# STAFF

## FEATURE STAFF

The feature staff is composed of the most capable workers accessible in the four undergraduate classes, and are more than willing to accommodate any request that may better student conditions. The feature staff is under the direct supervision of the feature editor Miss Catherine Lewis.

## BUSINESS STAFF

On the 1943 Bison Business staff we find the more precise and business like minds of the four undergraduate classes. Their efficiency is surpassed only by their intellect and desire to see the Bison a financial success in every respect. The master brain behind this staff is lodged in the skull of Mr. T. Howard Duncanson.
