Women's Flag Football Team Sees National Championship

By Victoria Diane Kirby

It was 7:15 a.m. on a cold, overcast morning, when Howard University's Women's Flag Football team walked into the University of Maryland College Park's stadium with victory on their minds. This was the team's first time to be toting their equipment and playing in a venue. They were the Maryland Region Champions and freshly crowned 2007 National Champions.

Team Design began warming up for their first game, which would start in 8 a.m., against the University of Maryland. Wearing black with white stripes, Team Design was focused on winning the tournament and achieving their goal at the National Flag Football Championship to be held in Dallas in January. Seven touchdowns and three interceptions later, through that and the trip to Texas, they had earned the chance to see the nation's political and administrative leaders at the University of Maryland. They won their game and progressed to the championship.

The game was over, but they had earned their way to the championship. They were the only team to have earned the title of National Champion and they were thrilled to be there.

Stovall saw the game as a way to gain attention and recognition for the sport and the team. He believes that the people who come to see the game will be inspired and encouraged to continue playing the sport.

The game was over, but the memories will last a lifetime. The team was proud of their victory and their journey to the championship.

March for Justice Brings Opposition

By Gail Hart

Criminal activity involving African American hate crimes in the United States is a problem that needs to be addressed. The March for Justice, which aims to bring awareness to this issue, was held in March of this year.

According to the National Conference of State Legislatures, there were 1,417 hate crimes reported in 2006, with 63% of those crimes involving African Americans.

The March for Justice was organized by the National Conference of State Legislatures, which aims to bring awareness to hate crimes and to encourage states to take action to address this issue.

The March for Justice was attended by thousands of people and was supported by many organizations and individuals.

The March for Justice was a powerful demonstration of the need for action to address hate crimes and to bring awareness to this issue.
Students in Holiday Spirit of Giving Back

By VIRGINIA HALL
Contacting Virgil

The beginning of December brings in the Hall of Fame for the National Hispanic Student Association. With the holidays just around the corner, the National Hispanic Student Association has organized a food drive to help the needy. The drive will be held on December 10th from 7:00 AM to 12:00 PM at the Student Center. All non-perishable food items will be accepted, including canned goods, rice, pasta, and cereal. Donations can be dropped off during the months of December and January. The goal is to collect as much food as possible to help those in need this holiday season.
Teen Commits Suicide After Cyber Bullying Goes Too Far

Continded from FRONT, CYBER

Under his alias, he is running an online game as a boy named "Piggy".

The Daily News, a local newspaper, reported the case. The victim's mother, Jennifer, said she was shocked to hear about the tragedy.

"It's terrible," Jennifer said. "He was a good kid and never had any issues."
Britney vs. J.Lo
Battle of the Comeback Kids

BY ASHLEY JOHNSON
Contributing Writer

Walking on campus, you can often find a strategic position between Jennifer Lopez’s album, "Brave," and Britney Spears’ album, "Blackout." While both albums dropped in early October, their presence in this format speaks volumes. Lopez’s Spanish-connected "Como Ama Una Mujer" turned many of the listeners away because of its cultural sensitivity.

Even these two albums have one similarity in common: the weak competition in which they are lost.

This new album is not the first for both artists. The album’s about young, chic Lopez. Their music is1

J.Lo Strives to ‘Do It Well’
In Her Eighth Album

The song is about how hard it can’t come into a role in her story. And while she can empathize with the lyrics, her music is amongst the best in her career. Someone out there does love her. The real challenge for this CD’s peak position was never a major issue. J.Lo’s music is all about her and the CD has managed to appeal to so many.

Despite this absolute plan, a group of music critics have managed to vigorously attack the "Brave" on several fronts. J.Lo’s success, her time, is the subject of much discussion on social media.

"Brave” is an ambitious plan. This is expected to surprise "To be one more time” with any music that would make her feel actually ready.

Katharine Britney Spears, after a year so great in the U.S. VMAs show, has managed to drop off to an even more "Uptown Girl.” We should listen with the same enthusiasm as the above artists. 

"J.Lo’s new work, "Brave," is a mixture, with a few decent tracks.

Nas Fueling the Fire with Controversial Album Title

BY SINDY PENCOLE
Staff Writer

The "NAACP burned it is a whole generation around it changed the conversation and made it clear. While the "N word" has become a sensitive topic, it’s time to give it the proper treatment.

Hiphop artist Nas has done the best of his life in his album, "The NAACP burned it is a whole generation around it changed the conversation and made it clear. While the "N word" has become a sensitive topic, it’s time to give it the proper treatment.

In an interview with MTV News, Nas said that he wanted to be more informed and let it affect the image of the term. He said, "The word means the same thing to someone who is part of the civil rights movement the world that it's hip-hop to someone who is part of the civil rights movement."

In his album, Nas attacks the use of the “N word” in hiphop music and cultural appropriation. Nas said, "I can’t believe in my freedom. I do not believe that the power of the people who is part of the civil rights movement. The power of the people who is part of the civil rights movement."

Author of "The New Jim Crow: Race, Color, and the Politics of Blame," "The New Jim Crow: Race, Color, and the Politics of Blame," wrote, "I can’t believe in my freedom. I do not believe that the power of the people who is part of the civil rights movement. The power of the people who is part of the civil rights movement."

"We can’t believe that we’re in a better time, or that we’re not. It’s not our job to say, ‘We can’t believe that we’re in a better time, or that we’re not. It’s not our job to say, ‘We can’t believe that this is the time, or that this is the time.’ We can’t believe that this is the time, or that this is the time.”

"We can’t believe that this is the time, or that this is the time. We can’t believe that we’re in a better time, or that we’re not. It’s not our job to say, ‘We can’t believe that this is the time, or that this is the time.”

"We can’t believe that we’re in a better time, or that we’re not. It’s not our job to say, ‘We can’t believe that this is the time, or that this is the time.”

Hello Student Leaders,
The Howard University Student Association is pleased to announce the arrival of the 2007-2008 academic year's organizational funding! Allocations are available in the A-Building at the Cashier's Office during normal business hours. Only those student leaders whose names are outlined on the HUSA website may pick up funding for their organization. These authorized individuals must present a Howard University ID once arriving at the cashier's office. The list also contains the amount of funding that each organization received. The list is also posted outside the HUSA office in the Armour J. Blackburn Center, Suite 102. Please feel free to contact me with any questions or concerns via my contact information below.

The Winning Numbers of the IPOD TOUCH ® Contest are:

458
1141
1157
426

Students that possess the winning numbers and valid confirmation code have until Monday, November 26, 2007 to claim their prize by leaving a voicemail message at 202-865-8358.
Child Labor Violations Plague India

BY LINLEY GRACE

The United Nations on Tuesday held talks with India to ensure that the country does not exploit child labor. The visit comes after the United Nations expressed concerns about the practice of using children in hazardous and exploitative jobs.

According to a report, the Indian government has identified 41 million children as being at risk of child labor, and an estimated 10 million children are already engaged in the practice. The report states that the practice is most prevalent in the states of Madhya Pradesh, Rajasthan, and Maharashtra.

The United Nations has also called for the implementation of the International Convention on the Rights of the Child, which prohibits the use of children in hazardous and exploitative work.

The Indian government has promised to take action, but critics say that the efforts are not enough to address the issue.

Child labor in India remains a significant problem and requires immediate attention. The United Nations and other organizations must continue to monitor the situation and take steps to protect children from exploitation.
Bison Drop the Ball in Final Season Game

BY EDWARD HILL, JR.
Special to the Hillyop

DOVER, Del. — Delaware State University was finally able to get its season started Thursday and then took advantage of several South Dakota State turnovers in the first half to lead for the majority of the finale at Delaware Tech.

The殖民权 regulation changes went unannounced.

The season opener was decided on a late 3-pointer by DePaul's Kaliya Washington, who scored a game-high 22 points and added five rebounds.

The Blue Hens defense struggled to hold the offense and the offense failed to take advantage of the opportunity to score early on what could be out of three mistakes that changed the game.

Howard was driving for what appeared to be the second time now that she would have put pressure on the offense, but junior guard Janesha Wilson was able to hit a free throw and go, the Howard 14-11.

Delaware State went up 28-18 with 1:12 left in the second half after Wilson hit a 3-pointer.

Howard missed a layup and DePaul guard Madge Williams was hit by Wilson on the rebound.

Delaware State turned in another

BY STEPHEN KENDRICK

Underclassmen have made their mark this year at Delaware State University, where a strong senior class has led the way.

The Lady Blue Hens' win over Howard on Tuesday was their fifth straight, and the Blue Hens have won seven of their last eight games.

According to Howard coach Tawanda Williams, her team is a confident group of players.

"We've been playing well and playing together as a team," Williams said.

"That's what we're known for, our defense and our rebounding," she added.

The Blue Hens are currently third in the MEAC standings at 7-1, and they are looking to continue their winning streak when they take on the Howard Bison on Saturday.

Howard has the chance to prove their worth in this game, but the Blue Hens are confident in their abilities.

"We have a lot of experience on this team, and we know how to win games," Williams said.

"We're just going to have to play our game and see what happens," she added.

The Blue Hens' next game is on Saturday against Howard, and they will be looking to extend their winning streak and stay in the top three of the MEAC standings.

Racial Representation in Sports Inconsistent

At Delaware State University, underclassmen have made their mark this year, while the senior class has led the way.

The Lady Blue Hens' win over Howard on Tuesday was their fifth straight, and the Blue Hens have won seven of their last eight games.

According to Howard coach Tawanda Williams, her team is a confident group of players.

"We've been playing well and playing together as a team," Williams said.

"That's what we're known for, our defense and our rebounding," she added.

The Blue Hens are currently third in the MEAC standings at 7-1, and they are looking to continue their winning streak when they take on the Howard Bison on Saturday.

Howard has the chance to prove their worth in this game, but the Blue Hens are confident in their abilities.

"We have a lot of experience on this team, and we know how to win games," Williams said.

"We're just going to have to play our game and see what happens," she added.

The Blue Hens' next game is on Saturday against Howard, and they will be looking to extend their winning streak and stay in the top three of the MEAC standings.

One sport that has seen a rise in representation is women's basketball.

According to the NCAA, more than 7,000 women's basketball players participated in college basketball in 2019-2020.

Despite this increase, the number of women's basketball players in the NCAA remains inconsistent.

This is due to the fact that there are still not enough opportunities for women in college sports.

However, there have been recent improvements, with more women being recruited and given the chance to play at the highest level.

According to the NCAA, the number of women's basketball players in the NCAA increased from 2016 to 2020.

This trend is expected to continue in the future, with more women being encouraged to pursue sports and receive scholarships.

Despite this progress, there is still a long way to go to ensure equal representation in college sports for women.

This includes providing more opportunities for women to compete, as well as ensuring that they receive fair treatment and compensation.

The NCAA and other organizations must continue to work towards these goals, in order to ensure that women's sports receive the recognition and support they deserve.

## Toys Should Be Presents Not Poison

With the holiday season upon us, it’s important to consider the safety of presents for children. Parents must ensure that presents are safe and non-toxic. A recent study by the American Academy of Pediatrics found that over 140,000 children are treated in emergency departments each year due to toy-related injuries. As parents, we must be aware of potential hazards and take steps to ensure our children’s safety.

### Our View:

Parents and manufacturers should share the responsibility.

### Example:

Dr. 李明, a pediatrician at the Children’s Hospital, emphasizes the importance of choosing safe toys for children. "Parents should always read labels and follow instructions carefully." He also suggests that parents check for any recalls or safety warnings on toys before purchasing.
