Science.

Outstanding members of the class representing '23 in Dramatics have been Helen Webb Harris, Joe Nicholson, and Purvis Chesson, all of whom have always played a great part in all the activities of the University life.

As Seniors

We have now come to our Senior year and as we look back we realize how quickly the years have passed. It doesn't seem possible that soon we are to go out in the world—some to go one way and some to go another. We fully realize that we are no longer children, and that as the years go by, our responsibilities will grow. There is a great work to be done and it is up to us to work hard, not only for ourselves but for our fellow men.

Wherever we go we must never forget that we are sons and daughters of Howard. Let the poet Schiller guide us in the future by "The Three Lessons,"

There are three lessons I would write,
Three words as with burning pen,
In tracings of eternal light,
Upon the hearts of men.

Have hope, though clouds environ now
And gladness hides her face in scorn,
Put thou the shadow from the brow
No night but hath its morn.

Have Faith, where'er thy barque is driven,
The calm's disport, the tempest's mirth—
Know this: God rules the host of heaven
The inhabitants of earth.

Have Love. Not love alone for one,
But man as man thy brother call,
And scatter like the circling sun
Thy charities on all.

Thus grave these lessons on thy soul—
Faith, Hope, and Love—and thou shalt find
Strength when life's surges rudest roll,
Light when thou else wert blind.

Class Prophecy

Setting: The Desert Land of Arabia

For days we had been driving over the large expanse of desert land in Arabia. Finally, we became tired of our journey and settled to rest awhile. There was a party of six: Gwendolyn Redding, Mamie Neale, Eleanor Harper, and myself, also, two Arabians, who were our pilots. My! but we were happy to rest ourselves—to think over the many interesting scenes we had come across in our entire journey through Europe. We were seeking an education through travel and indeed, we were gaining one. The third day of our settlement in the desert something rather strange, yet fascinating and interesting, occurred. One of the guides took from his bag a box of sand as pretty as one ever could see on one's travels.

"For what purpose is this?" all questioned.

"Be calm," returned our guide. "I have the gift of prophecy through the aid of the sands. Listen yet awhile and I shall tell you all of the past, present, and future."

"Through the aid of so simple a thing as the sands you can tell us miraculous things?"

"Yes, simply this alone," was the answer.

All four of us were in serious doubt as to the truth of the statement, therefore, we decided among ourselves to ask the most difficult question possible. "Now, we have it!" said Gwendolyn. "Tell us how many years ago we had our Commencement at Howard and who and where are our classmates. If this you can answer, I will have you tell each of us our future for then and only then, shall we believe in you and your mystic power."

"That question is very easy—why not ask me something taxing? Well, if this you desire to know, be patient and you shall know all. It was seven years ago from June that you had your Commencement. Ever-so-many students were your classmates. Do you know Contee, Huggins, George Williams, Adams, Harmon, Goins, Higginbotham? Well, they are on the hospital staff at Freedmen's Hospital, if I am seeing correctly."

"Oh! you have been to America I know. You must have," said all of us in concord. "How could you tell the names so correctly, did you not know them?"

"Never interrupt me while I am reading the sands. I cannot collect my thoughts well when you do. I will continue if you promise not to disturb me. Hazel Harvey is head of the Psychology Department at Howard—your Alma Mater—and she has won fame in that field. Thelma Stephenson has married "Cute" who is now a doctor and they will visit Attorney and Mrs. Simmons nee (Lilla Martin) next week when they attend the Doctor's Convention in Cleveland, Ohio."

"We don't see how you can do this, and furthermore, we don't believe a word of it," we exclaimed in surprise.

"I will not continue," returned the Arab, "I've have been insulted."

"We promise never to interrupt again if you will only proceed."

"With this entreaty, I can do nothing but obey. Charles Boyd and Clarence Young are 'heads' of a bank in Chicago. I believe that Charles is the president. Linear Bryant, Lorenzo Brown and Boatswain are partners in a law office in New York City—it seems as though they are situated where there are many people of your race and creed—maybe Harlem is the name I see; yes it is Harlem.

"Now, I see the name Cora Ruff. She is a field secretary in connection with the Young Women's Christian Association and at present she is in Kansas City. Margaret Lawrence and Webster Sewall are doing research work in the study of plants—maybe the name is biology, I can't quite get it clear. Nichols is pastor of a church in Michigan. Sam Lassiter and Joe Moore have a store where they sell buildings. Oh! it is real estate.

"June Austin, Georgette White, Captoria Gwynn and Pearle Clarke are dieticians in St. Louis.

"Gladys Turner and Theodora Fonteneau are doing clerical work in the bank of Boyd and Young. Mary Belle Wright, Ethel Carter, and Edith Estill are teaching in Wilmington, Delaware.

"Henry Moon and Edwin Johnson are doing very well in journalism and they are editors of two of the leading magazines of America. Ruth Butler married Miles. Clifford Clarkson and Clifford Clark are now District Attorneys.

"My! but that was a large class, for I continue to see names—only be patient and I shall tell you all of them. Maggie Samuels is married to Lawyer Looby, the once great debater. Mabel Cloud was teaching in a conservatory in Washington; now she has married Jack Young who is in real estate business with Joe Nicholson. Both young men are doing exceedingly well.

"Arneita Taylor is now Mrs. Lassiter—did I not tell you of a Mr. Lassiter before? John Crawford has received the Ph.D. that he so much worked for and is now acting as an educator.

"The sands never fail me ladies, always they tell the truth. I gathered them from a mysterious place the history of which you must not know. They tell me further: Zelma Tyler, Emma Williams and Ida Woodford teach in Baltimore. Willie Butler, also, teaches. Your classmates—all of them—have done well. In your travels you shall meet with many of them—not on this continent but in America, the land of wealth and abundance. Now I am through; are you satisfied that my sands are truthful? Need I convince you further that I possess the power of prophecy?"

"You have told us more than enough. We are proud of the class of '23. You have carried us back through the years and our college days we have lived over in those few moments. As the poet says:

"We thank you
Three words that can hardly be mended.
Tho' phrases on phrases their eloquence pile
You can hear the heart throb,
With their wonderful splendor
And read all they mean in a sunshiny smile."

M. VIRGINIA CRAWFORD

Class Will

WE, THE MEMBERS OF THE CLASS OF '23, being in sound mind, do hereby give, bequeath and devise to the members of the Junior class the following articles, to wit:

First: all the buildings connected with Howard University situated upon what is known as Howard Campus and extending from Clark Hall on the north, the Reservoir on the east, Freedmen's Hospital on the south, "Sam's store" on the west, in whose classic confines is found one vast and incomprehensible store of knowledge. It is up to said Junior class to dive into the deepest recesses of that storehouse and bring forth its contents.

Second: we give, devise and bequeath one classroom, numbered 315 and taught by one Professor Metz Tullus Paul Lochard, with the advice to spend the days in the Library of Congress reading instead of gossiping. Also we bequeath the time-worn expressions: "Sufficient"; "Et cetera"; "Rapid translation, clean cut, close to the ground"; "Read, read, read, get facts"; all to the aforementioned Junior class.

Third: we leave to all subsequent classes our inimitable witticisms, apothegms, and propensity for innovations such as the Vigilance Club.

Fourth: we leave to all those who follow us, our places in the gymnasium classes which we have occupied so unwillingly with all the articles and utensils found therein, such as parallel bars, dumbbells, indian clubs, and a broken down, dilapidated, much-abused piano on which the solemn strains of "Humoresque" have been played times without number, to the accompaniment of which inaesthetic forms tried to go thru the motions of the dance.

Fifth: we bequeath all the privileges that were not ours to enjoy, to the incoming classes.

Sixth: we who reside in Miner Hall give all the nourishing, palatable, and delicious hashes, soups, stews, and so-called meats regularly served to us, to all new-comers residing in said hall.

Seventh: we leave Professor Harvey's leather bag with the note books contained therein (without which it would be impossible to learn psychology) to all those unfortunate enough to enter his classes.

Eighth: we willingly bequeath to all who tread the rugged road to scholastic success, those condensed note books which we have had to memorize from cover to cover in order to pass the English courses given by Professor Pollard.

The following Individual Bequests are made:

Mary Belle Wright: to her dearest friend, Nellie Hubert, one gram of her mathematical knowledge.

Marguerite Kennerly: to the Conservatory of Music, her many and varied contributions to the music world.

Mabel Cloud: to less fortunate mortals, her perpetual good humor and her matchless wit in addition to some superfluous avoirdupois.

"Pops" Brown: to all the would-be "sheiks," his sharpness and "cave-man" ways.

Virginia Crawford: to her friend Lydia Crawford, her beautiful fur coat.

Eleanor Harper: to Vietta Willard, her periwinkle coat, hat and blouse.

"Tack" Young: to Baskerville, all of his fine monkey-back suits, his Stetson hats, and his magic special-made hair pomade.

Theodora Fonteneau: to the intellectually unendowed, a part of her brains.

Hazel Lee: to Nancy Davis, all of her blonde beauty.

Adele Hunt: to Nellie Miles, the art of a well-kept head of bobbed hair.

Lilla Martin: to the melancholy Corece Eaton, a thousand and one giggles.

Joseph Nicholson: to Glen Carrington, his heavy voice and thundering tread.

Henry Lee Moon: to Terry, the handsome prince, his sentimental ecstasy.

Thelma Stephenson: to Mary Love, her vogue styles and grace in aesthetic dancing.

Althea Chapman: to anyone with nerve enough to accept it, her frigidity.

D. Ward Nichols: to "Billy" Warfield, his conceit and "ego sum."

Carl Kent: to any aspiring young man, his preference for Marys.

"Gerry" Neale: to Emily Pitts, her charming and refined manners.

Cora Ruff: to Eliza Reddick, her New England brogue.

"Sam" Lassiter: to Frank Williams, his incomparable laugh.

Hastings Horne Huggins: to all handsome and popular young men, his instructions on "How to Break Hearts."

Our Varsity men: to next year's team, all honors won.

In conclusion: we leave President Durkee's burning message to each of the successive classes to do the best they can to make Howard the greatest University in the world; to ever stand paramount in the world of education.

ETHEL E. CARTER.

Senior Class Song

Tune—BLOWING BUBBLES

Playtime is past,
And now at last,
Life's broadened pathways are clear.
We've started anew,
With hearts staunch and true,
With the class that to us is so dear,
Hardships always arising,
Dangers that are so surprising.

CHORUS

Class of '23 we're with you.
You are very dear to me,
We ne'er met defeat,
All rivals we beat,
With a smile, shout and cheer,
Without vestige of fear,
We [shall] brave all difficulties,
Victors we shall be,
For we are all loyal members
Of the Class of '23.

Though passing years
Bring sorrow and tears
To those of that class so dear,
Sweet memories and ecstasies.
When e'er her dear name we shall hear
Our loyal support we will lend her.
And we shall always remember.

Chorus

Jonathan L. Young.

THE JUNIOR CLASS

Junior Class History

The career of the Class of '24 culminated in a year and a quarter of unique triumphs, then a reign of indifference and division for a similar period. The transition—F. Robb, L. Crawford, and S. Murray brought in a new constitution as a basis for a more perfect union. The Junior Prom, a success under the supervision of C. Rucker, F. Smith and N. Bacchus aided in creating the desired effect.

Now we present a few select, persevering and deserving members who have been placed in the lead:

President	F. Williams
Vice-President	E. Lewis
Secretary	R. Moore
Treasurer	L. E. King
Chaplain	A. Burke
Critic	M. Burrell
Journalist	F. Smith
Sgt.-at-Arms	Ethel Jones

A new era began. Through the president, programs peculiar to the Junior class have been adopted. Soon afterwards, a proposition was presented for insuring a member or members of the class with an endowment policy, the benefits accruing to the University for the development of a special fund. This to be a token of '24 for their Alma Mater.

This clan will set a new vogue on its "Frivolity Day." This group, mindful of the fact that a great part of college life should extend beyond the daily class routine, has been represented in every phase of extra-curricular activities. We mention a few general examples. We have three varsity debaters, seven stars in dramatics, four members of the Student Council, twelve stars in various fields of athletics, and fourteen men in Band and Orchestra, Thelma Duncan who wrote, "The Death Dance," G. Nash and M. Jones, who have taken leading parts in dramatic plays; C. Gilbert, president N. A. A. C. P.; L. King, Varsity debater for two years; J. Houston and E. Beard elected at large to the Student Council, are only a few individuals worthy of mention.

We glorify in our Junior year, because we have survived the transition period of the Freshman, the sophistication of the Sophomore, the lack of unity in part of the Junior year, the triumphs of all and the beginning of a new epoch at the end of the year. We feel confident that we are a far superior product to what we were three years ago.

So the Class of '24 has successfully completed the third lap of its career. We are on the threshold of a rare opportunity. It should be the largest contributor "on the Hill" to the Medical Endowment Fund, an instrument in fostering a greater union and spirit among the students, to develop real leaders, to develop a Greater Howard, Race and Humanity.

Sophomore Class History

With the history of a successful Freshman year to build upon, the Sophomore Class, or Class of 1925, started out with a plenty of enthusiasm to extend a warm welcome to the incoming Freshman Class. The Freshmen were required to be quite submissive to the upper-classmen, wearing tiny blue and white "paenie" caps, significant of their infancy in the University. Occasionally there were interesting encounters among both the boys and the girls, resulting in little or no damage, but at the same time quite impressive to the Freshmen.

The first social event of the season was the Sophomore Get-to-gether, followed later, on December 9, by the Freshman-Sophomore debate, in which the Class of 1925 was represented by Arthur M. Brady, Greene C. Maxwell, and C. Glenn Carrington.

The Annual Dance of the Class of 1925 on February 21, the evening preceding Washington's birthday, in Spaulding Hall, was pronounced by all who attended to be one of the most successful and unique events of its kind ever given on the campus.

The Sophomore Class is well represented in the activities of the University. On the Varsity football team of '22, Raymond Dokes and Edgar A. Long did excellent work. In nearly all the organizations on the Hill, our Class furnishes the leadership. Maceo Clarke and Phineas Bryant, who, as Freshmen, served on the Varsity baseball team, together with other members of the Class, will represent us there this year. Several Sophomores are now at work with the Varsity debating teams.

The ever-increasing zeal which characterizes Sophomores everywhere is not lacking with us, and great things are expected from the Class of 1925 in all fields in which our members participate.

Senior Law Class History

"Man was made to mourn," said Burns in his poem of the same title, in which he pictures the woes and tribulations of an old man who had the bitter experiences of his life in dealing with man. It is in this masterful composition that he characterizes a man, who during his early years, and who, in the prime of youth, had misspent his precious hours in the joy of life, in "licentious passions," in glorious follies, only to find that Age and Want awaited him, that he might mourn, repent, and curse the memory of his bygone days.

Such thoughts as are expressed by this eminent writer and poet are worth the consideration of every young man and woman, and, especially would I commend it to the class of 1923, who soon will be out upholding the principles of justice and the spirit of justice and the spirit of democracy.

Entering upon the study of law in the year 1921, we have worked faithfully and diligently, and by virtue of this intensive work, we will soon win the honors that will rightfully come to each member of the Senior Class. Each member has thoroughly prepared himself, not only to go out and combat the injustices that will arise, but also to reflect credit upon himself, and bring honor to his Alma Mater—"Dear Old Howard."

In the year 1922, Thomas R. Eaton, a member of the class, was admitted to the Bar of the Supreme Court of North Carolina, and on March 5th, 1923, was sworn and admitted to practice in the Superior Court of Vance County, North Carolina. It is with much pride that we are able to report the success of Attorney Eaton.

It is with equal pride that we are able to report the success of Earle H. Gray, who was admitted to practice in the State of Indiana on December 28th, 1922.

David H. Edwards, President of the Senior Class of 1923, was admitted to the bar of Virginia, December 23, 1922. Attorney Edwards is to be congratulated also for his success in being awarded the "Shreve Prize in Partnership."

Domingo Antonio Lanauze-Rolon is to be commended for being awarded the "Shreve" Prize, in May 1922 in Real Property. Mr. Lanauze-Rolon can, with much pride, claim the honor of being the first member of the Class of 1923, to receive a prize awarded to this class by any Professor of the Howard University School of Law.

E. J. Davis of our class has the distinction of being awarded the first prize presented by Professor Waters, Secretary of the School of Law on the subject of "Quasi Contracts." There were two second prizes given one of which went to Mrs. Mary B. Marshall, Secretary of the Senior Class, and the other to Zilford Carter.

The class has played well her part in the athletic life of Howard. Two sons of '23, are members of the Varsity "H" Club. Joseph Baylor was a member of the 1920 Varsity football squad, and Arthur Greene, a member of the 1921-1922 Varsity track team, is conceded to be the best hurdler on the squad.

It is worthy to mention that the Class of Nineteen twenty-three extended to the Class of Nineteen twenty-two a reception and dansante. This occasion is long to be remembered in that, the senior classes heretofore have not been honored by an undergraduate class of the school. A very pleasant evening was spent and a precedent has been set.

The reward which has come to each of the above mentioned members of the Class is indeed an inspiration, and will be an outstanding feature in their lives. The time

has been well spent, and can be well contrasted with that of the man, who has in his early years, misspent his precious hours in the joys of life, as characterized by Burns.

Of all the beautiful truths pertaining to the progress of the human race, and this our group, none is more inspiring, or fruitful of divine promise and confidence, than the future of our young lawyers, and especially does this apply to the Class of 1923. It can be said without any doubt, that each and every member of this class will be leaders in their respective communities. Upon them will rest the duty of thought, the moulding of character, and the making and shaping of conditions, environments, and destinies of their communities.

I am constrained for a moment to dwell upon the aphorism, "As a man thinketh so is he." This phrase not only embraces the whole of man's being, but it is also comprehensive in its meaning. The accepted doctrine is, a man is literally what he thinks, his *Character* being the complete sum of all his thoughts. And it is upon this, viz., character, that the success or failure of a young man, entering the practice of law depends. Upon *Character*, will the community in which each one resides, estimate the value of one's service to it. As we leave this institution of learning, let us dedicate ourselves to the task of developing our *Character*, that we may be a beacon light of success to others.

We are made or unmade by ourselves; in the armory of thought we forge the weapons by which we destroy ourselves; likewise we can fashion the tools with which we build a reputation which will bring to us that dignity and honor, which benefits every man and woman in the legal profession. This is the standard which the class of 1923 must uphold. In conclusion, I admonish you, to cherish your thoughts, and ideals, for to desire is to obtain. We have accomplished a great deal, but the battle has just begun.

Continue, therefore, classmates, that success may be with you, and as the years roll by, may your lives be filled with the fruits of your toils and your highest ambitions realized.

E. B. WEATHERLESS, *Class Historian.*

Senior Law Class Prophecy

From the American Bar Association Journal for May 13, 1935

Attorney James W. Harrison, of Boston, has recently returned from England, where he instituted proceedings in Chancery to construe the phrase "the King's conscience" exactly and precisely.

Dennis Henderson, head of the Race Adjustment League of Burdo, Mississippi, has just completed his book "Misconceptions of Miscegenation in Mississippi." The book is the best seller at Fredrick Njlimia's book store at Capetown, Africa.

State Congressman Zilford Carter, who is seeking reelection to the Indiana legislature, has finally succeeded in turning the tide against former Vice-President Marshall, contender for the same office, and will be successful if the Marshall organization continues unable to entice the country vote.

Attorney Timothy W. Fisher is chief counsel for the Back & Forth Transportation Company of Norfolk, Virginia. Mr. Fisher has compromised all of the six hundred cases which he has handled for the Company, because, as he says, "The wheels of justice are already clogged with inconsistent, incompetent and irrelevant pleadings."

Dr. Austin J. Holiday is about to complete his treatise on "Medical Jurisprudence." The book can be read at one sitting as it contains only twenty-nine and one-half pages. The book according to the author, is an exhaustive treatise on the subject so far as his experience goes, the few pages to the contrary notwithstanding.

Judge David H. Edwards, justice of the peace at Norfolk, Virginia is the only Negro Democrat in those parts and announces that he will run for the same office and on the same ticket in the August primaries.

Attorney Henry J. Fugett, of Ohio, heads the Gushing Oil Company and as such has called in his old time friend and collaborator, Hillard D. Sharperson, who has recently passed the Bar, as assistant manager of the Export Department of the organization.

Judge James D. Ponney, of the Court of Claims, was disqualified to sit in the Steel, Knight, and Day case, involving war claims. It was set out by counsel for the Government that Justice Ponney served as a private in the World War, and, accordingly, would harbor much prejudice against the Army and cases involving the War Department.

Attorney Madeline P. Rogers, of Des Moines, Iowa, is the consulting attorney of the Kilcoin Medical Company, Inc., which is headed by Edward D. Perrin. In a recent case, involving the company, conducted by attorney Rogers, the court held, for the company, that there were enough sales during the last six months to raise the *Presumption* that the business of the company was the means of support of its head.

Ambrose Shief, stock broker of New York City, will soon change his headquarters to Washington, D. C., where he will take over the offices of the Bigbee Stock Exchange, the largest concern of its kind south of New York.

The Honorable Benigo T. Pacheco, is a Delegate in Congress from Porto Rico. He announced last week that his constituents were dissatisfied with the policy of political restrictions accorded the Islands which he represents by the Progressives, who are now in control of the National Government.

Robert H. Craig recently passed the Bar at Tampa, Florida and is now working to get reciprocity to Seattle, Washington, where he expects to join attorney Theodore Smith, who is credited with having a lucrative practice among the lumbermen of that region.

Earnest J. Davis, Director of the Conservative Banking Corporation, St. Paul, Minn., announces that charters will be secured in seven of the western states within the next year. However, this announcement is regarded as a publicity scheme to draw the public mind off the much heralded lawsuit charging the corporation with financing certain business enterprises with intent to evade the anti-smoking law of the State.

Senator Joseph R. Baylor, of Michigan and the only bachelor in Congress, opposes the Bill introduced last week proposing a tax of one dollar for each voter, to be paid to the National Government, the proceeds of which will go to the erection and upkeep of a National Public University at Indianapolis, Indiana.

The Reverend James M. Fullbright, of St. Louis, is to deliver the Commencement address at Howard University in June.

Attorney Meredith Thompson is a likely aspirant for the District attorneyship for the Southern District of Louisiana. Mr. Thompson has, for the last six years, been the Special Assistant to the National Commander of the American Legion.

E. B. Weatherless, of Chicago, editor of the Mid-Western Daily, was recently accorded the honor of being the dean of Negro journalism. Editor Weatherless has done much, through his daily, to change the policy of unjust discrimination of news as between the races in America.

Clysses G. Shelton, Helena, Montana, moving picture magnate, has decreed that none of the one hundred and three companies, over which he has jurisdiction, shall send pictures by radio between the hours of nine a.m. and four p.m. on Sundays.

James W. Bradford, U. S. Consul at Hong Kong, China, reports that the Chinese Government is financing the International Inter-racial Institution which is functioning at Canton for interest of racial amity.

Commercial Attache Howard S. Pierce, at Alexandria, Egypt, says in a late report to the Department of Commerce, that there has been found a small container filled with a liquid which is believed to be some of the famous Egyptian embalming fluid used six thousand years ago by the Pharaohs.

Attorney Arthur A. Greene, in a speech before the Camp Nelson, Ky., Bar Association last December, declared that he has won most of his cases by citing *obiter dicta*. He insisted that he would continue his method of stressing the dissenting opinions of the Supreme Court in certain cases as, he said, "They are usually the unbiased opinions and the best law."

Trade Commissioner, Emory R. Cole, of Capetown, Africa, reports to the Tau Delta Sigma Fraternity that the Congo Bar Association is unanimous in its desire to have a Chapter of the Fraternity there.

Attorney Thomas R. Eaton, counsel for the Louisville and Nashville Railroad, spoke to the Jurisdictional Club of the Howard University School of Law recently. Mr. Eaton officially announced the termination of separate coaches on the L. & N. R. R. Whereas, it was not said that attorney Eaton was directly responsible for this change on the part of the railroad, it is fairly well established that he is the champion of this policy.

Attorney Mary B. Marshall, head of the Prudential Savings Bank of Atlanta, has withdrawn from her legal partnership with Attorneys Rock and Cavanaugh. The withdrawal is explained by the fact that she could no longer give her active services to the firm due to her increased duties as president of the bank.

Mr. Robert Johnson, of the Pennsylvania Bar, has accepted the attorneyship to a newly organized People's Protective Society located at Pittsburg. The Society is for the protection of the public in the matter of fuel costs. Consumers from every State in the Union make up the body and it has the capital and influence which Mr. Johnson thinks ought to make it a success.

Justice Domingo A. Lanauze-Rolan, of the Superior bench of New Jersey was the chief speaker at the recent dedication of the National Negro Memorial in Washington, D.C.

Attorney Alfred P. Lewis, counsel for the Star Motors Co., Milwaukee, was successful in the Supreme Court of the United States recently, where he argued the constitutionality of the Wisconsin law requiring the manufacturers of iron axles to stamp their product with reference to grades.

Senior Law Class Will

We, the aforesaid class of Howard University Law School, being in full possession of all our craziness and ignorance and having the full powers of our non-disposing mind, memory and mis-understanding, do make, ordain and publish this, our last Will and Testament. Such worn out worldly goods and also the many talents for which we have no further use, we dispose of as follows:

1. We direct that our executor, herein named, shall pay all of our just debts and incidental year book expenses.

2. We give and bequeath to the Middle Class our good luck with a wish that it may "happen upon" things as we have. To the Middlers we leave all the nobility, dignity, scholarship and good achievements of the class of 1923. To them we give, devise and bequeath the Law School, with the lands upon which it stands and all the appurtenances to said school, to use and enjoy to their sole benefit, provided that they remain Seniors for two more years. Upon failure to meet the above provision, we give and devise the said school mentioned in this article of our will unto the Juniors forever.

3. To the Middlers we give and bequeath our many conflicts (of laws) with Professor Birney with the sincere desire that they do not contravene or impair the obligation of their contract with Professor Cobb to abstract the next ten cases, and it is of no moment that we hesitate and further give to the class following thus, the course on Evidence in Common Law Actions under Professor Richards, with the desire that they will be able to commit (learn by heart) Hamilton's definition of libel.

4. We further give and bequeath to the Middlers, our seats in the Moot Court, with full permission to act as Senior attorneys and to look with dignity upon the Junior attorneys. We give them the privilege to put leading questions on direct examination and to note exceptions to every motion overruled by Judge Houston. To the Middlers we give and bequeath one whom they have never seen, but when seen they will never forget—*The Chair* and his courses of Public Service Companies and Interstate Commerce.

5. Last of all we bequeath to the Juniors all our note books, ponies and treatise on "How to Bluff," consisting of our loyal spirit and devotion for Blackstone and Kent. We give and bequeath to the Middlers, Dean Booth's detailed discussions of the right to dispose of property by will to and for their absolute use and benefit.

6. To the dear old Furnace in the basement which has so faithfully let us freeze for three winters we leave the warm glow of our hearts.

7. All the rest, residue, reversion, and remainder of our talents, training and culture, that we now own and that we shall hereafter acquire and own at our departure, we give, and bequeath unto and to the Law School Library, and it is our wish that the above articles shall, so far as practicable, be kept together, and separate and apart, and shall not be mingled indiscriminately.

8. We hereby appoint Mr. Greenleaf as executor of this Will and Testament, and we desire he shall not be required to give bond in the performance of the said duties.

IN TESTIMONY WHEREOF, We have herewith set our hand and seal in the presence of the subscribing witnesses, this 20th day of April, A.D., 1923.

CLASS 1923. [Seal]

Signed, sealed, published and declared by Class 1923, as and for their last Will and Testament, in the presence of us who, at their request, in their presence, and in the presence of each other, have subscribed our name as witnesses hereto.

Senior Law Class Poem

THE MYSTIC BELLS

What is that which sounds so queer,
That in the long, long distance
Of countless miles still sounds,
As though it is very, very near;
And with the greatest resonance,
Commands the age which abounds
In restlessness, cares and fears?
Let us listen and we shall hear.

It is the Mystic Bells and their call
Bespeaking the language of the hour,
Telling of the cares and the sorrows,
Of the struggles, pains and troubles,
Of the bitterest and most sour
Brimful cup, at the lips of all.
The Mystic Bells are ringing now,
Let us all listen to their sound.

They translate the suffering and snare,
Of the darkest days of years gone
To the realm of a country's past;
Into real progress, that will last
For ever; if there be always some,
Who believe to be their share
To stand always for what is right
With proper vision and all might.

The Law Class of Nineteen-Twenty-Three,
With good knowledge of the past,
And studying the laws of our age,
Plays a part on the world's stage,
With the firm belief that at last
Righteousness will make men see
The wrong, prejudice, oppression,
And the badge of segregation.

Is our Class aware of its place
And its great responsibility?
Yes, we'll try to mark the way
For those friends who now hesitate
Doubting their capability
To be leaders of the race,
The Mystic Bells are ringing now,
Let us all listen to their sound.

THE JUNIOR LAW CLASS

Junior Law Class History

The Law Class of 1925 entered the University forty-four strong. Early in the year the Class realized the wisdom of organization as the means towards a better class, and elected as its officers the following members:

Eugene C. Davidson	President
Romeo Horad	Vice-President
Robert E. Anderson	Secretary
John J. Erskine	Treasurer
Alexander P. Tureaud	Court Clerk

The work of adopting a constitution for the class was undertaken by Edward A. Simmons, J. W. Keller and Richard A. Greene, the Constitution Committee. A constitution was adopted early in November 1922; and in February, the semi-annual election of officers took place. The former officers were re-elected with the following additional officers:

Robert L. Wallace	Sergeant-at-Arms
Fitzhugh L. Styles	Critic
Edward A. Simmons	Journalist

The initial affair of the Class was held November 10, 1922, at the Y. M. C. A. The guest of Honor was Judge Robert H. Terrell. Eugene Davidson, toastmaster, and Alexander Tureaud, constituted the committee in charge.

The Annual Reception of the Class was a great success being held in the New Dining Hall Auditorium of Howard University. The committee in charge of arrangements comprised the following members; Alexander P. Tureaud, chairman; Cleveland Longmire, Monroe C. DeVan and Fitzhugh Styles.

The Class is striving for the honor of being Howard's most illustrious Class of Law.

Our Physical Directors

MAJOR MILTON T. DEAN, *Inf.*, U. S. A., Director of Physical Education, severed his connection with the University, December 1, 1922. His resignation was a shock to all the students who will remember that he always championed clean athletics, fostered a spirit of friendly rivalry, inaugurated the Annual Field and Track Meet, and secured the entrance of the Howard Relay team in the Penn Carnival Games

Dr. W. E. MORRISON, who as Coach of Athletics, has endeared himself to every man on the campus; tendered his resignation in January to practice his chosen profession—dentistry. He has been called one of the greatest coaches of recent times and showed his ability by uniting all factions; by imbuing all with the spirit of "do" or "die trying"; by whipping teams of inexperienced men into championship calibre, and by urging his men to give all they had. He developed in his men that rare, unselfish, fighting spirit which brought so much glory to "Old Howard."

Mr. LOUIS WATSON, the new Director of Physical Education, was formerly Director at Virginia Normal and Industrial Institute, Petersburg, Va. He is a graduate of Dunbar High School; of Howard University, and of the Springfield, Massachusetts, Y. M. C. A. Training School where he was a track star and an honor man. He comes to Howard hoping to modernize athletics and secure for her a place in the "World of Sports" second to none.

The 1922 Football Season

The constructive program inaugurated by the Department of Physical Education in 1921 was further supported by the call to training quarters of the football squad on September 15, 1922, two weeks before the opening of school.

Under the strenuous coaching of "Doc" Morrison, this squad of over forty men was soon whipped into machine-like smoothness, which promised victory in the seven games scheduled for the season.

The first game was with the Virginia Theological Seminary and College of Lynchburg, Va. It was a home game. The Blue and White easily outplayed their opponents. Score: Howard, 6; V. T. S. and C., 0. The Howard goal was never threatened.

The second home game, with the Agricultural and Technical College of Greensboro, N. C., resulted in a victory for Howard. The visitors were completely outclassed. Score: Howard, 40; A. and T. C., 0.

In the third home game with Morgan College the Blue and White won an easy victory over their plucky opponents, who did not score until Howard's third team had been put into action in the second half. Score: Howard, 52; Morgan, 6.

The next game, with Virginia Normal and Industrial Institute, was played at Petersburg. The Virginians, full of confidence because of their recent victory over Hampton, went down to defeat before Howard's light and crippled team. Their fight was brilliant, but futile. Score: Howard, 7; V. N. I. I., 6.

The Hampton game, played in a steady rain, drew an immense crowd to the campus. After years of determined battling the Sea-siders were rewarded by a score of 13 to 0 over Howard. This victory, due largely to the crippled conditions of the "Bisons" and to the excessive weight of the Sea-siders, only spurred the team to greater efforts to combat the "Lions" in the coming "Classic."

After this game the Howard team journeyed into Maryland to put on the final touches for the great Thanksgiving Day "Classic." The squad went through a rigorous training, developing stamina, learning new plays, and mastering old ones. As a result they came back in the pink of condition, charged with new confidence.

The Lincoln game was played at the American League Baseball Park. Here before a crowd of 15,000 enthusiasts, gathered from all sections of the country, from Chicago to Florida, from the Atlantic to the "Golden

Keyed up to a point of highest tension, both teams played a stellar game. The Orange and Blue triumphed over the Blue and White by the narrow margin indicated by the score: 13 to 12, in a clean, hard fought battle. Howard was out-weighted but not outplayed in this final game of the 1922 season.

To the coach, Dr. W. E. Morrison, is due that rare, unselfish fighting spirit, developed by the team which characterized their playing and which made possible victories on the field for

"Howard, dear old Howard."

The interclass-interfraternal Howard Basketball League finished its second successive year with Alpha Phi Alpha leading division A and Phi Beta Sigma at the head of division B.

The championship game was played at the Miner Normal School before a large and very enthusiastic audience. The Gods of Victory favored the Alpha Phi Alpha team with a score of 29-17.

GIRLS' TEAM

The following players made up the Howard girls' squad: Irene Harris, captain and center; Addie Huntley, forward; Cora Anderson, forward; Mary Love, guard; Genevive Colby, guard; Capitoria Gwyn, guard; Gwendolyn Redding, center; Luberta Moore, forward; and Nerissa Long, guard.

The team was coached by James Van Webster and Miss Gertrude Curtis, instructor in physical education, who is also the manager of the team. Owing to lack of a suitable court upon which to play and to a scarcity of teams with which to play, only two games were played.

Irene Harris, Addie Huntley, Genevive Colby and Cora Anderson stand out as promising stars for the season to come.

ALPHA PHI ALPHA, COLLEGIATE AND FRATERNAL CHAMPIONS

The championship in the University Basketball League was won by the Lightning Five of Alpha Phi Alpha. This team had a very successful season playing twenty-one games in this city, in Philadelphia, Baltimore, and New York and being victorious in 16. The most interesting games of the season were the two games of the series with the Delta 5 of Omega Psi Phi which were both won by the closest possible scores by the Alpha team.

Wheatland at center and Clarkson at guard were outstanding figures in all the games of the season. With Dash, the "old man" of basketball, and Lowry, Wright, Carr, Banks, and Johnson, the Lightning Five had one of the finest collections of basketball stars that has ever performed under the colors of a local organization.

The final game of the season was played with the celebrated Yankees (white) who have held the championship of the District of Columbia for the past three years. In addition to the very close game between the best local teams, white and colored, an added attraction on that evening was the return to basketball of "Syl" Smith, one of our foremost tennis players and former star basketball player in this city and at Wilberforce University.

The candidates for this year's "Varsity" baseball team have been braving the inclement weather for many weeks, to fit themselves for what promises to be one of the greatest baseball years that Howard has known.

Heywood "Speed" Johnson, first base; S. Higgins, catcher; Walker and Doneghy, outfielders; Taylor, Clarke and Long form the nucleus around which a winning team is to be developed.

For the first time since 1916 the team will go south for ten days. The men are expected to find themselves and return in the pink of condition for the coming campaign.

The following men are members of the Varsity squad:

James Langrum	Charles Walker
George Robinson	Felton Brown
Charles Doneghy	Samuel Higgins
Joseph Dodson	James Long
Luther Baylor	Edgar Long
Edward Taylor	Maceo Clark
Edward Reid	Phineas Bryant
	Laddie Melton

Major Allen is coaching the team.

Director Watson and Captain Craft are gradually whipping into form the aspirants for the track.

Although many of the letter men of '22 are not available, the prospects are unusually bright for another successful season.

With such men working out as Brown, former "Star" sprinter and anchor man for Morgan College; Bridges, from Pittsburg; Walker of Asbury Park, High School; Bright, Pendleton, Craft, Robinson, and Wynn for running events and Anderson, Greene, Young, and Farrel for field events, Howard's star should be in the ascendant.

In the Penn Relay Games Howard took second place being nosed out by Bates College in a close race, and running ahead of Brown, Colgate, Bucknell, and the University of Montreal.

The Track schedule is as follows:

Foreign Students Visit Howard

During the week of January 15 to 18, the students of the University were hosts to three foreign students visiting American Educational Institutions under the supervision of the National Students' Forum of New York City. The three students were Karl Joachim Friedrich, Marburg, a student in the University of Heidelberg; Antonin Palecek, Libenice, Kolin, Czecho-Slovakia, a student in Prague University; and William A. Robson, London, England, a student in the London School of Economics. These young men came to Howard in the interest of a movement known to Europe as the Youth Movement, which, according to George D. Pratt, Jr., a graduate of Harvard University and Foreign Secretary of the National Student Forum, who accompanied the students on their visit, is one that does not readily admit of definition. It has taken on different forms in different countries.

In Germany, the movement has reached a higher stage of perfection than in any other country. The German youths have seen the wanton destruction brought about by their elders in the late war, and have determined that this unprecedented destruction of life and property shall never happen again. They have bound themselves into a league known as "Der Weltjugendliga" (World League of Youth), and have taken an active part in the social, political and economic guidance of the Fatherland. They have decided that they shall be persuaded no more by patriotic speeches delivered from the steps of the Reichstag and under the influence of the martial strains of "Die Wacht Am Rhein" to shed their brother's blood when reason might clear away the quarrel between the people.

In the new Republic of Czecho-Slovakia the youth movement is known as the Student Renaissance Movement. After a great many years of serfdom, the Poles were given their freedom. With freedom has come responsibility of government. The youth of the land realized that a spiritual rebirth was necessary if the citizens were to react favorably to their new condition.

There is no distinct movement in England, but the youth of the land are seeking an outlet in Socialism. Mr. Robson said that Socialism in England had not taken on the enormous hideousness with which it is associated in America. Thus, through addresses at our daily chapel services, we, at Howard, were given some idea of the working of the movement in the respective countries of our foreign guests.

The students of the University were generous in their hospitality to the visitors, an elaborate array of receptions, dinners, "smokers," and "At Homes," being given by those living in the Dormitories and in the various Sorority and Fraternity Houses. An official reception was given at President Durkee's home on the 16th of January. The entertainment of the students came to a close with the presentation, in the Chapel, of two one-act plays, "The Death Dance," by Thelma Duncan, '24; and "The Maker of Dreams," by Oliphant Down. The former is of particular interest in that it is a product of a student and is an original race drama based upon the religious beliefs and customs of the Vai tribe in Liberia, on the west coast of Africa. Special music was composed and arranged for it by Victor Kerney.

The visit of the students has broadened our view of the student situation and has led us to the belief that the National Student Forum has for its purpose the encouragement of brotherhood, understanding, and a desire to see students of whatever nationality or color go as high as their talents will permit. The colored youth of America is eager to join in any movement that has for its purpose the elimination of old prejudices. There is a distinct need in America for such a movement as this.

The Little Theater at Howard

In this day when real drama is at a premium, when the American stage is flooded with second rate plays, the folk theater or little theatre movement over the country is of vast importance. Especially is the movement at Howard University significant for the Negro. This project, fostered by a few art-loving, sacrificing souls, who have a big vision, has for its goal the building of a Little Theatre at Howard University to be the home of Negro drama. It is to be a place where dramas written by, for, and about Negroes will be produced.

The work of the Department of Dramatic Art has been significant and illustrious. The past few years have brought many opportunities, and have seen many plays well done. Youth has come, has caught the vision of the art, and has gone out, bigger, finer, for having had the dramatic experience.

A few of those who have caught the vision and "carry on" are Ottie Graham whose power in acting and dancing bids fair to contribute much to art; Evelyn Lightner, who reached a great degree of perfection in the art of designing costumes and left behind a worthy successor in Alma Thomas; T. J. Hopkins who has done splendid work in the field of stage technique, and Margaret Smith who developed the business management to a marked degree.

Some splendid performances have been given under auspicious circumstances, receiving high and favorable comment. Among them may be mentioned: "Thais"; "The Emperor Jones"; "As Strong as the Hills"; "Simon the Cyrenian"; and "The Pagoda Slave." To behold "Simon the Cyrenian," one of the most distinguished audiences ever gathered to see a dramatic performance was in Rankin Memorial Chapel as our guests: the members of the Disarmament Conference at Washington. But indeed, these are by no means the most significant performances though they may have been the most brilliant.

Since this movement is to foster original Negro drama, and since no race can truly and greatly portray the experiences of a race with an entirely different culture behind it, the "bits" of plays, though modest in composition and sometimes not plays at all, written by Negroes, portraying Negro life, have been the signal steps of progress in the life of the Dramatic Department, making it certain that long and significant strides have been made towards the goal. The first of these pieces is a dramatic episode from the life of Toussaint L'Ouverture called "Genefriede," by Helen Webb Harris, '23. It is a gripping thing full of intense action. The second, called "The Yellow Tree," by De Reath Irene Busey, '18, is a simple study of superstition in a mid-western Negro family, as the Washington Daily News puts it, "excellently made and powerfully written It is the stuff of which tragedy is made." Next in the list comes "The Death Dance," a story of African tribal life written by Thelma Duncan, '24. It is interesting, full of action, gripping, convincing. These are the cornerstones laid for the Negro Folk Theater at Howard University.

Many people, interested in America's contribution to dramatic art, believe that it will come from the Negro. Mr. Raymond O'Neil says that because the white American is of an old race, restrained, by years of training, by his work, by his Puritan traditions, he will never make any great emotional contribution to the art of acting. From the Negro, young in race, free, untrammelled by traditions, will come this rare contribution as it has come from him in music.

The "Commercial Outlook"

*A monthly magazine published by the Students in the
School of Commerce and Finance*

The Chamber of Commerce of the Department of Commerce and Finance was given official sanction in February 1923, to publish a monthly departmental magazine of sixteen pages, to be known as *The Commercial Outlook*. The purpose of this magazine is to voice the sentiments and views of students of Commerce and Finance and to acquaint the school and public with a knowledge of Negro business.

This magazine is a successor to the old *Commercial College Outlook* magazine published a few years ago. In the office of the Treasurer a small sum of fifteen dollars was left as a balance by the old Commercial College magazine. This was turned over to *The Commercial Outlook*, and with several donations from professors and students of the department this gave *The Commercial Outlook* a start. Its success was made possible by a hard working Staff with determined minds.

The Staff of *The Commercial Outlook* is as follows: William Shortridge, Editor-in-Chief; Joseph Cheevers and Theodora Fonteneau, Assistant Editors; Philip Watson, Business Manager; Joseph Elliott, Circulating Manager; Irvin Selden, Advertising Manager; Chauncey Hudson, Assistant Advertising Manager.

To these students *The Commercial Outlook* owes its success. It has been widely circulated, being sent to the various university libraries, city libraries, and various periodicals. The Editor-in-Chief has received letters of hearty approval and congratulations from many sources.

This magazine acts as a mouthpiece for the Chamber of Commerce, professors, and students in the department, in general. They have supported the magazine well by contributing articles along business lines.

The magazine bids fair to be on par with any other publication of its nature. It is the only business magazine published by Negro universities, today. We hope that this magazine will acquaint the public with what the School of Commerce and Finance of Howard University, the greatest Negro university in the world, is doing.

Men's Glee Club

Of the many extra-curricula activities of a University no one is any more essential and important than the Glee Club. In many respects the Glee Club may hold first place, in that it is the only organization which reflects the true quality and character of a university. For several centuries back the Glee Club as a singing organization has occupied a very significant and prominent place in University life.

The first formation of an organization under this name took place in England, in the eighteenth century. The paramount object of this singing society was exactly what the name Glee Club implies. It was the desire of a small group of young men to furnish merriment or entertainment without the aid of musical instruments. The results of this endeavor, was most successful, and entertainment of this nature very shortly became popularized throughout England.

When the idea of the glee club reached America, it was here developed with as much enthusiasm and interest as it had been in England. Peculiarly here in America, the glee club became more or less attached to institutions of learning where it has remained. The glee club has now won such a favorite place in our college life, that most schools make special endeavors toward developing a club well representative of the respective school.

The Glee Club at Howard University is rated among the best glee clubs of the country. The first appreciative society of this kind at Howard was organized by Professor Roy W. Tibbs. Under his wise leadership the Club has made continual progress. The regular enrollment of the club averages twenty-five. Vacancies are filled at the beginning of each school year by careful selection from the student body.

The ascertainment of membership of the club is accomplished by the passing of a light examination. This examination is conducted by a musical committee, selected from the Club with the director in charge. The purpose of such an examination is to gain from the candidate his voice quality and his reading music ability.

This method of making new members has enabled the Glee Club to maintain its high standard. Members who faithfully render service to the Club for four years, are singularly honored. At the expiration of this time each member is awarded a magnificent gold key very artistically designed. Many members grasp the opportunity of qualifying for this award and consequently there are quite a few who serve the Club very enthusiastically the required number of years. The club from year to year seeks the very best material available both in songs and voices which has been the secret of success.

Because of the effective and vigorous way in which the Glee Club advertises the University, it makes annual trips. These trips are usually made in the spring of the school year. Engagements may be arranged any time of the year by the director or the business manager.

Girls' Glee Club

The Girls' Glee Club of the University was organized the last part of the Autumn Quarter. The following officers were elected: President, Thelma Stephenson; Secretary, Mary Love; Treasurer, Virginia Crawford; Business Manager, Lilla Martin. The girls immediately looked forward to the presentation of a concert in the spring. Their dreams were realized when on May 3, they gave their Novelty Concert. Much credit is due Miss Caroline Grant, the directress, for the success of the affair.

The Howard branch of the National Association for the Advancement of Colored People has formulated and put into operation an intensive program that has for its objective the creation of a larger student life and a closer intimacy with the great world of affairs, outside the confines of the University grounds. The organization, believing that every exponent of racial progress and development should be actually enrolled in the N. A. A. C. P., aspires to enlist the active participation of every member of the student body.

The N. A. A. C. P. is an organization dedicated to the advancement of the race. Membership in the N. A. A. C. P. is tangible, incontrovertible evidence of devotion to the cause of racial betterment. The Howard branch of the N. A. A. C. P. is an active agent in the moulding of a finer school spirit, the building of a greater Howard, and the protection of student rights. In addition to this and perhaps most important of all, the organization seeks to establish a real vital association between the man on the campus and the world outside.

The organization feels that, as a prospective leader of his people, every Negro student should learn to trace and to interpret the great underlying forces that are today shaping the destinies of the peoples of the world.

The Howard branch of the N. A. A. C. P. has pledged itself to the support of every progressive movement both on the campus and off. The slogan of the organization has been and is now: "Every Howard man an N. A. A. C. P. member; every N. A. A. C. P. member, a one hundred per cent race man."

The Student Council

"Liberty, Equality and Fraternity"

The spirit of democracy and representation which typifies America has so permeated her institutions, especially her schools, that we find in most of her progressive colleges and Universities organizations for the perpetuation of the noble ideals of liberty, equality and fraternity. In our midst the organization which strives for these high aims is known as the Student Council. This is with us a virtually new and experimental venture, being now in the third year of its existence. It consists of two representatives from each of the four academic classes, two representatives from each of the upper classes selected by the student body at large and a president elected in the same manner. If the accomplishments of the past two councils and the present one presage at all, the Student Council is destined to be an invaluable asset to the University.

The present Council has been actively engaged in the promotion of student welfare throughout the scholastic year. In addition to the many routine and legislative matters which have held its attention, it has exhibited untiring interest in campus activities. Once a month it has conducted the weekly prayer service on the campus, through its representatives it has campaigned for better chapel attendance, and has supported all worthy causes brought to its attention by the faculty, as well as by students.

It has concerned itself with campus problems and their solutions. To this end, it was instrumental, with the aid of several faculty members in providing wholesome entertainment for students during the Christmas and Easter recesses and in inaugurating a series of monthly dances to which every student was accorded a welcome.

In January under its supervision the plans for the entertainment of the foreign students, sent by the National Student Forum as guests of the University, were formulated, were carried out and the expenses defrayed.

On February 14, under its auspices a well known local speaker was presented in the first "Douglass Night." That it might co-operate with the will of the student body, the Council has sponsored four effective and well attended mass meetings.

These are a few of the activities which have engaged our Councilmen, our servitors. And back of it all is our Student Body, two thousand progressive Men and Women, who make up the Alma Mater, in whose name the Council has gone forward and at whose shrine the Student Council lays these few accomplishments.

The R. O. T. C.

BRIEF HISTORY OF HOWARD UNIVERSITY R. O. T. C.

An infantry unit, Senior Division Reserve Officers' Training Corps was established at Howard University in the Spring 1919, under authority of Act of Congress, dated June 3, 1916.

Major Milton T. Dean was assigned Professor of Military Science and Tactics from the beginning of the organization and remained as such, assisted by Warrant Officer Edward York—Captain O. R. C., U. S. A.—until relieved by the War Department at the end of the school year, 1920-21. At about the same time the R. O. T. C. was withdrawn from the University to be re-established in November, 1921, with Captain Julian DeCourt as Professor of Military Science and Tactics. In the interim, October to November, 1921, however, Warrant Officer York remained at Howard as Instructor in Military Science.

Since the re-establishment of the unit many changes have been made in the personnel detailed at Howard until at present the corps of enlisted and commissioned personnel consists of: Lieutenant Colonel Charles E. N. Howard, U. S. A., Retired, Professor of Military Science and Tactics; Captain Joseph W. Blanchard, P. S., Retired, Adjutant, Assistant Professor of Military Science and Tactics; Captain Martin R. Rice, U. S. A., Retired, Assistant Professor of Military Science and Tactics; Warrant Officer Roscoe E. Clayton, U. S. A., Instructor; Sergeant Dorsey Rhodes, U. S. A., Instructor, Band and Orchestra; Sergeant Darwin E. Smith, Instructor, U. S. A.

With the idea of making the R. O. T. C. more stable, the University has required all physically fit male students to take two years of military training as a prerequisite for graduation. Next fall, however, a more stringent ruling of the board of trustees

will go into effect, which makes military training compulsory for three years instead of two.

The course of instruction as outlined by the War Department for Infantry Units, Senior Divisions, is now being carried out with standardized texts and a well defined system of grading and of marking is in effect. As a direct result much more interest is being manifested by the cadets, and in a very short time all who are eligible will be taking advantage of the pay offered by the Government and of the academic credit offered by the University for pursuing the advanced course of instruction during their Junior and Senior years, which finally qualifies the Cadet for a commission as 2nd Lieut. Infantry, O. R. C.

The present enrollment in the R. O. T. C. is three hundred and fifty men, sixty-seven of whom are in the advanced course.

Twenty-three cadets from Howard University were commissioned as 2nd Lieutenants Infantry, O. R. C., at the end of the school year and summer Camp, 1922.

Lieut. Col. Chas. E. N. Howard, U. S. A., Retired, Professor of Military Science and Tactics in Howard University, was born in the state of New York, November 10, 1873. Lieut. Col. Howard (then 2nd Lieutenant) served with the 45th Infantry in the Spanish American War, in 1898. He is a Graduate of the Coast Artillery School. He was commissioned Colonel Q. M. C. in 1916. He served in this capacity during the World War, spending twenty-two months in France. He was placed upon the retired list on December 31, 1922, while serving in the professorship of Military Science and Tactics at Howard University, being detailed as such beginning with the School year 1922-23.

The members of the R. O. T. C. at Howard appreciate very much the act of the War Department in placing in this position the splendid soldier and friend found in Lieut. Col. Howard.

Major Joseph W. Blanchard, Retired—the Adjutant. Major Blanchard is the Assistant Professor of Military Science and Tactics at Howard University. He was born in New York on July 4, 1873; was educated at Georgetown University, Washington, D. C.; is a veteran of the Spanish American War, and the Philippine Insurrection; and has been in the military service since 1895, having spent much time in the Philippine Islands. He was commissioned 2nd Lieut. in the Philippine Scouts in 1901. In recognition of his excellent service, and value as an officer he was commissioned Captain in the Philippine Scouts in 1908, retiring from the service at such grade at the close of the World War, 1918, on account of "Length of Service" with the Philippine Scouts. Major Blanchard was commissioned Major Inf., U. S. A., by recent Act of Congress.

Major Blanchard is the instructor of Minor Tactics at Howard. He is a forceful teacher, a keen student of military affairs, and a big-hearted friend to the men who serve under him.

Captain Martin R. Rice, U. S. A., Retired—Assistant Professor of Military Science and Tactics, Howard University. Captain Rice was born in Kentucky October 7, 1892. He served in the Mexican border troubles as an enlisted man—1st sergeant. In July, 1917 he was commissioned 2nd Lieut. of Cavalry. He served during the war as Major of the Field Artillery. He was with the A. E. F. for three months. Retired as Captain F. A. U. S. A., July 3, 1922.

Captain Rice was educated at the University of Kentucky. He came to Howard from assignment at Cornell University, having been there two years. He is a young man, a student of modern warfare, who is thoroughly interested in his work for the general betterment of the R. O. T. C. at Howard University.

Warrant Officer Roscoe E. Clayton, U. S. A., has been in the Military service since April 30, 1900. His first service was with the famous Tenth Cavalry. He was with this

regiment for thirteen years. Since 1913 he has passed rapidly through the non-commissioned grades, having held most of them—Corporal, Sergeant, Squadron Sergeant Major, Ordnance Sergeant, and Master Sergeant. In October 1917 he was commissioned Captain Inf., O. R. C.; to active duty October 15, 1917. He commanded Company A, 349th M. G. Bn. from its organization December 1, 1917 to its mustering out, April 11, 1919. A. E. F., June, 1918 to February, 1919. He now holds a Reserve Commission as Captain U. S. A. Appointed Warrant Officer, U. S. A. July 1, 1920, in which rank he is now serving as Instructor in Military Science and Tactics in Howard University.

Officer Clayton is a Grenadier, capable officer, and is very much admired by the students of the R. O. T. C.

Sergeant Dorcey Rhodes, U. S. A., Instructor, enlisted in the U. S. A. in September, 1905, serving with the Ninth Cavalry until 1908. He was with the Twenty-fourth Infantry from October 1908 to October 1911. He was with the Tenth Cavalry from October 1911 to October, 1917. He was transferred from this unit to the 351st Field Artillery as Sergeant in 1917, with which contingent he remained until 1919. He served with the 351st in France as Military Band and Orchestra Director. Assigned to duty at Howard University as such in January, 1921.

Sergeant Rhodes is a graduate of the Institute of Musical Art, New York City. He has done at Howard what others have failed to do. He has trained an excellent Band of sixty men, and an Orchestra of forty-five members. This band is fast becoming the life of the University, and is today the most socializing element of the Institution.

Sergeant Darwin E. Smith, U. S. A., has served largely with the Ninth and Tenth Cavalries. He has been in the Military service since August, 1915. He has since that time been in various posts in his active service, Arizona, New Mexico, and the Philippines. He has been at Howard University as an Instructor in Military Department since January 18, 1921.

It is the policy of the President of Howard University to Commission officers of the Cadet Corps for military service. The officers appointed this year to commissioned status are as follows: Major Chauncey R. Hudson, Commanding Officer; Captain Webster Sewell, The Adjutant; Captain William J. Newsom, Personnel Adjutant; Captain Frank Edw. Smith, Jr., Battalion Quartermaster; Captain Purvis J. Chesson, Captain Horace Scott, Captain Edward C. Taylor, Captain Marcellus Harris; 1st Lieutenants—William W. Spiller, Joseph A. Holmes, Jenkins Hightower, Russel W. White; 2nd Lieutenants—William H. Bowers, Joseph P. Cheevers, Don V. Estill, Samuel C. McKinney; To be Technical Sergeants—William E. Shorteridge, Sergt. Major; Menthorn E. Harold, Color Sergt.; 1st Sergeants—George L. Eggleston, Roscoe B. Coleman, William A. Warfield, Jr., George W. Jacobs.

Major Hudson has seen a long period of Military Service. His selection as Major was a wise one. He was Military Escort at the funeral of the Late Booker T. Washington. He was Commissioned Captain of Tuskegee Cadet Corps in 1916, and in 1917 he became Senior Captain of the Unit. Major Hudson enlisted in the U. S. A. June, 1918, saw service in France, and was mustered from the service of the U. S. A. in January, 1919. He entered Howard University in Fall of 1919 and has since taken active interest in the affairs of the R. O. T. C. His first two years he was 1st Lieutenant Cadet Corps, Howard University, and third year Captain from which grade he was commissioned Major of Cadets on January 1, 1923.

Major Hudson is well liked by the detachment. He is a good soldier and at all times commands the respect of his Battalion. Captains Sewell, Newsom and Smith, Jr., officers of the Major's staff, are striving continuously to aid in the growth and interest of the R. O. T. C.

The Y. M. C. A.

The Y. M. C. A. work at Howard took on new life with the coming, last summer, of Mr. William B. West, Executive Secretary, an alumnus of Colby. During 1919 and 1920 he was assistant to the Executive Secretary of the New York City Y. M. C. A. Mr. West was a professor at Talldega College, 1922, and effectively fostered the "Y" work there. With the efficient aid of the President of the "Y," Edward W. Anderson, the new Executive Secretary has been able to "work wonders" about the campus.

The Undergraduate Employment Bureau has been fully organized, and from October 1 to February 1, 254 students were placed in permanent or temporary positions, netting an income to the students of about \$6,406.55.

One of the more recently added features of the "Y" work is the "Book Exchange," a medium thru which students may buy or sell books. No charge is made for this service, and it promises to be of great value in the future in meeting the students' needs.

In "uniting the student activities" and "promoting a love for the University," the efforts of the "Y" have not been in vain. On October 13, a Freshman stag was given in the Miner Normal School gymnasium, at which about 250 students were present. After the entertainment, everyone left with a greater love for Howard surging within him.

The "Y" recreation rooms have been fitted with additional attractions, a reading and reception room has been added and the Sunday morning meetings have been enlivened with a practical lecture and discussion course led by Mr. West.

Howard was represented at the inspiring sessions of the Middle Atlantic Y. M. C. A. Training Conference, which met at the Bordentown Industrial School, New Jersey, October 13 to 15, by Mr. West and F. H. Robb, '24, D. Ward Nichols, '23, and C. Glenn Carrington, '25.

The "Y" plans to send at least three delegates to the Kings Mountain Conference which will be held this year, May 25 to June 4.

With its motto, "Unselfish service to all," a 100 per cent efficient Y. M. C. A. at Howard will soon be a reality.

The officers for this year are as follows:

William B. West	<i>Executive Secretary</i>
Edward W. Anderson	<i>President</i>
John W. Crawford	<i>Vice-President</i>
Elvin L. Davenport	<i>Second Vice-President</i>
C. Glenn Carrington	<i>Secretary</i>
Melvin J. Banks	<i>Assistant Secretary</i>
Benjamin J. Jackson	<i>Treasurer</i>

The Y. W. C. A.

The Young Women's Christian Association of Howard University is playing an important part in the student life, especially among the women. The delegates to the summer conference filled with intense desire to serve those around them more and better, came back to the University with the view of making the "Y" among the best Student Associations. The custom was carried out by welcoming the new girls with a lawn social. At Thanksgiving, a number of families were supplied with baskets.

Those of the cabinet include: Della Pringleau, president; Eleanor Harper, vice-president; Lilla Martin, recording secretary; Mary Emma Mack, treasurer, Ethel Jones, corresponding secretary.

Officers were elected in March and the "Y" is moving on with the hope of doing more for the young women of the university at large.

The Forum Debating Society

The Forum Debating Society was organized in the fall of 1919 and had its initial debate between the Freshman and Sophomore classes on May 20, 1920.

The purpose of the Forum Debating Society is to foster and inculcate in its members a unity of policy and a broader vision concerning racial and current interests; to learn the attitude and working policies of the present political, industrial, commercial and social world by bringing before its meetings speakers of experience and authority; to give to the women the opportunity for explaining and discussing the various phases of current topics with which they come in contact; and to promote leadership among the women of the race.

Chamber of Commerce

By William Shortridge

The crying need for highly specialized training in the science of business is being met by such institutions as Harvard, New York University, Chicago University, and our own Howard University.

The School of Commerce and Finance at Howard University is adapted to meet our special needs and at the same time to prepare men and women to cope with business men and women trained in any other institution.

The young men and women of this school are a group of serious-minded students who have dedicated themselves to the economic freedom of the race.

The freedom of the Negro, like the freedom of all other races or nations, depends largely upon his economic status. There can be no political, social, and, I almost dare say religious, freedom as long as economic servitude and slavery exists. This fact is proved by the peonage systems of the South, by the humiliation of Liberia in seeking a loan from the United States, and the desperate attempts of the European nations to get control of commerce and raw materials.

In order to assure themselves of concerted action, the students of Commerce and Finance have formed the "Chamber of Commerce" of Howard University. This organization seeks to form a connecting link between the business men and the University, and to acquaint the men and women going out from the University with the men and women of business throughout the country. It also aims to acquaint the Negro business men of different sections of the country with Negro business progress in every other section of the country.

In order to carry out this program in the most effective way there have been established a Bureau of Business Statistics, a Bureau of Information, and a Monthly Publication.

The Bureau of Statistics collects and classifies all possible data on Negro business throughout the country. An effort is made to secure first-hand information concerning every kind of business. For example, we would seek to know just how many business enterprises there are in the District of Columbia which are owned and operated by colored people; how many are operated by them, but owned by others; how many of them are of a certain kind; what the volume of business done by each kind is; what is the average life of certain businesses; how does the number of different kinds of business compare with the Negro population; and many other such questions. The idea is to be able to aid people in deciding whether a particular locality is favorable for a particular kind of business.

The mouthpiece of the Chamber is the *Commercial Outlook*. It is published monthly and is the channel through which the great public is to be reached. It is hoped that the business men of the race will avail themselves of the use of the columns of this publication for economic expression.

The Grenadiers' Club

The Grenadiers' Club is a military organization established at Howard University for the purpose of keeping together the Officers, Reserve Officers, and former Officers of the United States Army. The place of the Negro Officer in the U. S. A. has been proportionately small. It has not been the policy of the War Department to admit a great number of Negroes to the commissioned service of the Army, but with the realization that "National Solidarity" must include equal rights for all, this Department has begun practicing, in this respect, democracy. It is the purpose of this club to show appreciation of this action, and demonstrate beyond a doubt that the Negro Army Officer is entirely equal to and capable of that high, that "special trust and confidence" reposed in him by the Commander-in-Chief of the American Army.

This Club was organized at Camp Custer, Michigan in the summer of 1920. It was at first intended to be merely a social club for the officers of the cadet corps at Negro schools and colleges; but it, like all progressive organizations, must change its purposes with the needs of the times. It now admits all cadet officers of the senior advanced courses of the R. O. T. C., all senior course R. O. T. C. cadets, all Negro Army Officers, all Negro Officers of the Officers Reserve Corps. This Club promotes and fosters the most potent, civic, social, and military virtues: patriotism, valor, race pride, national defense, and the general betterment of national and Negro soldiery.

The Grenadiers' Club has dedicated itself to the completion of the work left undone by our comrades who fell "with their faces towards the foe" in war. They fell for freedom of mankind. It is our duty to "Carry On." We must not break faith with those who lie under the sod. Therefore, out of gratitude to these men and in appreciation to Dean George W. Cook and his colleagues who secured the first Negro Officers Training Camp at Fort Des Moines in that active summer of 1917, we strive in this organization to maintain our present army status and prove ourselves worthy of full and equal rights of the soldiery of the United States Army.

This Club now has an active membership of thirty-five persons. New applicants are daily being accepted as members. The Club is established at Howard because Howard is the center of Negro life in America. This organization is established at the only place where there is a senior advanced detachment of the R. O. T. C. and will therefore thrive best where the natural elements of its growth are found.

The Stylus

The Stylus was organized in 1916 under the tutelage of Professors Gregory and Locke who saw very clearly the need of an organization among Howard students to encourage original literary and art work.

The Stylus, an organization which encourages original work, has had quite a successful year. The work has dealt with a survey of Negro literature, both poetry and prose. It is the hope of the society to publish in the future a magazine which will contain the work of its members.

The work of The Stylus has been of a strictly literary and artistic nature. The works of the members which have been published have received much favorable comment. The three original plays which have been produced by the Howard Players were written by members of The Stylus.

The Caribbean Club

A club for foreigners attending the University.

The Caribbean Club was established in 1913 by a group of students, who, realizing the urgent need for such an organization, and the mutual benefits to be derived therefrom, decided to attend to the interests of foreign students in the University through this medium.

The club attempts to instillate a better feeling of oneness among the students at Howard, especially among those of whom it is composed. It aims through its fortnightly meetings to help them in every form of endeavor. At these meetings the programme is as instructive and varied in character as it is broad in scope, and through the efforts of our Programme Committee there are always musical or literary contributions to hold our interest.

From the time of our incipency we of the Caribbean Club have been projecting progressive schemes which, with a major percentage of fructification, would without doubt be of direct benefit to us and to Howard University as a whole. Last year we attempted a project for giving the University publicity in the West Indies and South America with a fair measure of success.

Like all organizations of its kind, the history of the Caribbean Club is chequered with success and failure. This however but goes to justify the various opinions of those who from year to year control its activities. In the long run it seems to follow the tide of progress or retrogression of the great University spirit. We do not expect any Utopian achievement from the club, but from our experience in the past, it is within our bounds to predict great things for the future.

Our aim at present is to establish a number of scholarships at the University which may be a stimulus to students who are planning to come to Howard from foreign ports. We know no creed but that of loyalty to our Alma Mater.

As the Caribbean Club exists as a ward-institution of Howard University, it will always be felt among us that the spirit of Old Howard and her noble ideals must live and be of service, that they serve to inspire loyal sons of our Foster Mother, that they live ever in the words—

"Veritas et Utilitas."

CHI DELTA MU FRATERNITY HOUSE

Chi Delta Mu

In order to promote the welfare of Medical, Dental, and Pharmaceutical students of Howard Medical College, by bringing into close contact men whose aims were common and whose interests mutual, by keeping alive the highest ideals of professional ethics and unselfish devotion to these distinguished professions, Dr. E. Clayton Terry of Washington, D. C., and Dr. C. R. Humbert of Kansas City, Mo., established in 1913, the Alpha Chapter of the Chi Delta Mu Fraternity.

The close relationship between the allied professions of Medicine, Dentistry, and Pharmacy has been recognized since the days of the Hippocratic oath; and throughout history these professions have shown points of ethics common to one another. The Chi Delta Mu thus justifies its existence by strengthening these bonds of mutual interest when and wherever the opportunity is present whether it be in the student body or the active workers in these professions.

In response to this age of specialization the Chi Delta Mu Fraternity enjoys the unique distinction of being the only Negro fraternity of its kind in the world that accepts for membership only those men who are active in the pursuit of Medicine, Dentistry, Pharmacy or Doctors who have been graduated in these professions.

The fraternity home owned by the members of Alpha Chapter, located at 301 T Street, N. W., is a building admirably suited for fraternity life; and the tradition of welcome and hospitality maintained at the home are the bywords of both members and visitors.

The present officers of Alpha Chapter are as follows:

Tau Delta Sigma

Alpha Chapter

The Tau Delta Sigma Fraternity is the only Greek letter fraternity in the world organized at a Negro institution for Negro students and practitioners of the law. This fraternity was organized in January, 1914, by twelve members of the classes of '14, '15 and '16 in the Howard University Law School.

It was the purpose of the founders of this fraternity to form a nucleus for a National Negro Bar Association. In this organization the men become united by the strong tie of brotherhood in the law. It is its purpose to promote the well being of students and practitioners of the law; to cultivate the ethics of the profession, and to extend justice to all.

The activities of the fraternity have gone forward in a most encouraging manner during the present year. Several undergraduate and honorary members have been initiated into the mysteries of Tau Delta Sigma, and one branch chapter has been organized this year. Other chapters will be organized upon application to the home chapter by a sufficient number of Negro law students or practitioners.

The fraternity home owned by the Alpha Chapter, located at 913 Rhode Island Avenue, Northwest, is a building admirably suitable for fraternity life with spacious dormitory rooms, parlor, club room, library and dining department. The tradition of welcome and hospitality maintained at the home is a mark of distinction and commented upon by our best of visitors and friends.

KAPPA ALPHA PSI FRATERNITY HOUSE

Kappa Alpha Psi

Since the organization of XI chapter of the Kappa Alpha Psi Fraternity December 17, 1920, fraternalism has taken an advanced step at Howard University.

Xi has imposed new ideas, and now she glorifies in the result—an Inter-Fraternal spirit at Howard. But she will not rest contented with this. Through other chapters of Kappa Alpha Psi located at the largest universities of the country she intends to Nationalize that Inter-Fraternal spirit started at Howard.

Xi also intends that Kappa be implanted in the East, and reach the same place of honor that it holds in the West. As a step towards that aim, Xi has obtained one of the most imposing chapter houses in Washington. The home is located on the southeast corner of Tenth and T Streets, N. W. The location is ideal; surrounded by beautiful homes in a popular neighborhood; not too far from the business and theater section of the city.

The chapter house is open to friends and visiting brothers at all times and a visitation from them is solicited.

Cusp and Crown
HOWARD UNIVERSITY
DENTAL SCHOOL
1923

The Cusp and Crown

The aims and ideals of the Cusp and Crown Fraternity are well set forth in the letter to the Executive Committee of Howard University under date of November 8, 1921, requesting a charter, which reads as follows:

We the undersigned, bona fide members of the Dental College of Howard University, in order to promote the general welfare of the Dental profession, and especially to cultivate an intense and sustained interest among students of Howard University in matters peculiar to the Dental Profession, desire to establish a Dental Fraternity, the beginning of which shall be at Howard University, the scope, however, to be national in extent.

We have in mind the establishment of an organization which shall stand for the highest ideals in scholarship, in moral attitude, in professional ethics, in loyalty to the University, and in aims which tend to insure the betterment of humanity; an organization which shall stand ready always to offer to the University the fullest co-operation in the fulfillment of its plans for enlargement and progress; an organization which because of the spirit it hopes to inculcate in its members, ought greatly to enhance the dignity of the professions and give profound impetus to the growing appreciation of Dentistry as the most intricate and highly specialized branch of medicine. The proposed organization undertakes, of course and pledges that it will never at any time involve the University in any debts or legal entanglements.

Wherefore, we do hereby submit to the Executive Committee of Howard University, petition for a Charter granting us full rights and privileges in the establishment of a Dental Fraternity to be named the "Cusp and Crown" Fraternity of Howard University.

Delta Sigma Theta

In keeping with the ideals which moved the founders of Alpha chapter of the Delta Sigma Theta Sorority to come together in a common bond of sympathy in January, nineteen hundred thirteen, the sorority has made a conscious effort to carry out some program consistent with the demands of the times. Realizing the insistent call for women of broad vision, especially in the fields of endeavor which are now looming upon the horizon for our race, the sorority is exerting strenuous effort to foster an appreciation of these opportunities. Toward this end an educational campaign is conducted around the secondary schools yearly.

Each year the work can be more effectively carried out as a result of the expansion and development of new chapters of the sorority throughout the country. In this spirit of progressiveness the sorority has pledged its support to the work of the Pan-Hellenic Council. Meanwhile, within the ranks, each member is aware of a duty to undertake what seems wise and good, because she labors under the double handicap of race and sex, but striving to preserve a calm mind with a courageous and cheerful spirit, barring bitterness from her heart to struggle all the more earnestly to reach the goal.

Rho Psi Phi

Within the last five years the number of young women in Howard Medical School has greatly increased in number. With this increase there was felt the need of an organization to bring them closer together. These young women met on January 4, 1922, for the purpose of establishing a union or club. The result was that on January 22, 1922, the Rho Psi Phi was organized. On May 20, 1922, a charter was granted by the District of Columbia.

At the beginning of the term, October 15, 1922-23, the Rho Psi Phi entertained the new girls of the Medical School at the Y. W. C. A. Dr. Clara Smith Talfera made an address. Mrs. H. C. Searlock acted as matron.

May 11, 1922, a dance was given for the benefit of a sorority house fund. The affair was a very brilliant one and a success financially. These girls worked hard to help the endowment fund. They gave a dance on May 8, 1923. Besides a hundred dollars worth of subscriptions as an organization, each girl has pledged an appreciative sum through her class.

Through the effort of Mrs. Emily B. Childress, a Beta Chapter has been organized at the University of California. A Gamma Chapter is under way in New York City.

We are highly gratified to learn that one of our members, Dr. E. Barbara Miller, passed the New Jersey state board and is building up a splendid practice in Montclair. She was a member of the Dental Class of '22.

Every year a prize will be given in each of the three departments to a member of the Sorority graduating with the highest average. Dan Cupid caught three of our members in his web: Miss Ora M. Lomax, and Mr. T. W. Fisher, Law '23; Miss Arleigh Mathews and Dr. Joseph Steward; Miss Marjie V. Adams and Mr. Stanley Sinkford.

Epsilon Sigma Iota

The Epsilon Sigma Iota Sorority was organized at Howard University School of Law, May, 1921, and incorporated in June of that same year. It is the only professional sorority of its kind, composed wholly of law students, graduates and practitioners.

In order to promote the general welfare of the women of our race and to encourage more of them to enter upon the study of law, the Sorority has mapped out a definite plan of action to accomplish this year's aim.

Women have entered the field for a set purpose; that is, to know the law of the land, to handle the interests of mankind intelligently and to set a better ethical standard in the profession.

Attorney Caroline H. Mason, Class '16, member of District of Columbia Bar and the Illinois bar and now practising in the State of Indiana, was added to our roster during the present term as honorary member. This increases the membership to fourteen.

The present officers are as follows:

Mrs. Etta B. Lisenby	<i>Chief Justice</i>
Mrs. Madeline P. Rogers	<i>Associate Justice</i>
Mrs. L. Marion Poe	<i>Clerk of Court</i>
Mrs. Pearl B. Clifford	<i>Marshal</i>

A Chapter From the Book of Life

1. A sojourner cometh to Howard. 2. He is sorely tried. 3. He becometh a student. 4. He is bid to a feast. 5. The multitude of students gather and dance. 10. The stranger findeth a partner and danceth also. 13. The student is summoned by the Keeper of Shekels and is made afraid. 15. He trieth to see the Keeper of Shekels. 27. He dieth.

1 In that same year of the reign of King Volstead, came one to an University called Howard.

2 And he made many wanderings and many askings of questions, saying, Where is this office or that? But none answered him and the heart of the sojourner was sorely tried.

3 But when he came at last to all of the rulers, that sit over certain writings called credits, and the ruler that sits with many hirelings over the moneys, yea, even the shekels thereof he became a student and suffered like unto the rest.

4 Then cometh one to him saying, Lo, in the hall of dining, even in that place where nourishment is dished, shall be a gathering. There shall be those who smite the drum, yea, even the cymbal and banjo, and jazz mightily upon the saxophone.

5 And the sojourner did as he was bid.

6 Now when he had come to the hall of dining, which was even now a place of great merriment, he saw there an multitude of peoples.

7 Of young men were gathered five hundred even those of valor who bear arms in the R. O. T. C, which being interpreted means Reserve Officers Training Corps.

8 And four hundred maidens in the raiment of gladness came forth to meet the men of valor.

9 Then did the musicians smite the drum and stringed instruments with much jazzing and the multitude arose and shook with many shakings. There were those who were as close one unto

the other even as ninety and nine is unto an hundred so that between them there shone no ray of light.

10 And the sojourner advanced to an maiden and said unto her, See thou that others shimmy and strut, come thou and let us do likewise. And she answered him, Yea.

11 Then stood they on the floor, and danced and pranced strongly and shimmed hip and thigh.

12 And the sojourner was pleased and said, Great is Howard University, and great are its maidens, for verily none surpasseth them in the dance. Here shall I remain all the days of my life.

13 And after many days there came to him writings saying, Make haste, and come unto the office of the Keeper of Shekels for he entertaineth misgivings concerning thy debts.

14 Then did the liver of the sojourner smite him so that his knees turneth to water and he hastened unto the door of the Keeper of Shekels.

15 But the Shkel Keeper had unto himself many hirelings, that no man might come unto him without travail and sorrow.

16 And when he would have rushed into the inner chamber where sitteth the Keeper, one who sat by the door called unto him saying, Whither goest thou?

17 And he answered, Unto the Keeper of Shekels for verily he hath summoned me.

18 But she said unto the sojourner, Stay thou here till I come unto thee and tell thee if he wills. For surely he is busy.

19 Then goeth she in but returneth briefly and chewing mightily upon her gum saith haughtily, The Keeper of Shekels hath matters of importance, thou mayst not enter unto his *sanctum sanctorum*.

20 The crieth the sojourner, When may I come unto him?

21 But she who sitteth by the door chewed her gum and answered him briefly. I know not. Then studieth she the ceiling at great length.

22 Then when his raiment, even his trousers were thin with much sittings he departed, but his heart was sore within him.

23 But again he returned and again, even unto the fortieth time but anon they answered him, The Keeper of Shekels is not in, or The Keeper of Shekels is busy, or The Keeper of Shekels hath parley with Herod.

24 Then did the sojourner smite his breast and rend his garments. Yea, he gnashed his teeth upon his bridgework and wept aloud.

25 But when many years had passed and yet the sojourner had not come unto the sacred chamber, he grew old and his beard hung unto his knees.

26 And yet he saw not the Keeper, but still he went unto the outer chamber and asked, and yet they answered him, Nay. And the sojourner gnashed his gums for no more teeth remained unto him. And also he covered his head with ashes.

27 And in his seventieth year, the sojourner was gathered unto his fathers and even in the last moment looketh he toward the sacred hill and asked, Is the Keeper of Shekels in? But those who waited upon him answered, Nay.

An Academic Nightmare

Last night I dreamed I was a dean. I do not apologize for this, for I was asleep at the time.

I am seated at a desk in a large office with beaver-board walls. (Deans' offices seem always to require a bit of beaver-board wall to finish them.)

"Take this, Miss Plump," I instruct my secretary, preparing to dictate. "Mr. A. Muddle, Howard University, Washington, D. C.—"

There is a rap at the door—a timid rap, for no one dares commit such an act boldly.

"Come in!" I call.

There is a crash and a thud outside. Miss Plump opens the door and finds there a student, the knocker, who had collapsed.

My secretary looks at me questioningly. (She pretends to be afraid of me, I believe.)

"Well, drag him in," I order.

The trembling bundle of flesh and serge is dragged in and dumped before my desk. Miss Plump stands looking, helplessly twiddling her thumbs.

"Why don't you revive him?" I ask. (Really, her stupidity is quite trying to my nerves at times.)

"I—there's no water in here," she replies.

"Water!" I shout. "What do you want with water? Just watch me. Must I go thru this same thing, every time?"

(The people in the office across the hall complain that I disturb them with these queries, but they have never been deans. No one but a dean can know what we suffer from students and assistants.)

"You lose one credit!" I bellow into the ear of the fainting form on the floor.

The effect is magical. Up he leaps, wild-eyed and raving.

"Well," I ask when he ceases frothing. "How dare you approach the sacred office of a dean? Do you think this place is for such as you—a mere student?"

"I—I—came to see about my credits. You see, I hope to graduate," he ventures shyly, but much too boldly, considering where he is.

"Did I ask you about your business? Wait until you're asked to talk."

The student stands foolishly saying nothing. (My! they're a stupid lot, these students.)

"Well," I ask in a hundred-yard voice. (You can't speak quietly you know.) "What excuse do you offer for fainting outside of my door? Answer me quickly."

"I—er—your voice—"

"What's the matter with my voice?" I cry calmly.

"It frightened me." (He is trembling like a leaf.)

"How dare you insinuate that my voice is other than cultured. For that you lose six credits."

"Oh, sir!" he quakes. "I didn't mean to insult you."

"Didn't mean to—huh! Let's see. In what class are you now?"

"Senior, sir."

"No you're not—you'll be a Sophomore from now on. The imprudence you show in daring to come here in the first place!"

"I'll leave if—"

"Leave! no you won't. You've come in here, and in here you stay until I get through with you. My gentle voice frightening anyone! Why you don't even deserve to be a Freshman. Miss Plump, get me his record."

The secretary brings the large envelope and I take out the record of the culprit before me.

"Miss Plump," I order, "handcuff this villain until I look into his misdemeanors."

A shiny pair of handcuffs click upon his wrists while I glare at the card before me. Presently I finish.

"Young man, you have here only 10 grades of A, 15 grades of B, 10 C's and—my God! a D! What have you to say for yourself?"

"I—er—did the best I could," he mutters, going gray at the lips.

"Good Heavens! he doesn't even realize what a miscreant he is. It's no use. We'll have to request you to withdraw."

The student is sobbing wildly by this time.

"What have I done?" he wails.

"What have you done!" I roar unable to control myself in the presence of such monumental dullness. "Why, you've been here four years and made only twenty-five grades above C! You've made a D and your deportment is most reprehensible in that you dared to disturb a Dean, a *Dean* mind you; for the very poor reason that you thought you were going to graduate. You don't deserve to be a student in good standing at this great university and you are not—any more. Your classification is 'unclassified' from now on, and if you ever disturb a Dean again you'll be thrown out altogether. Miss Plump, clear my office."

The ringing of a bell awoke me from my nightmare. It was eight a.m., so I dressed and dashed into class.

ZORA NEALE HURSTON.

Editor-in-Chief of “The Bison”—The staff hasn't been up to standard. You've all let me down. The Associate Editor hasn't done anything at all, etc.

Associate Editor Harper—If you would just tell me what you want done, maybe I could function.

Editor-in-Chief (in a muchly softened voice and with a generous smile)—Now, Miss Harper, you know I didn't mean it in that way. You know I wouldn't talk about you like that. I simply meant—

Miss Harper—I don't want that Sir Walter Raleighism from you; what I want is my quota of work.

(Note—They're both in the best of humor now.)

B. H. Williams in class meeting—You folks have had your say. Now let me have mine.

Mary Belle Wright received a new dress from home that Eleanor Harper has christened a "King Tut" gown.

Most women get divorced and live happily ever after—some other man.

I wonder why Mary Belle had to help the Editor-in-chief to put his coat on every day and why the pose in connection with it?

I wonder why Eddie Simmons had to make so many trips to Cosby's Studio? Probably the little girl in the office can explain.

Scene: A cozy parlor with the firelight the only illumination.

Time: About 9 o'clock one cold Sunday night.

A Senior (to a young lady who goes to Night School)—Your hair is like silk; your skin is as smooth as velvet; your eyes are like moonbeams. Why can't you love a young man like me, who places himself in subjection at your feet?

Young Lady—Don't be in a hurry, Senior, but you'll find your hat and coat on the hall tree.

Martha (in parlor)—Mrs. Martin! Make Linwood stop teasing me!

Mrs. Martin (from up stairs)—What is he doing, dear?

Martha—He's sitting at the other end of the sofa.

Mother—Daughter, when a young man brings you home at night hereafter you must say goodnight to him immediately.

Daughter—Why, mother? Does the talking disturb you?

Mother—No, daughter. It's not your talking that disturbs me. It's your silence.

—Judge.

Sing a song of pay day—
Pockets full of Jack,
Have a glorious holiday:
Bum carfare to get back.
Four and twenty cartwheels
Blown in on a Jane.
In the barrel till next month
Then do it all again.

As the "ROSARY" befits the "Social Demons" at Howard

The roses I sent to thee, dear heart,
Are as a hock-shop trip to me;
I count them over, every bud apart,
My jewelry, My jewelry!

Each bud a buck, each buck a loan
From some poor friend oft touched before,
As I approach them, I can hear them groan,
They're getting sore; they're getting sore.

Oh, bitter grief—Oh, hunger's pain,
For a full-dress suit my money's gone;
But if from doing this I should refrain,
I'd go alone, I'd go alone.

—from *Sargenta*.

Priestley—I had an awful fright last night.
Madison—Yes, I saw you with her.

Georgette—Bill, you are the light of my life.

Bill Brown—I thank you Georgette, and—

Mrs. Daniels (from upstairs)—Georgette, put the light out, and come to bed.

Ask Rozier why he laughed as Arliner Young sang, "Thank God for the corn fields," during Thanksgiving.

A girl when wearing long dresses,
May not look so well,
Until she's got on her "gym" suit,
"You never can tell."

Mary Belle: I want some Talcum powder.

Clerk: Mennen's?

Mary Belle: No, "Wimmen's."

Cameron—Tickets, please.

President of class—My face is my ticket.

Cameron—Yes? (as he rolled up his sleeves): My orders are to punch all tickets.

Dean Cook (in an advertising class)—Will somebody please cover Mr. Phillips up, he may catch cold sleeping under that window.

Kent—I was one of the best students that Morehouse ever put out.

Nick—What did they put you out for?

Kennie Brown thinks that Columbus, Ohio is where he (Columbus) landed.

"Jimmie" Waring—Give the imperative of 'habem.'
"Bulldog"—Habe ich, hast du, hat er—
"Jimmie"—Hot air is right. Sit down.

Jennings Newsome thinks that a nut-cracker is made to open grapes.

In days of old
When knights were bold
Great men were they, and daring,
They thought far more
Of deeds of war
Than what the dames were wearing.
But in this age,
It's all the rage,
For men to come a-flocking
Whene'er they see
A wee bare knee
Without a bit of stocking.

Walter Adams thinks that Charlotte Russe is a movie actress.

Grant Robinson thinks Pall Bearer is a brother of Theda, and Wheel.

When all the seas' high ships
Have dropped beyond my sky
And life's trumpet leaves my lips,
And Dewey passes me by—
Dear God, then let me die.

Eleanor—Did you hear about "Bulldog" breaking up his wardrobe trunk.

Zelma—No, how did it happen?

Eleanor—Well, the doctor told him to go to the window and throw his chest out the window. Since he didn't have a chest, he threw his trunk out as the next best thing.

Whose Socks?

He wears them pink, he wears them green,
And every color in between.
He's fond of orange and yellow, too,
And also Copenhagen blue.
Tango joins the list of fame
Of colors linked unto his name.
And those with flowers, pink and blue,
On purple back-ground are seen, too,
But last, not least, he wears 'tis said,
His favorite, a flaming red!

—ask E. S. Hartgrove

"Did you give him a cordial welcome?"

"Yeh, mor'n 'at. I gave him some welcome cordial."

—*Wesleyan Wasp*

Dedicated to Ward Nichols.

My dear, I've loved a score of girls,
In farm and village, town and city;
With tempting lips, entangling curls,
They all were pretty.

And I adored them in a way
I thought I never should forget;
'Twas very pleasant—for a day
Or two—and yet

Though you may not be quite as fair
As some of those who came before you,
One charm you own beyond compare.
And I adore you.

For yours is of all gifts the rarest,
And to man's eyes the first and greatest—
Today, at least, you seem the fairest,
For you're the latest.

Overheard in the Law School

"But," said Ed. Perrin, "that is not in accord with the law merchant nor with present day business practices." A voice from the rear observed, "You ought to know, you're a business man."

"I have been wondering—" remarked Jim Harrison. "Yes," interrupted the professor, "you seem to have been *wandering*." "But," continued Harrison, "it seems—" "Things are not what they seem," concluded the nerve wrecked professor.

Jim Pouncy—"I thought that the writ of *ne exeat* was to keep the defendant from leaving the jurisdiction."

Professor—"Exactly; men don't leave the jurisdiction while in jail."

Jim Pouncy—"That's different."

"Mr. Shelton, give a hypothetical case to illustrate your contention," suggested the professor. "I never read that case," admitted the addressee.

"Name the three parties to a marriage, Mr. Shief," gruffed the lecturer. "The husband, wife a-n-d the woman in the case," blushed Shief.

"Who can name one or more defects in this will which I have prepared?" interrogated the Dean. "I," shouted Henderson. "It is incompetent, irrevelant and inconsistent."

"Next," frowned the Dean.

White—"You say what would the law be if the child was in Essex?"

Weatherless—"No, no, I said what would be the law if the child was in *esse*?"

"What is marriage?" asked Julius Johnson.

"The machinery by which the wife gets alimony later on," mused Holliday.

"Why is Weddington so dilatory about his studies?" question in the mind of everybody.

"He is coming back next year," answer.

"What d'you mean by 'nude contract'?" queried Myers.

"One not clothed with consideration," snapped Hillard D. Shopperson.

"Laws sometimes sleep, never die," philosophized the Chair.

"Then the thirteenth, fourteenth and fifteenth amendments must have the sleeping sickness," retorted Thompson.

Pierce—"You say you know this book belongs to you?"

MacCormack—"No, no, I said, if you don't give it to me I sue in detinue."

"Does false grammar vitiate a deed?" propounded the instructor.

"Deed it doesn't," answered Greene.

"Professor, why is it that—" began Lanauze-Rolon.

"We must hurry on," injected the sage of Evidence.

If the laws only come to the assistance of the vigilant, not of the sleepy, Robert H. Craig in street parlance is "out of luck."

"After a lapse of time everything is presumed to have been done properly," runs the maxim.

"That applies to my mark in personal property," soliloquized Smith.

"That presumption is highly rebuttable," the secretary's record informed Pacheco.

"Mrs. Marshall, you are a specialist in Quasi-Contracts," introduced Robert Johnson.

"Yes, but I am not a specialist on this gratis information business," dumfuzzed Mrs. Marshall.

"Coming back next year, Lewis?"

"Not leaving."

"Would an 'M' from the graduate school mean much to you, Hall?" probed a seat mate.

"Maybe. Moreover, my 'M' might make my measure of success much more meaningless," replied the M juggler.

Prof. Richards—"Mr. Arthur, it's your turn. What is the salient feature in the delivery of deeds?"

Mr. Arthur—"In the delivery of deeds, regard must be had, not to what was said at the time, but, to what was done."

'Tis said in law that no one suffers punishment for his thoughts. No wonder Joseph Bayler enjoys so much freedom.

Blackstone says that the crown never falls vacant. Zilford Carter says that may be, but there's many a throne crowned by a dead one.

Prof. Waters—"Mrs. Rogers, what are some Extraordinary Legal Remedies?"

Mrs. Rogers—"I don't know, Professor, but I can tell you what marriage is."

Prof. Terrell—"The buyer buys for as little as possible."

Emory R. Cole—"Yes, and the seller sells for as much as possible."

Ernest H. Davis was heard to say that speed is the index of the mind. I wonder to whom he referred.

Prof. Wilson—"What is a judge's duty?"

Thomas R. Eaton—"A judge ought always to aim at equity."

David H. Edwards—"Professor, I think, it is the duty of a judge to decide according to facts alleged and proved."

Prof. Hart (in the first year)—"What is looked to in crimes?"

Timothy W. Fisher—"It is the intention (emphasis on the intention), and not the consequence."

Prof. Hart—"GOOD! I'll say this class can boast of at least one criminologist."

Henry J. Fugett (in class on Public Service)—"A public right can not be altered by the agreements of private persons."

Prof. Waters—"Good, Fugett, that's what I want you boys to do, bring me something straight from the shoulder."

James M. Fullright who has a penchant for arguing, thinks that an argument drawn from inconvenience is very forcible in law, especially when the case is a doubtful one, and the construction of the statute, or instrument involved, is not clear.

Earl H. Gray, who is ever on the alert, when the question was asked in evidence by Prof. Richards, as to the inadmissibility of parol evidence to vary the clear words of a written instrument, came to the rescue of the class in this fashion: Where there is no ambiguity in the words of an instrument, no interpretation must be given to it contrary to the words; that is to say, parol evidence to contradict or vary the clear words of a written instrument is inadmissible.

WE ALL WANT TO KNOW—

- Who's Arthur's girl, and where does she live.
- If Holliday really wants to finish law.
- What Perrin has in that black bag.
- If Harrison was the author of the questionnaire used in the selective draft law.
- Why Craig never comes to class on time.
- Why Shelton persists on sitting next to Mrs. Childs-Rogers.
- Why Prof. Cobb was so long getting a new bag.
- If Fullbright really knows the origin of everything.
- What Professor Shreve sees in the ceiling when lecturing.
- If it would be correct to call Bradford the "Sheik."
- Who cuts Edward's hair.
- Where Fisher gets his criminal law.
- If Shief would move his seat.
- Should we call Gray the orator of the class?
- Why Professor Waters addresses himself as the "Chair."
- Where are the bright lights of the Middle Class?
- If Noble Wellington will practice law or succeed Bert Williams
- If White expects to practice law in Texas.
- If Pouncey thinks he is fooling everybody about his second birthplace, Penn.
- Why Meyers is so modest.
- Why Julius Johnson is so quiet.
- If McCormick will ever grow fat.
- When does "Staff" Johnson expect to recite?
- If Fuggett would tell us his home.
- Why Mrs. Childs-Rogers let cupid shoot her before June.
- If Weatherless is as important as he looks.
- Where Lanauza buys his clothes.
- Why would Professor Richards "Hurry on".
- If the Dean knew the passing mark last year.
- Why Joe Baylor is so attentive to the clerk of the court.
- How Perrin can straighten everybody out but Perrin.
- Why Prof. Cobb asks about "Al" Lewis every day.
- Why Carter knows about Miss Jackson's whereabouts.
- Why Sharperson asks questions so abruptly.
- Why the Middlers are so cheap.

The Last Word

ERE is "THE BISON." It is not all that we dreamed it should be. It is an imperfect thing, and we know it. Yet we have endeavored to make the best of the limited resources at our command. If we have failed, it has not been because we have lacked energy and vision. Into it we have put our *summum bonum*.

To those who have assisted us we wish here to express our sincere appreciation: to our accommodating Secretary-Treasurer, Dr. Scott, who kindly permitted us the use of certain engravings in the University Printing Office; to the *University Record* and the *Washington Tribune* who also put engravings at our disposal; and above all to Professor James Vernon Herring and his students in the Department of Fine Arts, without whose constant, cheerful, and willing aid and guidance this record of our University career would have been impossible.
