The Bison will kick off their season this Saturday against the Hoyas.

"This fall, he's done almost what we expected him to," said Harper. "He's had a chance to put the finishing touches on some of his own goals." 

Band Anticipates Debut Performance at Greene

"We arrived in the second week of September and we've been working on the fundamentals such as style and technique," Washington said. "Now, we're trying to fine-tune the fundamentals of playing our games.

With most of the class of 2006 playing for the first time, the Bison are preparing for a new season and Saturday's home football game against the Hoyas.

"These are pedi Psycho times. "Not every day is going to be a good day," the son of Congresswoman Carolyn Cheeks Kilpatrick said. "But, we're going to win this game."

The two were also accused of lying on the witness stand about their roles in the extramarital affair.

Some analysts were not sure that the demonstrators were able to force a temporary suspension of the event.

"It was a fun, new experience that first time as a freshman band and I enjoyed the experience," the first president said. "I'm excited to be back this fall and to be able to lead the band and its members as we strive to continue the legacy of excellence that has been established.

The forum was held in the first meeting of the year for the Undergraduate Trustees.

"I don't want this to happen again," Harper said. "I want him to do, "But, we're going to win this game.""
Top Ways to Survive Science
A how-to guide for students trying to make the grade

BY NICOLE AUSTIN

Growing up, some of us may have never conceived of the challenges that come with academic responsibilities. Researchers, Mary professor-teachers have to work hard to make sense of the material through the process of planning ahead.

Develop a Relationship with the Professor
Talk to your teachers, really get to know them. Mike Res and Londa Jankovich are a really great example of how to develop relationships. Professors, especially those who are interested in the students they teach, are much more approachable. If you have a question, don't be afraid to ask. You might be pleasantly surprised by the result.

Studying
Don't just memorize facts. It's important to understand the material. Make sure you're actively engaging with the content, not just trying to memorize it. Use study techniques like active recall and spaced repetition to help retain information.

Friends
It's okay to have friends. Sometimes they will get a little too much knowledge,'' said sophomore biology major.

Devel op a Relationshi p with the Professor
 said Dr. Uoroindc, a professor and Interim Chair of the Chemistry department. "Science can be very difficult, especially if you let it interact that way."

"Science can be very difficult, especially if you let it interact that way."

The one-on-one time can provide the necessary guidance and knowledge but also adding to a good grade.

Studying
In a way that may be helpful for students to get a handle on the material. The more you study, the more you will understand.

Friends
Friends can be very helpful in both small and large ways. They can help you understand the material, encourage you to do your best, and provide a support system for you.

Think Outside the Box
"Think outside the box. Don't just memorize facts. Make sure you're actively engaging with the content, not just trying to memorize it. Use study techniques like active recall and spaced repetition to help retain information.

Keep up with the reading and the lecture. Make sure you understand the material. Ask questions if you're unsure of something."

The Hilltop
While there may be some stress associated with academic responsibilities, there is nothing like a good night's sleep. Try to get at least 8 hours of sleep each night. This will help you be more alert and focused during the day.

Policy Board Addresses HUSA President, Members
BY JESSICA LEWIS

The Policy Board met to discuss the potential for a new student organization, the Band. The policy board is responsible for making decisions on behalf of the university community.

Despite policy board by-laws which prohibit the attendance of members, the meeting was attended by the band director showing up late.

Band Anticipation Risks
Along with many new faces and some mundane new equipment, there's a partnership with major equipment manufacturers Greener, Inc., to be sure that the band has new equipment for the upcoming season.

The human beings who make up a band are sometimes just as important as the equipment itself. They are the ones who put the love and passion into every performance. The band's success depends on the relationship between the musicians and the equipment.

Planned Parenthood Activists Protest Video

BY ANGELA P. SMITH

The Life Educators and Researchers Network (LERN), the largest African-American-run reproductive health organization, is demanding that a Web site representing Planned Parenthood retract the depiction of an African-American man performing sexual acts with a Caucasian male under the sponsorship of Planned Parenthood/Down There.

This issue should be the last issue for the African-American community, said Adolph Hitler for her efforts in sterilization campaigns. He said, "We are grateful for Obama's support of Planned Parenthood. He is the House of Representatives. We want to help Planned Parenthood because they are an organization that is fighting for justice in the African-American community."

The Congressional Black Caucus (CBC) has served the nation's African-American community for almost four decades. However, other organizations replicate what the CBC does as a black organization. One Achievement that America will remember is the services of the CBC, but Obama could not disagree. He said, "People think it made us. With Barack Obama we don't need the CBC anymore. He is making history."

The CBC will be holding their annual Legislative Conference this year. The conference will be held in Washington, D.C. Convention Center.

Additional Videos on TakeCareDownThere.org display other casual sexual encounters. PPCW shows the following scenarios:

• A boy and girl kissing passionately and then interrupted by the counselor who begins a lesson on how to use a condom properly.

There is also the "Down There Song," which uses slang terms for sexual organs to encourage the prevention of sexually transmitted diseases.

Kwame Speaks: Africans Culture & Politics

According to the review of LZ's West Africa (Kipper) there has been a "big chunk of land" and a "film industry" in Nigeria. "LZ West Africa (Kipper)," the writer, said, "is the most wonderful book, and we want to see more of it." The film industry in Nigeria is known for its box office popularity. It is a major way to entertain the public.

While African-Americans are performing in the box office hits, the Nollywood industry of Nigeria is also growing. It is a major way to entertain the public.

The Nollywood Society is a research-based organization guided by literary historians and filmmakers. Kwame Speaks is a newsletter in which the Kwame Society newsletter encourages a unique perspective on the Howard University community on current and relevant issues. Questions and comments can be directed to the Kwame Society newsletter at the Kwame Society newsletter.

THE HILLTOP

The Planned Parenthood video, "1 Didn't Know," has some members of the African-American community in an uproar. Reverend Clive A. Chambers, Jr., with the support of the Life Education and Research Network, and fighting for this issue to be banned.

Planned Parenthood Activists Protest Video

The Congressional Black Caucus (CBC) is a national organization that has helped the black community participate in the development of the civil rights movement. CBC forged African-American leadership and influence in the American political system. CBC members are elected from across the country. The CBC has been a strong voice for African-American rights and interests in the legislature.

"We who lead the Grand Old Party which was the father of thoughtful programs," Obama said. "In 1908, we were the embodiment of the federal civil rights laws, our ideals for social justice, our principles and our values."

"This is not the time to be silent, but the time to speak out. This is the time to show that we are a country of hope and opportunity, and that we will continue to lead the world in our commitment to human rights."
President Sidney A. Ribeau spoke to students about leadership and humanity on Thursday.

'Humanity,' 'Respect' Important to President

Ribeau spoke in speech to pose questions to the audience, asking them their thoughts on what he should be doing during his administration. Students said they would like to see morale raised within the administration so that it would trickle to those in the Administration Building.

"I believe I have something to add to make this better," Ribeau said as he highlighted his vision for Howard. The vision he spoke of is to raise respect and humanity in every class and environment at Howard, to demand respect, to work to transform places into spaces to make a difference.

"Our motto is 'Culture for service and service for humanity'; those are the words we live by," said Steven Page, president of Phi Beta Sigma Fraternity Inc, Alpha Chapter. According to Page, students can encourage other males to take on leadership roles by reaching out to males with similar views, saying students should use "education to give back to their communities rather than into their own pockets."

SPORTS QUOTE OF THE WEEK:

"Our most valuable asset is our pure love of the game."

Volleyball Team Captain

Gazelle d'Artois.
Lack of Wireless Capability
On Campus Is Unacceptable

We are increasingly at an era of technological innovation and growth, in which wireless and Internet capabilities are a necessity within our everyday lives. Yet even today, in the so-called 'age of information,' technological innovation is neglected in the area of wireless and Internet capabilities for college students.

The Hills, a local university, is an example of this lack of wireless and Internet capabilities. Over the past few years, the university has not improved its wireless network, despite the large number of students who rely on wireless devices for their daily lives. Many students cannot access the Internet on campus, and even those who do have limited access to the Internet, forcing them to walk to and from classrooms to access their online classes.

The administration at The Hills acknowledges the issue but has not taken any significant steps to address it. This is unacceptable, as wireless and Internet capabilities are essential for students to succeed both academically and personally.

The lack of wireless and Internet capabilities on campus not only affects students but also the university's reputation. In a world where technology is becoming increasingly important, The Hills is lagging behind its competitors.

We urge the administration to take action and improve wireless and Internet capabilities on campus. This will benefit not only the students but also the university as a whole.

Our View:
Since Howard is supposed to be a wireless campus, the Internet capability issues should be fixed in the dorms and in the classrooms.

We are calling on the administration to take immediate action to provide wireless and Internet access to all students on campus. This is not only a matter of convenience but also a matter of necessity.

In addition, the lack of wireless and Internet capabilities on campus raises questions about the university's commitment to providing a modern and technologically advanced learning environment.

We believe that The Hills has the resources and the ability to provide wireless and Internet capabilities to all students. With proper planning and investment, this can be achieved in a relatively short period of time.

It is time for The Hills to take a leadership role in providing a technologically advanced campus environment that meets the needs of its students.

Perspective
Examination of Sexism in America

Whether Republican or Democrat, Sarah Palin's selection of the National Rifle Association's President to run for Vice President of the United States is an important decision for the nation.

Sarah Palin, a mother and a governor, is a conservative who should make John McCain a more attractive candidate. Palin is the vice-presidential choice of the Republican ticket.

Many women will argue that both of the candidates are conservative. However, the roles that they play in politics are different. Palin is a mother and a governor. McCain is a senator and a former presidential candidate.

The question is raised whether Sarah Palin can be an effective mother and Vice-President. Is she a mother who can balance her family and her career? It is quite common for women to work and be mothers. It is not uncommon for women to work and be mothers.

Even though my father was self-employed and kept his own business, I received almost all of my child care responsibilities. Unlike women, we men have the luxury of being able to take a leave of absence from work, if necessary. Women have no such luxury.
