

London, England

Dear Dr. Nelson,

Please accept this expression of gratitude for the many fine things you have done for me. I have always appreciated your aid and have tried very hard to be worthy of your friendship. Much of the little that I am has been created by your kindness and your willingness to help me become.

London is pleasant and instructive as you must know. Working with the United Nations Relief and Rehabilitation Administration. I look forward to having experiences which will make me capable of serving my people and my native land.

Please give my regards to Mrs. Nelson and to President Johnson of whom I think very frequently. Offer my compliments to Dean Watson also.

Sincerely Yours,  
J. Francis Price
