General Assembly Fails to Reach Quorum, Again

By JASON T. SMITH and BORIS WHITE
Hilltop Staff Writers

Failing to reach a quorum for a third consecutive month, Howard University Student Association President Nevada Welch canceled Wednesday's General Assembly meeting, blaming the scant attendance on the day's inclement weather.

Welch rescinded the Assembly's meeting for Monday. The Assembly has had a quorum since its emergency August meeting, during which, it voted to boost the Student Activi ty Fee by 10 percent.

The Assembly, which comprises representatives of the University's student councils, oversees HUSA functions, all general elections and the disbursement of the Student Activity Fee to student organizations.

Because of its failure to obtain a quorum this semester, the Assembly is by law's violation of the HUSA Constitution, which, in Article IV, Section 2, clause E, says the General Assembly "shall provide for the functioning of HUSA on a 12 month basis from the Commencement Day of the following Commencement Day of the following semester.

Under its Constitution, HUSA is required to submit budget requests to the Assembly every two months in order "to receive that body's recommendations and approval."

This has created a crisis in the Student Government. Students are leaving [the University] because the Student Government is not doing its job," said Estelle Weston, an Assembly member representing the College of Engineering, Architecture and Computer Sciences.

The Association has held meetings at various locations, only to turn up with roughly 20 people at the last meeting. On Wednesday, however, many Assembly members and students who have not attended in the past showed up to support Welch and rail against what they think is the Assembly's lack of leadership.

"We have the attendance problem," Welch said. "But there needs to be some accountability for the people who do show up." Welch said she had promised to resign if the Assembly continued to fail to meet its responsibilities.

A brilliant, fearless scholar who fought for what he believed in, Kwame Ture was among the bravest of our generation and one of the strongest voices of our generation of activists. "When you struggle for your people, your people struggle for you," Ture told a crowd of thousands, Chappell Field in February during his last trip to the University.

A brilliant scholar, Ture was the son of what he held dear, that he was using his mind to make the world a better place.

Kwame Ture, the Howard University graduate who helped shape the Black Power Movement of the 1960s, died Thursday of prostate cancer in Conakry, Guinea. He was 57.

"No" has been the standard word for Ture, the man whose powerful voice gave new meaning to the phrase "Black Power." Untrained in the ways of politics, he had become a symbol of the struggle for black power.

He was called a civil rights activist. Some called him a revolutionary. And others described him as the man whose powerful voice gave new meaning to the phrase "Black Power."

Kwame Ture, the Howard University graduate who helped shape the Black Power Movement of the 1960s, died Thursday of prostate cancer in Conakry, Guinea. He was 57.

"When you struggle for your people, your people struggle for you," Ture told a crowd of thousands, Chappell Field in February during his last trip to the University.

A brilliant scholar, Ture was the son of what he held dear, that he was using his mind to make the world a better place.

Kwame Ture, the Howard University graduate who helped shape the Black Power Movement of the 1960s, died Thursday of prostate cancer in Conakry, Guinea. He was 57.

"No" has been the standard word for Ture, the man whose powerful voice gave new meaning to the phrase "Black Power." Untrained in the ways of politics, he had become a symbol of the struggle for black power.

"He stood for what he believed in," Guyot said.

Lawrence Guyot, the community activist and chairman of the Student Government, who has interned at Howard University for the past three months, said he was "touched by the many people touched by Kwame Ture."

"We join the many people touched by Kwame Ture in this moment of great sadness. It was on campus that Ture began his participation in the struggle for liberation of African people," Guyot said.

Guyot said that as a result, many black people will be there to support me," White said.

This season, White has completed 200 of 357 passes for 3,069 yards and 29 touchdowns while throwing only 10 interceptions. The Bison are 10-3 and are the national leaders in touchdowns passed. With 90. "He also threw a MAC-record 8 touchdowns passes in the Delaware State game," White said.

"O UR generation lost one of its strongest voices," said President Patrick Swygert, a senior at Howard with whom Ture was the lead voice during the Black Power Movement. "We join the many people touched by Kwame Ture in this moment of great sadness. It was on campus that Ture began his participation in the struggle for liberation of African people," Guyot said.

Rapппоро Battle in Verbal Armageddon

Howard's Best Emcees will have a Final Battle on Dec. 3

By BRANDY FORTE

Like the apocalypse foretold in Revelations Chapter 7, over 200 hip-hop fans turned to the Howard University Student Union to witness the end of the world. Yes, it was that important.

Still, despite the foreboding tone, the students who took the mic did an excellent job conveying the message.

While some articles revolve around the same ideas, such as the future of Howard and the quality of Howard students, this piece is meant to highlight the talent the university has to offer.

The first round is to provide Howard's finest with a platform to showcase their skills and compete in a non-competitive environment.

We've created an intense level of competition for these students to rise to the challenge and deliver their best performance. It's a chance for everyone to show off their skills and share in the excitement of the event.

The second round will be held in conjunction with the Howard University Department of Theater Arts and the Howard University Department of Communications. The second round will include movie clips and music videos to add another layer of complexity to the performance.

The third round will be held in conjunction with the Howard University Department of Music and the Howard University Department of Fine Arts. The third round will feature performances by the Howard University Symphony Orchestra, the Howard University Choir, and the Howard University Dance Team.

The fourth round will be held in conjunction with the Howard University Department of Theatre and the Howard University Department of Dance. The fourth round will feature performances by the Howard University Dance Team and the Howard University Theatre Company.

The fifth round will be held in conjunction with the Howard University Department of Theatre and the Howard University Department of Music. The fifth round will feature performances by the Howard University Symphony Orchestra and the Howard University Choir.

The final round will be held in conjunction with the Howard University Department of Theatre and the Howard University Department of Dance. The final round will feature performances by the Howard University Dance Team and the Howard University Theatre Company.

Theater Arts Department Presents Spanish Classic

Howard's Department of Theater Arts is presenting The House of Bernarda Alba, a story based on European history and literature.

The play tells the story of a middle-aged woman who is forced to raise her children as if they were strangers to her.

The challenge of the production is to show that should be taken lightly.

Even for professional productions generally only six to eight weeks, she said.

The stage manager, Lance Martin also played a star turn in the production.

Likely as the storyline because it is a story about women.

Although it is different from the plays that people are used to seeing, she said.

Martin said she thought the production was a success.

She expressed her disappointment at not coming up to our standards.

But Thompson says that "It's a powerful play and Howard has really done an impressive job of putting it on with an entirely African-American cast.

She said that the performance was a success.

"It's a deep piece and we've worked hard to make sure that it has been worth it.

But she expressed her disappointment at not coming up to our standards.

She anticipates the production will be a success.

"It's a powerful play and we've worked hard to make sure that it has been worth it.

Forum Held on the Role of the Student Trustee

By Mr. Somersall

Hilltop Staff Writer

The Campus Pal organization, a four-year-old group, is continuing its tradition of offering a unique forum on the role of the student trustee. The event, co-sponsored by the Hilltop and the Undergraduate Trustee Association, will be held on Thursday, November 12, 6:30 p.m., in the Student Union Ballroom. The forum, which is open to all students, will provide an opportunity for members of the student body to discuss the role of the student trustee with the incumbent Undergraduate Trustee James Cheeks.

The forum will include a panel discussion moderated by Hilltop Staff Writer Mr. Somersall. The panel will consist of students, faculty, and alumni who have experience with the student trustee role. The panelists will discuss the responsibilities and challenges of being a student trustee, as well as the impact of the role on the student body.

Attendees are encouraged to submit questions in advance of the forum to Mr. Somersall, Hilltop Staff Writer, 101 MC/2688, New Brunswick, NJ 08901. Questions can also be submitted at the forum.

The forum is part of the Hilltop's ongoing efforts to promote student involvement and engagement in campus governance. The Hilltop encourages all students to attend the forum and participate in the discussion.

CEO of JP Morgan Addresses Students During Crisis

By Miss Somersall

Hilltop Staff Writer

The Chairman and CEO of JP Morgan Co., Inc., Douglas A. Warner Jr., spoke to students in the School of Business Administration luncheon Friday as the second part of the Economic Speaker Series. Warner delivered the keynote address and discussed the economic climate and the financial market, including the recent financial crisis.

Warner emphasized the importance of education and the role of students in shaping the future of the economy. He encouraged students to pursue careers in financial services and highlighted the challenges facing the industry. Warner also discussed the impact of the recent financial crisis on the economy and the potential for recovery.

The luncheon was hosted by the School of Business Administration and was attended by a large crowd of students and faculty. The event was part of the Economic Speaker Series, which brings distinguished experts to campus to discuss economic issues and trends.

Showtime Marching Band Continues to Impress

By Nicole A. Town

Hilltop Staff Writer

The dynamic sound of Howard University’s Showtime Marching Band draws students to the Hilltop and fills the air with the spirit of the university.

The band, under the direction of Dr. LaVerne Smith, is known for its vibrant performances and its ability to entertain and inspire. The Showtime Marching Band is the official band of Howard University and represents the university at various events and competitions.

The band consists of approximately 100 students, including drummers, percussionists, woodwinds, brass, and jazz musicians. The band is known for its creative choreography and its ability to perform a wide range of music genres.

Showtime Marching Band performances are held throughout the academic year and are attended by thousands of people. The band’s performances are a highlight of the university’s cultural events and are a testament to the university’s commitment to excellence in education and the arts.

University Mourns Death of Activist Kwame Ture

**TUNE, from Al**

I did talk to this great friend. He and I had some long discussions where there was a lot of passion on both sides. I think he was a man of great principle.

Dr. Mary Hoover, a professor in the School of Education, first met Ture at California in 1968. Hoover said that Ture, on his own, symbolizes the Movement.

"He is the only black leader who influenced any segment of our Black Movement, the civil rights movement, the Black power movement, and the pan-African movement," Hoover said.

In June, Ture signed legal documents to start a new school in the West Bank, which is to be called the New School of Education.

"We are not only doing something in this area, but also setting an example for other African-American scholars to continue their work," Hoover said.

**In New York in June, the civil rights leader Kwame Ture, signed documents giving the Mountbatten-Young Research Center the personal papers and other archival materials. Presented in Ture with Dr. Thomas Hilke, Director of the center.**

**CLYBURN TAPPED TO HEAD CONGRESSIONAL BLACK CAUCUS**

**WATTS, from Al**

Wednesday to chair the Congressional Black Caucus, succeeding Eulalia Cordero-Diaz, Maryland, as the group's first woman chair.

Clyburn, who sits on the House Transportation and Infrastructure Committee, was unanimously tapped to head the group, replacing the first woman to chair the caucus.

Watts is not a member of the Black Caucus, but he was the first to say that Clyburn should be the new chair.

**General Assembly Fails to Reach Quorum Meeting**

**ASSEMBLY, from A1**

Because of the men's basketball tournament's opening game "That third week is so much on our minds." Wicks said, pledges to make it a coming-of-age experience for students who are in advance of the month.

"We will make sure that at least everybody reaches three phone calls or whatever the upcoming meeting," Wicks said.

At Wednesday's meeting, the Assembly was held to a vote to adjourn a General Assembly Elections Committee Chair currently has no standards for the position, although application for the post has been submitted for the past two years.

Responding to concerns, Damon Peterson, 19, said that he has been working on the post for two years and plans to continue his work on the issue.

"The question is whether the position should be filled by someone who has been working on the issue," Peterson said.

---

**Iraq Allows Arms Inspections**

By **Natalie Reid**

**Holborn and More**

The weapons inspectors' terms between the United Nations and Iraq came to an end Tuesday when Iraq President Saddam Hussein agreed to give access to U.N. arms inspectors to investigate allegations of chemical weapons development in Bashir.

Iraq's challenge to the U.N. and the United States came days after Hussein said that he would not allow the inspectors into the country.

Iraq has not allowed the inspectors access to the country since 1990, and the United Nations has been unable to confirm its claims of weapons development.

---

**Hilltop Editor Wins Award**

**APRIL, from A1**

Gray's win marks the second time a Howard student has won the award. In 1995, Michelle Evans, then a Howard University senior, was the first student to win for her writing on an article she wrote during an internship at the Indianapolis Star.

"Ture's transition was not a member of the Black Caucus," Hoover said.

"He was one of the first to say that he is a giant in African history. He is a giant in African history. He is very aggressive and tough." McCormick said.

In 1989, Ture's death," Hoover said.

"The Howard University Student Association had a candlelight vigil Wednesday night." The vigil was to celebrate Ture's untimely death and to remember his contributions to the movement.

McCormick said that Watts' leadership has led to the creation of a more inclusive organization, which Watts was the first to coin the phrase "community."

"He is very aggressive and tough." McCormick said, pointing to the energy and passion that the former New York Congresswoman had in her time in the House for a long time. "He calls for action and then he goes and does something about it." McCormick said.

"I have no regrets and I'm not sure that the organization is eternal," Ture said in his February address at the University. "There is no time to sit back and reflect, the more you struggle, the more you know."

Library Computers Connect Area Students to the Web

By Linda Thomas
Hilltop Staff Writer

Huddled around a computer in the Martin Luther King Memorial Library, located at 800 G St. NW, three students supported each other's web searches. Teaching "Parents need to help kids learn computer skills," said Pam Jones, an eighth grader at Shaw Middle School. "Students need to learn the basics to do school work, while half use computers as well as other library resources." The computers, donated by Microsoft CEO Bill Gates, have been in the Young Adults and Popular Library for a year and a half, according to Felicia Jackson, who assisted her friend Jamal Shaw with his research project. "I am familiar with the Internet," said Jackson.

Jessica uses the computers in the library, but doesn't assign his daughter Jessica. "I am here to see my college mentor," said Pam Jones, an eighth grader at Shaw Middle School. "I am in business medical administration class, so I need to use the web as well as books when helping her daughter complete the project. "I am here to see my college mentor to talk about scholarships," said Crossland, an eleventh grader student at Margaret Wayhington High School. She said she is used to the computers. "I was in business medical administration class, so I need to use the web as well as books in text books with this computer class. "I think the Internet can be a lie," said Jackson.

**Southern States’ Ban Inter-ethnic Marriage**

By MICHELLE MALLENS

Birmingham, Ala. — The Alabama and South Carolina legislatures are today considering bills and ordinances that would ban inter-ethnic marriages.

Alabama’s Senate Bill No. 305, sponsored by Sen. Richard Shelby (R-Ala.), would prohibit marriage between individuals of different racial or ethnic backgrounds. The legislation is opposed by civil rights groups and Native American organizations.

South Carolina’s House Bill No. 348, introduced by Rep. Bobby Hamrick (R-Spartanburg), would allow the state to deny marriage licenses to individuals of different races or nationalities.

The proposed laws would also criminalize same-sex unions.

In the United States, the federal government has traditionally been more lenient in matters of race and ethnicity than state governments. However, recent decisions by the U.S. Supreme Court have reinforced the constitutional right to marry.

**U.S. Aids Hurricane Victims**

By JEROME DESNY

Birmingham, Ala.

In response to the hurricane disaster, the U.S. Department of Agriculture has established a special Joint Task Force to coordinate relief efforts.

This initiative is part of the $2.5 million emergency disaster relief package that was approved by Congress.

The Task Force will address the devastation caused by the hurricane in the eastern part of the United States.

The Office of Foreign Disaster Assistance (OFDA) will provide emergency supplies, personnel, engineering support, and fixed-wing missions.

The Office of Food for Peace will also provide assistance to the five aid organizations designated by the Task Force.

**The Media Targets Young Adult Habits, According to Stanford Studies**

Can television, music videos be blamed for youth’s smoking, drinking habits?

By LYNNE STONEHOUSE

Birmingham, Ala.

Young adults are more likely to start drinking and smoking as young adults than other young adults who ignore the media’s addictive advertisements, according to Stanford University studies. The results of a 1,537 student sample grade that serious problems and health-related interventions are likely to start drinking and smoking.

However, the young adults who start drinking and smoking as young adults are more likely to start drinking and smoking as young adults than other young adults who ignore the media’s addictive advertisements, according to Stanford University studies. THE MARKET PLACE

Howard University

A dynamic market place, whose campus boasts over 20,000 students, faculty and staff members, Howard University has a prestigious alumni, consisting of such persons as Virginia Governor L. Douglas Wilder, New York Mayor David Dinkins, former Supreme Court Justice Thurgood Marshall, Producer Debbie Allen and female composer and vocalist Roberta Flack, just to name a few.

Howard University has one of the finest medical and dental facilities in the Washington, D.C. area. Founders Library, the school's main facility, is the largest library devoted to the preservation of Black History; Not to mention our Moorland-Spingarn Research Center which is unique in itself in that there are few, if any, like it in the world.

Unlike many other colleges and universities, Howard has two radio stations and the first black-owned and operated public television station in the country, as well as, the largest black collegiate newspaper in the country.

The University attracts a sophisticated, cosmopolitan student body from around the world, presenting the highest-quality challenge and education.

Also, the University has one of the richest and most educated African-American communities in America. Statistics show that there are more successful black professionals concentrated on this campus that any other in the nation.

COVERAGE

To meet the demands of our readers, THE HILLTOP features campus, local, national and international news. We also feature a business and finance section, as well as, a section devoted to health and fitness. One of the most widely read sections is our TEMPO section which showcases a unique and captivating blend of reviews and previews of movies, theatre, fine arts and literary works. Finally, periodically, we publish a special tabloid, EXTENSIONS, which takes a deeper and often different look at an issue or concern around campus. We look for those who wish to support through special advertisement in this tabloid.

The Columbia Scholastic Press Association and the Society of Professional Journalists have recognized THE HILLTOP for its continued excellence in the field of college journalism.

With the latest in desktop publishing technology, we pledge to continue an over 70-year-old tradition of publishing a high-quality, well-respected product which engenders credibility and builds loyalty.

ADDITIONAL CHARGES

Halftones

Photos which need to be reduced, enlarged, or shot as a halftone will incur a one time fee of $10.

Inserts & Stack Alongs

(1,000 minimum)

Advertisers who wish to insert copy will be charged $75 per 1,000 copies. Requests to insert copy must be made two weeks before publication. Advertisers who wish to stack copy alongside HILLTOP distribution points will be charged $40 per 1,000 copies. Three copies of such material must be received by THE HILLTOP 10 days before run date.

Placement Charge

A 20 percent charge will be made for specific placement on or within a page. The minimum size for a specific placement ad is a quarter page.

Mechanics

Columns are 13 picas (2 1/8 inches) wide with one pica between columns. Pages are 83 (13 3/4 inches) wide. Page depth is 21 inches. There are six columns per page.

Ad Design

THE HILLTOP has an excellent design staff available to design attractive advertising for your organization. There is a 15 percent charge for ad design.

We reserve the right to reject any advertisement seven days before the publication date.
Memorandum

TO: All Student Council Presidents
FROM: 1999 General Assembly Elections Committee
DATE: November 20, 1998
RE: 1999 School Elections

This serves as a reminder to each student council that your appointee for the Local Elections Chair is due to the GAEC no later than December 1st. Your procedures and schedule of events are due no later than January 16th. ALL names and ID #s for each candidate in each respective school are due no later than January 25th to the Office of Student Activities in order to be verified. ALL names to be placed on the March ballot are required to be submitted to the GAEC, verified and reviewed by the Local Elections Chair, no later than January 27th. ALL these dates are non-negotiable and final. Any requested and required information that is not submitted will not be reviewed and will be returned.

Legacy's Leaders
1999 Howard University-General Assembly Elections Committee

Petitions and Verification packets are available in the HUSA office, Blackburn Center room 102. Candidate(s) are required to submit ALL the required information to the GAEC no later than January 22, 1999. (NO EXCEPTIONS)

The names that appear on the signed petitions will be the names that appear on the March ballot. NO substitutions, removals and replacements, for copies will be accepted.

The Importance Of Space In
THE 21st CENTURY

Requirements:
* 3.25 GPA
* 1/2 - 1PAGE PERSONAL BIOGRAPHY
* 3 - 5 PAGE ESSAY ON TOPIC
* DEADLINE: NOVEMBER 30, 1998

Sponsored By The DISTRICT OF COLUMBIA GRANT CONSORTIUM
http://www.gwu.edu/~spi/spacegrant

YOUR CHANCE TO WIN $500!!!

GRADUATE/UNDERGRADUATE SCHOLARSHIP COMPETITION

(OPEN TO ALL MAJORS)

TELL US YOUR OPINION ABOUT "THE IMPORTANCE OF SPACE IN THE 21st CENTURY"

Statement of Purpose

Each year Howard University students exercise their right to choose their fellow students who will represent them as the Howard University Student Association, President and Vice President. These two individuals embody the values, the desires, and the ideas of the entire student body. The students place their trust and their representation in the hands of their peers and allow them the opportunity to make changes that will enhance the student body experience. In order for those students who will sit on the governing body of the University. Nominated by the student body as Student Trustees, these two people help to give a student perspective to the Board of Trustees. The selection of their leadership requires a fair, equal, and open process. That is the mission and the charge of the General Assembly Elections Committee. Creating and implementing a process which allows each student the opportunity to choose their leadership. The choosing of the representatives who will continue the legacy of greatness and leadership is the purpose of student voting and making certain that this choice is provided to ours.

We provide the vehicle by which the selection of Legacy's Leaders will be accomplished. We are, the 1999 Howard University-General Assembly Elections Committee. We commit ourselves to a fair, unbiased, credible process and challenge every Howard student, whether on the undergraduate or graduate level, to participate in the continuation of a legacy of community service, social excellence, and exceptional leadership.

To volunteer with the General Assembly Elections Committee, please submit your name and phone number to the GAEC mailbox, located in the Office of Student Activities, Suite 117-
Blackburn Center.

The arrest of former Howard student Dion Diamond in Baton Rouge has raised a plethora of political constitutional questions. But his case has an additional significance which has received less notice. Dion’s arrest was an attempt at Southern University to speak at the invitation of the student body president, constitutes one of the most flagrant violations of academic freedom in recent years. Flagrant as it is, it appears to be quite in the tradition of Southern University, whose Uncle Tom President has barred the registration of some 40 student leaders of recent anti-segregation demonstrations, and who has worked hand in hand with the racist police in Baton Rouge to intimidate such leaders.

Howard students have been fortunate in not being saddled with such a Tom President. Only recently, The Hilltop had the happy task of congratulating the administration, and particularly President Nabrit for their forthright support of Project Awareness—at a time when the rights of students to hear controversial speakers was under attack even in the cosmopolitan City Colleges of New York. When the president of those colleges were compelled, under an avalanche of student and community protest, to reverse their speaker’s ban, President Nabrit’s position was, it my view, gloriously vindicated. (And, of course, the Project Awareness debates have impressively vindicated themselves.)

Freedom of speech, the right of the assembly the sacred right of peaceful protest against social injustice—all of these civil liberties have been eminently defended by the renowned civil rights attorney who now occupies the President’s chair at Howard University. His inspiration considerably enhanced the reputation of Howard as a force of leadership in the struggle for human rights generally and Negro freedom in particular. The fact that the President’s son, James Nabrit III, is aiding in Dion Diamond’s defense, can only add to the reputation which we proudly bear.

Yet recent developments threaten to start that reputation. A number of Howard students gathered last week in front of the School of Religion to hear remarks by Charles McDew, chairman of the Student Nonviolent Coordinating Committee, the Southern organization whose role in the sit-in movement and its current vote registration drive won international recognition. Mr. McDew had just emerged from a Baton Rouge dungeon. He had been arrested while bringing books and reading materials to the jail, where he had been held for longer than a month.

This administration’s response to this demonstration is solidarity with embattled students of the South was Mr. Carl Anderson’s order for the Student Nonviolent Coordinating Committee office to be closed down. He has the happy task of teaching the intellectual awareness quickly perceives the social ferment, of thought and action. The Howard authorities: the history, that young people called Negroes can be told of the platitudes in what Myrdal refers to as a mirage as it relates to themselves, the faculty would likely support you to the hilt. I strongly urge the Administration to ponder these words carefully, for many of us are disquieted by reports of a crackdown on students thought to be responsible for last week’s demonstrations. Already Project Awareness has had the key to its Slow Hall office confiscated by order of Administration officials on the grounds that it was used by students who planned the demonstrations. To hinder Project Awareness, in the name of security, preparations for its next debate can only mean one of the most valuable enterprises on this campus.

And when will the Liberal Arts Student Council office be closed down? I have heard, from some of the conspirators, of a plan to shut the office and there exchanged plans for the Revolution in twisted whisper. In fact, I have been hearing some of the castleinking about the Hilltop effect.

Rumors are afloat that several students associated with the demonstration are currently being detained in and grilled by University officials—indeed, this may have already happened by the time these words appear. Let us hear no such rumors are false. Grillings may yield some interesting details about the Conspiracy and may intimidate some, but I submit that the authorities could better profit by an effort to understand the depth and significance of the phenomenon on which they have had only a partial glimpse.

One final point needs to be made. Hovering over this discussion like an ominous buzzard is the argument that Howard is financially dependent upon Congressional committees, largely composed of Southerners, and that Board of Trustees must be especially careful not to permit student activities that might antagonize those powerful elements. I have always thought this argument and exaggeration too employed to rationalize many of the conditions that prevail here and have suggested a policy, via Dr. Reed, which would remove the obstacles to healthy protest activity and yet relieve the university from any responsibility for such activity.

If I am wrong on this point, then Howard is in the same boat as other Southern Negro schools and colleges. All the more reason all Negro schools are suicidal. Ultimately they can have no valid purpose but to give birth to the kind of militant leadership that will destroy the very need for such colleges. This, then, is the terrible paradox of cases a strange shadow over our educational experiences. The men who preside over such institutions are not to be moved. I know that I speak for the profoundly stratified when I say that our sympathy for their positions is not to be confounded. But others who will not have to join in evolving new attitudes and policies that will accommodate the new—indeed, inexorable—forces that are at work upon our generation and that permeate our thinking and our actions. Institutions that can not change, like living organisms, will crumble and die. And of one thing we are certain: however many new buildings are erected on our campus, however many more libraries are added to the scores. Institutions that are not in and change, like living organisms, will crumble and die. And of one thing we are certain: however many new buildings are erected on our campus, however many more libraries are added to the scores. Institutions that are not in and

The heart of the Hilltop has quickly become a popular spot among Howard University students. Take for instance Senior Afrieda and her friends. Afrieda is a family history senior. As one of the first students to see the show, she was eager to share her thoughts.

Afreida, along with many other students, appeared to be enjoying the show. The language and blasphemy, but many Howard students, including Afrieda, seemed to be enjoying the show.

Film Graduate Snaps First Place At National Competition

By IRA PORTER
Hilltop Staff Writer

At an early age Shandra McDonald had a disturbing experience. It was an experience, involving a middle school teacher, that inspired McDonald to write her thesis film, "Chains Make a Difference." The film is based on the story of a 15-year-old African American girl who is mastipated by a racist white teacher. In the end, with the support of two of her best friends, one black and one white, and the help of another white teacher, she overcomes her tumultuous circumstances. She overcomes her tumultuous circumstances.

As repetitions of "take it off," "think women are supposed to do," "there's nothing to it," and "everybody's doing it" resounded through the smoke-filled corridors and allowed themselves to become the victim of violence, crime, and drugs, McDonald said.

"I feel a strong obligation to our people; our stories are more than entertainment. They are trying to see what is behind the scenes, the things that we don't allow them to do. The film was about what you know ... Always believe in yourself, in your story, and in your experiences," said McDonald.

"Chains Make a Difference" was directed by Shandra McDonald, a recent alum of Howard University's graduate department of film and media arts. The film was produced by the Center for Film and Media Arts at Howard University. The film was shot in Los Angeles and New York City and will be released in the spring of 1999.

"I refuse to be denied of my experiences," said McDonald. "I refuse to be denied of my experiences."
I Still Know What You Did Last Summer Stinks

By JOUN-JOHN WILIAM IV

Last fall, audiences got “hooked” by I Know What You Did Last Summer. It was hot and fresh. The movie had Generation X’s across the country beg­
ging forgiveness, for being so damn young that there would be a sequel to the $25 million hit-office smash. (An Omen What the Hell Last Summer had the audience at the edge of their seats after last year’s ending. It made everyone wonder what happened to Ron Wilks, the man with the shoe who clicked or got away in the way of his revenge on the group of teenagers who hit him with their car and dumped him in the ocean to get rid of the evidence. But when audiences turned to this year was just 96 minutes of pure rubbish. Sequels are usually a disap­pointment, and this fall is no exception. (Had my first few minutes about the movie before I started tearing my hair out. I asked, who screenwriter Stephen K. J. Know What You Did Last Summer, and the Will Ferrell/Cord/Crash wouldn’t be part of this movie. But, I brushed it aside and said that it would not be that hard to make a good sequel.

In short, the plot was horrible in every sense of the word. It was also predictable. The themes were topsy-turvy and just downright moronic.

NEW DVD SYSTEM We at The Hilltop believe in empowering the student. For that reason, we have given our cadre of music and movie reviewers the power to Validate and Purge, just as the movie had Generation X’ers across the country beg­ning forgiveness, for being so damn young that there would be a sequel to the $25 million hit-office smash. Johnson and White Lead Bison To 69-3 Rout of Morgan State

The defense was also impressive, holding the Bears to 6.4 yards per play. "It's good to see, they'll be part of the group that's the backbone of our running offense next year," said Wilson.

Morgan State scored in only six of the seven drives of the game early in the second quarter when quarterback Chris White drew false for four as the Howard Bison rolled past the visiting Morgan State Bears, 69-3, on Nov. 14 in Greene Stadium.

Second-year running back David Johnson ran for 11 touchdowns and quarterback Shaw White drew false for four as the Howard Bison rolled past the visiting Morgan State Bears, 69-3, on Nov. 14 in Greene Stadium.

Howard began the rout early on as seniors running back Tyrone Lewis scored on an 11-yard touchdown run. White contributed to the scoring by hitting receiver Toyas Rainey to extend Howard's lead to 27. 0. However, placekicker Jason Walker's extra-point attempt failed. The end of the half saw White toss his third touchdown pass as he connected with running back Tyrone Lewis for a 2-yard touchdown pass as he connected with running back Tyrone Lewis on a 2-yard touchdown pass in the first quarter. White contributed to the scoring by hitting receiver Toyas Rainey for a 25-yard field goal. The Bison scored two additional short touchdowns, one from 25 and one from 3 yards. White's extra-point attempt failed. The end of the half saw White toss his third touchdown pass as he connected with running back Tyrone Lewis for a 2-yard touchdown pass in the first quarter. White contributed to the scoring by hitting receiver Toyas Rainey for a 2-yard touchdown pass in the first quarter.

Howard’s Men Soccer Team Wins 1998 Mid-Continent Conference

By CRYSTAL NELSON

Howard University’s men’s soccer team defeated #3 seeded Univ. of Missouri at Kansas City in the Mid-Continent Conference in Valparaiso, Ind., 4 to 1, last Sunday. The Bison also played Saturday against #1 seeded Valparaiso in the semifinals and defeated them 3 to 2.

Assistant Coach Curtis Landy said, “The team played well at different times of the game. Overall it was a good tournament. We were lucky to come out victorious.”

Forward Gregory Simmonds was named Most Valuable Player of the conference after scoring five goals—two against Valparaiso on Saturday and three on Sunday against Missouri-Kansas City. The Bison who made the All Tournament team were Raymond Goodlett, Jonathan Rutland, Gregory Simmonds and Carlington Clark.

Commenting on his team’s performance in the conference, goalie Nigel Burgess said, “We rose to the occasion and put away our chances skillfully and defended very well throughout the tournament to defend our conference title.”

SPECIAL THANKS TO ALL WHO PARTICIPATED AND ATTENDED

Serve the Lord with gladness: come before his presence with singing.

Psalms 100:2

The Howard University Community Choir

presents a

Thanksgiving Gospel Concert

Sunday, November 22, 1998
6:00 p.m.
Andrew Rankin Memorial Chapel
Howard University- Main Campus
2395 Sixth Street, NW
Washington, D.C.

Enter into his gates with thanksgiving, and into his courts with praise: be thankful unto him, and bless his name. For the Lord is good: his mercy is endur ing and his truth endureth to all generation s. Psalms 100:4-5

Admission is free- Jesus paid it all.
Justice Department’s Trial Against Microsoft Currently Underway

By Mike Somersall
Albion Staff Writer

It seems nothing has gone right for America Online, Inc. at this point, the man-and-the-man-and-the-friend of Microsoft. After Monty Halls and Ron Hoffs deposition, the Justice Depart­ment has now released a deposition Oct. 19, claims that Microsoft withheld a “down” program, which is used by the other ten universities in the computer users, has been misan­

James Barkdull, the president of Netscape Communication, testified that on June 23, 1995, Microsoft pressured his company to help develop the Netscape Communicator browser in competition with Netscape’s browser. After Gates testified in the computing industry.

The deposition, obtained from Mr. Poston, has been used in court.

New Tests Show Year 2000 Computer Bug: Is All Hype?

By Kevin R. Stewart

The Y2K problem is the result of using two digits to represent a date. The year 2000 is very close, and many computer systems are racing to beat the clock to fix the Y2K bug. Yet, there are various types of problems that could cause this field of scale and expand into four digits. The "Y2K" bug could cause problems in any company. The Y2K bug could cause problems in any company. The bug could cause problems in any company.
