The younger son graduated this year from the Los Angeles Polytechnic High School and promises to follow in the footsteps of "Dad" and study dentistry at Howard.

Dr. William Giles is doing a splendid job as head of the Dental Section of Provident Hospital at Chicago. Under his direction the men of the profession are being provided with very beneficial lectures and clinics by men of the Hospital Staff, and by outstand-

ing men from other hospitals in the city. It is reported that these programs are well attended and that much benefit is to be derived.

1913

Dr. H. Claude Hudson, of the class of 1913, practiced ten years in Shreveport, La., moved to Los Angeles in 1923, and has a most lucrative practice. He has been president of the local N.A.A.C.P. for many years and is most active in many civic affairs.

Dr. and Mrs. Hudson celebrated their silver wedding anniversary recently. They are the parents of six fine children.

Dr. A. J. Collins is a splendid example of a man who is not without honor even in his own home town. He was born in Columbia, S.C., was educated at Claflin College and at the Dental College of Howard University. Upon graduating in dentistry in 1913, he returned immediately to his home town where he established and maintains a lucrative practice.

Dr. Collins's affiliations are as follows:—Member of the Congaree Medical and Dental

Society of Columbia, S.C., member of the Palmetto Medical and Dental Association, member of the N.D.A., president of the Columbia Civic Welfare Organization, presi-

products. We point with unusual pride to "A. J." as a loyal alumnus who stands high in his community from the standpoint of professional, civic, religious and political endeavor.

These two positions were held until 1929 when he resigned to give full time to the general practice of dentistry.

Dr. Wiseman has served on many occasions as clinician before the following organizations: The Robert T. Free-

recently from Dr. Clarence F. ("Duke") Holmes, Jr., of 2602 Welton Street, Denver, Colorado. He is strong for organized dentistry and for Howard. Among many things he had this to say: "Remember at all times that you are a Howard man, and as such each day you must sell yourself, your school, and your profession to the public and to future students of dentistry. Scores of boys and girls are watching you; if you are a success they want to be like you and go to your school. Don't miss a chance to plug for Old Howard."
