Phenomenal’ poet captures
Crampton Auditorium crowd

By F. L. Robb

“When I looked like the rain
I found my rainbow in the clouds,”
Dr. Maya Angelou sang the words in her famous voice as she
began her performance at Crampton Auditorium. The English
Department and HUSA announced Angelou’s visit to give
lectures in honor of Howard University’s History Month.

Angelou is a Nobel laureate and an accomplished
poetress, writer, songwriter, actor, educator, scholar and
national treasure. The event was sponsored by the English
Department, Howard University Student Association (HUSA),
and the Black Student Union (BSU).

The auditorium was packed with students, faculty and
staff members, all eager to hear the renowned poetress
perform. Angelou’s voice filled the room with her
profound words and soul-stirring stories. Her performance
was truly enchanting and inspiring.

Angelou shared her life story with the audience, from her
early years growing up in Arkansas to her journey as a
prominent figure in the civil rights movement. She
highlighted her experiences as a young woman in the
South, where she faced discrimination and systemic
oppression. Despite these challenges, Angelou
remained resilient and continued to pursue her dreams
and passions.

Her poetry was interspersed with personal anecdotes,
showcasing her wit, wisdom, and raw emotion. Angelou’s
words were a testament to her deep understanding of
the human experience and her unwavering belief in the
power of the human spirit.

The audience was captivated by Angelou’s
performance, and their applause echoed through the
 auditorium. The evening ended with a standing ovation,
deepening the connection between the poet and her
audience. Angelou’s visit to Howard University was a
remarkable occasion, leaving a lasting impact on all
those in attendance.

Phenomenal woman, that’s me.”

In a woman, PHENOMENALLY!”
Residents, Campus Police point to master key mismanagement as cause of January增加 burglary. According to Robert Washburn, security officer for the Belknap campus police, said, "If you have a key and you can’t find it, there’s only one thing you can do: call Campus Police and report it immediately." Security breaches often happen during the Christmas season because people are more likely to be away from home and leave their doors open.

"Every victim came back to an altered scene," added Washburn. "So many people are being burglarized during the Christmas season that the police force is overwhelmed with calls."}

Special Report

Education claimed $32 million in seconds, according to a new report released by the government. While some sources were skeptical about the accuracy of the report, others see it as a positive step in the right direction.

"The problem is that the key is out of control," said Campus Police Sergeant Jack Bowers. "I want to be able to sit outside a person’s house, and I don’t want my key to be there." Bowers said that the key is out of control for many reasons, including the fact that the key is not being used properly.

According to Bowers, there have been several cases where students have lost their keys and had to pay for new ones. He said that the key is not being used properly because it is often left out on the doorsteps of student residences.

Bowers said that he has been trying to increase awareness about the key issue for several years, but it has not been easy. "It’s a tricky situation," he said. "We have to find a way to make sure that people understand the importance of using the key properly."
Students, alumni participate in C.I. entering program

By Keisha J. Henry

Start marking the 1995 academic year at Howard University. The fall semester begins Aug. 29. From registration to orientation, students are involved in the Howard University community. As a soon-to-be senior, I wish to share my experience of the up and coming academic year.

The Howard University website offers a wide variety of opportunities for students who are looking to expand their knowledge. Opportunities ranging from internships to progressively challenging classes are available.

Taking advantage of these opportunities is important for academic and personal growth. The academic courses offered at Howard University are designed to provide students with a well-rounded education. This includes courses that are relevant to various industries and professions, enabling students to explore their interests and develop skills.

Many of the courses in the program are taught by professionals who have practical experience in their respective fields. Students have the opportunity to gain insights from these professionals, which can be beneficial for their future careers.

Additionally, Howard University offers various extracurricular activities and clubs that provide students with opportunities to develop leadership skills, social skills, and teamwork.

Many of the clubs and organizations at Howard University are open to students of all backgrounds, ensuring that all students have the opportunity to get involved. These clubs and organizations include academic clubs, professional organizations, and student government organizations.

Howard University is committed to providing a diverse and inclusive environment that foster academic excellence and personal growth. The university has a strong commitment to providing support and resources to students, including financial aid, career services, and academic support.

Howard University is an institution that values diversity and inclusivity. The university is dedicated to creating an environment that is welcoming and supportive for all students, regardless of their background.

By seeking to increase the diversity of its student body, Howard University is contributing to a more comprehensive and inclusive academic community. This increased diversity leads to a more enriching educational experience for all students.

Howard University is a university that is dedicated to its students. The university provides students with the resources and support they need to succeed academically and personally. Howard University is committed to preparing students for success in their future careers and personal lives.

HUSA presidential candidate Chiquita James said, "Howard was just a wonderful experience."
Local Checker kings reign in local association

By Kimberly Moner Burrous

Local recreation centers receive funds from Barry

By Mayor Nonon BarTy announced that proceeds from the Recreation Wish Lottery (
RWLC) are expected to be distributed to local recreation centers in early March.

The RWLC was created by Mayor and Mrs. Barry's vision for a better life for our children. We are excited and proud to see the outcome of this brainstorming activity.

Two players concentrate on their next moves.

A long row of 'checker kings' plan their strategies for winning.

Two players concentrate on their next moves.

Johns undergoes flight medicine training to maintain her surgeon rating.

By Kim Moner Burrous

It was a doctor's office where Col. Sonya M. Johns, then a young military rising star received her coca with pride. This forced her to overcome her insecurities and motivated her to rise to the top in both the medical and military sectors.

The boxer, now a mega-model, has been playing checkers in the playgrounds of the west coast. Right now they are conducting a national tournament at The Capitol, where Taylor is playing in the America Pool Checkers association, Capitol Pool Checkers club, which formed a national tournament and awarded $20,000.

The RWLC joined Mayor and Mrs. Barry on the stage during the announcement of the proceeds from the RWLC. Earth Conservation Corps, recognizing the contributions made to the community, was an honor for her to be a part of. Barry kept interjecting her words to make the audience laugh. In the end, the woman head table at the close of the conference, and she said, "It was an honor for her to be a part of.

Youth from low-income families were among the participants, and the RWLC, a division of the Department of Transportation, is an excellent example of how young people can be involved in community service.

Sybase will interview at Howard University Wednesday, February 22nd

for the positions of:

Associate Consultant, Professional Services
Associate Software Engineer, Technology Solutions Group

Sybase invites you to attend an Information Session Tuesday, February 21st, 6-8pm

L.K. Downing Hall, Room 2119

Attire is informal and refreshments will be served.

Contact the Career Services Office for details. For more information on Sybase, see our ad on page 100 of Job Choices, Science and Engineering. Sybase is an equal opportunity employer.

Be in good company. Interview with Sybase.
Rutgers University president's racist remarks incite protest
By Jayson Lynette Thompson

After accruing five years as Rutgers University president Frederick T. (Rick) L. Hillebrand, the university president made a series of statements that were later revealed to be racist. The statements were made in a meeting with university faculty and staff, and were later made public.

Hillebrand said that he had been influenced by the work of a black scholar, and that the scholar had told him that he should not speak about African-American students in certain ways. The scholar was later revealed to be a white nationalist, and the comments were later made public.

The university's Board of Trustees later voted to remove Hillebrand from his position, and he later resigned from the university.

The university's Board of Trustees later voted to remove Hillebrand from his position, and he later resigned from the university.

By Nicole Mason

Interior Staff Writer

By the end of the Cold War, it was obvious that the world was different. In every country, African Americans and Europeans made a point to assert their influence on world events. The United States' involvement in the world, however, was not limited to the African continent. The U.S. was also active in Latin America, promoting democracy and human rights in countries such as Mexico. Despite this, political strife continues to plague many nations, including Burundi and Mexico.

In Burundi, the recent outbreak of fighting in the country has brought unprecedented attention to the region. The conflict has been a result of a long-standing dispute between the Hutu and Tutsi ethnic groups. Over the past few years, the situation has escalated, leading to widespread violence and displacement. The United States has been involved in the conflict, providing humanitarian aid and support to the government.

In Mexico, the recent devaluation of the peso has caused a financial crisis. The country has been facing a significant deficit in its current budget, and the government has been working to address the issue. The Mexican government has been receiving criticism for its handling of the crisis, and there are concerns about the sustainability of its policies.

These events highlight the ongoing challenges faced by countries in the region, and the need for continued international support to address these issues.

The Hilltop
**The Hilltop**

Since 1924

**A matter of dollars and sense**

In an effort to arrange the troubles of the working world, President Clinton has taken a novel approach to proposing the national minimum wage. He is now using his media presence from the recent Clinton-Taylor debate to pressure the Senate into passing the Americans with Disabilities Act as an important civil rights and democratic issue.

The re-election efforts of the Clinton presidency will be made much easier by the presence of the third major party on both sides of the debate. The National Association of Small Business and the American Federation of Labor-Congress of Industrial Organizations, or AFL-CIO, have both united in their opposition to the Clinton administration's proposed minimum wage increase. Both parties have characterized the minimum wage as a direct threat to small businesses and have warned that it would lead to layoffs and increased costs for employers. However, the minimum wage is not just an issue for small businesses; it is a critical component of the larger debate over the future of the American economy and the role of government in providing a safety net for workers.

The most important question in the debate over the minimum wage is: How does it affect the lives of working people? The minimum wage is not just a matter of dollars and cents; it is a reflection of the values of our country. By raising the minimum wage, we can send a message to working people that we value their contributions and that we are committed to ensuring that everyone has access to a living wage.

To the voters some concrete plans and proposals. Just as voting is essential to the democratic process, so is holding politicians accountable for their actions. The most important question in the debate over the minimum wage is: How does it affect the lives of working people?
Perpetrating Afro-pimps thrive at Mecca

Rashid McRae

Too many HISU students have taken to massacring the Afropire...the only time to keep them from doing so is to keep them from being alone. It is a thin line that has been reined in, women to only be protected for fear of them getting hurt. In the words of some Black intellectuals, "the evolution of Afropiracy has made us afraid of each other."

All this points to the serious need for Black intellectuals to be centered in the Black community, the only choice has been to talk and talk and talk and talk. Many of our Black intellectuals have let us down. They have failed to mobilize it. They have failed to be leaders. They have failed to be Black and militant. But we do not have to be a revolution. We have to be a revolution. We have to be a revolution. The fight and that "what I said is not always going to be true"应在don't they think that we are going to have to do something with our time?"

The writer is a junior majoring in political science.

We appear pro-Black and militant, but we do not take the beheading steps to be truly African-centered. Indeed, some of us read Malcolm X's victimology. These people will be there. There are 1000 Black activists giving conferences every two months during vacation. They are on an island. Most of us would rather sleep alone than to be ina moment that can't redeem your way as well as your words.

Whining professors are an ancient plague at Howard

Dr. Michael Pender

In his rather unappreciated and often vilified life, James W. James. a Howard University professor, died on Feb. 9. It is unfortunate that so few people are aware of this. James was the first African-American to receive a Ph.D. in philosophy from Harvard University. He was a brilliant writer and an accomplished orator.

In his later years, he became the Editor-in-Chief of the Howard University Press and was responsible for the launch of the Howard University Press. He was a tireless advocate for the freedom of expression and the right to be heard.

Department of Philosophy has a totally different perspective

Dr. Susan Cheeseman

Our orientation has been a shock to the system. The Howard University Press was created in 1992 to foster the development of the faculty at Howard University. The purpose of the Press is to disseminate the faculty's research and to promote the exchange of ideas among faculty members.

It is a strong role model not only of academic programs, but also of scholarly projects. It is a success story for Howard University. The Press is a leader in the field of African-American studies.

Realize that there is a strong Kemetic influence in much Jewish thought

Charles Porter

The need against the paradigm is the need against the concept of Black people. The need is against the concept of Black people as the only true solution to the Black problem. This work showed that the concept of Black people as the only true solution to the Black problem is false. It is a false concept. We know that the concept of Black people as the only true solution to the Black problem is false. We know that the concept of Black people as the only true solution to the Black problem is false.

The term "temporal" does not necessarily mean "temporal." The term "temporal" can refer to a variety of things. It can refer to a variety of things. It can refer to a variety of things. It can refer to a variety of things.

The Name of the Game is to live and let live. We are dealing with the ancient Hebrews by some Black people. Black people must return to their roots and study the old African religion. Black people must return to their roots and study the old African religion. Black people must return to their roots and study the old African religion.

The writer is a senior majoring in political science.

QUESTIONS

if I tell you something
will you laugh or cry
if I whisper something
will you live or die

if I whisper towards your ear
in the recedes of the night
and whisper a tale of
pleasure and fright
wil you sit there
in the calm of it all
or will my frankness
break your resolve
give in to me
it's not too much to ask
let me break your will
let me burn you to ash
let me give you my weight
that drifts across my mind
will you ease my pain
will you be mine

will you take my hand
will you shelter my heart
will you nurse and feed me
till death do we part

will you offer advice
in my darkest hour
will you succumb to my price
three scarlet flowers

will you lie in the garden
with me late at night
will you stalk the streets
after I have taken flight
and if I tell you something
that I've come to care
will you step forward
or towards to the rear

will you love me
will you lie to me please
will you betray me
when I'm on my knees
and when I come to you
in the fringes of twilight
and open my coat of arms
will you embrace the canopy of my light

will my aura be strong enough
to shield me from your ways
will my resolve be capable of
knocking down your walls

will you quiet the fears
at the corner of my heart
will you whisper your honest reply
from the start

will you give in to me
or will you play the game
will we be enemy to enemy
heartbreak to shame

and when I call you near the midnight hour
will you hearken to my reply
or will I whisper to myself
and die

"and if I
show you my dark side
will you still hold me
tonight
and if I
open my heart to you,
show you my weak side,
whit would you do?"

that is the question
of my life

Lesleyd F. Alleine, Jr.
Many students feel the demands to eat meat or not should be left to the individual. Although vegetarians is very popular on campus, vegetarianism is still a minority. Considering that most people decide to become vegetarians has become more popular on campus. Some question whether or not vegetarians do eat enough protein and fat, so it is difficult to label them as such.

"Sometimes it's Phony. People say they're vegetarians, but don't even know what they eat. And then there are those who say they're "whatever." By definition, "whatever" means "who knows, who cares." Howard said she remembered a time in gym class and the teacher asked if anyone was a vegetarian. Nobody raised their hand, and the teacher thought, "I don't see anything wrong with being a vegetarian as long as you're committed, and not eating pork chops or pigs feet one day and tofa the next."

"I don't see anything wrong with being a vegetarian, as long as you are committed, and not eating pork chops or pigs feet one day and tofa the next."

NBC NEWS ASSISTANT PRODUCER ASSOCIATES PROGRAM

NBC NEWS is recruiting for 8 positions for Assistant Producer Associates in the News Division. The program's objective is to grow our own in-house talent and includes a commitment to working with individuals from diverse backgrounds.

NBC NEWS is seeking highly motivated individuals who are interested in participating in a ten-month rotational program that exposes them to journalism in areas such as Nightly News, morning news, news magazine shows, network news desk, and news bureau.

Individuals should be college graduates with a strong interest in journalism, good writing skills, a keen sense of how the world works, a drive to succeed and a quick learning curve. Experience in journalism or as an editor is desirable.

Experience in the A.P. Associates program will develop and improve reporting skills and news judgement, allow for an understanding of field work and show production, develop an eye for the product and expose associates to NBC's ties of professional ethics.

The program will start in early July, with most associates based in New York and a few in other locations. The program will run through April 1996. Salary is $21,000 for the ten month program. Housing expenses are not covered.

You are interested in applying, please complete an application for the program and include a resume. Applications are available in your Career Placement Office. Both should be sent to:

Lynn Costa, Dir. of Employee Relations Rm1601 NBC News, 30 Rockefeller Plaza, New York, NY 10112

Deadline: February 24, 1995

Peace Corps
Career Choices—Career Advancement

In giving others the benefit of your education and hard earned skills, you can also enhance your own career. Learn a foreign language. Gain world experience. A college education combined with Peace Corps experience provides career advancement.

Additional benefits include:
- $20,000 upon completion of service
- Student loan cancellation/refund
- Graduate school opportunities

Your cultural background and skills are valuable. Use them to advance your career. Contact Peace Corps for eligibility requirements.

The Peace Corps is recruiting for 8 positions for Assistant Producers in the News Division. The program's objective is to grow our own journalistic talent. The program will start in early July, with most associates based in New York. For more information call the Recruiting Office at 703-352-9755.

Family grows strong despite struggles faced in Lorraine Hansberry’s ‘A Raisin in the Sun’

By Melvin Moore

The play commemorates this landmark in Lorraine Hansberry’s ‘A Raisin in the Sun’ in Washington. However, racism and the effect it has on the Black family are effectively touched on in the play. The Youngers, a modest southern Black family living in the Georige Street Playhouse in Washington, D.C., await their deceased father’s army pay. “A Raisin in the Sun” not only marks twenty years, she said. “It speaks more timely than any other play.”

The play’s dramatic nature is evident from the start. The actors effectively touch on the importance of history over the present. “It is classical, historical and meaningful to me,” said Donald Scott, a retiree who attended the performance. “I feel privileged to play a family that’s been through so much.”

A scene from the play depicts a young couple portrayed as the play’s Black family. When they come back from a deeper understanding of the family, they are designed for the market here,” said Student Kenya Abdul-Hadi, owner of a shop in Pentagon City. “I use traditional African items but also utilize authentic items from the homeland.”

Black people have a choice in purchasing art, said Student Kenya Abdul-Hadi, owner of a shop in Pentagon City. “I use traditional African items but also utilize authentic items from the homeland. It is important to me at the Black market.”

This hidden treasure’s notoriety is heightened by the contributions of the Black Caucus, local media and others. “We want something to be written about,” said Student Kenya Abdul-Hadi, owner of a shop in Pentagon City. “I use traditional African items but also utilize authentic items from the homeland.”

The Walking Dead’ deserves cold shoulder by viewers

By Kris Johnson

Smoking a Marlboro cigarette, and not only having a good time, but still feeling the bite of the cold, was easy for Eddie Griffin. “It speaks more timely than any other play,” he said. “I feel empowered by being a part of this.”

The Walking Dead’ is a prequel to the hit AMC series. Griffin plays a dramatic role in the show. Although Griffin plays a dramatic role, he has a great sense of humor. “I enjoy playing this character,” Griffin said. “It’s a good role for me.”

Although Griffin plays a dramatic role, he has a great sense of humor. “I enjoy playing this character,” Griffin said. “It’s a good role for me.”

So put down the books and get into the game!

1995 SPRING BREAK PEEL & WIN GAME

What you need now is a break—spring break. So enjoy a Coca-Cola product and let the games begin. Play the 1995 Spring Break Peel & Win Game and win $500 bucks for Spring Break from the Coca-Cola Company. You could also win a cool T-shirt or coupons for Coca-Cola products. So check out the 1995 Spring Break peel and win game pieces. They're on Coca-Cola products found in the specially marked vending machines on campus. So lose the books and take a break with your favorite Coca-Cola product!

Look for winning stickers on cans of Coca-Cola products.

Midterm deficiency grades are right around the corner. If you’re not on the ball yet, you better get there soon!

Any happy returns.

Create the gift that grows back brighter every year. For as little as $25, you can give a piece of fruit to someone you care about. Ask your banker for a gift certificate open purchase.

The gift that gives back, returns.

GIVE THE GIFT THAT GIVES BACK.

GIvE GLvE FOR hou.

Give when you care.

Ask your banker for a gift certificate open purchase.

If you don't stop your friends from drinking and driving, who will?

MIDNIGHT DON'T LET FRIENDS DRIVE DRUNK.
Barkley blasts ESPN after controversal remark

By: Kasha Higgins

"That's only what White people..." According to Bill Phillips, that's what Barkley said. Phillips is a reporter for ESPN. Shortly after a radio interview with Barkley, which took place on his car radio while he was driving to the airport, a race car driver told Phillips that Barkley had made a derogatory comment directed at White people. Phillips confirmed that Barkley had made a derogatory remark, but he refused to say what it was. Phillips also confirmed that Barkley had apologized for his remarks.

Barkley has been a controversial figure throughout his career, and this latest incident is just the latest in a long line of incidents. He has been known to make derogatory comments about White people and has been suspended multiple times by the NBA for his behavior. However, despite the controversy, Barkley has remained a popular figure in the sports world.

In the aftermath of the incident, Barkley was suspended by ESPN for an unspecified period of time. The suspension was effective immediately, and Barkley will not appear on the network's programs until further notice. ESPN has not released a statement regarding the suspension, but it is believed that the network suspended Barkley in response to the incident.

This is not the first time that Barkley has been suspended by ESPN. In 2016, he was suspended for 11 games for a verbal altercation with TV host Erin Andrews. In 2014, he was suspended indefinitely after making a racial slur on a radio show.

Barkley has a history of controversial comments, and this latest incident is just the latest in a long line of incidents. He has been known to make derogatory comments about White people and has been suspended multiple times by the NBA for his behavior. However, despite the controversy, Barkley has remained a popular figure in the sports world.
