SANCTIFICATION OF ISLAM
Students tolerate shuttle bus inconvenience

By Aliya Davis

Hilltop Staff Writer

You have pushed through your morning routine in order to catch the bus to go to work, only to be stopped with time to spare. Unfortunately, the shuttles are still slapped in the face with exhaustion from the Eton and it leaves Sutton early. Out of the campus to the dormitories. The campus is not doing enough to improve the shuttle service. The bus always passes people left and right and ignores early arrivals.

"I'm one of the three in four that you arc usually successful only when aren't enough African Americans to be role models, although he is a positive black man. Many admirable figures are around the country, but the knowledge of these good people is rarely common. Without some people to show others what it means to be black, the up-and-coming generation is left to develop a concept of what a black man should be. They don't seem to need role models."

"I want people to be curious about the world; I'm one of the three in four that you arc usually successful only when aren't enough African Americans to be role models. Boy bills don't seem to need role models."

"I want people to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

"I think people have to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

"I want people to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

The shuttle bus is a lot like the Metro bus. It is not always there when you want it to be. You have to adjust your schedule. -Reverend James Coleman

Montel Williams' positive portrait of black winter

By Frederick J. Goodall

Hilltop Staff Writer

Montel Williams always talks about overcoming challenges. On Monday, his challenge was to appear on the Hilltop campus. Williams spent a considerable amount of time talking with students and the shuttle bus service.

"I want people to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

"I want people to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

"I want people to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

"Everyone can't get on it and people get on the bus even when there are no passengers, said Montel Williams.

"I want people to be curious about the world and the black man," answered Charley Hicks, who is president of the Charles R. Drew Omega Psi Phi fraternity.

African-American scientists contribute to life's comforts

By Beverly Turner

Imagine a college life without access to the benefits of the preservatives to keep food from spoiling, and the pasteurization of milk. The achievements of many African-American inventors and scientists who have significantly altered the lives of millions of people are quite enticing as we celebrate the month of Black History Month.

The work of many African-American scientists interested in science everywhere. Cleveland native James Ladd is a mechanical engineering student at Howard and a Cleveland native. He had an African-American student, a young boy who wanted to know more about his heritage, and he decided to become an engineer.

This goes back to Edwin McKeen (1843-1928) for paving the way for African-Americans interested in science everywhere. Cleveland native James Ladd is a mechanical engineering student at Howard and a Cleveland native for paving the way for African-Americans interested in science everywhere. Montel Williams: Students must be responsible for their future

Those of you who didn’t have an opportunity to participate in the discussion with Montel Williams, Montel, in his talk, made it clear that we were perceived by the white men in the past, but actually, black history should be taught. Actually, black history should be taught not only in the classroom, but also in the community. We have to understand why black people have survived. The Black History Month is only a once-a-year event, every aspect of black history should be covered. It is important to remember that this image has been perpetuated by the white men in the past, but actually, black history should be taught. We have to understand what our history is, the good, the bad, and the ugly. How tri-c. How tri-c. How tri-c. How tri-c.

Self-degradation is a two-way street. The words from one of rapper Treatment is quite objectionable. It is especially unfair when government as Jennifer accused. The Hilltop's editorial board, and Donny is elevated. Throughout his talk, more than a refreshingly hear such positive messages from him. What others have said about him. What others have said about him. What others have said about him.

IT IS ESPECIALLY UNFAIR WHEN WE HAVING THIS OPPORTUNITY TO CHANGE THE CIRCUMSTANCE THAT WE ARE IN.

Positive messages are important, especially when they come from those who have been through similar experiences. It is important to recognize the achievements of others and to celebrate our own successes. This is why the journal's editorial board recommended that the Hilltop should be used in a more positive way to promote the achievements of black people.

Letters to the Editor

Students protest is a strong symbolic victory

The Hilltop's editorial board, supported by the administration, has decided to hold a rally in support of the students. The Hilltop is a symbol of the university's commitment to the students and their rights. The Hilltop is a symbol of the university's commitment to the students and their rights. The Hilltop is a symbol of the university's commitment to the students and their rights.

Dear Hilltop,

To the Editor:

I am writing to express my support for the students' protest. They have been oppressed for too long, and their voices must be heard. The Hilltop is a symbol of the university's commitment to the students and their rights.

Sincerely,

[Signature]

Before we cry revolution we must rebel in our minds

Racial Discrimination: The American way

Racial discrimination has been a persistent issue in the United States, dating back to the era of slavery and continuing through the Jim Crow laws of the 20th century. The legacy of racial discrimination is still felt today, with disparities in wealth, education, and healthcare between Black and White communities. The following passage discusses the historical and contemporary effects of racial discrimination in the United States.

In the past few decades, the United States has made some progress in addressing racial discrimination. However, many argue that more needs to be done to ensure equality for all Americans. The struggle for racial justice continues, and the fight against discrimination is ongoing.
Cold weather takes toll on District's water pipes

By Geneva Luck

This winter's freezing weather has been harsh on D.C. residents and not just for the pipes, but other areas affected by the weather is the city's schools.

If not properly insulated, water main and pipes will freeze, burst and create a regulatory headache for city officials. Adding to the problem is the fact that more people use hot water in the winter months when the temperature is colder.

If water systems in homes, apartment buildings or Howard University's residence halls remain flooded with frozen water, piping bursts and City officials have a strict policy on how to deal with the problem.

For example, according to the District's Water Department, if a water main or pipe bursts, it is the responsibility of the property owner to repair the damage.

The hot water problems that we had at Sutton Place were because of a hot water pump that needed replacing. A pump is needed to send the hot water to all of the rooms, says an industry expert.

Lester Smith, a photographer and art teacher at Howard University, has been working on a project to document the history of African-American artists. He said he has interviewed over 100 artists and has created a database of information about their work.

Clint0n’s new budget plan may increase federal student aid

President Clinton’s 1995 budget plan to increase student aid is aimed at stabilizing educational costs for college students. The budget includes a $1.7 billion shortfall in the Pell Grant program, which is primarily used for federal student aid loans. President Clinton is asking for $350 million of the 1995 budget to help reduce the shortfall in the Pell Grant program.

Efforts made by relief agencies aid victims of California earthquake

By Robinson Cook
Hilltop Staff Writer

Victims of the Southern California earthquake that hit Jan. 17 are coming in with concussions and falls on ice. In ice storms, the emergency rooms are full of patients with concussions and falls from ice, according to Maltese Adams, a spokesperson for Great Southern Hospital. But Adams said that in previous storms, their normal was to be less traffic in the emergency room.

“Old man winter” takes vacation on the East Coast

By Patricia Callender and Linda Jones
Hilltop Staff Writers

From Boston to Tennessee, severe winter storms wreaked havoc on most of the East Coast last weekend. Thousands of people were left without electricity, slippery roads and railways caused numerous injuries and air traffic came to a halt.

By Tara M. White

Although many people who have been changed by the events of March 2000, Dr. N.J. Dempster is often told that the torturous experience is one of the most important figures in transplant surgery. Dempster obtained his medical degree from the University of California, San Francisco, and went on to receive his transplant fellowship in 1983. Since then, he has been a member of the transplant team at the transplant center in Tompkins County, New York.

Work of late transplant surgery pioneer lives on

By Tara M. White
Hilltop Staff Writer

In 1951, Dr. Samuel L. Kountz, a medical doctor who helped open up today’s black doctors, died at the age of 93. He was one of the most important figures in transplant surgery.

Kountz died in 1951 at the age of 93. He had served as a medical doctor who helped open up today’s black doctors.

The earthquake measured 6.5 on the Richter scale. The aftershocks continued for weeks after the earthquake, causing thousands of residents to leave their homes.

Damage costs are estimated between $13 billion and $20 billion, making it one of the most costly natural disasters in the country since Hurricane Hugo.

In the next few weeks, more than 25,000 people were left homeless—sleeping in tents, cars, parks and gyms. Many of these people did not have insurance or have fallen 10 22,000. Some $33 billion Disaster Aid Bill.

This Spring Break could be just THE BREAK YOU'RE LOOKING FOR.

Planning on being in Connecticut, New York, New Jersey, or Pennsylvania during spring break? Here's your chance to get a jump on the employment scene with The Prudential.

If you're an Information Systems, Accounting, Finance, Economics, Business, Math or Liberal Arts major, we encourage you to submit your resume for our review. If you meet our requirements, you'll be invited to interview with us between March 20 and April 1.

As one of the world's largest and most diversified financial services organizations, The Prudential offers challenge, diversity, exposure and stability to ambitious, highly-motivated individuals. Send your resume by March 4, to:

The Prudential, Corporate College Relations, Dept. HD, 213 Washington Street, Newark, NJ 07102-2992. An equal opportunity employer.

The Prudential
South Africa Day conference urges American political leaders to give development support

**By Gloria McFiedl**

Iliac Daily Staff Writer

Howard University’s South Africa Day was celebrated Feb. 11. The University hosted a collection of speeches by former African National Congress Leader Nelson Mandela, at the Arrow J Student Center from 12 p.m. to 2 p.m.

In support of the event, President Peddie, the reader of Pathfinder Press and Pathfinder Library, expressed his support for the publication of "Nelson Mandela, the Arrows J Story: A Distinguished Reader, A Distinguished Author." He reminded the audience that it was in support of Nelson Mandela’s work that the event was organized against the topic of "Reconstruction/Reinvestment in the African Diaspora".

"Reconstruction/Reinvestment in the African Diaspora" is a concept that was brought about by the late Nelson Mandela. It involves providing development support to African countries through financial and technical assistance.

**A Glance Around the World**

**By Gloria McFiedl**

Haiti – It’s a Pitfall – Haiti’s今后 shortage problems originated from the corruption in the government and the lack of education. Furthermore, the use of drugs and child labor has been severe. The use of drugs has been encouraged by the government. The government also has not done enough to reduce child labor.

**Newspaper**

The entire world has been affected by the natural disaster in Haiti. The United States government has done little to assist the Haitian people. The United States government has not provided any financial or technical assistance to Haiti.

The government in Haiti has not done enough to reduce child labor. The government has also not done enough to address the drug problem. The government has also not done enough to improve the educational system. The government in Haiti has also not done enough to improve the infrastructure in the country.

**Dr. Franklyn G. Jadinier**

"Reconstruction/Reinvestment in the African Diaspora" is an important concept that has been brought about by the late Nelson Mandela. It involves providing development support to African countries through financial and technical assistance.

Candidates discuss platforms at speakout

Undergraduate Trustee candidate Orondo Miller agreed voicing student concerns such as the University's government surcharge on international students, a job requirement for any Undergraduate Trustee.

"I have talked to several students on campus including our international students who have the extra burden of a surcharge as they study at Howard University," Miller said. "They all want the surcharge to be lifted, but they think it would be more feasible and realistic to have that money redirected back to them."

No international student surcharge.

As a solution to the surcharge problem, HUSA candidates Reginald X and McDougald plan to carry on the HUSA scholarship for international students implemented by this year's "Resolution for Change" administration.

"Many students simply don't know what the international student surcharge is," Reginald X said. "Many and myself understand the ramifications of the surcharge and join in the commonsense HUSA Scholarship offered by the administration of Terri Wade and myself.

Reginald X and McDougald said they plan to continue and improve on several of the programs initiated under the passing administration, despite claims that Wade's recent actions on behalf of campus vendors divided the student body.

Revolutionary black inventors...the phrasing is in fact accurate. The black inventors discussed here were instrumental in the development of the American West. They included the young and talented, the old and retired, and even some individuals who were previously unknown to the public. Their contributions were significant in various fields, including industry, agriculture, and technology.

MARY J. THUN and colleagues have identified the dominant contributions to the scientific development of the 20th century. According to Robert C. Hays, there is evidence that the black contributions to the scientific development of the 20th century were significant.

By 1913, it was estimated that as many as 50,000 black inventors were working in the United States. This was a significant contribution to the nation's technological development.

During rehearsals...Eric Langlais explained. During rehearsals...he arrived at the conclusion that he would not be able to continue with the film.

"Sugar Hill," the latest film by Melinda Spaulding, is back with yet another film..."Sugar Hill," the latest film by Melinda Spaulding, is based on the true story of an African-American woman who was a key figure in the history of New York City.

Phat jam gets the hook

Lonna Howell

Phatjam is a band that's always on the edge. They're known for their high-energy shows and their ability to keep the audience's attention. Their music is a mix of hip-hop and R&B, with a touch of soul that keeps everyone dancing.

On their latest show, they were scheduled to perform at the Black College Comedy Jam Tour, sponsored by Comcast. The event was held at a local high school, and the band was excited to perform in front of a large audience.

However, things didn't go as planned. Just as they were about to go on stage, the school's principal called them into his office. When they arrived, they were told that the performance was canceled.

"We were really disappointed," said guitarist Joe Clair. "We were looking forward to this, and we worked hard to prepare."

According to Joe Clair, the principal cited new school policies as the reason for取消ing the performance. "He said that our type of music wasn't appropriate for the school," said Clair.

Despite the cancellation, the band didn't let it get them down. "We're just going to keep working hard and make sure we're ready for the next opportunity," said drummer Joe Martin.

Phatjam gets the hook, but they'll be back. They're already planning their next performance and looking forward to seeing their fans in the audience again.

---

Songwriting Dan Zawah

Continuing the laughs that Legacy started, comedian Donald got the crowd in the palm of his hand after dropping the opening line of his routine.

"You know when you used to try to straighten your pants from around the waist?"

---

Comedian Joe Yoj

Joe Yoj stepped on the stage like it was his home town.

Donald said through his laughter, "I come from the comedy island of Pure Soul. These funny women have a sense of humor that's unapologetic."

Many people didn't even say anything to the audience. They would make an appearance, they would make a show, and they would make it so funny that you would cry. And these were some of the women. Pure Soul just invented comedy into its own form.

Joe Yoj continued to speak. His hilarious routine on making love was not short when the microphone made it sound.

Despite Donald's claims that the event was extremely successful and at the top of the list of the past year's events, it failed to achieve the level of success that was expected.

Future steps for the Phat Black Comedy Jam Tour will include Morgan State, Virginia State, and Howard University. The tour will continue to visit Columbia, Norfolk and Hampton University, the District of Columbia, and the Atlanta Union Center.

The tour goals include bringing the laugh to the city and the challenge to perform in any kind of circumstances.

No one knew how the tour would turn out. The crowd was a mix of men and women, and everyone seemed to be having a good time.

---

Howard production chronicles life, love of Paul Lawrence Dunbar

Rachel A. Chiles

Howard University's sisterhood of Nigeria recently met with Paul Lawrence Dunbar, a student of President John F. Kennedy, in 1962.

The meeting was held in President Kennedy's office in the nations capital. The two leaders shared their views on the importance of education and the role of women in society.

Dunbar was a student at Howard University and had just graduated from the university with a degree in English.

The meeting was a historic event and marked the first time that a woman had been invited to speak at a major university.

The meeting was a turning point in Dunbar's life and he later went on to become a prominent writer and poet.

Dunbar's poetry is still popular today and his works continue to be studied in universities around the world.

The meeting also marked the first time that a woman had been invited to speak at a major university.

Dunbar's poetry is still popular today and his works continue to be studied in universities around the world.

Volunteer in Latin America = Work Experience
A Simple Formula, But One That Makes A Difference
Invest in your future career by working in a community health volunteer in Latin America. Develop leadership, organizational and cross-cultural communication skills while focusing on public health and environmental projects. College credit and scholarships are available. Write or call today for this life enhancing opportunity.
Application deadline is March 1.

Shampoo Blowdry & Curl $20.00
Manicure $10.00
Joseph New Beauty Salon
1620 Georgia Avenue, N.W.
202-319-7086

It's a Howard Student Thang

For more information about the P.L.C. Aviation and Ground Officer Program for Freshmen through Seniors, see Captain Pete Keating at the bottom floor of the Blackburn University Center on February 21, 1994 from 10:00 a.m. - 2:00 p.m., or call collect (301) 436-2006/07/08.
Every time you buy a soft drink at Coca-Cola vending machines on campus, you have a chance to win a trip for two to Spring Break in Daytona Beach, Florida. It's a "YOU WIN!" sticker on your can of Coca-Cola classic, you've won a Spring Break poster, t-shirt, or maybe a grand prize trip to Daytona Beach, including 2-night accommodations and round-trip airfare for two. Spring Break Poster, one out of every 24 cans is a winner!

Look for complete details on specially-marked vending machines. Promotion ends 3/25/94 or while supplies last. No purchase necessary. Void where prohibited. Availability limited to participating colleges and universities.
Howard University Division of Student Affairs
Office of Residence Life

Monica's Thoughts On...

Michael Jordan

Chicago is down by three to New York. The game is being held in Toronto. I am watching it with my kids. I am laid up and watching it on TV. I am watching it for the first time. I am watching it with great interest. I am watching it with a lot of enthusiasm.

Practical Exam

As a student, you are used to studying and being tested. When you have prepared for the test, you have the knowledge and the confidence to do more than just "get by." When you are truly prepared for a challenge, you know it.

As a Military Policeman in the District of Columbia Army National Guard, you'll train to meet and surpass challenge. Whether you are on patrol in a residential area or securing weapons and supplies in a combat area, one thing is certain. This kind of training and leadership experience can give you what it takes to protect and serve our nation's capital. That brand of experience brings the confidence to pass whatever test you may face.

There are other benefits you'll receive besides leadership qualities. As a "Capital Guardian" you may qualify for over $20,000 in tuition assistance and salary over your six-year enlistment. For a few days a month and a few weeks a year, you can get your college degree and a few things that you won't find in a textbook. Be ready for your next exam.

TEACH FOR AMERICA

People think there are limits to what we can do; that it's out of our reach to really change the way things are. I feel there is no limit to what we can do—if only depends on how much of ourselves we want to give.
