# *Dedication*

TO THE VETERANS OF THE CLASS OF 1946

I saw the spires of Howard  
As I was passing by,  
The grey spires of Howard  
Against a pearl-grey sky;  
My heart was with the Howard men  
Who went abroad to die.

The years go fast at Howard  
The golden years and gay;  
The hoary colleges look down  
On careless boys at play,  
But when the bugles sounded—War!  
They put their games away.

They left the peaceful reservoir  
The tennis court, the quad,  
The shaven lawns of Howard  
To seek a bloody sod.  
They fought with vigor born of youth  
For country and for God.

God bless you, men of '46  
Who heard the bugles' sound,  
Who took the khaki and the gun  
Instead of cap and gown.  
The spires of Howard point to show  
You did not let them down.

(Based on W. M. Lett's poem, "The Spires of Oxford")

Founders, high atop the hill,  
With lofty spire looks higher still.  
Its spire, pointing to the sky,  
Is based on walls within which lie  
Countless volumes of many a kind,  
A wondrous realm for the human mind.

## *The Class of Forty-Six Proudly Salutes Its Gallant Veterans of an Atomic War*

The bombardment of Pearl Harbor on the eve of 1942 plunged our peaceful but powerful United States into the cataclysm of World War II, an all-encompassing struggle ushering in the Atomic Age and profoundly affecting the lives and destinies of men, women, children, and unborn generations throughout the world. Into the military ranks of this great nation marched vigorous, capable, determined men, leaving their sundry normal pursuits to take arms against the forces of aggression and fight a relentless battle for victory.

College students from all over the country, laying aside their books and plans for the future, were among those who answered the call to arms. The men of Howard, too, played their valiant part in the struggle, helping to gain a crushing, decisive victory as the basis for world-wide peace and brotherhood.

Entering Howard September 1942 in the midst of war, the Class of '46 watched its membership dwindle as the conflict demanded increasing numbers of its male students. These men have acquitted themselves honorably on battle fronts scattered over the globe. Many can never again enter classrooms at Howard or elsewhere, having made the supreme sacrifice for God and country. Others, more fortunate, although they may not graduate with the Class of '46, can once more resume their studies. The Class of '46 has already remarked with joy the return of several of its veterans.

A thoroughly wartime class, and, since the war was atomic, an atomic class, Forty-Six is proud of its contribution to victory and of the men through whom it made that contribution. To these men in honor and appreciation of their many sacrifices the Class of '46 has dedicated the 1946 BISON.

The Tower Clock—whose faithful peal  
A guiding sound for us did yield;  
Whose patient hands did point a sign  
That of our tasks did us remind;  
Whose watchful face, turned every way,  
Did mark our deeds from day to day.

## *The Atomic Energy Behind the 1946 Bison*

The 1946 BISON, solely a student publication, is the result of the combined ideas and energies of an able Board of Editors and Managers, supported by the cooperative efforts of a group of Staff Workers, with the advice and assistance of many other friends and members of the Class of '46.

As the reader peruses this finished product, he may well consider the extensive variety of creative, business, mechanical, and human interest problems whose solution was the sine qua non for its production. The creative phase entailed many hours of careful planning for the overall format and for each individual page, the vast job of literary composition necessary for the written material, and the tedious art work involved in designing and drawing the cover and the introductory pages. Endless negotiations with printer, engraver, photographer, and advertisers, the tremendous task of contacting and following up campus groups and individuals for pictures and information, and a continuous succession of financial activities and arrangements were all part of the business end of the BISON. The mechanical tasks of typewriting copy sheets, cutting and pasting pictures for dummy pages, mimeographing and circulating notices, making signs for publicity, editing and proof-reading material also played an important role in the production. Nor are the human interest problems of working schedules, arrangements for meetings, division of labor, motivation, and supervision of activity to be minimized.

The Board of Editors and Managers hereby extends grateful acknowledgment to A. Hertzell Brown, Jr. for his guidance and valuable assistance as contact man, to Gustav Auzenne, Jr. for his counsel and help with contract forms, to Terangi H. Duncanson for the benefit of his experience with previous editions of the BISON, to J. Victor Wallace for services in typewriting and mimeographing, to Aileen Clark for the use of the Hilltop Office and telephone, to Mr. Gough for providing furniture, to Bill Spaulding for his work as former Associate Editor, to Herman Gibson for help with advertisements, to "Rusty" Ramoutar for general utility, to the patrons, and to the many other friends who helped make possible the 1946 BISON.

## The "Helioscopic" Fu

Come right up, ladeez and gentulmen!!! Look closely into the Futureoscope, the latest atom-driven machine, with the power of projecting far into the future. You will see unfolded before your very eyes the wondrous achievements in the destinies of Howard's Atomic Class of Nineteen Hundred and Forty-Six.

Let's focus our Futureoscope on our Alma Mater for a moment. Well, what do you know, there's Dr. Hilda Lucy, Ph. D. from Chicago U. She not only heads the Math Department since the retirement of Dr. Woodard, but also has found time to write several research treatises published by the American Mathematical Society. And there's Dr. Jimmy Young strolling down the long walk. He's about to leave the Physics Department to accept a professorship at Columbia University. You know, his theory on the counteraction of atomic bombs has won him international renown. Another Death Valley prof is Gwendolyn Hackley, who holds a coveted Ph. D. in chemical analysis. She's now the idol of American women everywhere since the publication of her book on "How to Make Nylons Right in Your Own Home." The English Department, meanwhile, boasts of such 46'ers as Faith Conway, Edna West, and novelist Madeline Smith.

Shifting the Futureoscope a little to the right, we can view the doings on Capitol Hill. Why there's the eminent Attorney J. Lawrence Prattis, arguing the case of Thomas vs. Machinist Union No. 177. You remember John Thomas. Well he is now an outstanding labor organizer and is attacking the Union's practice of discrimination. Another important figure on Capitol Hill is Attorney Peggy Strauss, who is head of the United Citizen's League. Looking in on the House of Representatives, we see the Congresswoman from Pennsylvania, Doris May. Incidentally, Miss May took time out from her political duties to star in "Candida," which was presented by the Howard Players in their million dollar playhouse.

Speaking of plays, let's turn our Futureoscope toward Broadway, where a new all-Negro musicale is enjoying a successful run. "Lo" Eloise Hill and her dance troupe have a featured role in it, while talented Doris Brown found time between her chores as mother of the cutest set of twin boys to write the musical score. Steve Jones did the spectacular sets. And say, concert pianist Vivian Scott has just returned from an extensive tour abroad. All the music world is anxiously awaiting her forthcoming concert at Carnegie Hall. While abroad she ran into Helen Wilson, who is delighting and amazing the art critics and connoisseurs in Gay Paree with her ingenious and masterful creations. By the way, Carnegie Hall is now applauding the brilliant performances of Gladys Hammond, renowned singing star.

Going over to Fifth Avenue, we come to Madame Sylvia Walcott's Charm School. Sylvia is married to a most successful surgeon. A co-partner in the enterprise is exuberant Freida Jackson Thompson. Up the street is the swanky dress salon owned by Phyllis Allen. One often meets such charming matrons as Fern Mitchell, Jewel Sawyer, and Lillian Reynolds, buying Phyllis' original creations, which are designed by Ouida Moman and Harriet Proctor.

Down on Wall Street our Futureoscope focuses on the smooth offices of Norvel Carpenter and Elena Johnson. Norvel is drawing fat pay checks as a competent C.P.A., while Elena heads the New York branch of the Johnson Contracting and Legal Firm.

Over on Long Island Natica Marshall and Myra Pharr have one of the most exclusive finishing schools for girls in the country. Their faculty, which is rated as one of the best

## ture of an Atomic Class

of its kind, includes several 46'ers, notably Jean Mackey, Yvonne Smith, Charlotte Coaxum, and Lorre Curry. And look, there's Ernestine Keno, now the wealthy owner and head of an ultramodern sanatorium staffed with highly trained specialists in physical therapy.

Let's direct the Futureoscope across the river to Jersey City. We see there Lucimarian Tolliver Roberts, who has just written a delightful best-seller entitled "Too Good to Be True." She and her handsome husband Larry have one of the most attractive homes on the coast. Another Jerseyite of erstwhile distinction is Dr. Jonathan Gibbs, an outstanding psychiatrist. Dr. Gibbs heads a psychiatric clinic in Trenton, with Shirley McEachron and Elaine Lee as his capable assistants.

Focusing our Futureoscope on New England, we come to the beautiful summer camp owned by Leonora West and her smooth husband. You will find any number of healthy sons and daughters of 46'ers. Nona Welters is recreational director there. Residing in Maine is Carrie McLaughlin, who married a prominent dentist. She is teaching the one, two, three's of the tap dance and ballet to two pretty little daughters—heartbreakers like their mama.

The scene now shifts to the Sunny South. Carolyn Daves, as efficient as ever, is head of the local Child Welfare Bureau, Directress of the School Milk Fund, and an active member of three civic leagues. One wonders how she finds time to manage her three handsome and active sons. Stopping a while in Georgia, we come to the palatial estate of lovely Jean Noble, who condescended to marry a dashing millionaire after her search for a man like Dean Lawson proved futile. Visiting Jean are Velvlea Rodgers Johnson and Mary Pack Nicholas, both working for the establishment of a home for unwed mothers in Milwaukee. All through the South one is apt to find an Apex Inc. Drug Store, belonging to the chain owned and operated by pharmacists Bert Estwick and Clement Neely. Two of their colleagues, Flora Tann and Christine Nelson, are developing a similar chain in New Jersey. Oh yes—that petite personality is Johnnie Davenport McMillan. She and Ray have four children, but that doesn't keep Johnnie from her work as a reformer in the field of race relations.

Out Detroit way Irma Threadgill and Lorraine Jones, both prominent real estate dealers, are busy completing a low-cost housing project. Another real estate'er, Elmira Tucker, writes from Bermuda that she has recently signed a contract for fifty new cottages to accommodate the summer tourists, many of whom are Howard graduates. Also in Detroit is the "Persian Room" under the ownership and management of Juanita Robinson and her well-to-do husband. It's one of the swankiest restaurants in the country. Visiting Juanita is Gloria Foster, now wife of the Haitian Vice-President, whom she met while in Haiti on a Lucy Moten Fellowship. Gloria reports that Rosalind Murray is a competent interpreter in the Haitian Embassy. Why look, there's Gloria Garrett Haynes as casual as ever with her two fascinating children. She's living in the suburbs of Detroit, but comes in town quite often to visit the office of her attorney husband.

Marian Carroll Atkinson has just written the Pulitzer Prize Book of the year. It's all about life at Howard, and she's dedicating it to the Class of '46.

Well, folks, guess it's time to turn off the Futureoscope and give your eyes a rest. Let's go to the Class of 1946's Reunion Banquet, where we can all compare notes.

## ACHIEVEMENT KEYS

It is a tradition at Howard for the Student Council annually to award keys to those graduating seniors who have the most outstanding records of achievement in extra-curricular activities during their college careers. The keys are awarded solely on the basis of merit, as determined by the Student Council after studying a submitted list of activities participated in and responsible offices held.

The winners of keys for this year are: Doris Brown, Carolyn Daves, L. Kenneth Myers, Rosalind Murray, Jeanne Noble, J. Lawrence Prattis, J. Wendell Ramey, Constance Smith, Jamie Smith, Peggy Strauss, John Thomas, Lucimarian Tolliver, and Helen Wilson.

## MENTORS

The idea of having mentors at Howard University was taken from the Greeks, one of whose gods, Mentor, the son of Euniseus, was believed to guide the people. Hence the group of mentors is to guide and lead freshman resident women, to help them adjust and orient themselves to the Howard environment, to help make them true Howard women in every way.

Mentors are chosen from the senior women who have lived in the dormitory at least two years. They must have acceptable scholastic averages, high character, personality, and leadership ability. The students have the first vote on the seniors, and upon a selected group the dormitory faculty votes. Finally, the group is narrowed down to eighteen or a number proportionate to the number of freshmen women in the dormitory.

The mentor group is sponsored by Miss Louise Latham, Assistant to the Dean of Women.

The Class of 1946 is proud of its mentors, who represent fine Howard womanhood. (Not shown in the picture is Sylvia Walcott.)

# *Last Will and Testament of*

We, the Class of Nineteen Hundred and Forty-Six, being of sound mind and body, do hereby declare this document our last will and testament. It is our hope that each beneficiary may make suitable, thoughtful use of our individual and collective bequests.

To all of our successors we bequeath our zealous quest for knowledge and understanding of the world in which we live, an ebullient spirit of l'amour de la vie, and a sincere love and respect for "ole Howard U." The men in our class, who fought at home and abroad in World War II, leave a precious and expensive victory as the basis for a lasting peace. Our enlightened womanhood leaves an unfaltering courage to face the weighty responsibilities of home and community.

Gloria Foster, master of detail, leaves her art as an organizer, her trials and tribulations as class president, to Norbert Bain and Eddie McDaniel.

Hilda Lucy wills the headaches, frayed nerves, and energysapping duties which accompany the task of editing a college annual to any capable but unsuspecting junior.

Bequeathed to Bill Matory by John "One of a Kind" Thomas is his "bodacious" enthusiasm for Howard and its lovely femininity.

Rosalind Murray abandons her cool, calculating sophistication to Trudy Daniels.

Jeanne Noble resigns her love for the choir and Dean Lawson to Zaida Coles and Lula Smith. (Her male entourage she will take with her.)

"Miss Vogue" (Phyllis Allen), "Miss Harper's Bazaar" (Shirley McEachron), and "La Mademoiselle" (Lillian Reynolds) leave their smooth wardrobes to Norma Whitby, Elena Knox, and Rita Drummond.

To all the aspiring campus leaders Freida Jackson wills her ability to "win friends and influence people."

Dramatic Doris May bequeaths her command performances in "Hay Fever" and "Family Portrait" to the number one freshman in the Howard Players' tryouts.

Connie Smith, Maudice Franklin, Myra Pharr, Gladys Hammond, and Billy Davis leave the blare of trumpets, the screeching of violins, the wail of voices, the banging of pianos, and a box of aspirins to all the remaining sufferers in the School of Music.

Charming Sylvia Walcott, the lady of the class, leaves some of her poise and grace to Dottie Barbee.

The rugged individualism of Steve Jones and Esther Stokes is left to Walter Hall and Delores Warren.

Natica Marshall and Velvlea Rodgers will their fervent love for "sororities" to all faltering and dejected probates.

Dynamic Lucimarian Tolliver and ubiquitous J. L. Prattis leave their extra-curricular activities to Walette Bolden and Bill Collier.

"Our Gang" of the Class, (Suites 220 and 222 Clarke Hall), Lorraine Jones, Ina Tripp, Mary Weaver, and Barbara Henderson leave to Loretta Osgood, Peggy Johnson, and Johnnie Mae Hardy a barrel full of pranks, jokes, and laughter.

The choreographers of '46, Eloise Hill and Carrie McLaughlin, forego their talents to Dorothy Cumbo and Jo Keene.

To some of the gloomy drips on the campus Flora Tann and Johnnie Davenport leave their wit and joviality.

Ernestino Keno, Nona Welters, and Leonora West leave their zest for health and physical activity and a bottle of Sloan's Liniment for all the aches and pains acquired in the gym to all the "bodies beautiful."

# *the Class of 1946*

Elaine Lee bequeaths the future of the Grenician Ball to Shirley Marie Smith. (May it live up to its fine beginning.)

Queenly Mary Louise Pack and majestic Gloria Garrett will their scepters and crowns to the bevy of queens in the freshman class and leave fond wishes that queens Lovey Hammond and Edith Jones have successful reigns.

To many who could profit by her gifts Dorfs Brown leaves her sundry musical talents and her friendliness.

Peggy Strauss, Mae Williston, and Carolyn Polk will some of their patience and fortitude to the future mentors in the Class of '47.

Death Valleyites Gwen Hackley and Sylvia Massenberg bequeath their broken retorts, unfinished experiments, and midnight oil to the undergraduate chem majors.

For the lucky freshman who lives in her room next year Cookie Lee leaves behind a collection of coat hangers.

Likeable Carolyn Daves wills her amiability and sweet disposition to the pseudo-sophisticates on the campus.

Suave and debonair Buddy Gibbs leaves a place in Alicia Jones' heart and dares anyone to take it. On second thought he just leaves.

All the graduating residents of Clarke Hall leave a D. D. T. bomb for residents of the crawling variety.

The women of '46 leave to the freshman and sophomore women some sound advice born of bitter experience: Take your required Physical Ed. courses before you reach your senior year, for

"Delay with M. R. A.

May keep your sheepskin away."

To the undergraduate high-grade morons who managed to get to Howard we bequeath the high-calibre ability of our esteemed scholars.

To all the campus twosomes we will dreamy spring days and moonlit nights behind the Law School.

To Founder's Library we leave the added quietness which accompanies our departure.

To our beloved and honored faculty we leave the hope for more geniuses, fewer cuts, and higher salaries.

To the sororities and frats we leave the wish for greater cooperation, more civic and educational projects, and increased goodwill.

To the coming Student Council and Hilltop Staff we bequeath the desire that successful agitation be carried on for the Student Union Building which we could not enjoy.

To the future BISON Staff we leave the challenge for a bigger and better BISON.

And now to the entire Howard community we leave this fond hope: May Our Memory Linger On.

Witnessed and executed at Howard University, Washington, D. C., on the seventh day of June, in the year of our Lord nineteen hundred and forty-six.

Signed, THE CLASS OF 1946

The Hilltop Staff last year worked under some very discouraging circumstances in order to give the campus an effective newspaper. When they started in September things looked pretty black. There was little equipment; no files were available; and to make matters worse, the printer was unable to come to any satisfactory terms. The Staff would work diligently on an issue, present it to the printer, then wait for what seemed an interminable length of time for the issue to be delivered.

Despite these circumstances and the lack of experience of much of the Staff the paper did make its appearance six times for the first two quarters. Then, in an effort to make sure the issue would be more regular, the Staff made negotiations for a new printer for the next year. In the meantime, the proposal was to continue the Hilltop in mimeographed form.

Now at the end of the year, the Hilltop is looking forward to a relatively uncomplicated school year in which the paper can set and maintain a regular schedule. Here's hoping that this goal will be attained!

## STUDENT COUNCIL

## THE MEN'S DORMITORY COUNCIL

(Founded as the Clark Hall Council)

The intense desire of the men of Howard University for an effective organ in campus life brought the founding of the Clark Hall Council April 4, 1932. With the opening of Cook Hall in 1940 the name was changed to the Men's Dormitory Council, and so it remains.

In the fourteen years of its existence the Council has consistently fought for the rights of the student to live and participate in every area of student activities freely and democratically. It has made the creation of brotherly feeling between all men in the University the basis of its guiding philosophy.

The year 1945-46 has seen the Council go forward with renewed vigor, following an extensive program to achieve the ideals upon which it was founded. The Tutorial Staff and the Freshman Advisory Committee, working under the Council, have gained the complete respect of all elements of campus life. Kappa Sigma has as its multiple purpose the stimulation of thoughtful interest in issues of public importance, the development of powers of self-expression, quick thinking, logical reasoning, and argumentation, and the promotion of good sportsmanship.

In view of war and post-war transportation difficulties the activities of Kappa Sigma have recently centered chiefly around lively debates and discussions in meetings, the traditional Freshman-Sophomore Debate for the campus, and the necessary tryouts for new members.

The group looks eagerly forward to the resumption of intercollegiate competition with a concomitant extensive program of travel and presentation at Howard of debates with guest teams from other institutions.

## THE FELLOWSHIP COUNCIL

The Fellowship Council came into existence to meet the needs of a growing student body, a need for an all-encompassing organization dedicated to the basic principle of fellowship. Since its inception the Fellowship Council has endeavored successfully to create an atmosphere in which students might logically approach and study the everyday campus problems.

It has promoted greater interest in the national and international affairs of our time—particularly in the fields of social relief and race relations—sponsoring several intercollegiate conferences and sending delegates to many others.

The year 1945-46 has seen the Council go forward with great vigor, pursuing its traditional aims. The following persons have been largely responsible for its current progress:

President .....	Velvlea H. Rodgers
Vice-President .....	Eleanor Simmons
Recording Secretary .....	Marjorie McGee
Corresponding Secretary .....	Leatrix Williams
Treasurer .....	Attrus Fleming
Advisors .....	Melvin Watson, Thomas Hawkins

The student body of the School of Engineering and Architecture annually elects representatives to its own Student Council, an organization which represents the School's students in the University community and is supported by the University Student Activities Fund.

Among the numerous educational and recreational activities which the Council sponsored this year were two out-of-town trips to industrial institutions, tours of the District of Columbia's electrical and water supply utilities, and the annual Open House for the University community and the general public.

The President, Vice-President, and Secretary of the present Student Council of the School of Engineering and Architecture are members of the Class of 1946 and have served the organization for two successive years.

## DAS DEUTSCHE VEREIN

German language and culture has for many centuries been the subject of many studies and much popular interest. Here at Howard University a group of students have bound themselves into a society for the promotion of interest in the language—this is the German Club.

Giving special emphasis to the development of proficiency in conversation, the Club has this as its major project at the present time. Listening to German recordings, speaking only German in meetings, memorizing prose and poetry—all serve to make the student more at ease with the language which he is attempting to master. Officers for the current year are:

President .....	Maurice Blakemore
Secretary .....	Anna Sparks
Treasurer .....	Ruth A. Robinson
Chairman, Program Committee .....	Minnie Fuller

## THE DAUBERS CLUB

The Daubers Club of Howard University is composed of art majors. There is a growing desire to bring all individuals possessing artistic talent to become members of the Daubers Club. The Club sponsors an annual Halloween Party, auction sales of art work, and contests to discover art talent on the campus. All students having an interest in art are invited to join the Club.

### THE W. A. A.

The Women's Athletic Association is an organization which is open to all Howard women and which has as its aim the development of cooperation and good sportsmanship among Howard women. It also strives to emphasize the development of beauty in women through athletics.

The organization has two hundred-twenty-five members this year, who have put over an energetic and enthusiastic program. One of the most popular activities of the organization was the Variety Night at which there were games, prizes, and dancing. The affair was for the benefit of the whole campus. Other activities for the year have been a fun night for freshmen, a wiener roast for W.A.A. members, an informal party for the Hampton hockey team, and a swim fest for W.A.A. members.

## EL CIRCULO CERVANTES

El Circulo Cervantes extends its kindest regards to the Class of '46 and takes this opportunity to express its sincere appreciation for the assistance of the graduating class in all of its undertakings.

The unforgettable Latin fiestas, carnivals, and declamation contests successfully presented by El Circulo Cervantes have become an integral part of Howard's calendar of traditional events.

The group hopes that more Howard students will participate in its activities and help to perpetuate its aims by learning the Spanish language and acquainting themselves with the customs and traditions of their good neighbors in the Latin Americas.

## THE SPHINX CLUB

The first step involved in entering Alpha Phi Alpha Fraternity is membership in the Sphinx Club, the pledge club of the fraternity. During their membership in the Sphinx Club and prior to their initiation into the fraternity proper the pledges are under the constant observation of their prospective brothers and are thoroughly grounded in the history, traditions, and ideals of the fraternity. At the end of this period of pledgeship they embark on that perilous journey across the "burning sands", where lies the majestic, eternally silent sphinx—symbol of the mystic bond which makes men brothers.

## BETA CHAPTER ALPHA PHI ALPHA FRATERNITY

Alpha Phi Alpha was founded on December 4, 1906 at Cornell University in Ithaca, New York, by a group of seven men then enrolled in the undergraduate college. It was the first Negro Greek letter fraternity. Soon afterward, on December 20, 1907, Beta Chapter was founded at Howard University, the first instance of a Greek letter organization on a Negro college campus. Since its beginning forty years ago the fraternity has grown in size and scope until, at the present time, it is an international organization numbering more than ten thousand members. At Howard University Beta Chapter has followed the general trend and today has over one hundred and fifty men on its roster.

The aim of the founders of the fraternity was to perpetuate an organization dedicated to the ideals of "Manly Deeds, Scholarship, and Love for All Mankind", and the program of the fraternity, national and local, has been directed to this end. To direct this program for the year 1945-46 Beta Chapter elected the following officers, who have been notably successful in carrying out their responsibilities:

President _____ Walter Combs, Jr.	Recording Secretary _____ Ivory Wallace
Corresponding Secretary _____ William V. Jones	Treasurer _____ Ralph Kennedy
Financial Secretary _____ Jonathan Gibbs	Sergeant-at-Arms _____ John F. Holmes
Chaplain _____ James Peal	Parliamentarian _____ Kenneth Duggill

## THE SCROLLER CLUB

The Scroller Club represents the pledge club of Kappa Alpha Psi Fraternity. This is where the future men of Kappa are prepared for the lives that they are to lead in the fraternity.

In the Scroller Club men are taught the value of brotherhood and the obvious worth of achievement. The motto of the Scroller Club is "Step by Step We Reach the Heights".

The Scroller Club presented its annual coronation ceremony in a novel manner in the Andrew Rankin Memorial Chapel. This ceremony gained for the club both recognition and acclaim in the collegiate community.

## XI CHAPTER—KAPPA ALPHA PSI FRATERNITY

During the war Kappa carried on, as did many other organizations, with very few men; indeed XI Chapter, founded in 1920, depended upon the efforts of only six members who worked to preserve the Kappa standards of manhood, brotherhood, and scholastic achievements. But as the country began to return to normalcy, Kappa also began to return to its prewar position of command.

The year 1945-46 saw several outstanding events presented by XI Chapter, including the Second Annual Grenician Ball, sponsored jointly by Kappa and Alpha Kappa Alpha, the Dawn Dance, and the Kappa Guide Right program which has as its purpose the orientation and guidance of high school seniors.

Kappa stands ready and willing to meet the challenges set forth by a society suddenly become more complex because of the exigencies of war. We meet this challenge "Cum Fidele in Dei et Homini".

Two well-known activities sponsored by Alpha Kappa Alpha are the Mississippi Health Project, organized in 1935 by Soror Ida P. Jackson, and the National Non-Partisan Council on Public Affairs, whose offices are located at 961 Florida Ave., N. W., Washington, D. C. The sorority proudly claims the Council to be the only national Negro women's organization in America with a full-time office and staff devoted solely to public affairs.

Delta Sigma Theta Sorority, founded at Howard University in 1913, is dedicated to the highest ideals of womanhood, loyalty, scholarship, and service. In its thirty-three years of existence Delta has grown to a membership of more than one hundred forty chapters, all striving to maintain high educational and cultural standards, to serve community interests, and to promote concerted action among college women for the removal of barriers impeding social progress.

This year Alpha Chapter has carried out an extensive, ambitious program of educational, social, and civic activities including: the contribution of books for the library of the National Training School for Girls, direction of a drive for the donation of blood to Freedmen's Hospital, collection at the Second Annual Sunrise Dance of rice to feed the starving Chinese, participation in two of the national projects—Job Opportunities and the Traveling Library, and the annual Delta May Week celebration ending in the traditional Jabberwock, sponsored jointly this year by Alpha, Beta Iota, and Beta Sigma Chapters.

The Sigma Gamma Rho Sorority was founded in 1922 at Butler University, but the Alpha Phi Chapter had its beginning on Howard's campus in 1939. It is the youngest sorority on the campus. Slowly but surely the sorority has grown, "Aims soaring upward until they reach the sky".

This year Alpha Phi Chapter participated in the joint reception for freshman women, programs to abolish juvenile delinquency, its annual Founder's Week celebration, and other campus activities.

The Aurora Club is the pledge group of Sigma Gamma Rho. During the year they presented a Book Review Program for the senior girls at Dunbar High School.

Sigma Gamma Rho hopes to reach the gateway to success with its slogan, "Greater Service-Greater Progress".

NOTE: This page was originally reserved for pictorial display of eight murals on walls of the University Luncheonette. Because of time limitations this was not possible, but here follows a synopsis of the romantic story these panels tell:

## *Hearts, Flowers and Diplomas*

In which a lad meets the lass, loves her to the last, and, at last, woos and wins her for a lifetime . . . an idyllic interlude in eight panels, two for each class: frosh, soph, junior, and senior.

No. 1. Hero discovers beauty about him on the campus, becomes ambitious but no-where as head coach says he (the Hero) is too frail for football, etc.

No. 2. Hero burns incense at the feet of glamorous co-ed classmate; tells of his love and plans to excell in classroom and athletics. Gets muscle-building job with engineering company.

No. 3. A Soph, he's out for the team and makes the grade. Dream girl proud of him but in game with Miner Teachers College, he is goat who loses game and the dream girl to a Miner lad.

No. 4. Sneered at on the campus by mates; exams snarl him; sees his Dream Girl with biggest campus wolf, talking love; battered by frat initiation. Dark days as sophomore.

No. 5. A Junior, he's terrific at football—Bison hero No. 1; the lassies try to lasso him and, having his pick, takes a red head—shows her the moon, whispers sweet nothings.

No. 6. A dashing date with his red head—while his original Dream Girl pines and writes a letter; asking if he forgot to remember; a basketball hero; the showdown between the two girls.

No. 7. The Dream Girl smiles again and they do exams together; Invitations to graduation go out and he gives her the ring with eternal vows; love on a campus on a bright day.

No. 8. Dr. Mordecai Johnson smiling upwards awards diplomas to the love-couple; she smiles wistfully and then those fateful words: 'Do you take this woman?, etc.'; Then—life and love, forever.

This is the story told on the walls of
