The Secretary
Howard University

Dear Sir,

The very relevant and newsy letter of March 20, 1945 arrived in yesterday's mail. The delay was due to the fact that it had been sent to my overseas address and had to follow me through the three hospitals where I have been since coming back to the states.

Although the news that a goodly number of Howardites are performing outstanding works in the services, the fact that so many, all among the best, have found the supreme sacrifice is more than a sobering thought. I knew all of them. It would be a pity if they died in vain.

However it is good to know that the university has a worthwhile and inclusive program for the uncertain future. My best wishes to you and your continued success

Very Sincerely,
Walton C. Jackson
Capt. QMC
