The N etworker, a daily newspaper, will discontinue publishing after the spring semester this year. The decision was made by the managing editor, who cited financial problems and the simple lack of manpower as the reasons for the move.

The newspaper, which was established in 1914, had struggled with declining circulation and rising costs. The staff had been reduced over the years, and the paper had been losing money consistently.

The decision to shut down the newspaper was made by the paper's managing editor, who cited financial problems as the primary reason. The newspaper had struggled with declining circulation and rising costs in recent years, and the staff size had been reduced significantly in an effort to reduce expenses.

The newspaper was distributed through the campus and to the surrounding community. However, in recent years, it had struggled with declining circulation, which had resulted in reduced revenue. The costs of production, including salaries, supplies, and printing, had continued to rise, making it increasingly difficult for the newspaper to remain viable.

The decision was made after a series of meetings among the newspaper's staff, advisors, and the university administration. The decision was supported by the university administration, who agreed that it was in the best interest of the students and the university's resources.

The newspaper has been a significant presence on campus since its establishment in 1914. It has played an important role in providing news and information to the students, faculty, and community, and has been a forum for discussion and debate on a wide range of issues.

The decision to discontinue the newspaper will be difficult for many students, who have grown up with the newspaper as a part of their lives. However, the university administration has committed to finding alternative ways to provide news and information to the students and community, and to continue to support the development of media literacy and critical thinking skills.

The newspaper's staff has been working hard to ensure that the newspaper's archives are preserved and made available to the students and community. The university has committed to finding alternative ways to support the development of media literacy and critical thinking skills.

The newspaper's staff has been working hard to ensure that the newspaper's archives are preserved and made available to the students and community. The university has committed to finding alternative ways to support the development of media literacy and critical thinking skills.

The newspaper's staff has been working hard to ensure that the newspaper's archives are preserved and made available to the students and community. The university has committed to finding alternative ways to support the development of media literacy and critical thinking skills.

Howard Newell

On tuition increase

There should be a decrease in tuition increases. The University has been raising tuition for students to meet the rising costs of education for students along with labor costs.

On deferred payment

The cost of living in America has been increasing rapidly along with tuition increases. It is an important consideration for the University to even consider phasing out the deferred payment plan.

On housing lottery

The current University administration is not following up on a concern raised by students. Students on campus or off campus have found it difficult to get a housing assigned number due to the housing lottery system established in earlier years.

On security

If students want to be able to consider their safety, the University should follow up on an issue raised by students. The same safety measures should be applied to students on campus and off campus.

On student government

The current University administration needs to ensure that the student government has a role in the development of a new dormitory.

Mark Hall

On tuition increase

According to a recent study, tuition increases are due to a decrease in enrollment and an increase in administrative costs.

On deferred payment

There should be a decrease in tuition increases. The University administration is not following up on a concern raised by students. Students on campus or off campus have found it difficult to get a housing assigned number due to the housing lottery system established in earlier years.

On student government

The current University administration needs to ensure that the student government has a role in the development of a new dormitory.
Barry pays a visit to campus, seeks votes of students

By Robert Roth

Mayor Marion Barry came to the University Monday to appeal for the votes of students and faculty in his bid for re-election. The mayor, who is seeking a second term, shared his campaign message in a meeting with a sizable student audience Wednesday night.

Barry said he will seek to fill the gaps in education services by adding 132 million dollars to the city's fiscal year 1992 budget for for-profit education services. He also announced a new '50-mile-radius' plan to provide education services to the city's residents.

Barry's visit comes on the heels of the Harry Hart campaign kickoff for the Ward 5 seat. The Ward 5 campaign is of particular interest to the University because of the high student population in the area.

The meeting was held in the University Center, and did not attract large crowds. The mayor spoke for about 20 minutes, and fielded questions from the audience in a Q&A session.

Barry's campaign kickoff was followed by a student meeting held by the University's student government. The student government has been critical of Barry's candidates for the Ward 5 seat in the past.

Barry responding to criticism of his leadership abilities by explaining that the 'national' campaign will generate several political realities.

"It's important that the campaign re-
turn to the general public in terms of how Barry has performed the actual campaign," the mayor said. "The campaign should have been more prepared, and the actual campaign should have been more involved."
Editorials

Election Day snafus

It may be difficult to imagine that, despite the choices available in our food supply, we have nutritional inadequacies. Poor food choices, lack of exercise, and unhealthy lifestyles contribute to a growing problem of obesity.
Life for an R.A.
No bed of roses

To set the record straight and to be informative in the process, the resident assistants here at the University do not earn princely salaries. It is important to realize that the RA is responsible for the same duties as a student plus the extra duties of citizen in the residence halls. The RA is responsible for the general order and cleanliness of the halls, for maintaining a liaison between the faculty and students, for conducting appropriate programs in the dorm, for maintaining a campus atmosphere, and for dealing with the myriad of emergencies that arise.

The RA is also responsible for the general health and safety of the students. The RA is responsible for ensuring that all students have a place to stay when they are sick, that all students are aware of the resources available to them, and that all students are given the opportunity to develop their full potential.

In addition to these duties, the RA is responsible for the general well-being of the students. The RA is responsible for ensuring that all students have a place to stay when they are sick, that all students are aware of the resources available to them, and that all students are given the opportunity to develop their full potential.

In the end, the RA is responsible for the general well-being of the students. The RA is responsible for ensuring that all students have a place to stay when they are sick, that all students are aware of the resources available to them, and that all students are given the opportunity to develop their full potential.

Immigration Problems

In the United States, immigration laws are constantly changing and it is difficult to keep up with them. It is important to be aware of the latest regulations and to understand the legal implications of different types of immigration status.

For example, if you are an international student, you must be aware of the requirements for maintaining your visa status. You must also be aware of the procedures for extending your stay in the United States.

In addition, if you are a permanent resident, you must be aware of the requirements for obtaining citizenship. You must also be aware of the procedures for applying for a green card.

It is important to consult with an immigration attorney to ensure that you are following all of the necessary procedures and to understand the legal implications of your actions.

Outlaw' LP. What is unique is that the group can play just as one entity and adding a second percussionist Harald Braut and Papa Ollie. What is unique is that the group can play just as one entity and adding a second percussionist Harald Braut and Papa Ollie.

War was the first black music-oriented group to go platinum. Also, the World (1972) was the first black music-oriented group album to have the number one spot on Billboard's Pop Album of the Year.

The role song of the group's latest release, 'It's a Mad, Mad, Mad, Mad World,' has been changed, but not significantly. The group's sound remains the same. The title track, 'It's a Mad, Mad, Mad, Mad World,' is a social commentary on the lust for power and the lack of values in modern society. The song is a call to the people to stand up against the forces of darkness and to fight for what is right.

War's soaring new album, Outlaw, presents

By Kevin Gibbs

War's guitar riffs and rhythmic arrangements keep the group's contemporary appeal alive, while Dwalambert's Last of Okr's, baritone adds the needed intensity to the group's new repertoire.

A northern California-based group,

Sounds

The group's last album, 'The World,' was nominated for a Grammy award. War is known for its socially conscious music, which has helped to change the image of the black music-oriented groups.

Sales Training Program

Wang put the computer at everyone's fingertips by simplifying data processing, revolutionizing word processing, and combining them into one system. Today, we're the leader of the newly emerging computer-driven Office Automation market, providing state-of-the-art products that span the six technologies of Data Processing, Word Processing, Image Processing, Audio Processing, Networking and Human Factors.

With over a billion dollars in bookings, Wang stands 280th in net income and 11th in total return to investors in the Fortune 500. Wang is clearly leading the way. And you can be part of our success.

We'll train you.

With projected growth and demand for our products at an all-time high, Wang is initiating a program to recruit and train Associate Marketing Representatives for our nationwide sales organization. To prepare you for a sales career with us, Wang is investing in a comprehensive 6-month training program, including classroom and on-the-job training. This innovative program is designed to equip you with the ability and skills you'll need to sell the industry's best sellers.

Sell us on your know-how.

We're looking for college undergraduate or graduate students in the top quarter of their class who will complete a program in 1982 of combined Business and Computer Science concentrations, and have good communication/interpersonal skills. Sell us on your demonstrated ability to learn product lines, market planning and sales techniques... on your leadership potential through a solid record of academic and scholastic achievement, and we'll help you to realize your potential.

Excellent compensation and benefits

When you come to work for Wang, you'll participate in an excellent compensation plan and one of the best benefit programs in the industry including profit sharing, stock plans, company paid dental, medical and life insurance, and tuition reimbursement.

Contact us today.

Send resume and transcript to Henrietta Duncan at your Placement Office, Howard University.

We are an affirmative action employer.

**Baseball team wins 1 of 2 against Delaware**

The first and only conference match of the season between the Bison and the Blue Hens goes to Delaware.

**Annual Relays on wrong track**

This marks the second straight year in which the annual Relays will be held on the University of Maryland College Park campus. It is continuing to attract the most out-of-town students who would not otherwise be able to take part. The Relays are scheduled for the first and only time this year on the track teams at all six schools, as numerous tracks and facilities have been reassigned to their usual events.
