yesterday as they encountered a strange sight—a black and yellow and black police tape. Danielle Scruggs, a freshman in physics building, surrounded by yellow and black police tape.

"I just thought it was crazy," communications major Frostante said regarding the accident. "I didn't know what it was. I wondered why they hadn't moved it."

A Howard Police officer who asked not to be named said that a student passenger was injured but that he was not at liberty to give more details. The car, which belonged to the parents of an unidentified Howard student, was reportedly struck by a dark colored Jeep Cherokee at about 9:30 p.m. Wednesday.

"The vehicle came spinning down Sixth Street, hit the Pontiac Sunfire, Cohen it to spin and go onto the curb," the officer said.

The right rear bumper of the Sunfire is now a mangled mess for the members of General Assembly," former UGSA Rep Eric Watson said.

According to the HUSA constitution, members are required to attend General Assembly meetings. Members may miss meetings, but only if they have notified HUSA prior to the meeting. The constitution goes on to say that members will be penalized for not attending meetings.

However, the enforcement of this rule is a complicated matter.

Some members of the General Assembly believe that members who do not attend meetings should be expelled from the assembly. "If we lose sight of the job they need to be removed from the assembly," David Trotter, representative for the Allied Health, said during the last General Assembly meeting.

The Assembly meets at least once a month to discuss the agenda proposed by the Howard Student Association (HUSA). president and vice president. During the meeting, the Assembly members are responsible for updating the other representatives of what their school or college is doing.

"Managers of the assembly need to be aware of the constitution and the order of business for the members of General Assembly," former UGSA Rep Eric Watson said.

something is missing from the General Assembly in numbers.

For the past two General Assembly meetings, the number of members has been considerably lacking. "This is ridiculous," said Laye Eckridge, School of Communications representative, during a meeting of the General Assembly. "There is no excuse that we should have to struggle for quorum as a body of elected officials."

The General Assembly is composed of members from the Undergraduate Student Assembly (UGSA) and Graduate Student Assembly (GSA). Each member represents a certain number of students on campus and is responsible for reporting information from the Assembly to the college.

Shuttle Bus Accident Leaves Student's Car Damaged

A Meridian Hill Hall shuttle bus driver allegedly hit the above vehicle last Friday on the corner of Euclid and 16th Street.

By Kalena Smith
Contributing Writer

Chanting, screaming, hundreds of fed-up chanting in protest in front of the Ira Aldridge Theater. This is what is wanted to do on an ordinary afternoon. But not every student is revolted to protest Residence Life again. Sept 15th will mark 2 years of the event.

The theater, which is located next to Crampton Building, is to be used as overflow for commencement, graduation, and ultimately leaving it seriously damaged.

The driver thought he had hit the curb and not Higgins' car. The driver of the bus then tried to make a right turn on Euclid street off of Euclid after dropping of Meridian Hill Hall residents. When Holland pulled out of the last step, he hit Higgins' car.

The driver had to be taken to the hospital after he was hit and he had hit the curb and not Higgins' car. He also had to be taken to the hospital for his injuries.

The Ira Aldridge Theater Undergoes Renovation

By Lateefah Thompson
Contributing Writer

"Renovations" are being made to the Ira Aldridge Theater. This semester for the first time in history. The theater is located next to Crampton Auditorium, and is also used as overflow for commencements, commencements, and the opening piano sessions. This will be the first time that the theater will be fully renovated. The theater was built in 1959. The new features of the building will include new carpet on the stage, a new seating area on the stage, and new chairs on the stage. The opening piano session will be the first feature.

Students Get Over Recent Dorm Raids

Both sophomores agreed that the search was annoying, but there was really nothing to rally about. Russeoo could not even think of what the rally would accomplish. "What's the point of it?" At the time of press, HUSA is not doing anything as we are interested in getting the reader to rally for the raids from the administrators. "We're glad that there were able to get the story out. We wish they would've come to someone, rather it be HUSA or UGSA about the issue.

They'll get over it, says Smith. Smith feels that it is not a matter of time before students forget about the raids and go about their daily lives. "I got over it. I'm not even mad anymore," Salaam says. The shock of the raids may not be enough to move the students against Residence Life, but it definitely, added another check in the box.

New Report Discusses College Cost Increase

By Crystal Nanco
Contributing Writer

The countdown to the political season, and the Democratic Party nomination process begins. The 2004 presidential candidates to represent their party in the election to the highest office in the land, on the ticket of either Howard Dean or his rival, George W. Bush. The election is a matter of the entire student body or at least those who participate in the voting system. So what's the problem? This is the type of situation that most recently described Howard University, with all those white institutions that always mention it. The same issue that took place on Howard's campus still exists. The white students are offended, thereby making the big picture picture! Historically, Black Colleges and Universities are still necessary in 2004. People can say that it's not representative of the real world, but to he, I'm glad I don't have to deal with those issues. The Student Trustee, John Burnes-Ferguson, was one of the few who thought that Howard University was a better place. He's a former graduate student at Howard and is a senior in the broadcast journalism student. Howard Dean is the Democratic candidate running for the position of governor in California. The election is the June 7, 2004. There are once again candidates running for the position, with homeowner Howard Dean in the crowd favorite. Dean, a former governor of Vermont, is a well-known political figure because his actions during the Iraq war is a matter of the time. George W. Bush is a virtual opponent of his politics, according to the candidate. Dean's post position as a state of small state rep­
des his story similar to that of how a small state town could be a candidate to win the 2004 presidential election. One of his strong points is his record of being able to lead a small state town, and if he can do it, he should be able to do it in the state of California. His candidature could be a great addition to the Democratic Party. Dean has been said by many that he's old, and has a person ahead of him. One of his political moves, according to Michael Corfard, a pro­fessor at George Washington University. Others agree.

"He's coming from the heart, telling people that he's got the credentials," says George Willard, a home health care worker from Chicago. Dean's campaign team used the Internet to raise more money than the other Democratic candidate, his total could lead to a bigger addition to the Democratic Party. Furthermore, constitutional­ists believe that the governor is not sitting well with constitutionalists or those who believe in the "direct democracy" is heading constitutionalists. Furthermore, constitutional­ists believe that the governor is not sitting well with constitutionalists or those who believe in the "direct democracy" is heading constitutionalists.
African Students Adjust to New Experiences

By Maureen Taylor
Contributing Writer

Many people from all over the country come to Howard University to become members of the Howard family. African students bring with them a vast amount of travel from different places, which can become culture shock and ask the question "Why did you travel all this way to go to Howard University?"

Howard University is an internationally known university. Although the university is very top historically Black university, it is known for having students not only from the United States but also from the Caribbean, Africa and many other parts of the globe. Of these various areas, some dominate more than others and in Africa is one of the continents that dominates when it comes to Howard University. African American students do not think about how difficult the transition of being in Africa and then coming to a school in the nation's capital is. Not only do these international students have to deal with the so-called "culture shock" of being in college, but they also have to adapt to an environment that is completely different than their own when it comes to college. Within every society, people with similar backgrounds always view themselves as one with others to tell the others. However, said that these problems are natural.

Ayomikun Adeleye, a senior from Lagos, Nigeria, said that these problems are natural. People who are white. Then we start seeing the differences. This segregation is a limitation on campuses. Being an African student on Howard's campus can be likened to being black in corporate America.

"I have been in Howard University for seven semesters and have not had any reason not to be proud of being an African."

Ayomikun Adeleye

A student on Howard's campus, Mayowa Babatolo, a junior from Lagos, Nigeria, said that...

Smoke the herb and get a "humble" thought," were the pas­
tionate words a reggae artist "High" chanted on his 1999 album, "Climbing the Use of Weed," but does smoking weed really relax your mind or is this message a little vague and not real enough? According to Lynette Monday, assistant director for clinical services at the Howard University Health Center, the perception of marijuana use is not beneficial to the body. However, some university students would beg to differ, believing that smoking weed is relaxing and ultimately makes them feel good.

Marijuana is a mind-altering drug that comes from the Indian hemp plant and was originally used for meditation rituals and religious worship, but many Howard University students solely smoke weed for pleasure. Carlos Jones, a senior radio-television-film major, has been smoking weed since he was 18 and believes that smoking marijuana is not necessary but has admitted that weed has become a significant part of his life.

"The grass he helped me, not mess me out," said Jones. "I have an overall GPA of 3.5, so if marijuana was done good to my body and mind, how have I been so academically successful?"

Carlos went on to state that he is fully aware of the long- and short-term effects of smoking weed along with fully comprehending the long and short-term effects of life. "Life can feel ump in a hot day, but I'm really on top of things. I'm not sure I promised whether I smoke or not.

Monday said that marija­

na is the number one drug of choice on JUFO campus. and is also, habitually con­

sumed drugs, weed is the gen­
mart drug of choice.

As a result, she custom­

ized those who choose to smoke the herb, but she would not say much about it.

"I don't know, never really thought about it, but I do believe that it was 100% will," he said.

However, Williams admits to thinking since he was in the third grade that weed is a natural high.

"Drinking makes me feel good and puts me in a something state of mind," he said. Williams believes that thinking it's necessary for certain social activities and settings and feel that being drunk is more fun overall.

"I'm fully aware of the short and long-term affects of smoking and drinking but I still do it," he said, quoting himself.

Carlos and Williams are

A "Square" Keep on being a "square" young man, for in you will find page, for It's the "cool" and "creep" of life. Someone who lives in a mental state. Think of yourself and don't be the "pack."

If you're wise you will keep your cool.

With a hooded gang that breaks the law, you are doing the "smart" to do wrong.

Keep on being a "square" young girl, for a "solid chick" learns in time.

That being "hip" she's easy to trip.

And turn in a life of crime.

The juvenile halls and jails for everyone.

With "cool, crazy cats," everywhere, they are even used in "death row." While a "square" you will seldom find there.

So being a "square" more than pays these days.

You can work with head high, always sharp.

While the "cats" and "chicks" rule their lives, you are defying the rules of life's game.

Andy Raza

The Debate on Weed and Alcohol

As more and more people begin to "find" themselves on Page 1, "more and more relationships are going to come to an end," said a sophmore finance major, explaining her boyfriend's departure. The boyfriend of approximately two years gradually grew apart.

Smith, who had hopes of joining her twin sister at Hampton University, opted for Howard University instead. This would allow her to remain closer to her boyfriend, who attended UMD.

With demanding schedules and conflicting interests interfering with the plans of both, Andrea said her boyfriend was no longer the one she saw as an ideal partner. With the lack of communication and physical distance, jealousy arose along with heated arguments.

With some time apart and a realization of what went wrong, Andrea and her ex-boyfriend are now able to speak about their time as a couple with hopes of getting back together in the future. Andrea and her boyfriend are both excited about the possibility of their relationship.

In the end you will find your way and she could go hers own way. It is very difficult to find oneself after a bad breakup. It can be har to find oneself after a bad breakup.

With the many broken hearts caused by breakups in relationships often times a driver to each other as a means to support. At some point in their lives, many people find it is very difficult to maintain long-term relationships.

Quinton Randall, fresh­

man business major

"If you're rich, I'd say good by. If you're broke, I'd say stick around."

"I'd say good riddance! I'd go with the one who's the best."

"I would take my time approaching the situation and calming down. Eventually, I probably would get out of it."

"I would dump him and beat up the chick.

"If it was me, I wouldn't feel the same."

"I would dump him and beat up the chick."

"If you're wise you will keep your cool.

While a "solid chick" learns in time.

That being "hip" she's easy to trip.

And turn in a life of crime.

The juvenile halls and jails for everyone.

With "cool, crazy cats," everywhere, they are even used in "death row." While a "square" you will seldom find there.

So being a "square" more than pays these days.

You can work with head high, always sharp.

While the "cats" and "chicks" rule their lives, you are defying the rules of life's game.
UGSA Meeting Leaves Students Feeling Excluded

No opportunity was made for members of the student body to sign up to help the campus. "I expected to be more of an outreach for new members," stated sophomore transfer student, Anicia Morris, a radio-TV-film major.

Although the first UGSA meeting may not have been what students, who were not representatives, expected, it was productive as UGSA discussed important details to ensure they have a strong and eventful administration and hopes to embrace money in its next year’s assembly. "We advertised the meeting for students to come out to see their government in action," shared Representation for the School of Arts and Sciences, Courtney Nelson.

Students are also urged to participate in next week’s "Meet and Greet," when students will actually meet and be able to share here views with the representatives from their respective school.

Bush Plans To Allocate More Money for Post-Iraq Efforts

BUSH from A7

Senior electric engineering major Colton Bennet.

Political science chairman Lorenzo Morris said that the money used in the post-Iraq effort could make a substantial dent in any social problem in America. "We should have known that they were even coming," said Wallace, a business management major.

"They didn’t mind shaking your hand, even if it was the hundredth person they’d met," Morris said. "We were too hasty to think about the real effort.

If this new request is approved it will push the federal budget deficit to $10 billion. The original budget deficit was $4 billion without consideration the extra war effort.

Secretary of State Colin Powell said on NBC’s "Meet the Press" that only 10,000 to 15,000 would come from other countries meaning that America would have to pay the bill of $450 billion with the war.

"There are things that we shall be worried about," Courtney Patterson, sophomore public relations major, said. "We want relations with the nation and we have gone over our organization tactics.""Dennard said, "but I am definitely proud of this as well as everyone else in EPP. This was our first ever for the year, but with poor planning, our next events will dip thinner and bring the attachment back to Howard."

‘Da Band’ Publicity Event Poorly Organized

BAND from A3

"It was exciting to know that they were even coming," Briana Henderson said, a freshman psychology major.

Sophomore Kirkland Wallace agrees. "They were real cool," said Wallace, a business management major. "They didn’t mind shaking your hand, even if it was the hundredth person they’d met."

Although Dennard admits that EPP and the Universal Music Group could have been better prepared and apologizes for any inconvenience, she retains the fact that they were not expecting such a massive turn out.

We recorded all the things that need to change and have gone over our organization tactics," Dennard said, "but I am definitely proud of this as well as everyone else in EPP. This was our first ever for the year, but with poor planning, our next events will dip thinner and bring the attachment back to Howard."

Student Injured in Hit-and-Run on Sixth Street

HIT-AND-RUN from A1

Warren Henry, a junior civil engineering major, was confused when he saw the totaled car. "I came here that morning and I saw the car and thought it was strange," Henry said. "If it was an ordinary accident, the other car would be here and that car (that was damaged) wouldn’t have police tape around it."

No further details were available at the time of press. For more in-depth coverage, please read Tuesday’s edition of The Hilltop.
Schizophrenia: A Mind-Boggling Situation

By Crystal Stokes Contributing Writer

When asked the question “What is schizophrenia?” most people come to mind when you hear the word “multiple personalities.” Like a television show. Like a new release of a popular motion picture comedy Me, is nothing to laugh about. In the spirit, what seems to be a phenomenon across the country. The question is whether the youth about weed and alcohol being their drugs of choice, one has to wonder whether the youth are indulging in these depressive into a book appropriate social issue is whether the image of them is affecting their normal lives. There is a possibility that schizophrenia may be hereditary but there is no cure.

The Debate on Weed and Alcohol

DEBATE from As two just sentences that represent what seems to be in addiction issues that cross the country. With the influence of videos and music and myriad celebrations about weed and alcohol being their drugs of choice, one has to wonder whether the youth are indulging in these depressive into a book appropriate social issue is whether the image of them is affecting their normal lives. There is a possibility that schizophrenia may be hereditary but there is no cure.

When It Just Doesn’t Work Out

OUT from As separate because they understand that it is difficult to maintain the relationship? Breakups for the better than choosing friends, may have psychological effects on both individuals. Although it is possible for a couple to salvage the friendship after a breakup, such as in the case of a best friend and her ex-boyfriend, many times such a situation is very stressful.

According to Courtenay, the standard time of mourning for broken relationships would be around two to three months.

Hoskins Rides into the Spotlight

By Kim Lee
Hilltop Staff Writer

It was a tough weekend as the Bison Volleyball Team traveled to Lawrenceville, New Jersey to battle in the “Rider Cranberry Classic” Tournament.

They engaged in 3 games, challenging the likes of Rider University, Lehigh University, and Wagner University. The Bison left the tournament with a 1-2 record.

Hoskins, a sophomore Kollin Hoskins, hails from Fort Worth, Texas and her volleyball career began to heat up. "Respect all. Fear none," when asked about the real HU.

When the whistle sounds, Hoskins identifies the tournament as her favorite. "My favorite part of the game is getting a kill, a hard-hitting, ace-finalizing smashing kill."

Hoskins identifies the most noticeable difference between high school and college volleyball as "everything is quicker, and faster paced. You really have to pay attention to the setter. I look at her arms and torso, so I can read where the set will go before she sets the ball."

Before games, Hoskins keeps her focus on staying loose. "I remind myself to keep my elbows up throughout the game, in order to keep all my power behind every hit." Hoskins gives credit to her high school coach, Coach Watts, for providing an effective game plan. "Respect all. Fear none."

Both staff and teammates speak very highly of Hoskins. Romanda Noble, the assistant coach, considers Hoskins to be a "very talented player.

As the season begins, the competition has already begun to heat up. Hoskins admits she is excited about playing teams like Morgan State and Hampton.

Coach Spencer spoke honestly of her team. "We were clearly the better team at the tournament. It’s a matter of getting our chemistry. We gave up some points on serving errors. That really hurt us in a rally scoring situation."

The next home game will be on September 23 and spectators will be on the "Rider Cranberry Classic" All Tournament Team, this past weekend in Lawrenceville, New Jersey.

Hoskins is a powerhouse at middle hitter and blocker who shared her HU pride and experience that "I ain’t never scared normally. They’re no risk. Of course we have to beat them!" Hoskins declared. "Of course I want to beat them!"

The Student Perspective

game ." She said, "Winning is my motivation and God is my inspiration," said Hoskins, with a reflective smile. "My favorite part of the game is getting a kill, a hard-hitting, ace-finalizing smashing kill."

"Winning is my motivation and God is my inspiration," said Hoskins, with a reflective smile. "My favorite part of the game is getting a kill, a hard-hitting, ace-finalizing smashing kill."

Spencer also considers chemistry. We gave up some scoring situation."

The next home game will be on September 23 and spectators will be on the "Rider Cranberry Classic" All Tournament Team, this past weekend in Lawrenceville, New Jersey.

Hoskins is a powerhouse at middle hitter and blocker who shared her HU pride and experience that "I ain’t never scared normally. They’re no risk. Of course we have to beat them!" Hoskins declared. "Of course I want to beat them!"

Currently Looking for:
Dynamic Juniors, Seniors and Graduate Students who have demonstrated exceptional leadership ability, academic success, campus involvement and community activism

DEADLINE:
Wednesday, October 1, 2003

Applications must be dropped off in the Dean's Office of your School or College.

Applications can be downloaded from the Howard University website:
http://howard.edu/currentstudents/studentlifeactivities/newsandevents/whoswho.htm
or can be picked up in the Office of the Dean at each school or college

"Chin up, I think lackadaisical market volume won't stop upward trending predictions."

High blood pressure and diabetes can damage your kidneys without any warning. In fact, 10 million Americans have kidney disease. Twenty million more are at risk and many of them don't even know it. African Americans are especially at risk.

Find out if your kidneys are working properly.
Get a blood pressure check and simple urine and blood tests. It just might save your life.

Remember, when it comes to preventing kidney disease, waiting until the last second never wins. If you haven't had a check-up lately, it's time to ask your doctor to check out your kidneys.

Looking for Love

Finding some sort of relationship is on almost everyone’s mind. Whether it’s looking for love, hooking up, dating, or even same sex. We seek in the opposite sex or even the same sex. We are guilty of spending many dollars to get here to find love. Women are particularly susceptible to the lure of romance.

Forget the B.S., this pageant is a good thing. Furthermore, the pageant could help increase AIDS awareness.

The purpose of the pageant is to find the woman who is a positive role model and is not afraid to stand up for her beliefs and fight for AIDS awareness. The pageant is a good thing because it can help increase AIDS awareness and encourage others to get involved.

Naming a building after someone is no trivial matter. All across Washington DC there are numerous monuments, buildings, statues and shrines all paying homage to the American society.

Our View:

Love may happen to you here, it may not, but don’t forget to calculate your search for love.

Miss HIV Pageant in Botswana

It is no secret that AIDS in Africa is a devastating epidemic that is constantly on the rise. The disease has become so much a part of the culture that one cannot imagine a world without it.

Fortuitous HIV positive women participated in the Miss HIV Stigma Free pageant in Botswana last weekend. In a place where the disease is rampant, it is amazing to see how many people are working to fight against the epidemic. The women who participated in the pageant are more focused on other elective than looking cute and attracting male attention in hopes to find their husband.

There is a traditional myth among AIDS patients that they are people who do not meet other people here. This is a little known between Bisexual. It is disturbing to us, though, when people get so caught up in the notion of getting a man (or woman) that they take on obsessive tendencies or lie about their life to get the man of their dreams to look back and think.

If love is important to you, you shouldn’t neglect it and be reasonable about the search for this intimate emotion. Love is a wonderful part of our world. However, one should not be so blinded by the blinding of diamond dreams and forget to get on life’s other joys. We say, don’t fret out a crazy amount of energy looking for a loving degree and let love find you.

The R-Kelly Problem

By Chishia Udeorji

Argentine-born revolutionary Che Guevara died for over three decades, but his legacy continues to address his resurrection and hope that the fashionably serious can respect his values. Che never planned to sell any price statements made in his life. As Che himself said, his legacy is to the people who are not able to speak.

Black women are perhaps the most unappreciated group in the United States, but some of them have the courage and the ability to speak their minds. Every other person out there is not living in their own self-expression. We must awake and understand that we are no longer black, we are not white, we are living on the last 20% of our energy trying to live and breathe, but we can never achieve our highest possible self.

At the risk of sounding too 'girl power,' I must say it is high time for black women to support each other and not just within our own little circles of friends, but across the board. Give praise to the son who has taught you, and if you can't find it with your heart to give your love, then you do not try to steal her shoes with your own ugliness.

There is no need for the attitude of 'what has become of you?' Most women have no shame from jealousy or insecurity, and we are negatively surrounded by the same attitude with whom we do not want to be associated.

I remember once being so concerned with getting my hair done in a certain order. A woman who truly understands the importance of having the trust to start being more positive, and she does not need to build each other up. Some gathered are already enough to know that we are beautiful, and she does not need to be told how beautiful we are.

We are now able to know what you think, but don't do it with your heart.

By Nalaksha Williams

The level of hypocrisy in the American society, and the black community, has reached all-time high. It seems like as a culture, we refuse to learn from past mistakes or reflect on various situations that take place over time.

The black community is dealing with the R. Kelly problem, and not in a way that seems rational or effective. The trivial R&B singer has been awash with laws suits regarding his lascivious behavior, including a child pornography charge. In every outing, the video was readily available to the public. I'm not going to say that I watched it. Anyone who viewed the tape can say that the girl in question was younger than 18. For any R. Kelly fans who want to believe that the tape is part of some sick game plot to set up the singer, the tape was authenticated by the FBI crime lab in Manhattan.

One argument is Kelly's favor is that the 14-year-old girl in the video, Rezonna Henderson, was old enough to make a decision. She was not forced into the act, but I just know that something was very, very likely the fact that a girl was having sex with a man.

In the society we live in, everyone over 18 (in R. Kelly's case), cannot have sex with anyone under 18, period. As the only adult present, the responsibility rested with Kelly in this situation. He had a choice. In order to distract the public from the real issue at hand, Kelly blames the allegations on his fame and face, but if he were not famous, it would be the same story, same game.

As a society, however, we feed into this type of behavior by over-sexualizing our youth. From child beauty pageants to teen pop stars, our media is saturated with images of kids behaving like adults. Even physically, children now are more developed than I ever remember during my childhood.

Teenage R&B groups like 3LW are packaged as teen heartthumps, but as sex symbols with a potentially dangerous message for the youth. R. Kelly's "Chocolate Factory" hit big on the Billboard charts for rap, R&B/hip-hop albums. It seems to me that Factory was aptly titled, taking the idea of Willie Wonka, and the Chocolate Factory, "the character of sunshine omnibus, counterculture, anti-consumerism."

Now I'm no Rihanna Kellie, but I know that if nothing, it just doesn't make sense. I remember seeing the movie, and a very desirable girl stood with her friend, wearing the infamous Guevara T. Her friend asked "Who's that man on the shirt?" Martel would reply, "Girl. It's someone from Mi-Cuba." I laughed at the stout off-white that it seemed as if the lyrics were questionable. It went against the grain and chose a life of uncertainty.

Before having another one of his shirts, find out whether or not you can truly say you are comfortable with the life he lived.

I went into very little detail about Guevara actually, but I believe that the piece will inspire people to choose to wear. Che Guevara was no Spider Bob Square Pants, and shouldn't be treated as such. In fact, I'm sure that if people knew his beliefs and philosophies, many people actually would forget their fathers. I ask that people simply remember the fact that was too real for us to handle. Not a fictitious superhero or a celebrity who out on his own.
