Princeton Increases Black Curriculum

BY AURORA ELLIS

Cover Story

To the amazement of students and faculty of the nation’s first and only historically black college, Princeton University, the school has recently submitted an initiative to make room for African-American studies in its curriculum. The move, which was inspired by calls for a “second visible change,” has been met with mixed reactions from faculty and students.

President John D. H. Netland, a Howard University grad, said the initiative is a response to the financial challenges facing historically black colleges and universities. He said, “HBCUs are facing a crisis, and we need to do more to support them.”

The proposal, known as the “Black Curriculum,” would involve the creation of new courses and programs focused on African-American history and culture. The initiative is expected to increase the number of black students on campus and improve the diversity of the faculty and staff.

John D. H. Netland, a Howard University grad, said the initiative is a response to the financial challenges facing historically black colleges and universities. He said, “HBCUs are facing a crisis, and we need to do more to support them.”

The proposal, known as the “Black Curriculum,” would involve the creation of new courses and programs focused on African-American history and culture. The initiative is expected to increase the number of black students on campus and improve the diversity of the faculty and staff.

The initiative has been met with mixed reactions. Some faculty members have expressed concern that it could divert resources from other priorities, while others have welcomed the opportunity to bring new perspectives to the curriculum.

Overall, the proposal is seen as an important step towards addressing the racial diversity on college campuses. However, there is still a need for more resources and support to fully implement the initiative.

Celebrities Invade Burr for Game

BY VICTORIA FORTUNE

Cover Story

Picture above is a member of “Secret Service.” The group performed an array of tricks during the halftime show.

Students Sued Burr German Seminar minutes after the game started, the band performed a variety of upbeat, high-energy songs.

From B2K, to actor Pooch Hall of “The Game,” over a dozen entertainers were featured in the halftime show.

While the cheerleaders cheered on the sideline and the music played, the game began to intensify.

Obama Calls for Pay Decreases

BY MARQUIS H. BARNETT

Cover Story

The Obama administration announced today that it will be introducing pay decreases for government workers, in an effort to reduce the federal budget deficit.

Currently, government workers earn an average of $60,000 per year. The new pay decreases will reduce that average to $55,000.

“Making cuts to pay won’t affect their ability to serve,” said President Obama. “We need to make sure that those who work for the government don’t lose their ability to provide the services that we need.”

The announcement comes as the administration works to reduce the massive budget deficit. The government deficit is expected to reach $1.5 trillion by the end of the fiscal year.

The pay decreases are expected to take effect next month. The administration has set aside $200 billion to fund the pay cuts.

HU, Honeywell to Install Energy Efficient Systems

BY CAMILLE AUGUSTIN

Cover Story

Howard University has partnered with Honeywell International Inc. to install a foundation for energy-efficient systems across the campus.

According to Michael Hans, President of Honeywell, the system will use state-of-the-art technology to reduce energy consumption.

“Algae biofuel is a new and innovative green energy source that can help reduce the country’s reliance on fossil fuels,” said Hans.

The installation process will be the second visible change the administration has made this week towards making Howard University a sustainable and green campus.

Earlier this season, a recycling program was launched and the university introduced a number of initiatives to reduce waste and increase sustainability.

“There is no discounting the allure of algae biofuel,” said Hans. “It’s an exciting new source of energy that we’re looking forward to exploring further.”
It's Not A Game. It's A Movement
Celebrity Basketball Game

She is from Liberia and proud of it. Although severe broadsided cancers may have been born there, she appreciates the strong values and culture of her country as her American experience has made her realize the importance of her heritage.

Her family was not affected the same educational opportunities and her mother did not attend college. But in Howard's Howardians, Harold makes up her missing years and expands the experience of her future American journey. Meeting different people from different parts of the United States and the world opened her eyes to other cultures and values.

Among the many students Harold meets from Liberia, she introduces several students within her family, friends, family, and fellow Liberians. Independence Day celebration, held annually on July 20 bringing food and music. Children, some of Liberian parents have mixed with her on day.

The product of Nigerian Parents born in Na­

I've never been afraid to be heard by this background because I was born.

I'm so happy to be here and love the fact that I was born in Nigeria. 

This is a great team, but we want to do the expectations of for him, from doing and how we want to be known. More nes said we don't want to specialize in just one thing.

When Howard met for me, family Adler moves the country of the people back home. He said there is no community spirit that is embedded in the people.

Jessica Lewis, Campus Editor

Represent for Africa

Students were feeding and assisting the undercover gracing the court at the celebrity basketball game. Players included 826's Omari, Pacific High from "The Game," Lake Grove from "House of Payne" and Bilge Bay from "I Love New York."

Nigerian Recipes To Try

"I am a huge fan of Nigerian food and I love how it's so diverse and colorful. It's a beautiful way to bring people together.

I love the way Nigerian cuisine is so flavorful and unique. It's a great way to experience different cultures and traditions.

I love the way Nigerian food is so flavorful and unique. It's a great way to experience different cultures and traditions.

Taking the time to understand and appreciate different cuisines can be a great way to broaden your horizons and gain a deeper understanding of the world around us.

HUABC Hosts Foreign Ambassador

BY OLUYOMI SODUNKE
Staff Photographer

Howard University Alumni Business Club (HUABC) hosted a fundraiser event at the Ralph Bunche International Affairs Center and presented Lesotho Ambassador to the United States, David Mohlotu Rantekoa, with a plaque.

The event started with a presentation by the Purchasing for Africa (PFA) coordinators on campus, Jennifer Meacham and Muleehat Hamadu. They spoke about their efforts to increase the awareness of the PFA on campus, as well as the need for Howard students to purchase apparel that is made in Lesotho.

Companies currently doing business in Lesotho include J.C. Penney, Levi Strauss, and a host of others. Following their presentation, the ambassador gave his remarks regarding the growing Lesotho economy, the huge role the textile industry plays in the country, and the fact that U.S. policy is to encourage us to produce apparel that is made in Lesotho.

The ambassador spoke on the growing Lesotho economy, the huge role the textile industry plays in the country, and the fact that U.S. policy is to encourage us to produce apparel that is made in Lesotho.

Commercial companies currently doing business in Lesotho include J.C. Penney, Levi Strauss, and a host of others. Following their presentation, the ambassador spoke about the growing Lesotho economy, the huge role the textile industry plays in the country, and the fact that U.S. policy is to encourage us to produce apparel that is made in Lesotho.

Through the PFA initiative, the government of Lesotho hopes to increase apparel orders from Africa by 1,000,000 units in the next year, resulting in 1,000 jobs for Lesothans.

At the event's close, the ambassador gave a quote from the Prime Minister of Lesotho, Bertille Songebe Mokhonoana, saying, "The overall goal of the government of Lesotho is to eradicate poverty and enhance the quality of life for all our people through sustainable economic growth that is followed by public and private partnership.

The people of Lesotho are a people striving to work and provide for their families, which is the goal of any other person. However, they need our help to keep their lives alive and strong.

Looks so good, a Hampton student would wear it.
Adams Morgan
Safeway Renovated

BY PHYLICIA SMITH
Contributing Writer

In the past couple of months, the Safeway on Columbia Road NW in Adams Morgan has been undergoing renovations. The store, in the community center of the District since 1954, has been superbly renovated and is set to reopen.

The Adams Morgan Safeway recently made its grand re-opening of the renovated Safeway in Adams Morgan, a project that has been ongoing for several months.

The renovated store is much more modern and has a new, open layout. The facade of the store has been updated with a sleek new design, and the interior has been transformed into a modern, efficient shopping experience.

The store features a larger deli, a new wine section, and a more spacious produce section. The checkout process has been streamlined with the addition of new self-checkout stands.

The store is now equipped with energy-efficient lighting and has been designed to be more accessible to customers with disabilities.

The opening of the renovated Safeway on Columbia Road NW in Adams Morgan is a testament to the commitment of the Safeway family to providing a quality shopping experience for its customers. The store is now open and ready to serve the community once again.

Orf.  

Ostrom, an economist professor at Indiana University [Bloomington], won her Nobel Prize in economics for her work in economic governance, and was recognized for his analysis of economic governance, especially the broadens of the firm. Through his analysis, Ostrom examined the reasons why large corporations tend to dominate the financial and complex of economic.  

In addition to contact data, the announcement said, "We're making solid progress on the next phase in this restoration process, including your photographs, texts, to-do lists, marketplace data and high scores. We appreciate your patience."  

T-Mobile users nationwide experienced a loss of contacts and data starting in early October that is yet to be rectified.  

T-Mobile Sidekick users lose data & contacts  

BY ALEXIS K. BARNES  

Business & Technology Editor  

Over a week ago, many students experienced a rude awakening when they logged on their T-Mobile Sidekicks. Personal data, from contacts to marketplaces, was missing.  

According to T-Mobile, phone calls can slow restore contact data.  

In a statement released on Oct. 6, the cell phone maker noted "Regularly, based on Microsoft/Danger's latest recovery assessment of their system, we restore indexes very, very, periodically, information stored on your device — such as contacts, calendar entries, todo lists or phone numbers — that is no longer recoverable from cloud databases due to uncertainty lost at a weekend if a service failure happens.  

Due to a Microsoft/Danger Sidekick breakdown last week, phone numbers, phone texts and phone calls were lost from Sidekick nationwide.  

A major Brandon Crump was a user since the model first came out.  

"I had no problems with the service until recently when Danger/Microsoft lost their service. I lost over 800 contacts and didn't have a data transaction. Ostrom and Williamson will split a $1.4 million prize. It is ordinary persons and citizens who craft and sustain the workability of the institutions of everyday life," Ostrom said.

Abroad Minded

BY ALISSA RIVARLO
Contributing Columnist

I woke up one foggy morning to an email that started with "Greetings from Paris, September 2020." I was excited to see the email, but I was also a bit anxious. I had been planning my trip to Paris for months, and now that it was finally happening, I felt nervous. I had heard so many stories about how beautiful Paris was, but I was also aware of how crowded and overwhelming it could be.

I arrived in Paris and immediately caught a taxi to my hotel. I was staying in the heart of the city, near the Louvre and Notre-Dame. I was excited to explore the city and see all the sights.

Paris was everything I had hoped it would be. The food was delicious, the art was amazing, and the architecture was stunning. I spent my days walking around the city, taking in all the sights, and my evenings enjoying the local cuisine.

However, my trip wasn't without its challenges. I had a few minor mishaps, like getting lost a few times and losing my wallet. But overall, it was a wonderful experience.

I would definitely recommend visiting Paris to anyone. It's a beautiful city with so much to see and do. I can't wait to go back someday.

This week’s issue: Black Women

By Deontay Morris

Being a black woman has its highs and lows, and being a black woman in our society can be anything from our relationships to our work. So I want to talk about a few things that I have noticed about black women and how they have affected me in my life.

1. Being a black woman means that you have to work harder at everything you do. This is because we have to prove ourselves to everyone around us.

2. As a black woman, you learn that there are certain rules and expectations that you have to follow. These rules are often difficult to understand and can be frustrating.

3. Being a black woman means that you have to be extra careful about who you trust. This is because there are people who will take advantage of you.

4. As a black woman, you have to be strong and independent. This is because you have to take care of yourself and your family.

5. Being a black woman means that you have to be patient. This is because you have to wait for things to happen.

6. As a black woman, you have to be resilient. This is because you have to deal with challenges and setbacks.

7. Being a black woman means that you have to be resourceful. This is because you have to find ways to make things happen despite the odds.

8. As a black woman, you have to be responsible. This is because you have to make choices that affect your entire life.

9. Being a black woman means that you have to be aware of your surroundings. This is because you have to watch out for danger.

10. As a black woman, you have to be creative. This is because you have to think of new ways to solve problems.

11. Being a black woman means that you have to be determined. This is because you have to keep going even when things are tough.

12. As a black woman, you have to be persistent. This is because you have to keep trying until you succeed.

13. Being a black woman means that you have to be brave. This is because you have to face your fears and take risks.

14. As a black woman, you have to be confident. This is because you have to believe in yourself.

15. Being a black woman means that you have to be kind. This is because you have to treat others with respect.

16. As a black woman, you have to be humble. This is because you have to remember that you are not perfect.

17. Being a black woman means that you have to be honest. This is because you have to be truthful.

18. As a black woman, you have to be empathetic. This is because you have to understand the feelings of others.

19. Being a black woman means that you have to be intelligent. This is because you have to be smart.

20. As a black woman, you have to be aware of your mortality. This is because you have to think about death.

These are just a few of the many things that I have learned as a black woman. I hope that you have found these insights helpful.

Anti-commitment?

Our View: Students seem apprehensive about getting into committed relationships.

This piece does not have a clear conclusion, and it seems like a fragment of a larger discussion or article.

Perspective

The Housing "Struggle"

Compliance is not something you can do, it's something you have to learn. If you don't learn how to do it, you don't learn how to do it. But I want to tell you, it's something you have to learn. You don't learn how to do it by reading a book and looking at pictures, you learn how to do it by doing it. And when you're doing it, you're learning how to do it.

Therefore, you have to learn how to do it. You have to learn how to do it. And you have to learn how to do it. And when you're doing it, you're learning how to do it.

When you're doing it, you're learning how to do it. And you have to learn how to do it. And when you're doing it, you're learning how to do it.

Now, having heard that it's a problem, I'm sure you'll agree that it's a problem. But I'm also sure that you'll agree that it's a problem. And when you're doing it, you're learning how to do it.

One last time, I want to tell you, it's something you have to learn. You don't learn how to do it by reading a book and looking at pictures, you learn how to do it by doing it. And when you're doing it, you're learning how to do it.

So, I want to tell you, it's something you have to learn. You don't learn how to do it by reading a book and looking at pictures, you learn how to do it by doing it. And when you're doing it, you're learning how to do it.

Furthermore, I want to tell you, it's something you have to learn. You don't learn how to do it by reading a book and looking at pictures, you learn how to do it by doing it. And when you're doing it, you're learning how to do it.

Therefore, you have to learn how to do it. You have to learn how to do it. And you have to learn how to do it. And when you're doing it, you're learning how to do it.
