It has been accepted for inclusion in The Hilltop: 2000 - 2010 by an authorized administrator of Digital Howard @ Howard University. For more information, please contact lopez.matthews@howard.edu.
Cafeteria Closed Due to Health Violations

By TRAVIS RUGGLES
Campus Editor

The Blackburn Cafeteria was closed to serve food for students by the District of Columbia Department of Health, after the school confirmed a rodent problem.

Health department records indicate that a cockroach was trapped in a sticky paper bait in a janitor's storeroom, which is located in the facility's service area. The record confirmed the complaint would fail if the complaint could not be supported by the health inspectors.

"The establishment hereby is closed after a complaint was received regarding the following area: Office of Compliance and Service, District of Columbia Department of Health," said a District of Columbia Department of Health representative.

The complaint also included photos of the infestation, which are available through the University Communications, and all of the complaints were to be addressed in the letter to the University.

Blackstone and Sodexo personnel are set to inspect the facility tomorrow to inspect the facility for any and all potential issues. The facility is expected to reopen tomorrow, although the decision is subject to the facility's inspection.

Bill Cosby Discusses the Issue

By LINDA IACCA
Staff Writer

Cosby, a Pennsylvania native, discussed the issue of human rights issues, specifically in the context of the Bush administration's approach to detention centers.

Cosby, who recently made a speech at Howard University, said that the administration's policies have created a "humanitarian crisis" in the Middle East and elsewhere.

"Our government's policies have created a humanitarian crisis in the Middle East and elsewhere," Cosby said. "We need to change the way we approach these issues, and we need to start listening to the voices of those who have been affected by these policies."

Bush Neglects War in Iraq at U.N. Peace Conference

By WILLIAM DOUGLAS
Reaction Editor

The United Nations, which has been criticized for its handling of the Iraq war, was set to meet on Tuesday to discuss the situation in the Middle East.

"We need to work harder to ensure that the United Nations is able to meet the challenges of the current situation," said United Nations Secretary-General Ban Ki-moon.

"The United Nations has a responsibility to ensure that the situation in the Middle East is resolved in a peaceful and sustainable manner," Ban said.
By CHRISTINA BURTON

By his senior year at Howard University, graphic designer Casey Crawford had already made his mark. His work has been featured in publications such as The Hilltop and Essence, and he has won several awards for his designs. Crawford is a native of Atlanta, Georgia, and he graduated from Howard University with a degree in graphic design. He has since worked for several companies, including Adidas and Nike, and he is now an independent graphic designer. Crawford lives in New York City, where he continues to work on his own projects.
The University of Maryland has an emergency generator under the grounds, officials said.

Darrion Woods, a junior and a student services coordinator, said he calls himself "Bernie" when he's on break to help students. "If they have any issues, students should contact him," he said. "If you need to talk to Swygert, you should talk to him."

Shuttle Upgrades Lauded at Town Hall

By Paris Walker, director of Student Advocacy, said.

The shuttle system at Howard University has been upgraded, with a new generator installed under the grounds in case of an emergency.

The upgrade was necessary due to the aging of the current generator, which was installed in 1993. The new generator is more efficient and can handle higher loads, providing a more reliable power source for the shuttle system.

According to Walker, the new generator will help ensure that the shuttle system is able to operate during power outages or other disruptions. The shuttle system is a critical component of the university's transportation system, providing a safe and convenient way for students to get around campus.

Walker noted that the shuttle system has been improved over the years, with new routes and stops added to meet the needs of the student body. The new generator will help ensure that the shuttle system continues to meet the needs of the university community.

The upgrade was part of a larger effort to improve the shuttle system, which includes new vehicles and a new scheduling system. These improvements will help ensure that the shuttle system is able to meet the needs of the student body for years to come.

Brightens rooms.

Brightens futures.

Give a Gift That Brightens More Than Just a Room.

Think about it. Most gifts are pretty unimaginative. A lamp turns on. It turns off. Pretty exciting stuff.

And there are some gifts that no one knows what they're supposed to do.

But give Savings Bonds, and you'll be giving the gift of future possibilities—from a down payment on a car to help with college tuition. With eight denominations to choose from, there's a size for every occasion. You can select the popular Series EE Bond or the inflation-protected I Bond. They're available through most banks, where you work, or automatically through the new Savings Bonds EasySaver Plan at www.easysaver.gov.

Call 1-800-4US BOND for recorded rate information, or write to:
Savings Bonds Pocket Guide,
Parkersburg, WV 26106-1328.

I am pleased to announce the formation of a search committee that will lead the process to identify and select the 16th President of Howard University. This committee of distinguished individuals from both inside and outside the Howard University community will be led by General Colin Powell and Richard Parsons, Chairman and Chief Executive Officer of Time Warner. In addition, Dr. John Simon, President of Boston University, will serve as the advisor to the committee.

The role of a new president in the University's history is that of a leader of a complex institution, responsible for its strategic development in ways that far beyond simply staffing and being the highest chief executive. It is a collaborative, strategic process in which we must consult, understand and prioritize the opportunities and challenges facing the University, with key stakeholders and clarify the institution's blueprint for the future. It is indeed an invaluable opportunity for the Howard University community.

I am pleased to announce that I, along with the Howard University Board of Trustees, have established a Howard University Presidential Search Committee to work closely with the President and the Administration. The Board of Trustees's mission is to ensure that (1) short-term decisions are aligned with long-term strategic objectives, and (2) the consistent focus remains on enterprise priorities and the timely support of University efforts. The Howard University Presidential Search Committee is comprised of 16 members of the Howard University Board of Trustees and includes:

- Dr. Charles L. Berry, Professor, Department of Economics
- Trustee Manuela Faulk
- Trustee Todd C. Gentry, Sr.
- Trustee: Mark C. Johnson
- Trustee: Emmanuel J. Jordan, Jr.
- Trustee: Jack R. Keating
- Dr. Louis H. Lilly, Jr., President Emeritus
- Dr. Mentally Handicapped High School, Montgomery County, Maryland
- Trustee: Penneka D. McPherson
- Trustee: Vivian K. Reed
- Trustee: James C. Elam
- Mr. Marcus W. Lue, President, EL Student Association
- Mr. Larry Warner, Chief Executive Officer, LAM Hospital Corporation

The Howard University community looks forward to working with the Howard University Board and the Howard University Presidential Search Committee to ensure a smooth transition during this critical period.

To support the Presidential Search Committee, we have retained Nathaniel Sudan, Managing Director of the Wharton Strategies Firm, and Fordham University, as consultants to search for the University President. You are encouraged to provide your names and recommendations to the Howard University Presidential Search Committee, 1522 Fifth Street, NW, Washington, DC 20009-3202.

During this period, the Board seeks to ensure an effective presidential leadership transition. To that end, the Board has established a Board Transition Team to work closely with the President and the Administration. The Board Transition Committee's mission is to ensure that (1) short-term decisions are aligned with long-term strategic objectives, and (2) the consistent focus remains on enterprise priorities and the timely support of University efforts. The Board Transition Committee's membership includes:

- General Colin Powell, Chairman, Fordham University, and Chair of the Howard University Board of Trustees
- Trustee: Martin Tyson, Chairman, Howard University Board of Trustees
- Trustee: Fernando D. McPherson, Chair of the Howard University Board of Trustees
- Trustee: Vivian K. Reed
- Trustee: James C. Elam
- Mr. Marcus W. Lue, President, EL Student Association
- Mr. Larry Warner, Chief Executive Officer, LAM Hospital Corporation

The Board is working in concert with President Benjamin L. Hooks to secure his retirement during the critical period.

The Board also recognizes that during this very important time, it is critical to keep our key stakeholders informed of our intentions and the direction that we, as an University, are taking steps to prepare for operational effectiveness, continuity and execution of the University's mission and traditions. As we look forward, the Board of Trustees has continued to be responsible for the development of key stakeholders in our mission to develop the University's strategic goals.

I assure you that the Howard University Board is working hard to secure an appropriate leader for the University. We are committed to our shared vision of Howard University's potential, and we are bound by a deep conviction and love for the University. These values are the basis for our actions, and they will continue to guide our work.

We look forward to working with the Howard University Board and the Howard University Presidential Search Committee to ensure a smooth transition during this critical period.
On Friday Sept. 5, two Delaware State University (DSU) students, both from the Wilm­
ing ton, Del., area, were shot on the Dover Del. campus. Reports of the shootings reached the po­lice at 10:30 a.m., according to a statement released by Delaware State University Police Chief Joseph Orenwater.

The statement said that DSU was on a "full campus lockdown" due to the shootings. It further stated that "no students were injured" and that "the shootings occurred near the Hilltop dormitory." The statement also mentioned that "police are investigating the incident."
