Leaders, Students Honor the Legacy of Parks

Howard University students, as well as prominent members of government, continued to pay their respects yesterday to civil rights icon Rosa Parks, who died Monday at the age of 92.

"Her smile, her courage and her words could begin to live up to her creed," said Secretary of State Condoleezza Rice in a statement. "Rosa Parks' actions, and the boycott that she initiated in 1955, led to a Supreme Court ruling forcing Montgomery and the state of Alabama to begin integrating their public buses. The boycott eventually resulted in the U.S. Supreme Court forcing Montgomery to desegregate its buses.

"Our outpouring was not just right and I was fired from my job because of it," Parks wrote in her book," Quiet Strength, in which she tells her life story and vividly recounts the events leading up to her historic act of courage.

The events eventually led to what some historians consider the N.A.A.C.P. and the beginning of the civil rights movement. "It's sad to hear about her passing," said Brittany Coleman, a sophomore legal studies major. "She was very outspoken, and one of the people I looked up to."

"It's disturbing," said Amanda Henderson, a sophomore communications major. "I feel that as the civil rights movement is the basis for the freedoms we have today, Rosa Parks was one of the people who was the precursor for a prominent role in the civil rights movement. "I worked on "Harriet", a film that is about Harriet Tubman," Henderson said. "It's disturbing," she said. "I feel that as the college gets more aware of the civil rights movement, they should be the forefront of all careers, not just the arts and sciences, but I feel that the administration should not prevent the college from organizing a career fair.

Dr. Kym Wells, Director of Career Services, is concern about the absence of arts and sciences students. "Students need to get beyond the myth that the career fair is just for the College of Arts and Sciences, that it shouldn't be for the other schools," she said. "Arts and sciences students should feel encouraged to come and join us.

Students often have preconceived notions that they are under-qualified and unemployable, anything but Dr. Wells. She said the Career Services office has had some success in encouraging students to come and join us.

"Half of the students I talk to have interned at Howard University, and when they think of career services, they think about Arts and Sciences majors," she said. "You must reach out to those people as well."

"It was absolutely the right thing," said Howard University President Dr.奠 Wells. "We want students to understand the importance of the arts and sciences, and that they should not prevent the university from continuing to promote them."

"We are encouraged to remain aware of the various opportunities," Dr. Wells said.

COAS Students Seek Career Fair, Assistance

While career fairs are publicized widely on campus during the fall, students in the College of Arts and Sciences feel left out of the opportunities, she said. "Arts and Sciences majors," she said. "It's disturbing," she said. "I feel that as the civil rights movement is the basis for the freedoms we have today, Rosa Parks was one of the people who was the precursor for a prominent role in the civil rights movement. "I worked on "Harriet", a film that is about Harriet Tubman," Henderson said. "It's disturbing," she said. Say Cheese: College of Dentistry Making Kids Smile

BY JANELLE JOLLEY

The Howard University School of Dentistry will be participating in the 2nd annual Give Kids A Smile event for underprivileged children in DC.

Give Kids A Smile, which started in 2000, is a national program sponsored by the American Dental Association (ADA) to help families with limited access to health care. The program is specifically targeted for children ages 5-18, with many having a high need for dental care. Services include preventive care, sealants, and dental counseling.

For the 2005 version of Give Kids A Smile, schools in the area are invited to host the local event. The School of Dentistry will be participating with the D.C. Dental Society, a local group of students, and North of Columbia Falls, Schools in a collaboration effort to host the local event.

"I always believe that dentistry is based on prevention with the children," said Dr. Beverly, former pediatric dental resident. "I do believe that more children need to be educated about oral health care.

The children who receive the free dental care are children who have been identified by school health officials as in need of oral health attention. Most often these children are from low-income households with limited access to health care.

"I have always said that I wanted to be a lawyer," said Beverly, who noted that the time spent on the Howard University debate team or her work done for the Pi Eta, however, she does realize that time is not on her side and some of those clubs will not place her any closer to achieving her goal.

"I came to Howard in the spring of 2003; right now I'm making sure my classes are passing our exams and I still do low-level care in my last year of practice," said Beverly. "I'm only taking one civil but my last year makes it feel as if I'm taking all of them," she said.

She makes it quite clear that she is not extra-studious to the beat but her classes are demanding and things need to get done.

"I have always said that I wanted to be a lawyer," said Beverly, who noted that the time spent on the Howard University debate team or her work done for the Pi Eta, however, she does realize that time is not on her side and some of these clubs will not place her any closer to achieving her goal.

FedEx

As an Account Executive-Inside Sales, you'll play a big part in keeping $231 billion supply chain moving. Bring your enthusiasm for sales to a company that will give you the tools to reach and surpass your goals. Join FedEx Services.

Account Executive - Inside Sales

The successful candidate will sell FedEx transportation services and manage an account base of existing and potential business customers within a geographically defined territory remotely from Pittsburgh, PA, Phoenix, AZ, Dallas, TX or Memphis, TN.

Requirements:

* Bachelor’s degree—All majors are encouraged to apply
* Must be self-motivated and possess strong interpersonal and PC skills
* Strong verbal and negotiation skills

To apply for the Account Executive - Inside Sales position, please send your resume to salesresumes@fedex.com noting your preferred location by October 28, 2005. Also, please plan to attend the Information Session to be held on November 1, 2005 at 6 p.m. in the School of Business Faculty Lounge. Interviews will be held November 2 and 3, 2005 in the School of Business.

Put your life in drive.

Register at www.fordcollegehq.com for a chance to win a new 2006 Ford Fusion, and other cool prizes instantly.

*No purchase necessary. A purchase does not increase your chances of winning. No purchase necessary to win. Void where prohibited. All prizes must be used within 12 months of the original purchase date. Ford Motor Company's and Ford of Canada's liability is limited to replacement of the prize. No substitutions allowed. All prizes are subject to availability. Sponsor reserves the right to substitute an equal or lesser value prize. All prizes are delivered to the Winners address. FOR FURTHER DETAILS, PLEASE VISIT WWW.FORDCOLLEGEHQS.COM OR CALL 800-323-9934 TO LEARN MORE. PROMOTION PERIOD END DATE: 12/15/05. Sponsor: Ford Motor Company, One American Road, Dearborn, MI 48121.
Nigerians Mourn After Recent Tragedies

BY SHALEEM THOMPSON

Nigerians feel that more should be done to determine the cause. According to several press reports, she died in the plane crash. "This accident has brought deeply affected by the plane crash. "It is very sad and all her children are in the United States so they have to go home for the funeral."

The Assistant Director for Immigration and Conlogno, Mr. Peter Johnaa, told Daily, deeply affected by the plane crash, "The accident occurred. It is a great loss to me because a gentleman that helped bring me up and抬起头 was killed in the accident. I always wanted to go back to Nigeria to thank him for all he has done for me but now it is too late.

Delivering a double blow to Nigerians worldwide, just hours after the plane crash news arrived, that the wife of the President of Nigeria, Mrs. Stella Obasanjo had passed away. According to several press reports, she died while hiking in Spain, and though an autopsy was performed, the exact cause of her death has not been released. Chuma Ajene, a Junior Public Relations major whose family friend died in that crash, "It is very sad and all her children are in the United States so they have to go home for the funeral."

Adding to the tragedy of the plane crash, Nigerians also suffered the loss of the New York City's first lady and the 117 people that perished in the crash. "This accident has brought a deep loss to me because a gentleman that helped bring me up and抬起头 was killed in the accident. I always wanted to go back to Nigeria to thank him for all he has done for me but now it is too late."

Students Flaunt Their Laced Up Pair of Nikes

BY CHRISTINE IOOOGO

While constant attention on social networking sites and one of Nikes many shareholders, many have observed the revolution of Nikes sneaker, which has risen from eight years ago to be the most well known athletic shoe in the world. Nikes revenue increased by 40 percent in the most recent quarter, according to a Nike spokesperson.

"Nike has built a strong brand position we have ever seen in over five years, and as we look at the marketplace because we are the only ones on the buying decision falling our way to the tenth anniversary this year," said Michael Bailey, vice president of International Affairs.

Nikes revenue increased by 40 percent in the most recent quarter, according to a Nike spokesperson.

Nike, a global athletic brand, has seen in over five years, and as we look at the marketplace because we are the only ones on the buying decision falling our way to the tenth anniversary this year," said Michael Bailey, vice president of International Affairs.

"Nike shows are always the most popular," said one consumer. "They are always in demand." According to Nike, a recent survey of Foot Action, "Nike's revenue, which exceeded $15,000, all of the money will be used to support the customer.

"People seem to respond well to having some control over the price they pay for a product," Kato said. "I think they prefer to pay for their own businesses through eBay."

Nike's revenue, which exceeded $15,000, all of the money will be used to support the customer.

*If you are not sure of your official classification, please refer to HU BISON Web.

- Students are required to meet with their academic advisors for discussion and approval of proposed course selections before using BISON Web.
- Alternate PINs may be required for some students. Please check BISON Web.
- Students should print their schedules from the Web in a campus computer center.
- First deferred payment for Spring 2006 is due December 19, 2005.
The impact one individual can have on a nation is tremen-
dous. Whether it was Rosa Parks standing up her seat to a white
man in Montgomery, Alabama, in 1955, she began to catalyze
the most important movement of the 20th century. Like
people, Rosa Parks died in humble circumstances and
surrounded by solitude. However, she is a name that will
dwell in history, and her memory will live forever.

Our View:
The courage and determination
continued to inspire generations
to come.

Aaware but Still Unprotected: Students Continue to Put Health at Risk

BY CHARLES WASHINGTON

Despite a revival of safe sex slogans, commercials, and campaigns, many students continue to engage in unprotected sex regardless of the risks.

According to a study by The Alan Guttmacher Institute, a nonprofit organization focused on sexual and reproductive health research, with a single partner of unprotected sex with an infected partner, a teenage woman has a 1 percent risk of acquiring HIV, a 35 percent risk of getting genital herpes and a 19 percent chance of contracting genital warts. The hazards are even greater for African-Americans, who account for 66 percent of newly diagnosed AIDS cases.

"Although the rate of new infections has decreased, there continues to be a large percentage of people who are infected," says Australia. "We're not seeing a decline in the number of new infections."

Despite various attempts by different organizations to promote safe sex, many college age students continue to practice unprotected sex.

One in four, being in the heat of the moment, and not wanting to take the time to put on a condom. The most alarming is the "it won't happen to me" mentality," said sophomore political science major Matthew Manning. "The truth of the matter is, the chances are high, and the severity of some things you can contract can be debilitating, if not fatal."

"The 'it-can't-happen-to-me' attitude, pressure, low self-esteem, being discretized, or fear of being discriminated could be working together or alone in the decision-making," said sophomore broadcast journalism major Ashley Southall.

"I think there might be some pressure. Society's reverberating effects push for safe sex, but you don't think that it applies to you because they haven't even seen someone else that's been affected," said Southall.

"There may be some pressure but there should be a point where people's age take responsibility for their actions and understand the risk," said junior speech communication major Jonathan Hendrick.

"Many students are in the account that ignorance is not a factor, once information about the dangers of unprotected sex is very readily available. There is more than enough information available to students. The problem is that students don't want to hear, read, or see things that may be negative," said junior broadcast journalism major Jonathan Hendrick. "Students can learn about the risks pretty much anywhere, but some don't take the time to understand how the risks can be taken into account."

Manning agrees that information is far from scarce. "Beginning in secondary school, students are aware about the dangers and risks. When you reach college, the degree and amount of information is far from scarce."

"It's more realistic because there are a lot of taboos to talk about."

Some students feel that pressure also plays a role in why students have unprotected sex. "Pressure bring the most serious factor. Society's reverberating effects push for safe sex, but you don't think that it applies to you because they haven't even seen someone else that's been affected," said Southall.

"It's a conservative figure. It's a real figure that is hard to keep track of. The estimates are made by government officials."

"It's a conservative figure. It's the best number we have," said Wang. "The government figures are made by the government officials who are in charge of the environment."
BALCO Bosses' and Bonds' Trained Sentence to Prison

BY DREW COSTYLE

BALCO founder Victor Conte, along with Greg Anderson, trainer for San Francisco Giants Barry Bonds, were sentenced to prison for their part in a scheme to distribute anabolic steroids. The sentences were three years of probation and 240 hours of community service for Conte, and four months of house arrest last year followed by two years of probation for Anderson.

According to the Associated Press, after the trial convened Conte read a statement saying he wanted to pay debts of steroids used in the sport.

The scandal began in 2003 and prompted Congress hearings on the matter of steroid testing in professional sports. The hearings continued throughout September, holding the commissioner of the NFL and MLB, Bud Selig, and David Stern, along with a host of the players in question.

According to report, Conte plead guilty to multiple charges of money laundering and steroid distribution on May 25 and as a result of his guilty plea 100 months in prison.

One-on-One with a Goalkeeper

BY TIFFANY KNIGHT

Lindsey Walton, a residential goalkeeper for the University Women's Soccer team, is one of the most important players for the team this season. She is a one-of-a-kind player who has made a name for herself on and off the field.

Walton has a strong communication system with her teammates. She is always ready to be the leader on and off the field.

She has a great mental ability to play the sport, as she is able to understand the game and be flexible in different situations.

Walton was recruited by the University Women's Soccer team because of her skills and potential. She was a key player in the team's success throughout the years.

Lindsey Walton successfully balances her first year as a starting goalkeeper with her studies in broadcast journalism.

Conte implicated multiple famous professional athletes of throughout the testimonials of steroid distribution. He will serve four months in prison for leaking the BALCO scandal.

The various athletes who appeared in the hearings before a grand jury have not come under federal investigation for their part in the scandal. They were granted immunity in the case to give testimony or to stipulate of their immunity.

One-on-One with a Goalkeeper

BY TAYLOR KNOX

Samantha Romantini, a freshman goalkeeper for the Division II soccer team at the University of Pennsylvania, is a leader on and off the field.

Romantini has been playing soccer since she was a child, and her athletic capabilities and passion for the sport have helped her to become a successful player.

Romantini has also been a part of the team's leadership, and her dedication to the sport has helped to motivate her teammates.

Romantini has been an integral part of the team's success, and her contributions have been recognized by her coaches and teammates.

Romantini has been a role model for other players, and her dedication to the sport has helped to inspire others to strive for excellence.

Romantini has also been involved in community service, and her dedication to the sport has helped to give back to the community.

Romantini is a leader on and off the field, and her dedication to the sport has helped to make her a success in both areas.

Legendary Owner and Hall of Famer Mara Dies

New York Giants Co-owner, Wellington Mara, died a peaceful death in his home in NY, at the age of 90. Mara has served the Giants for almost 60 years in various roles, beginning with his role as a lawyer after his father, Timmico J. Mara bought the team in 1940. He missed three years with the team while serving in World War II.

Elected to the Pro Football Hall of Fame in 1997, Mara was one of the last members of the "founding generation" to pass on. Mara and his brother Jack Mara created the idea of revenue sharing among the teams, presenting the idea in a meeting with the league's largest team, and sharing the wealth with the other teams.

Mara was diagnosed with cancer in his thirties and passed away in early April. He was known for his charitable work and his dedication to the sport.

Mara was a key figure in the sport of football, and his legacy will be remembered for years to come.
