Dr. Peter M. Murray, a leading gynecologist of New York City, had a long and distinguished career serving the medical profession and Howard University. He graduated from the Howard University School of Medicine in 1914, and in 1916 served on its faculty. He was appointed to the Board of Trustees of Howard University in 1926, and of the State University of New York in 1954. Other highlights of his career includes election as president of the National Medical Association in 1930, and president of the Medical Society of New York County in 1954.

In February 1967 Dr. Murray donated his papers to Howard University. His wife, Mrs. Charlotte W. Murray donated additional materials to the collection in 1976. The Peter Marshall Murray Papers total 19 « linear feet spanning the period 1910-1970. However, the majority of the papers are concentrated in the period 1930-1959. The papers contain a variety of biographical resources; biographical sketches, memoirs, articles, press releases, newspaper clippings, scrapbooks, certificates, awards, diplomas, licenses, and programs in which he participated. There are also a number of articles and addresses written by Peter M. Murray.

There is a substantial amount of correspondence in the papers. Relating to his professional activities, the correspondence complements the materials on his organizational affiliations. A significant amount of the correspondence concerns the National Medical Association, of which Murray was President.
The papers also contain numerous photographs of Peter Marshall Murray with various groups, as well as individual photographs of some of his colleagues. Finally, there are some restricted materials; medical records of some of his patients and papers related to his grandson, John Wallace Murray, Jr.
