Dear Dr. Nabrit,

Your recent Howard newsletter was received a short time ago. Allow me to express my deep appreciation for the consideration that you and your office have shown in keeping the Howard men and women informed about Howard and other Howardites. Your bulletins, too, have been received with great enthusiasm and read with interest. Although my affiliations listed with the University was as an AST Trainee, I can not help feel myself a member of the Howard family.

Since coming overseas, I have had the good fortune to meet and work with many Howard men. Ours have been most wholesome and for me most profitable associations. It is not without heart felt gratitude that we so often turn our thoughts to dear ole Howard.

Being a part of the 92<sup>nd</sup> Division and having fought against the stubborn Nazi enemy. I am more convinced now than ever that our tasks which await us at home are to be met with great courage. It is to great institutions like Howard that we are looking to for guidance and strength of purpose in order to make noble ideals living realities.

My experiences here in Italy have been many and varied. My observations of the brutal realities of war have been heart rending. We can but trust that those in whose hands our destiny lies will deliver us to better days. Thank you again for making life in combat more bearable.

Sincerely,  
Jerry
