WHO'S WHO IN OUR FACULTY

YOUTH IS SERVING

WE ARE ALWAYS mindful of those who labor among us from day to day, in the cause of dental education, and, are very anxious to give honor to whom it is due. It is indeed a pleasure to give worthy mention of two members of our staff who are proving to be unusual in ability in spite of their youth.

DR. E. E. T. MAVRITTE

DR. E. E. T. MAVRITTE engaged in his predental education in the Public Schools of Washington, D. C. and the College Department of Howard University. He graduated from the College of Dentistry with the Class of 1924.

"Gene," as he is known to his intimates, is a "man's man." Quiet, unassuming, efficient, he accomplishes much while saying little.

During his decade of professional life, he has served, since 1928, as an instructor in the College of Dentistry, as President of the Robert T. Freeman Dental Society (for two years), has given a number of clinics in Denture Prosthesis before dental societies, and, more recently, has become affiliated with a medico-dental group for promotion of the health of children in his residential district (Deanwood).

Dr. Mavritte is a member of the Robert T. Freeman Dental Society,
the National Dental Association, the Chi Delta Mu fraternity, and is a charter member of the Chi Lambda Kappa honorary dental fraternity. Despite these varied activities he is a family man, this without a doubt being his most cherished attainment, which is attested to by his charming wife, Mildred, and two lusty sons, replicas of himself.

DR. JOHN A. TURNER

"NOTHING succeeds like success," so runs an old adage, and in Dr. John A. Turner one sees a modern example of this old saying. The habit of succeeding has been a powerful actuating force in the life of this man. His whole mind seems to be filled with the picture of success and, to him, failure is unthinkable.

Although a young man in years, Dr. Turner has crowded much of wisdom and knowledge of his field into so brief a period of time. Graduating from the College of Dentistry of Howard University in 1926 with a high rating, he was appointed dental interne in Freedmen's Hospital for the school year 1926-27. His appointment in this capacity was the first of its kind at Freedmen's, but, despite the experimental nature of it, Dr. Turner made for himself an enviable record. A record which resulted in his being appointed in 1927 as Instructor in Oral Surgery in the College of Dentistry at Howard University.

His interest in the students and his enthusiasm for progress in Dentistry has meant much to the morale of the school. He is a courageous and efficient man whose dynamic personality radiates to his students.
Dr. Turner seems to have the power to "hear the shout of victory over the mountains of despair before the fight actually begins." Since his graduation from the College of Dentistry, he has studied at Columbia University and at his Alma Mater.

Realizing that to keep abreast of the times one must affiliate with organizations doing constructive work in one's field, Dr. Turner holds active membership in the Robert T. Freeman Dental Society, and in the National Dental Association. Because of his helpful advice, valuable clinics given before various dental societies throughout the East, and general merit in the field of Dentistry he has been made an honorary member of the Odonto-Chirurgical Society of Philadelphia. Dr. Turner is also a member of the Chi Lambda Kappa honorary dental fraternity, and is a member of the Phi Beta Sigma and Chi Delta Mu fraternities.

Aside from being actively engaged in developing the department of Oral Surgery at the College of Dentistry of Howard University, Dr. Turner is Chief of Oral Surgery Service at Freedmen's Hospital and maintains a private practice in Washington, D. C.

"This is my work; my blessing, not my doom; Of all who live, I am the one by whom This work can best be done in the right way."

—Henry Van Dyke.

"I weigh the man, not his title: 'tis not the king's inscription can make the metal better or heavier."—Wycherly.

"When you are a hammer, strike like a hammer; and when you are an anvil, bear up like an anvil."—Anonymous.
