Students question safety after stabbing at dormitory

By Reginald Royston
Hilltop Staff Writer

Officers and detectives from the Metropolitan Police Department and Howard Campus Police and parking patrol work at the scene of Wednesday night's stabbing in the underground garage of the Howard Plaza Towers.

''I heard shouting and a lot of running and some yelling, and I came out here to see what was going on and all of a sudden all the officers were running around, and I just kind of got caught up in all that,' said a crying witness.

''I have a lot of questions because no one could tell me what had happened. I was kind of scared. I mean, I've never been through anything like this before,' she added.

LOCAL Hospital-On-Wheels comes to area neighborhoods.

A 12-station mobile health care unit, composed of doctors, nurses and medical technicians, will be making its rounds in the university this week.

The vehicle will serve as a mobile clinic where students and city residents can receive care for a variety of conditions, including dental care, vision screening and primary care.

Area groups use activism to keep alive Million Man March

By Nicole McManus

Artists for the Homecoming hip-hop concert were confirmed to be seated in the stands of the Howard Plaza Towers.

''I'm very excited to be here because this is the first time I've ever been in a concert setting with the students,' said one artist.

''I'm looking forward to seeing how everyone responds to our music and what kind of atmosphere we can create,' added another artist.

Homecoming concert performers confirmed

Whether they saw it as a radical change, with the loss of a traditional program and the addition of a new one, or as the best of both worlds, many new attendees said they were pleased with the change.

''I think it's great. It's different, but it's still what we've come to expect from Homecoming,' said one attendee.

''I like the new look at its race dilemma. It's like we're moving on,' said another.

Blacks and Jews meet in conference

By JAMIE A. HOPPE
Staff Writer

A black-Jewish conference, entitled "Friday Morning: A Story About the Conflict Through Theater," was held on the Washington University campus.

The weekend conference, which was sponsored by the Department of Theatre Arts, was held in conjunction with Howard University's annual conference on anti-Semitism and racism that has hindered relationships between the two groups.

Attendees of the conference included students from Howard, the University of Massachusetts, Brown University, Boston University and other universities across the country.

The conference was organized by Russell Adams, director of the African-American studies department at Howard. He said that, since some universities and colleges have cancelled controversial events, the conference is necessary to help black students and other student groups get their voices heard.

The conference was held on the campus of Washington University and was attended by 32 students. The students met with the cast members of "Friday Morning" and were inspired to do their own production.

On a mission to help others, the students began their performance with a story about the conflict through theater.

The weekend conference, the first of its kind across the nation, was an opportunity for students to meet and discuss issues that they face on a daily basis.

"I was on a mission to get educated and lift up my people," said one student.

One way to keep focused while attending a 12-step program, but 35 months later, he got clean.

"I'm not alone in my struggle," said another student.

"I have to teach young people how to get over it," she said.

The students also discussed the importance of self-esteem and the role of athletics in helping young people overcome the problems they face.

"Myself, I'm still working on it," said one student.

"I'm not alone in my struggle," said another student.

Maryland congressman

By ALANIS SARSH
Second Writer

Maryland congressman Cummings reflected upon his mission is to have the ability to forgive, Cummings said. Many others who faced their fears and tried to stop before, and it changed his life.

"I could still get up and go to school," said L.S.

"I tried to stop and couldn't," said L.S.

"It only became a problem when we started using as a drug."

"I was able to get through the crisis, but I can't stop now." L.S.

Howard University launches PR campaign to renew image

By LISA PRICE
Second Writer

Howard University's medical school has added a new program to its curriculum, and the school has hired a black female dean.

"This is a distinct honor for me to have this opportunity to deliver the sermon at Florida's Chapel congregation Sunday," said Cummings.

He told the story of his roommates being shot in front of him, and how he tried to stop them.

"I realized I was up to something bigger than myself," said Cummings.

Howard University Hospital's OBGYN program restored its OBGYN program as the world's greatest African-American physicians.

"The strategy plan on empowering the community to think of the medical school, and to apply what they learned, is the goal," said Cummings.

Construction of Howard University's is expected to increase the University's teaching and training capacity.

"The strategy plan on empowering the community to think of the medical school, and to apply what they learned, is the goal," said Cummings.

"The strategy plan on empowering the community to think of the medical school, and to apply what they learned, is the goal," said Cummings.

But when crack flooded the area in the 80s, L.S. got hooked on the new drug.

"It's like being locked inside a hospital, and I can't stop now," said L.S.

"It's like being locked inside a hospital, and I can't stop now," said L.S.

"It's like being locked inside a hospital, and I can't stop now," said L.S.

With the help of his OBGYN, he was able to get clean and get back on track.

"I told you I'd do my best," said L.S.

"I told you I'd do my best," said L.S.

But when crack flooded the area in the 80s, L.S. got hooked on the new drug. In the drug store, his mother and father were shocked by the news.

"It's like being locked inside a hospital, and I can't stop now," said L.S.

Undergraduate library expands 24-hour services

By Andrea Swift

The undergraduate library is now open 24 hours a day. If the news sounds familiar, it is because the library was expanded to be open 24 hours a day beginning at the beginning of the last year. However, service and access that limited to Monday through Thursday from 8 a.m. to 10 p.m., and Friday through Sunday from noon to 10 p.m., and was expanded to be open 24 hours a day beginning at the beginning of the last year.

According to Chris Grayson, head of the library, it has been a favorite of students and faculty alike. The library has seen an increase in the number of students using the facility, and the extended hours have been well-received.

With the expanded hours, Mekkowski noted about the library's computer lab, particularly the access to the Internet. The computer workstations provide access to Sterling, the library's online catalog, 8,000 full-text journals and 6,000 full-text books from Sterling's sources, the Library of Congress Call Number Index, the Library of Congress Classification Dictionary, the New York Times and the Wall Street Journal.

In addition to the computer workstations, the library has also added a self-checkout machine, which has helped to increase the number of books that can be checked out.

For students who are interested in learning more about the library, there is a student guide located in the library, and the library also offers online resources and tutorials. The library also has a Twitter account, @UCS_library, where they share updates and announcements.

The expanded library hours have been well-received, and students have reported that they are able to do more research and complete assignments in a shorter amount of time.

Furthermore, the library's extended hours have also benefited faculty members, who can now access the library during their work hours.

In conclusion, the undergraduate library's expansion to 24-hour services has been well-received by students and faculty alike. The library has become an even more valuable resource for students, and the expanded hours have made it easier for students to access the resources they need. The library continues to be a hub of activity and learning, providing a supportive environment for students and faculty alike.
Enrollment Management will host another in its series of Town Meetings. The next Town Meeting is designed specifically for undergraduate students who entered the University in Summer 1996 or Fall 1996.

If you are a first time in college freshman or an undergraduate transfer, we invite you to attend. This meeting will provide the perfect forum for you to learn more about processes at Howard University, especially registration, financial aid, scholarships, and payment plans.

As Charles Magnus and Wilber Smith looked at the quilt they stitched for their friend Ken Wilson, petals of tears nowed quiet again. It's as if giving it a Hawaiian theme, made a quilt in his memory and because the group went to Hawaii said. "His illness brought us together. His death is often a reminder of how precious the time we have together is."

The 173-panel "living monument" to the Johns Hopkins Children's Center represents eternal love. "It's a just a footnote, a reminder. It's convenient," Taylor said. "I can get my work, pick them up, find them, and get to the doctor on time without any problems."

Four days a week, the unit also provides care to doctors, nurses, and medical students who lack access to health care in the District, mostly because the type of treatment.

The nurse injects the medication, and the patient injects the drugs. "It's a positive experience," said Vivian Dewberry, whose daughter Jameka, 10. "She used to go to other hospitals, and they spent a lot of money on her."

"It's important that we have a connection with our patients — birth to birth," said Dr. Gloria Wunderbatt

The nurse-in-chief says that they're an essential asset to this community, because while it keeps the largest concentration of poor children in the District, it has the least number of pediatric health care providers.

"It's a lot of work that goes into making these panels," said Tonya Myers, a volunteer. "And it is not just medical treatment that forms many patients into the hospital. It is the personal touch, some patients feel, that makes the unit a success.

"It's not just any average day. It's come back for a check-up," said Tricia Wilson. "We've got to stay on parents to bring their kids back. It's the way it is today. We're trying to take care of the waiting."

The group went to Hawaii because the group went to Hawaii said. "Our goal is to provide medical care. And that's what we've got to provide."

immigration tightening control over foreign students

By Karen Thomas

Staff Writer

The U.S. government has recently tightened immigration controls over foreign students. This is part of a broader effort to reduce the number of foreign students entering the United States. The new regulations are intended to ensure that foreign students are enrolled in educational institutions and not engaged in activities that would be inconsistent with their status.

The regulations include increased scrutiny of student visa applications, new requirements for proof of financial support, and expanded record-keeping duties for educational institutions hosting foreign students. These changes are intended to reduce fraud and ensure that foreign students are not engaged in activities such as unauthorized employment, which could undermine their status.

For foreign students, the new rules could have significant implications. They may face increased scrutiny upon entry and may be required to provide additional documentation to maintain their student status. Educational institutions will need to ensure that they are in compliance with the new regulations to avoid penalties.

The impact of these changes is not yet clear. Some foreign students may be more likely to choose to study in other countries where the regulations are less stringent. Others may adapt to the changes and continue their studies in the United States. The long-term effects of these regulations will depend on how they are implemented and how they are enforced.

The U.S. government has a long history of regulating immigration, and the new rules are part of a broader effort to control the flow of foreign students into the country. The regulations are intended to ensure that foreign students are not engaged in activities that would be inconsistent with their status. The changes are likely to have significant implications for foreign students and educational institutions alike.

Nobel Laureate speaks of peace, conversion of land mines

By Lisa M. Hays

Staff Writer

The Nobel Laureate for Peace in 1998, Olav R. Fykse, delivered a lecture on the conversion of land mines to peaceful uses. Land mines are a significant threat to human lives and livelihoods, and their conversion to peaceful uses is a critical step towards reducing the impact of these weapons.

Fykse noted that land mines are a major obstacle to development and peacebuilding. They are used to create a zone of control around military positions, and they can remain a hazard for decades after they are placed. The conversion of land mines to peaceful uses is an important step towards reducing the impact of these weapons.

Fykse highlighted the role of international organizations in facilitating the conversion of land mines. The International Campaign to Ban Landmines (ICBL) has played a key role in raising awareness and promoting the conversion of land mines to peaceful uses.

The conversion of land mines to peaceful uses is a complex process that requires the participation of governments, international organizations, and communities. It is a long-term effort that requires sustained commitment and resources.

In closing, Fykse emphasized the importance of continued support for the conversion of land mines to peaceful uses. He encouraged all stakeholders to join forces in this important endeavor, and he called for continued efforts to reduce the threat of land mines to human lives and livelihoods.

U.S. Foreign Service Exam

The U.S. government is currently preparing for the Foreign Service Exam, which is used to select candidates for foreign service positions.

The exam is a critical component of the selection process for foreign service positions. It is designed to assess candidates on their language skills, cultural awareness, and analytical abilities.

The Foreign Service Exam is administered by the Department of State, and it is available online. The exam consists of multiple sections, including language tests, cultural awareness assessments, and ability tests.

Candidates are required to achieve a minimum score on each section of the exam to be considered for further consideration. The exam is a significant challenge for candidates, and it requires preparation and study.

The Foreign Service Exam is an important step in the selection process for foreign service positions. It is designed to assess candidates on their language skills, cultural awareness, and analytical abilities. La Marcha pushes Latino issues to the forefront

Naturally a year after one million African American men crossed the highway to declare their solidarity, Washington witnessed La Marcha, the first national policemen by Latinos to order in the U.S. The event is seen as a turning point in the history of the U.S. and it marked the beginning of a new struggle. In the wake of the growing power of a grip that has been exerted, it is divided and diseased. There are roughly 16 million Latinos in the United States and at their current growth rate, they number more than the number of the country in the near future. It is estimated that the population will increase by 27% in the current growth rate, they number more than the number of the country in the near future. The Hilltop salutes Latino movement toward greater empowerment.

Students neglect to attend HUSA meeting

When Howard University President H. Patrick Swanson made himself available to a group of students and concerns regarding his Strategic Framework for Action, students who were not interested in the meeting were there to listen to him. The group approached the meeting with the goal of discussing the meeting's agenda and the importance of involving student representatives in discussions about the university's future. The students expressed their concerns about the lack of student representation in the Strategic Framework for Action. They believed that the framework did not adequately address the needs and concerns of the student body. They also expressed concern about the lack of transparency and accountability in the decision-making process.

Some students noted that their concerns were not adequately addressed during the meeting. They felt that the meeting was not an opportunity to discuss their concerns and that they were not given the chance to provide input into the development of the Strategic Framework for Action. They believed that the framework was developed by a select group of administrators and faculty members without considering the perspectives of the student body.

The students noted that the Strategic Framework for Action was designed to address the challenges facing the university and to ensure its long-term viability. They believed that the framework should be inclusive and representative of the student body, who are an integral part of the university community. They felt that the framework should be developed in collaboration with students and other stakeholders to ensure that it meets the needs and expectations of the university's diverse student population.

The students called for greater student involvement in the decision-making process and urged the administration to consider their concerns and suggestions. They believed that student representation in the Strategic Framework for Action is critical to ensure that the university's future is shaped by the voices of all its students and to promote a more inclusive and democratic decision-making process.

Not a part of the bachelor party that being single is all fun, games

By Sheri Thomas and
Dunmore Jackson
Hilltop Staff Writer

Last week we profiled Howard University women living the single life. Now, it's the gentleman's turn to shine. HU bachelors who, in my opinion, need to be educated in the ways of romance. Let's help them understand love on a serious note. "Understanding for a good woman," said "The man who knows," a freshman from万人 who finds an understanding of their relationship for her. The woman is a freshman, but that doesn't mean she's a feminist. She's ready to move on and find a good relationship. "I'm waiting for the right woman to come and take my heart." said "The right woman is a pleasure." He's not looking for a good woman, but a woman who he can respect and love. "I'm looking for a good woman who is looking for a man who she can respect and love." he said.

Figuring out a good woman, said "The man who knows," a freshman from万人 who finds an understanding of their relationship for her. The woman is a freshman, but that doesn't mean she's a feminist. She's ready to move on and find a good relationship. "I'm waiting for the right woman to come and take my heart." said "The right woman is a pleasure." He's not looking for a good woman, but a woman who he can respect and love. "I'm looking for a good woman who is looking for a man who she can respect and love." he said.

It seems like the men at Howard have a lot of expectations when it comes to love. They want a woman who is not only beautiful, but also intelligent, confident, and a great listener. They want a woman who will support them in their goals and dreams. The men at Howard believe that a relationship is not just about having fun, but also about growing together. They want a partner who will challenge them and push them to be the best version of themselves.

BUZZ, BUZZ. The clock flashes 7:30 a.m. and "James Miller's slender body slides out of bed. It's time for his morning routine. After a restless night of worrying about exams, he's ready to start the day."

Howard University student tells how his promiscuous lifestyle led to a daily battle with a deadly disease

Artist's painting captures effect of Million Man March

By Morris Dennis Anglin

The Million Man March will be remembered in the hearts of those who experienced it. Fortunately, footage from the event will also be on film for the event the thousands of photographers, local television stations and the world's media who turned out for the March. Everyone has a different way of remembering the event, but for Jeff Stackhouse, the painting is the visual representation of the Million Man March. "I had always wanted to capture the painting to show a million people, and I thought it would be as you like it," Stackhouse said.

Jeffrey Stackhouse's oil painting captures the essence of the Million Man March. The street in front of the King's County District Attorney's offices in Brooklyn, N.Y. He sketches dramas scenes.

Stackhouse, who started drawing cartoons at age five, attended the New York School of Art and Design and studied advertising design at New York Institute of Technology. He is now a freelancer.

"I was trying to capture the essence of the March," Stackhouse said. "I had always wanted to capture the Million Man March, I thought it would be as you like it."

San Francisco Ballet leaps beyond the classical

By Whitney V. Hunter

Unlike other classical ballet companies, the San Francisco Ballet selects a new world of the dance.

No more is ballet speaking solely to the audience's intellectual level. Today's ballet is no longer an entertainment for the rich, but a lively theater event with a variety of classes and levels. The speed and power of the dancers is in keeping with the modern capabilities of the ballet world.

"The ballet is very much a part of the modern world," said Mark Jolin, a former San Francisco Ballet dancer. "It is a living, breathing art form that continues to evolve and expand."

"In the past, ballet was considered a form of entertainment," said Jolin. "But today, ballet is seen as a serious form of art that is constantly evolving."

"Ballet is a form of artistic expression that is not limited to the stage," said Jolin. "It is a form of communication that can be enjoyed by people of all ages and backgrounds."

"Ballet is a form of artistic expression that is not limited to the stage," said Jolin. "It is a form of communication that can be enjoyed by people of all ages and backgrounds."

Howard director gives it to you 'as you like it'

By Altonia Ballard

The Howard Theater Arts department is one of the best in the country. "I was interested in the Howard Arts department and the director, Malcom Jolin, at Howard Theatrical Arts. "When the Howard was offering, I went to see it and was impressed. I thought it was a real gem," Stackhouse said.

"As You Like It" is about people and their relationships with one another. "The play is about love and friendship," Stackhouse said. "It is about the importance of love in our lives."

AIDS tests promise convenience, confidentiality

By NiYietta Ratteger

A private’s privacy—confidential, financial and emotional—is perhaps being taken seriously by clinics and counselors who deal with the voids of AIDS and the necessity of testing.

According to Tony Knighton, director of the Mobile Unit and testing at the Whitman-Walker Clinic in Washington, D.C., "If you’re living with AIDS and going into a clinic and there is nobody there to even talk to, that’s a huge problem to overcome."

And there is at least one AIDS provider who believes a 55-minute perusal of information and a ride on a train may be all it takes to draw blood.

"For 99 percent of the people, it’s just not worth it," he says. "We have to make it very easy to get to the testing location, and that means that we’ve got to have a lot of programs and a lot of places where people can go."...
ATTENTION UNIVERSITY WOMEN INTERESTED IN DELTA SIGMA THETA SORORITY

As official advisors to Alpha Chapter of Delta Sigma Theta Sorority, it is our duty to advise the University Community that there will be no membership intake for Alpha Chapter Delta Sigma Theta for a foreseeable future. If you are interested in learning more, please join us at an informational gathering Monday evening, October 21, 6:00 p.m. in the School of Business, Room 218.

**Bison charge into Atlanta to play Morehouse**

By Ivan J. Arntzen
Hilltop Staff Writer

The Howard University football team will take on the Morehouse College Maroon Tigers tomorrow in a nonconference matchup in Atlanta, Ga.

Howard (2-1, 2-1 in the Mid-Eastern Athletic Conference) is coming off a 21-13 win at Bethune-Cookman College, while Morehouse (0-4, 0-4 in the Southern Independent Athletic Conference) is on a five game losing streak, and will be playing Howard for its Horizon.

The two teams are both in the last four corners with urgent need. The Howard team is coming off a 17-10 loss to Grambling State University, and is hoping to bounce back with a win over Morehouse.

**Quarterback Ted White ties school record for touchdown passes**

By Ivan J. Arntzen
Hilltop Staff Writer

The Howard University Bison football team began its season 0-3 but has turned things around to win the last three games.

Ted White, a senior quarterback, has thrown 13 touchdown passes in the last three games since taking over the starting quarterback position from junior Javon Williams.

White, who transferred from Mississippi Valley State University, is making the most of his opportunity to start.

White, who has thrown for 1,148 yards this season, has led Howard to its first three-game winning streak since the 2000 season.

**Caye Cummins proves to be a leader with intensity, skill and determination**

By Dennis Freeman
Hilltop Staff Writer

Senior Cayce Cummins of the Howard women's basketball team has become a leader on the court since taking over the starting point guard role from junior Javon Williams.

Cummins, who scored 10 points against Morgan State University, is averaging 8.6 points per game and has started all 14 games this season.

**Exemplary teams need organization, leadership**

By Ivan J. Arntzen
Hilltop Staff Writer

What makes a good football team or basketball team? It's a question that coaches, players and fans ask themselves every day.

The answer is simple: organization and leadership.

Howard University's women's basketball team is a prime example of an organized and well-led team.

The Bison are currently 14-0 and are one of the top teams in the MEAC Conference.

**Second annual Bison Madness showcases Howard's men, women basketball teams**

By Dennis Freeman
Hilltop Staff Writer

The second annual Bison Madness takes place tonight at 6 p.m. in the Howser Athletic Center.

The event features a men's basketball game against Morgan State University, while the women's basketball team will play against Tuskegee University.

**Bison Madness is a fun-filled evening for fans of both men and women basketball teams.**

The event also features a raffle, a silent auction and a chance to meet the Bison players and coaches.

**Sponsorship**

The event is sponsored by the Howard University Student Government Association, the Hilltop Staff and the Howard University Athletics Department.

**Tickets**

Tickets are $10 for adults and $5 for children. They can be purchased at the door or online at the Howard University Athletics website.

Howard University intramural flag football teams heat up '96 season

By Clarissa Coelho and Marisc Mathews

The Howard University intramural flag football program provides an environment for success, fair competition and camaraderie between team players. The program is under the direction of Samuel Acosta, assistant director for Intramural and Recreational Services.

The National Flag Football Conference and the Atlantic Intercollegiate Conference are the two divisions that make up each Howard's six teams. Over a course of seven weeks the teams compete against each other in Howard's Green Stadium on Sundays from 9 a.m. to noon. The top four teams of each division will compete against each other in Howard's Stadium to determine the champion and runner-up.

However, the winning does not stop there. Both winning teams are chosen at random to compete in the Mid-Atlantic Flag Football Championship held at the University of Maryland. Howard's teams will compete against other teams from all around the region including the University of Virginia, Maryland, George Washington University, The George Mason, Temple University, The University of Delaware and Maryland University.

Both Howard's teams play the football with nine players on each team and no limit on substitutions. If a team is down by four points, the opposing team gets a four yard run to score.

E-Jay's vs. Shaulin Knights

The E-Jays (5-0) finished Wanda's contest against the Shaulin Knights as the number one team in the league, with the only ranked offense and defense, while putting up 45 points per game and shutting out their opponents in two contests.

The E-Jays are favorite to go all the way to represent Howard at the Mid-Atlantic Flag Football Championship held at the University of Maryland at November. They came up short last year in going to the championship but are looking to come back strong this year. The E-Jays won a 10-8 victory over the Shaulin Knights in the league opener.

Arkansas vs. McCowan Woman

The Arkansas (3-1) defeated the McCowan Woman (1-3) 26-0 as the first week of the conference. The McCowan Woman (1-3) entered the game tied for first in the American Football Conference, but looked to bounce back from last week's loss to the The Shaulin Knights.

E-Jay's vs. Shaulin Knights

The E-Jays (5-0) ran a 46 yard touchdown to lead against the Shaulin Knights in the league opener. The Shaulin Knights (1-3) entered the game tied for first in the American Football Conference.

The mid-season meeting was a battle of the two Mid-Eastern Division teams. The Shaulin Knights were able to keep Howard off the board for a 14-0 victory.

Arkansas vs. McCowan Woman

The Arkansas (3-1) defeated the McCowan Woman (1-3) 26-0 as the first week of the conference. The McCowan Woman (1-3) entered the game tied for first in the American Football Conference, but looked to bounce back from last week's loss to the Shaulin Knights.

"Working Together In Unity"
Dear Prospective Members of HUSSO:

We need your support through membership and service. HUSSO's theme for this academic year is "Working Together In Unity". In this light, we are embarking on several programs that should have a positive influence on our most important 'resource' at this university--our students. Your membership and service will enable us to implement programs, such as:

- Mentoring programs with emphasis on students who may be prone to drop out or who may be "at risk";
- Matching students with staff for the Thanksgiving holiday and/or host a Thanksgiving dinner on campus; and,
- Establishing a financial assistance fund for students.

HUSSO believes that a nurturing and caring environment can be a factor in improved retention at Howard and alumni giving. We also believe this type of environment fosters positive attitudes that should result in a satisfied workforce. To this end, we are sponsoring the following activities that are open to the university community:

- **HUSSO Worship Day** on November 3, 1996 at 11:00 a.m. in Rankin Chapel;
- Quarterly General Meeting on November 18, 1996 at 12:00 noon, in the School of Business Auditorium, Special Workshop: The Do's and Don't's of Mentoring; and,
- Quarterly General Meeting on February 12, 1997 at 12:00 noon, in the School of Business Auditorium, Special Workshop: Personal Financial Management.

All non-academic employees (directors, managers, clerical, administrators, and members of collective bargaining units) are eligible for membership with HUSSO. Supporting our programs through your payment of the annual ten dollars ($10) membership fee is welcomed and appreciated. Join us! We are making a difference!

Sincerely,

Michael Jones
President, HUSSO
