With teacher shortages plaguing the United States public school system, the Howard University School of Education Transition to Teaching program is attempting to minimize the delay by offering four merits in their third-year running.

"The idea was to help and to give," said Morgan, Transition to Teaching program assistant. "There is just such a great need for good teachers.

Transition to Teaching program (T2T) is an alternative certification program that trains recent college graduates and mid-career individuals to become teachers. The Department of Education funds the program, which provides the participants with transition training, full tuition for 45 hours of graduate credits, a teaching certificate or a master's degree in the field of Education, and a three-year long contract with a partnering school system.

Benefits include an intensive summer program that teaches participants knowledge of the classroom and hands-on experience with summer school students. They are then hired in a partnering school, receiving full benefits and salary.

"The participants would benefit from a regular wage," said Morgan. "Adjusting for some, a little more difficult.

Charles White, a peace officer for U.S. Customs Service before the Sept. 11 attacks and a student, explained transition was not as hard as one might think. A police bodyguard at the U.S. Capitol, a "very busy job," the city occupied the space in the Reserve Center, then transferred to Ed Murphy's Super Club.

By day, the club functions as a conference at a restaurant to the hundreds of government workers inside the building and by night, the club operates as a go-go place of sun and Thursday's. With rising pressure from the city and the tension within the community, the Howard. Times recently approved an agreement signed at Club D.'s security guard.

"Major things," said Lopez has never been to Club U, but said how clubs are raised may play a role in their actions.

"People just don't know how to care for themselves," Lopez said. "Maybe the way they were brought up.

Lopez can definitely sympathize with the people living at the D.C. border. Her boyfriend and his friends were stopped several times on their way there. "I'm sure they're trying to keep that security under the line.

She said even though the clubs claim to have top-notch security, the people who really look after the clubs is that security person.

She said that if they do have them, then they should shut down all night. I've been to some clubs in D.C. where fights have been taking place, some not so serious," Word said.

"They are advertising for people, anyone to go," said advertising major, Jade Shinghalee, said that it wasn't that right for the clubs to be involved in violent bodies.

"I don't feel it's the owner's fault," Shinghalee said. "The owners aren't the ones firing the guns or pulling the bullets.

We're called on people to demand blood and have opened a center for that," Dr. Mahmoud told Reuters. "We're called on doctors from Kirkuk, Mosul and Najaf to come and help and they have arrived on time.

Video footage of street clashes left from theICLC"s show bloody piles of bodies and弹片. Some of the bodies were being loaded onto trucks and fruit carts by health offi"cials.

A Conversation with the Candidates: HUSA

BY AYESHA RACIGE

What are your reasons for running?

Byron Stewart: The role of the Howard University Student Association is to represent the student body as a whole, undergraduate and graduate students alike. My reason for running is that I can best represent those students not only through a student government perspective but also through a student level.

April Harley: I love Howard University, and I see that being here, being with the students, talking to them, makes me the best candidate to see change. It's just that we need to see a more united student body under the innovation of Howard University as a whole.

What other campus involvement leadership roles?

Byron Stewart: There is a huge number of reasons other than purchasing textbooks that many students purchase from the HUB. We have a vision to be more than just a place where they can get to those things. We want to improve, to be remembered. She also said, "The bookstore is also a place where students can get better grades." We think that candidates need to make themselves visible and available. As an HUSA President, I think that we have the best interest of the students at heart. I really feel like we will get the students what they want.

April Harley: I'm a RA in Drew Hall. I live back to what it's supposed to be. It's a real community. I'm a RA in Drew Hall. I live back to what it's supposed to be. We have a huge number of celebrities authors like Cornel West and Martin Luther King Jr. who are part of the book signings, many keep up with the students, even student to administration. SOPHOMORE SPEAK:
How do you feel about being almost halfway through your undergraduate career?

"I feel relieved that I made it this far. It's a wake up call that the real world is in this close, but the real world is waiting for us," Jordan Cole, psychology major.

"I feel blessed that I was able to make it this far. I don't regret anything. Everything that happened in the past has brought me to this point, so I'm looking forward to being commissioned as an officer in the Air Force," James Jefferson, political science major.

"I'm happy but I knew I would graduate. I just want to pass my classes with honors and graduate. Now that I've gotten here, I want to see it through to the finish line," Jaspreet Bedi, nursing major.

"I'm happy! I've noticed that a lot of the classes that I am taking now, pertain to my major now that I am deep with my graduate education. It's making college a lot more fun and like high school," Tyrone Bell, public relations major.

"I feel overwhelmed, but at the same time excited for new experiences to come in the next two years. It's been a blast so far and I'm excited for what's to come," Malak Dzmit, art major.

"I feel good. Howard is the proverbial rabbit hole. I wouldn't make my Howard experience for anything," Lacey Battersby, public relations major.

"Very excited, but not too excited. I'm actually getting into major courses: the things that I'm interested in, instead of prerequisites," Elliott Brown, business management major.

Southern University: Fraternity Suspended

The Beta Sigma chapter of Omega Psi Phi Fraternity Inc. was suspended by Southern University for four years as a result of a personal charging Baton Rouge Division of Bastin.

The chapter is charged because, although the university's Pan-Hellenic Judiciary Committee found in their favor because the alleged victim dropped the charges, Dean of Student Life Robert Bennett reversed the decision.

The server claimed that five members assaulted him on two occasions, but was unable to positively identify them. Therefore, the suspension felt they should be suspended. There are two undergraduate and three graduate Omega chapters throughout Baton Rouge.

Spokesperson Deon Dosssett said that fact gives reason to believe the attackers could have been among a number of "dope" throughout the city. He said individuals should be punished for the entire 12 chapters.

Bennett said, before the suspension, the Rho Sigma would be handled on an individual basis if the attackers came forward. If not, the entire fraternity would suffer, as they now have.

MIT Students Honor African-American Artistic Expression

On Feb. 22, the Massachusetts Institute of Technology (MIT) celebrated Black History Month with a cultural show called "Pulse: One Beat, One World," in Kresge Auditorium.

Different African-American leadership organizations on campus such as MIT's African Student's Association, the MIT Black Students' Union, the MIT Chapter of the National Society of Black Engineers and Harvard University's Black Student Association collaborate to promote the event.

The evening program was a celebration Black History Month through song, dance and other aspects of African-American culture. The cultural show featured several acts that encompassed aspects of African-American culture such as hip-hop, jazz, gospel music and African drumming.

Students at MIT decided to expose the greater community to different facets of Black culture through the event.

MTSU Students Offer New Curriculum to Mediate/Resolve Conflicts

George-town University offers New Curriculum to Mediate/Resolve Conflicts

George-town University has created a new program in its Department of Government that offers a Master of Arts degree in conflict resolution.

The new program focuses on three basic stages of conflict, as well as origins of disputes, mediation, negotiation, post-conflict and peace building.

Students will also study the role of relationships in conflict, role of relationships in conflict, and roles in conflict resolution.

The new program will begin this fall and applications will be accepted on a rolling basis through May 31. Class size will be small, holding a maximum of 15 people.

Howard University, District To Build New SE Hospital

Howard and the District have reached a deal to build a 230-bed hospital replacing the old D.C. General Hospital in Southeast. Currently, most SE residents travel to Howard Hospital.

Howard University and the city announced two weeks ago that they have reached a deal to build a 230-bed hospital in Southeast.

Howard University students. Sophomore nursing major Regina Carpenter believes the new hospital will be great for both the community and Howard students.

The new hospital being used as a teaching facility is wonderful because it gives students another place to gain hands-on experience.

Stearns public relations manager and District resident, David Edmonds also agrees with the plans for the new hospital, but is uncertain about who will actually benefit from it.

"I agree that a new hospital is needed, I just hope the people who live in that area will be able to use it," Edmonds said. "Because of the amount of gentrification that is going on in D.C., the people in that area may not even be able to benefit from it...whoever needs the hospital in that area will use it if they can afford to."

Josh Gibson: "Babe Ruth of the Negro League"

By Ashley Ross

Spots Editor

According to an urban legend printed on the

Cincinnati Reds' press box website, "One day the

Pittsburgh Crawfords were playing at Forbes Field.

The day after the game, when Josh Gibson, hit the

ball so high and far no one saw it come down.

Although he was the only one to find where the

ball landed, and was caught by the owner of

the ball."

Ruth's, the only possible reply

Pointing to Gibson he shouted, "You're out -

yesbury in Pittsburgh,"

although Gibson was in Buenos Aires, Ga.,

and his family later moved to Pittsburgh, Pa.

during the province of the industrial revolution.

During that time periods thousands of blacks

were forced to leave the South for jobs in the

industrial cities.

Howard was one of the many popular players

then and Gibson at an early age made a name for

himself as a power hitter in sandlot games.

He was soon picked up by the semi-pro Pittsburgh

Crawfords under owner Gus Crawford, who in

1920 refused to join the Negro Leagues.

But in 1928, at the persuasion of Homestead

Gray owner Cum Proctor, Gibson switched teams

and began a phenomenal career in the Negro

Leagues full of uncanny talent.

Accurate statistics are hard to come by but

baseball-handout.com stated, "Gibson batted for a

phenomenal .466 average in his rookie year and

was a key factor in five wins over New York's

Lincoln Grants in the playoffs for the Eastern

Division."

Gibson's hitting feats were mythical, said in,

this is a mythical team of stories that involved his

accomplishments. In one game that took place

at Vanuatu Stadium, Gibson was said to have hit a

home run off the left field bull pen more than

got in feet.

There is a story that says home run was the longest
drive ever hit in a baseball stadium.

But in 1920 Gibson struck back to the

Crawfords, which, at the time, was home to

homeland security agent Paul, Gabe Pappell, and

Judy Johnson.

The Crawfords could not hold on to Gibson for

very long because in 1926 Gibson joined the

Grays and between 1925 and 1928 the Grays won an

unprecedented nine league championships.

At 5'9 and before performance enhancers and

before Sammy Sosa and Mark McGuire were

playing, the Crawfords were a formidable team.

In one game they faced the Federal Hill

Pirates, which had Charlie Wagner, a famous

phenomenal career under two teams that

spanned over 17 years.

Often affectionately referred to by the "Babe"

Gibson is also the greatest player the Negro

Leagues ever saw. The "Black

Ruth" still honor Gibson today. Sadly, throughout his

thirties, Gibson was said to have had severe alco-

holism issues and struggled to stay out of jail,

depressed and emaciated.

Gibson was committed to a mental hospital after

suffering a nervous breakdown that lasted

from June 19, 1937.
VHI Appreciates the Impact

Before VH1, the channel didn't really target African-American audiences. Back in the day, the network focused on creating an audience and not slip through the cracks. It was just hanging out in the shadows, trying to be invisible. We had to be very discreet and keep our intentions hidden. We can't be too demanding and any form of explanation needs to be as subtle as possible.

The "Blackaphobia" special did a good job of highlighting the issues we face in the entertainment industry. We were tired of feeling intimidated by Blacks and some aspects of our culture. Black people were always dancing around the issues, but we didn't see anything outstanding or truly engaging. It was difficult to get people of all races to see us as equals, but we didn't see this as a problem. We just wanted to do our job and let the chips fall where they may.

The "Blackaphobia" special made us happy. Appreciating the impact makes us happy. Approaching racial stereotypes and taboos is an exciting field for people of all races, especially when it's in a serious manner. This "Blackaphobia" special was a huge success, and we were thrilled to see so many people engaged.

Our View:
We have thoroughly enjoyed the station's Black History Month programming.

Hilltop Herald

BY KERRY ANN HAMILTON

This week, The Hilltop re-introduced its theme to the history books accompanying the annual and iconic "The Best Weck Ever." The Best Weck Ever is held every year to celebrate the achievements of minority appearances, and it was a hit with our readership. It was an excellent job of covering what's going on in the media and appreciation for minorities.

VH1 appreciates the impact of "The Best Weck Ever." The "Blackaphobia" special did a good job of highlighting the issues we face in the entertainment industry. We were tired of feeling intimidated by Blacks and some aspects of our culture. Black people were always dancing around the issues, but we didn't see anything outstanding or truly engaging. It was difficult to get people of all races to see us as equals, but we didn't see this as a problem. We just wanted to do our job and let the chips fall where they may.

As the month of February officially closed, we can fairly assume that we have done what was expected and largely targeting African-Americans. But in the end, we didn't see anything outstanding or truly engaging. It was difficult to get people of all races to see us as equals, but we didn't see this as a problem. We just wanted to do our job and let the chips fall where they may.

Hip-Hop's New Relationship with the NBA

The "ohs and ahs" over the draft has been a regular annual event for sports fans and the hip-hop community. Many were shocked into the Cleveland Cavaliers franchise for good with the announcement of superstar LeBron James joining the team. The sale of the team for $375 million. Exactly one year ago, the group recently agreed to buy the Charlotte Hornets from former owner Glen Taylor for $200 million. This was a significant move in the NBA landscape, as it represented a new level of innovation for the sport.

Stern Seeks Permanent NBA Entry Age

By Jeffrey Eisen

The NBA's new entry age, 21, will be enforced in the 2003-2004 season, but its impact on the league is uncertain. The league is in negotiations with the union over a new collective-bargaining agreement, and there is no guarantee that the new entry age will be included.

Josh Gibson: Babe Ruth of the Negro League?

By Ashley Ross

According to an Urban legend, the Negro League was founded in 1920 as a way to provide a platform for African-American players to showcase their talents. The league was formed in response to the exclusion of black players from Major League Baseball. Gibson was born in 1900 in New York City and began his professional career with the Pittsburgh Crawfords in 1919. He was the first black player to hit over 400 home runs in a season and is considered one of the greatest home run hitters in baseball history.
