Somewhere in France

Dear Mr. Nabrit:

Please accept my thanks for the beautiful Xmas greetings you as Secretary of Howard University sent out to alumni in the Armed Forces. With such an accelerated plan as the University now has in action it is really thoughtful of you and your staff to remember former students who are now scattered over the world. Please extend my appreciation also to our president, Dr. Johnson for his timely greeting to the sons and daughters of Howard. Such thoughtfulness along with the newsletter do much to help our morale and keep us interested in our alma mater. Since being in the Armed Services I had had the opportunity of attending the Army Medical School of Washington, D.C. and the School of Tropical Medicine and Hygiene in London, England completing the courses offered at both institutions. I have also completed 9 hours work in Public Health through the U.S.A.F.I. at the University of Tennessee – so you can see the old Howard spirit is being carried on.

J Harris, Captain, M.C.
