

Saigon Marianas

12 July 1945

Hello Jim,

Well Old Cos. is out on Saipan now serving as. C.O. Med. Det. 2803<sup>rd</sup> Engr. Br. This is one of the Big bases where the B-29's throw the stuff at the Japs. Have appreciated receiving the Howard Bulletin and am very glad to see things going so well. I picked up an Afro-American the other day & was tremendously pleased at seeing Louis Watson was back at Howard. Thank God someone began to see the light. Let me congratulate you & all concerned with that move, for I'm sure that with the Red Fox back at the helm Howard will soon retain its place among the fast-ball powers, and once again the thundering herd will roll as in the old days. I have written Louis, a personal letter of congratulations and Joy. I am looking forward eagerly to the time when I return to States. I plan to take a refresher course somewhere in East & I'll be there to see the boys roll. Hope you and your family are well & enjoying life. Mae is working on her thesis at USC this summer. All seems well at home otherwise. Take good care of yourself Old Man. Here is Good Luck to you and Family & a sincere wish & hope for a greater Howard.

Sincerely yours,

Cos.

Capt. Costromer F. Ewell
