BET EXPANDS REACH TO UNITED KINGDOM WITH NEW NETWORK

WASHINGTON, DC — BET Networks, the number one cable network for African-American viewers, announced today its expansion into the United Kingdom. The new network, BET UK, will launch on April 1, 2008, and will be available exclusively on Sky, the leading pay TV platform in the UK.

The new network will feature programming from the US in a variety of genres, including music, entertainment, news, and lifestyle. The network will also produce original programming for the UK audience, including reality shows, documentaries, and talk shows. The network will be available on Sky’s basic package, and will be available on-demand through Sky Go, Sky’s online streaming service.

"We are excited to bring BET’s programming to the UK, and to offer our British audience a unique and diverse entertainment experience," said Richard Chin, President and General Manager of BET International. "We believe that BET’s programming will resonate with British audiences, and we look forward to building a strong relationship with our partners in the UK and with the audience."

Owning a Business Builds Character

By Charles Dore, CPA
Continuing Story

If you think about why you want to own your own business, you must have some goals in mind. Otherwise, why would you even bother? Perhaps you want to be your own boss, or you may want to start your own business because you think it will give you more flexibility or control over your career.

But starting a business is not easy. It takes hard work, dedication, and a lot of perseverance. And even if you do succeed, you will still face challenges along the way. But these challenges can also be opportunities for growth.

The proof: I'm not here to tell you those

Cosmetics Line Caters to Women of Color

While a large number of make-up companies

are targeting appeal to the growing demand for

niche products, one brand of "natural" makeup

addresses the needs of these women.

white women who want makeup

that is compatible with their

complexion.

While other major makeup

The Hilltop Chooses not to Endorse a HUSA Slate

Unfortunately, we are not endorsing a HUSA slate and vice president this year. The overwhelming majority of our staff decided the slate needed to be made by the student population, because we could not fully back any of the platforms.

In an attempt to be as fair as possible, we decided that we would not evaluate platforms, but rather what we thought the pair wanted to benefit Howard and the community. We're just not sure they have the experience needed to do that.

We were excited for the quality of the university. We were supposed to be moving forward. Still, what they lost was questionable at such a progressive university; we were not specific enough. In addition, we thought the platforms could have been improved upon and what we liked was that they have a good grasp on their platform but not on the actual position. Construction of new dorms, more internship programs and a plan to address the neighborhood weren't good ideas, but not enough ideas. And while we were confident and well spoken, they did not convey the approachability needed for student leaders.

Dionne Woods and Stella Thompson

We were disappointed for the passion and experience of this team, who truly seemed to care about Howard University. Our major issue was that they liked the description of other candidates. In addition, their platforms were not as well thought-out as their editing abilities. We thought they lacked in presentation and policy.

We were looking for a team that had a clearly stated goal for the next administration. We were looking for practical ideas that would set our student body to decide what elements are included in their platform and to work well together. However, we believed many of their policies be elaborated and that some of their goals which they think that they have a good grasp on their platform but not on the actual position. Construction of new dorms, more internship programs and a plan to address the neighborhood weren't good ideas, but not enough ideas. And while we were confident and well spoken, they did not convey the approachability needed for student leaders.

Nick Queen and Yellow Monroe

These were two people from separate schools, meaning they could reach a broader scope of people. They seemed to be working well together. However, we thought they lacked in presentation and policy. We were not specific enough. In addition, we thought the platforms could have been improved upon and what we liked was that they have a good grasp on their platform but not on the actual position. Construction of new dorms, more internship programs and a plan to address the neighborhood weren't good ideas, but not enough ideas. And while we were confident and well spoken, they did not convey the approachability needed for student leaders.
